**What is a student budget/cost of attendance (COA)?** *The cost of attendance is the cornerstone of establishing a student's financial need, as it sets a limit on the total aid that a student may receive for the purposes of Campus-Based Programs and Stafford/PLUS loans, and is one of the basic components of the Pell Grant Calculation.* The cost of attendance for a student is an ESTIMATE of that student's educational expenses for their period of enrollment. Cost of attendance varies from school to school.

**How does CCC calculate COA?**

**Tuition & Fees Calculations (full time calculation)**

Tuition: \$103 per credit x 15 credits = \$1545 tuition only

Fees: \$8.00 per credit x 15 credits = \$120.00

General Fee: \$28 per term

Tuition and fees for one term at CCC are approximately: \$1693

**Books** - As recommended by the federal government's guidelines.

**Room and Board** - CCC is considered a commuter campus. Room and board are based on the cost of an apartment located within Clackamas County, as well as utilities and food. This is based on a coed situation. Documentation will be required if a student believes that his/her costs exceed the budget estimation.

**Transportation** - Transportation is for gas/fuel, insurance and maintenance of a vehicle, or alternative commuting costs such as bus pass or fare. Also taken into consideration is distance of travel for the average student attending CCC.

**Personal** - This category includes miscellaneous personal expenses while in school.

**What if these amounts do not truly reflect a student's COA?** - Students can ask for an exception to increase their cost of attendance if they can provide documentation for the following reasons: computer (one-time only), dependent care, medical expenses, necessary travel costs for out-of-state students, program cost/supplies, and disability expenses.
