Welcome to Clackamas Community College!

With an education from CCC, you can go anywhere. Whether your goal is to complete a bachelor’s degree, to gain the skills to get a job or to improve your skills to get a better job, Clackamas will provide the classes and the support to get you there.

Our staff and faculty are here to help you navigate college from application to registration to graduation. Our academic advisors will keep you on track, helping you get the courses you need when you need them.

Need help paying for college? Our financial aid office can assist you in filling out and submitting your financial aid application, and the CCC Foundation offers more than $500,000 in scholarships each year to students like you. There are more than 275 scholarships available with just one application, and you don't need to have a perfect GPA to qualify.

Clackamas has the programs, instruction and committed faculty and staff to make sure you reach your goals. You’ll also find a variety of services to support your classes, such as tutors, computer labs, counselors and more.

If you bring your imagination and your commitment, you can succeed at CCC, where we offer an Education That Works.

David Plotkin
Vice President of Instruction and Student Services

Clackamas Community College is accredited by the Northwest Commission on Colleges and Universities.

Accreditation of an institution of higher education by the Northwest Commission on Colleges and Universities indicates that it meets or exceeds criteria for the assessment of institutional quality evaluated through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the Northwest Commission on Colleges and Universities is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding an institution's accredited status by the Northwest Commission on Colleges and Universities should be directed to the administrative staff of the institution. Individuals may also contact:

Northwest Commission on Colleges and Universities
8060 165th Avenue N.E., Suite 100
Redmond, WA 98052

Clackamas At A Glance

Education That Works
Who We Are

Purpose
Creating lifetime opportunities for success through responsive education.

Mission
To serve the people of the college district with high quality education and training opportunities that are accessible to all students, adaptable to changing needs, and accountable to the community we serve.

Core Themes
Our core themes describe the essential elements of our mission fulfillment. They are:

- **Academic Transfer** – We prepare learners to transition to a four year institution and attain their goals for further education.
- **Career and Technical Education** – We prepare learners to attain their career goals through programs that reflect the labor market needs of business and industry.
- **Essential Skills** – We prepare learners to attain high school completion, to achieve English language proficiency, and to gain college and career readiness skills in mathematics, reading, and writing.
- **Lifelong Learning** – We create opportunities for the lifelong professional, cultural, and personal development of our community members.

Philosophy
The college’s mission is implemented with a commitment to being accessible, adaptable, and accountable.

The college endeavors to be accessible by:

- Maintaining an open-door admissions policy
- Keeping tuition and fees as low as possible and maintaining financial aid programs
- Informing our public about available programs and services
- Encouraging student success through appropriate course placement, effective instructional strategies, recognition of diversity of learning styles and commitment to student support
- Surmounting the geographical, physical, educational, psychological and financial barriers that exist for district citizens
- Encouraging free and open exchange of thoughts and ideas
- Welcoming students and staff of diverse backgrounds and cultures.

The college endeavors to be adaptable by:

- Asking district citizens, businesses and other community groups what programs and services are needed
- Maintaining flexibility in planning, budgeting, programming and staffing practices so resources can be shifted as needs change
- Cooperating with other organizations to respond to common challenges
- Maintaining instructional and student support programs which recognize the diversity of learning and cultural styles
- Building productive partnerships with business and industry

CCC is:

- Accredited by the Northwest Commission on Colleges and Universities
- A publicly supported, community-based organization, governed by a locally elected Board of education
- Operating within available resources from student tuition and fees, local property taxes, state funds, and additional resource development activities (i.e., state and federal grants, individual and corporate gifts, etc.)
The college endeavors to be accountable by:

- Maintaining appropriate standards of performance for all programs, courses and services
- Involving citizens in the budget process, the planning process and in program development and review
- Conducting regular performance reviews for all college staff members
- Continuing efforts to make the most effective use of college resources
- Evaluating the effectiveness of educational programs and services by measuring student outcomes

Ethics

Clackamas Community College is dedicated to personal growth and academic excellence. Each member of the college community—students and staff alike—shall strive to:

- Recognize the inherent goodness of all people and honor the humanity that joins us
- Practice personal and academic integrity, respecting the dignity, rights and property of all persons
- Encourage diversity, striving to learn from differences in people, ideas and opinions
- Demonstrate concern for others, their feelings and their needs, and treat them as we wish to be treated ourselves

Goals

The college has established the following goals to guide our planning:

Breadth of service
- By responding effectively to the needs of our varied constituencies

Quality of education
- By striving to achieve the highest quality of teaching, learning and student success

Commitment to values
- By aligning our organizational systems to the achievement of our Institutional Values

A healthy organization
- By promoting a strong sense of community with a commitment to communication, continuous learning and improvement

Resources to succeed
- By securing and sustaining human and financial resources and facilities to fulfill our mission

Values

In order to ensure quality service to our community and students and a fulfilling work environment for our staff, we subscribe to the following institutional values:

Community

The college staff holds the institution in trust for the citizens of the district. We believe that:

- Our service and instruction shall always strive to meet the highest standards
- The college exists in a dynamic environment which encourages innovation, self-evaluation and continuous improvement
- The preservation of the college in the pursuit of its mission must take priority over individual concerns while safeguarding the rights and dignity of staff or students
- Academic freedom and the free exchange of ideas are essential elements of the college

Students

The college exists to enable students to earn a college education, to prepare for the world of work and to learn how to learn. We believe that:

- Students can grow toward full potential as they experience the joys of discovery and participate in the rigors of study
- All students possess inner resources which can be developed and refined
- Students have the right to enroll in classes appropriate to their ability levels
- Students must take an active role in their own learning to make their educational experiences meaningful
- Students should respect the diversity and dignity of all persons
Staff
All college personnel must contribute to and support the educational mission of the college. We believe that:

- Every staff member is a problem solver, with the right and the responsibility to identify and resolve issues they encounter on the job
- Staff members must develop and maintain a strong interest in the growth of students and the community we serve
- Effective communication and cooperation among staff members is necessary to fulfill the college mission
- Staff members are responsible for seeking opportunities for continued professional growth
- The college is responsible for providing professional development opportunities for staff
- Each staff member is entitled to fair and honest treatment by the college

Diversity
The college is committed to building awareness of cultural diversity on our campus and in our community. We believe in:

- Respecting the inherent right of all persons to live with dignity and freedom
- Respecting individual rights of expression
- Setting a standard for the larger community by promoting tolerance, communication and understanding among people with differing beliefs, color, gender, cultures and backgrounds
- Encouraging affirmative action for students and staff
- Providing opportunities (curriculum development, art exhibits, theatrical presentations, special events) for increasing our awareness of cultural differences and personal lifestyle preferences within our college and the community

Environment
The college accepts responsibility as a steward of the environment. In all areas of the college’s operations, we will be proactive in protecting the environment. Our educational role is not only to teach environmental principles but also to model appropriate environmental behaviors. To implement our role, we will:

- Encourage students and staff to practice behaviors consistent with the preservation of a clean and safe environment
- Minimize the creation of waste and repair, reuse, and recycle materials whenever possible
- Provide facilities that are safe and free from environmental hazards
- Use the most energy efficient systems available in the physical operation of the college and make energy conservation a priority when planning new facilities and retrofitting existing facilities
- Purchase earth-friendly products whenever feasible and consider environmental effects when we plan investments in buildings, equipment, maintenance and repairs
- Maintain a landscape that provides opportunities for environmental awareness, learning and enjoyment by using the most environmentally compatible methods available for upkeep
- Evaluate our own performance through formal audits and by listening carefully to the observations of employees and others on ways we can improve

Decision Making
The college maintains an open and inclusive organizational structure which enables all members of staff to participate in the decision-making process. We believe that:

- Institutional direction is driven by information received from the staff, the students and the community
- All employees should have a clear understanding of how they are connected to the decision-making process
- We achieve a balance of decentralized and centralized decision making
- We maintain a dynamic and continuous organizational audit with the goal of continuous improvement
- We are flexible and able to develop contingency plans to adjust to a changing environment
- We are constantly in the process of defining and dispelling ambiguity but are able to accept a certain amount of uncertainty
- We are constantly seeking direction from the community in policy and curriculum development

Goals developed and adopted by the VISIONS Group, May 1993.
Instructional Values adopted by the VISIONS Group, May 1996.
Core Themes adopted in 2011.

**CCC at a Glance**

*Numbers reflect 2015-16 data unless otherwise noted.*

**Service Area**

**CCC District:** All of Clackamas County except Lake Oswego, Sandy, Damascus and Boring school districts.

**District Population:** estimated – County 394,967 (2016 Census)

District (83%) = 330,632 (2016 Census)

**Enrollment**

**2016-17 Head count:** 26,724

**2016-17 Full-time equivalence:** 6,974

**Programs**

**Career Technical:** CCC offers 108 one-year Certificate of Completion and/or two-year Associate of Applied Science degree programs in career technical career areas.

**College Transfer:** CCC offers the two-year Associate of Arts Oregon Transfer degree, completion of which allows the student to meet the general education requirements of the baccalaureate degree program, and have junior standing for the purposes of admission and registration, at any Oregon University System (OUS) institution.

CCC offers the two-year Associate of Science degree, completion of which allows students to take the first two years of articulated coursework at Clackamas Community College and transfer to specific four-year institutions to complete a degree in the designated discipline.

**Literacy/Basic Skills:** CCC offers individualized instruction in basic academic and study skills, including Adult High School Diploma, GED, ESL, alternative schools, and Life & Career Options.

**Community Education:** CCC offers non-credit personal interest and enrichment courses through district community schools and parks and recreation locations throughout Clackamas County.

**Business Training:** CCC offers contracted employee training through the Customized Training & Development Services program and assistance to small businesses through the Small Business Development Center.

www.clackamas.edu
Clackamas Community College
Harmony Community Campus

See Vicinity Map on previous page.

Clackamas Community College
Wilsonville Campus

See Vicinity Map on previous page.
Clackamas Community College has an open access admission policy and welcomes all students who can benefit from the instruction offered, regardless of their educational background. Adult enrollment (18 and older) is unrestricted. Students 17 and younger who have not completed high school or obtained a GED must comply with special enrollment requirements. See Programs for Adult Populations and High School Age Students, page 15, for additional information.

Students Seeking Degrees or Certificates

If you are working toward a degree or certificate go to www.clackamas.edu and click on “Admissions & Financial Aid” to apply for admission online. Paper applications are available upon request. You should apply for admission six months prior to your start term.

Students Not Seeking Degrees or Certificates

If you want to take classes but not complete a degree or certificate, you are strongly encouraged to apply for admission by going to www.clackamas.edu. Click on “Admissions & Financial Aid” to apply online. Paper applications are available upon request.

Transfer Students

CCC accepts college-level credits from regionally accredited colleges and universities recognized by the Council for Higher Education Accreditation (CHEA). These credits may be accepted for course placement, course equivalency, program requirements and degree completion.

If you have taken classes at other colleges and would like this coursework reviewed for transfer credit at CCC, ask the college you previously attended to send a copy of your official transcript to Graduation Services. NOTE: If you want this coursework evaluated before you begin at CCC, apply for admission and send your previous college transcripts to CCC at least three months prior to when you want to begin classes.

Credit for Prior Learning

You may have already completed college credits through several local and national programs, including Advanced College Credit (ACC), Advanced Placement (AP), College Level Examination Program (CLEP), International Baccalaureate (IB) and the military. It is important to send exam scores or transcripts to Graduation Services at least 12 weeks prior to the term in which you will begin at CCC so your credits can be evaluated.

Any student receiving VA benefits while attending Clackamas Community College is required to obtain transcripts from all previously attended schools, as well as military transcripts, and submit them to the veterans school certifying official for review of prior credit.

International Students/Program for Intensive English (PIE)

CCC is approved by the Department of Homeland Security (DHS) to accept qualified students on an F-1 visa. Students wanting to pursue a college level course of study MUST submit proof of English language proficiency by one of the following:

- TOEFL score of a 61 iBT or higher
- IELTS score of 6.0 or higher
- Completion of two college level (100 or above) courses in composition or writing with a grade of “C” or better, taken at a U.S. post-secondary college or university

Participation in a college level course of study is not guaranteed by meeting the above minimum requirements. To be admitted into college level courses, a student must also achieve a placement test score of 70+ on the CCC writing placement test.

International students must also submit official transcripts from all prior U.S. post-secondary colleges or universities attended.

If you are unable to demonstrate English proficiency at the required level, you will be placed in the Program for Intensive English (PIE) and conditionally admitted to college level courses of study.

Application materials and information are available at www.clackamas.edu; click on “Admissions & Financial Aid”.

www.clackamas.edu
Special Admission Programs

The following programs require a separate admission application:

- Degree Partnership Programs (four-year universities)
- International Students
- Clinical Lab Assistant
- Dental Assistant
- Medical Assistant
- Nursing

Special admission programs often require prerequisite courses or skills assessments. Requirements, application dates and deadlines are subject to annual change. Admission requirements and application materials for each program must be downloaded by visiting: onlineapplication.clackamas.edu.

Degree Partnership Programs

At CCC there are several ways in which the college partners with four-year colleges and universities to help make your transition from CCC to your institution of choice easier.

- You can co-enroll at one of five four-year institutions - Portland State University, Oregon State University, Western Oregon University, Oregon Institute of Technology and Marylhurst University all offer the opportunity to be admitted and enrolled at the same time you attend CCC.
- Articulation Agreements are formal agreements between CCC and specific institutions. These agreements specify the courses that meet degree or program requirements at the receiving college or university. Several Associate of Science degrees and Associate of Applied Science degrees have articulation agreements.
- Associate of Science degrees are specifically designed with transfer to a partner four-year institution in mind and CCC offers an array of options.
- Associate of Arts – Oregon Transfer and Associate of Science – Oregon Transfer/Business are both transfer degrees that are accepted by all Oregon public universities and several private colleges as well.
- Oregon Transfer Module is a one-year transfer program accepted by all public Oregon universities as general education credit fulfilling the first year requirements at the receiving institution.

Students Younger than Age 18

To take high school or college classes at CCC, the following options are available:

- If you are 16 years of age or older and want to get your high school diploma or GED at Clackamas, contact the Skills Development Department, 503-594-3028.
- To take high school credit recovery classes at CCC that will transfer back to your high school, contact the Skills Development Department, 503-594-3028.
- If you want to take college classes while still in high school, contact High School Connections, 503-594-3161.
- If you want to earn college credits for courses you are taking at your high school, contact your high school counselor or High School Connections, 503-594-3161.

Financial Aid & Scholarships

Application Procedures

You may apply for financial aid anytime throughout the year. However, because certain financial aid funds are limited, you should apply as early as possible. The Free Application for Federal Student Aid (FAFSA) and the Oregon Student Aid Application (ORSAA) are available online beginning Oct. 1 each year. To be eligible for most types of financial aid, students must complete the FAFSA or ORSAA. These applications compile financial information and other details about students and families, which U.S. Department of Education and the state of Oregon use to determine financial need and eligibility for various financial aid opportunities.

U.S. citizens and permanent residents applying for a federal or state grant, a work program or loan must complete a FAFSA. The use of this federally approved aid application assures every applicant fair and consistent treatment. Apply online at www.fafsa.gov. No fee is charged.

Undocumented Oregon residents complete the Oregon Student Aid Application (ORSAA) at www.getcollegefunds.org to determine eligibility for state-based financial aid programs. The ORSAA is for undocumented Oregon students, including students who have DACA (Deferred Action for Childhood Arrivals) status. No fee is charged to complete the ORSAA application.

Note: Do NOT complete the ORSAA if you are a U.S. citizen or a legal permanent resident with an Alien Registration number, as you will already be considered for Oregon-based financial aid through FAFSA.
After CCC receives the FAFSA or ORSAA data electronically, our financial aid staff will send you an email and post notifications in your myClackamas account (under My Documents). You must check your account frequently during this process to ensure you have submitted all documents needed to process your financial aid request. Failure to do so could mean you don’t have your aid when school begins. Be sure to pay attention to the financial aid recommended deadlines as the process from application to award letter can take some time.

**Student Eligibility Requirements**

You may be eligible for financial aid if you:

- Are an admitted and enrolled student, whether full or part time;
- Are enrolled in an eligible program at least one year in length that leads to a degree or certificate;
- Have registered with the Selective Service (if required to do so);
- Have a high school diploma or GED; are not attending an elementary or secondary school;
- Are a United States citizen or an eligible noncitizen;
- Are not in default of any federal loan program; and
- Do not owe a repayment on any federal grant program

For the Federal Direct Loan program, you must be enrolled at least half time (six credit hours).

For a Pell Grant, you must be an admitted, degree or certificate seeking student enrolled in one or more credits.

For the Oregon Opportunity Grant, you must be a resident of Oregon for a year prior to the start of school and enrolled at least half time (six credit hours).

**Program Eligibility Requirements**

Eligible programs need to be at least one year in length (some exceptions apply) and must lead to a degree or certificate.

**Academic Standards and Eligibility**

To receive financial aid, you must fulfill the standards of Satisfactory Academic Progress (SAP). Information regarding SAP requirements are available online at [www.clackamas.edu](http://www.clackamas.edu). Click on “Admissions & Financial Aid.”

**Financial Aid Disbursement Policy**

Financial aid is disbursed to a student’s account at CCC to pay tuition and fees beginning the week prior to the start of the term. Financial aid is disbursed weekly throughout each term for aid not ready at the beginning of the term. If financial aid disbursed exceeds the balance due on the student’s account at CCC, a refund will be prepared to the student for the excess financial aid. Refunds are mailed to students or direct deposited to the student’s bank account the last business day prior to the first day of the term and weekly thereafter. Funds are not available prior to this day.

**Federal & State Financial Aid Programs**

**FEDERAL PELL GRANTS**

You may be eligible for up to $5,920 a year in 2018-19, depending on the amount of federal funding available. Awards are based on eligibility and enrollment status.

**FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS**

You may be eligible for up to $1,050 a year. Part-time students (taking 6-11 credits a term) will receive smaller grants.

**OREGON OPPORTUNITY GRANTS**

You must be enrolled for six or more credits and be enrolled fall term to be eligible for Oregon Opportunity Grants. If you are not an Oregon resident, contact your home state for eligibility requirements for your home state program.

**OREGON PROMISE GRANTS**

The state of Oregon offers the Oregon Promise grant to incoming students who successfully complete the GED or earn their high school diploma shortly before enrolling in an Oregon community college. Awards are variable from $1,000-$3,540 for the 2017-18 award year; award amounts for the 2018-19 year are unknown at the time of publishing. Applicants must be residents of Oregon. For more information or to apply, visit [oregonstudentaid.gov](http://oregonstudentaid.gov).

**FEDERAL WORK-STUDY**

You may be eligible to receive an award to fund a paid part-time job through the college with a minimum of half-time enrollment (six or more credit hours). Jobs are available both on campus and in the community.

**FEDERAL DIRECT LOANS**

Most students are eligible for Federal Direct Loan funds. The Federal Direct Loan is a federally guaranteed loan. First-year students (less than 45 credits completed) are eligible to borrow subsidized amounts up to $3,500, and second-year students may borrow up to $4,500 (actual amount is dependent on student budget criteria). The Office of Financial Aid and Scholarships provides information on unsubsidized Direct loans.
FEDERAL PARENT PLUS LOANS
Your parent may be eligible to apply for a parent PLUS loan if your financial aid package is insufficient to cover the cost of attendance. Parent PLUS loans are loans borrowed and repaid by the parent of a dependent student and require a successful credit check. For more information or to apply for a parent PLUS loan, visit www.studentloans.gov.

Scholarships
503-594-6100
scholarships@clackamas.edu

Clackamas Community College offers various scholarship opportunities for students of all majors. For a complete list, visit www.clackamas.edu/scholarships. The following are a few types of scholarships we offer:

HIGH SCHOOL SCHOLARSHIPS
Every year the CCC Foundation offers two full-year tuition scholarships and one full-time, one-term scholarship through each public high school in our district. Information about these scholarships is available at your local high school counseling or career center. Apply online Jan. 30 – April 12 at www.clackamas.edu/scholarships.

In-district high school students who compete in the annual Clackamas Regional Skills contest are eligible for CCC scholarships. Partial, one-term tuition scholarships are awarded to the top three winners in all categories of the competition. For more information, contact High School Connections at 503-594-3161 or hsconnections@clackamas.edu.

SPECIAL TUITION SCHOLARSHIPS
If you possess special skills or plan to participate in extracurricular activities like art, athletics, speech, journalism, student government, music or theater, you may be eligible for a tuition waiver. Contact the appropriate college department to find out how to apply.

GENERAL STUDENT SCHOLARSHIPS
The CCC Foundation funds more than $500,000 in scholarships for new and returning students. The application is available at www.clackamas.edu/scholarships and is open Jan. 30 through October annually. There are two deadlines; April 12 and Nov. 1. All scholarship applications completed by deadline move on to the reading and scoring committee.

PRIVATE SCHOLARSHIPS
A variety of sources offer private scholarships. These scholarships are listed at www.clackamas.edu/scholarships.

Veterans Benefits
CCC OREGON CITY CAMPUS
BILL BROD COMMUNITY CENTER, RM100
503-594-3438
vetinfo@clackamas.edu
www.clackamas.edu/veterans

Our team at the Veterans Education and Training (VET) Center is committed to helping you access all the resources needed to make your educational goals a reality. If you are currently serving in the military, have ever served, or are a military family member, contact us to learn more and determine your eligibility for veterans benefits.

We will:
- Provide information about the many VA educational benefit programs and assistance with applying for these programs.
- Assist you with other resources available to veterans and their military family members, including community and college resources.
- Connect you with the many resources on campus and in the community to make your transition from military service to civilian life a success.
- Provide assistance with other veteran-specific educational resources, including state assistance and tuition waivers for family members of fallen service members.
- Help with active and reserve DOD military tuition assistance.

CCC’s VET Center can help you get started today—your success is our only goal!
Getting placed in the right classes can save you time and money.

New students at Clackamas Community College need to complete our placement assessment process to determine their math and writing placements. This placement process needs to be completed prior to registration for many courses at CCC or attending a new student advising session.

**STEPS TO COMPLETE THE PLACEMENT ASSESSMENT PROCESS**

1. Refer to our placement web page to learn about our Placement Advising for Student Success (PASS) Program and collect your placement documents (PASS intake form, photo ID, test scores and unofficial transcripts).

2. Bring placement documents to a CCC Testing and Placement Center.
   - CCC Oregon City campus – No appointment is necessary
   - CCC Wilsonville and Harmony campuses – Check for availability to meet with a PASS Advisor

3. Meet with a PASS advisor to review your placement documents.

   Our PASS advisors work with students to guide placement into the highest-level math and writing course in which they are likely to succeed with appropriate supports. PASS placements use student input and multiple other measures, rather than a single test score, to promote the student’s choice in determining the best path at Clackamas Community College.

4. Determine if a placement test is necessary.
   - Placement tests may be necessary for new students when more information is needed to access math and writing skill levels.
   - Students applying to apprenticeship programs and some limited enrollment programs are required to take placement tests.

   **INFORMATION ABOUT PLACEMENT TESTS**
   - CCC offers Accuplacer Next Generation placement tests.
   - Additional information about the placement tests can be reviewed at www.clackamas.edu/testing.

   **INFORMATION ABOUT STANDARDIZED TEST SCORES**
   SAT and ACT test scores may be used for math and writing placements. Writing and math score conversion charts are located at www.clackamas.edu/testing.

   **SUBMIT PREVIOUS COLLEGE CREDIT TO CCC**
   Completion of previous math and writing college credits may satisfy the placement process. Refer to Graduation Services for more complete information about the process for submitting official transcripts and exam scores to CCC for credit evaluation. (This process may take up to 12 weeks.)

   Any of the following credits may be considered:
   - International Baccalaureate (IB)
   - Advanced Placement (AP)
   - College Level Examination Program (CLEP)
   - Advanced College Credit (ACC)
   - DSST or military credit
   - Transcripts from an accredited college or university

**Advising Sessions / Talking with an Advisor**

Students who are new to college are strongly encouraged to attend a new student advising session after completing their online orientation and determining their course placement. This two-hour session will review campus resources and degree requirements, and will provide hands-on experience for choosing courses, creating a schedule and registering for classes. Please visit the website or call for specific information regarding advising sessions.

Students with previous college coursework who are transferring into CCC should meet with an advisor at any of our campus locations.

Faculty advisors in the academic departments are also available by appointment to provide specific information about your program of study. They can also serve as mentors. Your faculty advisor’s name, email address, phone number and office number are listed in the Class Schedule each term.

No matter what program you are working on, you should work with an advisor to be sure you’re taking classes that meet your goals.
Registration

ENROLLMENT SERVICES CENTERS
ALL CAMPUS LOCATIONS
503-594-6074
registration@clackamas.edu

Registration is available for currently enrolled, returning and admitted students via your myClackamas account, fax/mail-in and in person as explained in our Class Schedule each term. Registration is based on the number of credits completed at CCC (credits completed at other colleges are not counted for registration purposes). Courses in progress during the current term do not count toward this total. You will be notified of your registration date and time through your myClackamas account. The registration schedule is also printed in the Class Schedule each term. If you miss your registration window, you are able to register any time after that.

To Change Your Schedule

Adding and Dropping Classes
Changing Grading Method

You are required to obtain instructor permission (signature) after the course begins.

- You must officially drop courses you have registered for if you decide to stop going to class. Ceasing to attend class does not constitute official withdrawal! You will be held academically and financially responsible if you do not officially drop your courses. Official withdrawal is via myClackamas or in person.
- To change your grading method (from graded to P/NP, or P/NP to graded), you must submit a request to Enrollment Services by the end of the sixth week of the term.
- To change to an audit, you must submit a request to Enrollment Services by the end of the sixth week of the term. For more information regarding the audit option, see page 26.

Administrative Withdraw

- If you don’t attend your class, instructors MAY drop you but ARE NOT REQUIRED to do so. Instructors may do this at any time during the first two weeks of the class. This is called administrative withdrawal.
- If an instructor does an administrative withdrawal, you may be granted a full refund of charges for the class.
- An instructor may administratively withdraw you from a course if you are unable to demonstrate fulfillment of the stated class prerequisite or co-requisite requirement.
- If you are utilizing financial aid or veterans benefits, you may owe a repayment. Please check with these offices for additional information regarding your enrollment status and entitlement to benefits.
- If you are administratively withdrawn from a course, you will be notified by Enrollment Services.
- Students who are currently registered for a section (e.g., MTH-111) and do not pass the prerequisite (e.g., MTH-095) will be administratively withdrawn from the currently registered course (e.g., MTH-111) by the Enrollment Services Office.

Wait List Procedure

Some CCC classes utilize a wait list option. If the class you want to register for is full and it has a wait list:

- Add your name to the wait list via myClackamas or in person.
- You will receive an email in your “student.clackamas.edu” email when a spot opens up and you are next on the wait list.
- Upon receiving an invitation to add a class you will need to go to “Manage My Waitlist” within myClackamas.
- You will have 48 hours to respond to the invitation.
- If you miss your window, you will not be bumped from the wait list but rather will be passed by for the next student and you will receive another invitation when your spot comes up again.

Note: This process ends once a course begins. You must contact your instructor directly once a course has started.

- You will be notified by email when you are added to a class.
- You are academically and financially responsible for the class if you no longer want to be in the class and don’t drop it.

The following conditions may affect your eligibility for wait list placement:

- Wait list capacity has been met.
- There is a “hold” on your student record that restricts registration.
- There are course restrictions in place such as “instructor consent.”
- You are already registered in another section of the same course.
- There is a time conflict with the course you have selected.
- You have reached the maximum number of credits allowed (18) without additional authorization.
- Class has already begun.
Tuition and Fees

2018-2019 Tuition and Fees

Tuition and fee rates, as well as payment option information, can be found in a current copy of the Class Schedule. Please note that tuition and fee rates are subject to change without prior notice.

Factors that Determine Your Tuition

IN-STATE TUITION
To qualify as an in-state student for tuition purposes, you must be a U.S. citizen, immigrant or permanent resident who has established and maintained residency in Oregon, California, Idaho, Nevada or Washington at least 90 days prior to the first day of classes. A student registered as an aboriginal with an Oregon tribe will qualify for in-state tuition. A minor student whose parent(s) or guardian(s) is a bona fide Oregon resident will qualify for in-state tuition.

OUT-OF-STATE TUITION
You are an out-of-state student for tuition purposes if you are a U.S. citizen, immigrant or permanent resident who has not established residency in Oregon, California, Idaho, Nevada or Washington 90 days prior to the first day of classes or you are an international student/visitor.

You are an international student if you are a citizen of another country here on anything other than an immigrant visa. You will be required to have an I-20 to attend college. International students do not become residents regardless of the length of residency within the district.

Note: If you plan to attend a public university after CCC, it is important to contact that institution prior to enrolling at CCC. Residency criteria at the public universities are different from the community colleges and attending CCC could impact your ability to establish residency at the universities.

THE VETERANS “CHOICE ACT”
Any student using the VA’s Montgomery or Post-9/11 GI Bill educational assistance who lives in Oregon while attending Clackamas Community College is entitled to pay tuition and fees at the in-state rate, if the student:

- Enrolls within three years of discharge after serving 90 days or more on active duty; or,
- Enrolls with a transferred benefit within three years of the transferor’s discharge after serving 90 days or more on active duty (once enrolled, in-state rates apply while continuously enrolled, including beyond three years); or
- Enrolls with a transferred benefit while the transferor is on active duty, or
- Enrolls under the Marine Gunnery Sergeant John David Fry Scholarship for surviving spouses and children.

www.clackamas.edu
Paying for Classes

How Do I Pay for Classes?

Pay Now: Payment is due at the time of registration. Refer to www.clackamas.edu/pay to learn how to make your payment.

Pay Later: If you choose this option, payment is due by the second Friday of the term. Accounts with a balance after this date may receive a $30 Deferred Payment Fee. (To qualify for this option, you must be at least 18 years of age, have a balance of at least $100 and cannot have an existing balance from a previous term).

Non Payment Fee: If your account balance is not paid by the sixth Friday of the term, your account will be assessed a non-payment fee of $75. Also, a hold will be placed on your account that will prevent access to your transcripts and future registration.

Refund Policy

CCC provides full refunds if you drop your classes on time. We do not provide partial refunds. To receive a full refund YOU must drop your classes:

- During the first two weeks of the class for classes meeting 5 weeks or more
- During the first week of the class for classes meeting 3-4 weeks
- Before the class begins for classes meeting two weeks or less

Drop requests are processed via the official college Add/ Drop form or your myClackamas account. Eligibility for a refund is determined by the date that your official request is received. Ceasing to attend class or verbal notification does not constitute an official drop. This refund policy is in effect for all classes, seminars and workshops.

If you have questions about an outstanding balance, contact the Accounts Receivables Office at 503-594-6068 or stuaccounts@clackamas.edu. If you have a question regarding a refund, contact Enrollment Services at 503-594-6074 or registration@clackamas.edu.

Canceled Class

If your class is canceled you will be notified and officially dropped by Enrollment Services. Your tuition and fees for this class will be adjusted appropriately.
Academic Information & Regulations
Absence/Attendance

- You must be officially registered to attend class.
- Be sure to notify your instructor if you can't make it to your first day of class. If you don't, you may lose your seat to a student on the wait list, or be dropped due to the administrative withdraw process.
- If you stop going to class and you don't officially drop the class from your schedule, you will be held academically and financially responsible.
- If the college is open on a religious holiday, you may be excused through prior arrangement with your instructors.
- If you attend a college-sponsored field trip, intercollegiate function or other event, you may be excused through prior arrangement with your instructors.
- Financial aid programs have specific attendance requirements.

Contact the Office of Financial Aid and Scholarships at finaid@clackamas.edu or www.clackamas.edu for more information.

Academic Standing

All degree/certificate seeking students enrolling in six credits or more each term will be required to maintain a minimum term GPA of 2.0 and complete at least 50% of their attempted credits. (Credits attempted does not include credit hours dropped prior to the sixth week of the term or credit hours changed to audit.)

Students will be evaluated for academic standing by the Registrar's Office at the end of each term if one or more of the academic standing criteria have not been met.

- The first term students do not meet one or more of the academic standing criteria, they will be placed into an "Academic Alert" status. Students in this status will be encouraged to take advantage of academic support services to assist them with areas of concern.
- If there is a second consecutive term of attendance that students do not meet one or more of the academic standing criteria, they will be placed in an "Academic Probation" status. Students in this status will receive a registration hold and be required to meet with an academic advisor during the Academic Probation term to determine a course of action and the resources needed to support the student success. Students who do not meet with an academic advisor will be restricted from enrolling in a subsequent term.
- If there is a third consecutive term of attendance that students do not meet one or more of the academic standing criteria, they will be placed in an "Academic Suspension" status. Students in this status will be required to petition to the Director of Student and Academic Support Services for reinstatement to CCC. If your petition is approved, you will be required to meet with an academic advisor and will be restricted from enrolling at CCC until intervention strategies have been accomplished. Student appeals will be considered quarterly by the Director of Student and Academic Support Services, for academic suspension status only.

Students receiving Financial Aid or who are enrolled in programs with additional academic performance requirements (e.g., Nursing, Allied Health, International/PIE) will be subject to higher academic standing criteria.

Active Military Duty

If you are called for active military duty and wish to withdraw from classes, you will be held harmless with regard to financial and academic responsibility.

- You will be asked to officially withdraw from classes through myClackamas, fax, mail or in person.
- Students who have already shipped out or are unable to drop classes should contact Enrollment Services directly: 503-594-6074 or registrar@clackamas.edu.
- You will be asked to submit a copy of your orders along with a request for a refund/credit to Enrollment Services.
- Requests to be held harmless financially and academically for a prior term enrollment must be submitted directly to the Registrar at 503-594-3370 or registrar@clackamas.edu.
Credit by Examination (Challenge Exam)

Clackamas Community College's Credit by Examination (CPL) program can award college credit for knowledge and skills acquired outside the classroom. You can challenge a course for credit by taking an oral, written, performance examination portfolio or a combination of these for course eligibility. Challenge exams are subject to the following limitations:

- Certain courses have been approved for challenge (visit Student Services for more information).
- You must be enrolled at CCC and complete a minimum of three non-CPL credits during the term in which you challenge a course, or have received a minimum of 12 non-CPL credits from CCC in previous terms.
- Challenge exams need to be completed by the 10th week of the term. Credit from challenge exams completed after the 10th week will be recorded on your transcript the following term.
- The per credit challenge fee must be paid prior to testing.

You may challenge a course by obtaining an application from Enrollment Services or Student Services and contacting the college department responsible for instruction of the course. The exam is comprehensive, covering all the basic information and skills required of a student completing the course in the regular manner.

For more information, call Student Services at 503-594-3475.

Credit Hours and Credit Loads

The standard unit of measurement for college work is called a credit.

A full-time student is defined as someone enrolled in 12 or more credits in any one term. No student may enroll in more than 18 credits per term without approval from an advisor.

* COURSES NUMBERED:

100 and above

College level courses resulting in transcripted academic credit, which may be applied toward a degree and/or certificate. May also transfer to four-year colleges.

010 through 099

Courses that result in transcripted academic credit, which may or may not be applied toward a degree and/or certificate. May be transferable to other community colleges.*

Any prefix beginning with “X”

Continuing education courses, workshops or seminars that carry no credit or application toward a degree and/or certificate. Not transcripted.

Any prefix beginning with “X”

Classes, seminars, workshops and training resulting in Continuing Education Units (CEUs). These courses are not transcripted as academic credit nor are they applicable toward a degree and/or certificate.

* Students should consult with a faculty advisor or an academic advisor to verify course eligibility toward degree/certificate requirements.

Final Exams

Final examinations take place the last week of each term (see the Class Schedule for exact dates and times). You must take finals at the scheduled time; exceptions will be made only for illness or other circumstances beyond your control and must be approved by your instructor prior to scheduled exam time.
Grades and GPA

Letter grades are used to indicate the quality of work completed. To find your grade point average (GPA), divide the total number of grade points earned by the total number of credits attempted in classes graded A-F. Courses graded Pass/No Pass are excluded in calculating GPA. If you believe a grading error has occurred, you must notify your instructor immediately.

Incomplete

A grade of incomplete indicates that a student’s work has been satisfactory but an essential amount of work has to be made up. This could include one exam, a paper or other assignment. An incomplete can only be initiated with instructor approval and in consultation with the student. The instructor will determine the time line within which the student must complete the outstanding work, with a maximum of one calendar year. After that calendar year, if no additional work has been completed, the grade awarded will be the grade at the time the incomplete was initiated.

Never Attended and Withdraw

If you never attend a course and don’t drop it from your schedule, you remain financially responsible for the course and an instructor will assign a grade of “Y.”

If you start attending a course but don’t drop it and stop attending, you remain financially responsible for the course and an instructor may assign a grade of “W.”

Grades are at the discretion of your instructor. If you stop attending a course and don’t drop it by the stated deadlines, talk with your instructor about the grade you will receive.

Pass/No Pass

A Pass grade indicates satisfactory completion of the course (equivalent to a C or better). A No Pass grade means the course was not satisfactorily completed and no credit was granted. Some courses are offered only on a Pass/No Pass basis. Some courses offer the option to choose between Pass/No Pass and an A-F grade option and some courses may be taken as A-F letter grade only. You will select your grade option at the time of registration. Changes to grade option must be made with Enrollment Services by the end of the sixth week of the term. Please note that this grade option may mean the course is no longer transferable to a four-year institution and may not count toward a degree or certificate.

Recognition of Excellence

Students will be recognized for achieving a 3.5 GPA in a minimum of 6 credits of A, B, C or D. There will be two levels of recognition: Honor Roll for a GPA of 3.5-3.749 and President’s List for a GPA of 3.75 or greater. These will be noted on students’ transcripts at the end of each term.

Audit

An audit allows you to attend class without responsibility for a grade. Audit carries no credit, doesn't contribute toward full-time status and does not meet full-time status required for veterans, Social Security, financial aid or athletic eligibility. All other college policies apply including registration, tuition payment, refunds and attendance. If you decide to change your status from audit to credit or credit to audit, notify your instructor prior to the end of the sixth week of the term.

If you are a financial aid student, notify the Office of Financial Aid and Scholarships if you change from a credit to an audit or receive an audit grade. You may be required to pay back funds. Audit classes do not qualify for financial aid.

www.clackamas.edu
Prerequisites

A prerequisite is a course that must be satisfactorily completed before you can enroll in a particular course. The Class Schedule indicates whether a course has a prerequisite under each course title.

Registration and Transcript Restrictions

A transcript and/or registration restriction (referred to as a “hold”) will be placed on your record if you fail to meet an academic, equipment return, financial obligation to the college, or have not completed loan exit counseling when you stop taking a course. You will be notified of the hold through your myClackamas account and the obligation must be resolved before the hold is removed.

See page 19 for additional policies related to registration.

Repeating Courses for Credit

Certain classes may be repeated for credit toward degree completion as specified in the catalog. If a catalog course description does not include information that specifies the course may be repeated, then credits from the course may not be applied toward degree completion. If you have any questions about whether a repeated course will count for credit, contact the Advising Office.

Repeating Courses for GPA

You may repeat a course as many times as you choose. A repeated course will reflect an “R” on your transcript. Beginning summer term 2013 the best grade (A, B, C, D, F) will be used in computing your cumulative GPA. Other attempts will be shown on your transcript, but will not be included in calculating your GPA. This will happen automatically.

Repeated courses completed prior to summer term 2013 will reflect the most recent attempt in the GPA. A Repeated Course Notification form is required.

Variable Credit

Some courses are eligible for variable credit. These courses are noted in the Class Schedule with a “V” in the credit column. This option allows you to pursue an individualized learning program. You must register for the number of credits you expect to earn in that term as determined with your instructor. Changes to variable credit must be processed through registration by the end of the 10th week of the term.

Transcripts

Official transcripts of your coursework at CCC may be ordered online, in person, by written request or fax through Enrollment Services. Unofficial transcripts are available by going to the web at my.clackamas.edu/

For more information, call the Transcript Request Line at 503-594-6102.

Clackamas Community College reserves the right to withhold issuance of transcripts to students who have not met their obligations to the college.
Academic Advising & Career Coaching

CCC WILSONVILLE CAMPUS  
503-594-0959

Academic and career coaches are available on a drop-in and appointment basis to help students by providing a wide range of academic information and assisting students with many academic processes including course selection, degree requirements, educational and career planning, and transfer information. Throughout the year, academic and career coaches present advising sessions for new students, pre-nursing students and others. Visit the website for more information, including hours, transfer information and a multitude of other resources.

Accounts Receivable  
www.clackamas.edu/pay  
503-594-6068

Accounts Receivable provides services to both students and departments on accounts receivable related issues including, but not limited to, billing charges, third-party billing, tuition and financial aid refunds, short-term book loans, 1098Ts, collections and registration/transcript holds. For more information regarding payment and refund of tuition and other charges, see page 21.

Associated Student Government  
www.clackamas.edu/asg  
CCC OREGON CITY CAMPUS, COMMUNITY CENTER, CC152  
503-594-3040

The Associated Student Government (ASG) of Clackamas Community College is the governing body of CCC students. The president and vice president are elected by the student body; senators and other officers are determined by a selection process. ASG operates under a constitution designed to promote student activities that stimulate social, physical, moral and intellectual life on campus. ASG operates helpful services for students such as the book exchange, grant opportunities and the Cougar Cave food bank. It also coordinates a variety of activities such as awareness events, bbqs and parties.

Intramurals  
503-594-3931
Clackamas offers a variety of intramural sports activities through the Associated Student Government (ASG). While not offered every year, activities have included fun runs, softball, basketball, flag football, badminton, dodge ball, ultimate Frisbee and soccer. For Intramurals, see Associated Student Government in CC152 or contact campact@clackamas.edu.

Athletics  
www.clackamas.edu/athletics/

Intercollegiate  
Clackamas is a member of the Northwest Athletic Association of Community Colleges (NW AACC) and competes in intercollegiate sports with other colleges throughout the Northwest. Intercollegiate athletics for men include cross-country, track, wrestling (NJCAA), basketball and baseball. Women's intercollegiate sports include basketball, softball, volleyball, track, cross-country and soccer.

Bookstore  
www.cccbooks.com

CCC OREGON CITY CAMPUS, MCLOUGHLIN HALL  
503-594-6500
CCC HARMONY CAMPUS, WEST BUILDING  
503-594-0647

The Bookstore is the place to shop for almost everything a student needs for college. Items in stock include new and used textbooks, rental textbooks, e-books, study aids, calculators, flash drives, sundries, stamps, school supplies, greeting cards, general books, CCC clothing, snacks, candy, coffee, cold drinks and convenience foods. Tri-Met bus passes, tickets and discounted Tri-Met College Term Passes are available at both locations. The Harmony Store also stocks items needed for the Nursing and Allied Health programs including scrubs, lab coats, uniform shirts, name tags and stethoscopes. Both stores offer a special order service for many items not normally stocked. Textbooks are available for shipment or in store pickup by ordering online at www.cccbooks.com.

Students may sell their unwanted new and used books for cash at the Bookstore. Books may be worth up to percent of the original price. Receipts are not needed for textbook buyback. While textbook buyback is open most of the year, students are encouraged to sell their books at term ending when prices are usually better. Hours are posted in the schedule of classes, as well as the website www.cccbooks.com.

Both stores are open extended hours the first week of fall, winter and spring terms.

Career, employment and training information and services are provided to students and potential students. Information and services include:
- Career exploration resources
- Career assessment tools
- Job search information and planning
- Career and job search classes
- Career coaching
- Many of these resources are available online

Child Care
www.clackamas.edu/child-care/
CCC OREGON CITY CAMPUS, FAMILY RESOURCE CENTER
503-657-9795
The YMCA Child Development Center is located in the Family Resource Center on the Oregon City campus of Clackamas Community College. The center offers affordable and flexible child care for children ages six weeks to 12 years. Children enrolled in the program will play and learn in the NAEYC accredited, state-licensed child care programs which offer a host of age-appropriate experiences for children under the watchful guidance of well-trained, caring staff members. Space is limited and pre-enrollment is necessary. Contact the center for enrollment materials as soon as you recognize your child care needs. Students at CCC may qualify for child care assistance and should contact the YMCA center to learn more about these options.

Clackamas County Children’s Commission
www.cccchs.org
503-675-4565
CCCC provides free preschool and day care services on campus.

Head Start Preschool
Preschool services through Head Start gives children ages three to five years old 3.5 hours per day, four days per week of classroom time in addition to regular home visits September - May. Our state-certified teachers and aides provide an excellent learning experience in a safe and encouraging environment. Two nutritious meals are prepared and served during class time. No summer services offered at this time. Limited space available.

Early Head Start
Early childhood education services through Early Head Start provide 6.5 hours a day, four days a week for children six weeks to three years old. Parents must be enrolled in job training or school and have no other sources for child care during the day. Quality care and nutritious meals are provided and served during class time. During the summer, the program is home-based with regular educational home visits. Very limited space available.

Children do not need to be potty trained and we provide all the diapers during class time. CCCC also provides home based support services to pregnant mothers and children 0-3 years of age throughout Clackamas County. Call the CCCC enrollment office today for more information about registration, participation requirements and availability. No transportation available through us for this center.

Clubs
www.clackamas.edu/clubs
CCC OREGON CITY CAMPUS, COMMUNITY CENTER
503-594-3933
Campus clubs are approved and overseen by the Associated Student Government (ASG) and new interest groups are encouraged to organize following ASG procedures. Some of the clubs active on campus include Collegiate Team - League of Legends, French Club, Gender & Sexuality Alliance, Horticulture, International, Landscape, Mind Body Spirit Advocate, NW Collegiate Ministries, Phi Theta Kappa, Spanish, STEM, Unidos, Veterans, Welding and Writers.

College Counselors
www.clackamas.edu/counseling
CCC OREGON CITY CAMPUS, COMMUNITY CENTER
503-594-3176
CCC HARMONY COMMUNITY CAMPUS
503-594-0625
Counselors are available to provide retention and support services that help students benefit from their experience at Clackamas Community College. Counselors at CCC help students develop career goals and design a path of education or training that will help them reach those goals. Short-term personal counseling and referrals to community resources are provided to students to help identify and overcome barriers that are interfering with success. Counselors also teach courses related to academic strategies and applied life skills. These classes are designed to improve career, personal and academic achievement.
Community Gardens
www.clackamas.edu/gardens
CCC OREGON CITY CAMPUS
503-594-3041

The Community Gardens at Clackamas Community College provide an economical, convenient spot for the public to grow their own vegetables and flowers. Each plot is $40 per year.

For information on the Community Gardens, contact Student Life & Leadership at 503-594-3040.

Computer Labs
CCC OREGON CITY CAMPUS
503-594-6632

The college has computers available for student use. The Academic Computing Lab in the Dye Learning Center and Streeter Hall Open Computing Lab are general access labs open to all students. Many academic departments manage their own computer labs. Specialized software for these programs is usually available in these labs only. Check with specific departments to see if they provide lab hours for students.

Streeter Hall Open Computing Lab
503-594-6632

Streeter Hall Open Computing Lab is a general access lab open to all students. The lab offers Windows-based computers, general-purpose software such as Microsoft Office and a printer. A project room is available for student groups to work together. You must be a currently registered student to use the lab. Streeter Hall Open Computing Lab is open Monday–Thursday, 9 a.m.–4 p.m.

Academic Computing Lab
See The Learning Center.

Music Technology and Audio Recording Labs
NIEMEYER CENTER, N216
503-594-3337

The Music Technology Labs and Audio Recording Studio enable students to compose, record, print and produce music. The facilities are available to CCC students enrolled in music classes that use related Music Technology hardware and software. The CCC Music Technology Labs house 25 state-of-the-art music computer work stations. Software includes Finale, ProTools and Reason.

Disability Resource Center
www.clackamas.edu/drc
CCC OREGON CITY CAMPUS, COMMUNITY CENTER
503-594-6357
drc@clackamas.edu

The Disability Resource Center (DRC) provides services to support student success by creating a welcoming, inclusive and accessible environment. The DRC offers a wide range of services to provide students with disabilities equal access to college programs, activities and auxiliary support. The DRC also provides faculty/staff consultations. If you have a history of receiving accommodations or just have questions on how to qualify for services, call or stop by so we can assist you.

Students requesting services must:
• Meet with a DRC staff member.
• Provide the DRC with documentation from a certifying professional that establishes the existence of a current disability and supports the need for accommodations requested.
• Request accommodations through a DRC staff member.

Accessible parking (disabled parking) is available close to each campus building and disabled parking permits are obtained through the Oregon State Department of Motor Vehicles.

Clackamas Community College does not discriminate on the basis of disability or any other protected status in accordance with applicable law. The College’s commitment to nondiscrimination applies to curricular activity and all aspects of operation of the college.

Clackamas Community College is dedicated to providing a harassment-free environment for all people with disabilities, as well as a timely and effective provision of services for students with disabilities. Any student with a disability who feels they have been discriminated against or harassed due to their disability should contact the Disability Resource Center Coordinator.

The Office of Financial Aid and Scholarships
www.clackamas.edu/financial-aid
CCC OREGON CITY CAMPUS, ROGER ROOK HALL
503-594-6100

The Office of Financial Aid and Scholarships provides students with information, resources, applications and other required forms necessary to apply for various types of aid offered through the federal government, state and Clackamas Community College (CCC). Here are the steps to applying for financial aid at CCC.

Step by Step Process

STEP 1 APPLY TO CCC
Go to: www.clackamas.edu/apply
If you are applying for federal aid, you will need to include your Social Security number on the CCC application.

STEP 2 APPLY FOR FINANCIAL AID

U.S. CITIZENS AND PERMANENT RESIDENTS:
Apply at www.fafsa.gov every year as soon after Oct. 1 as possible. This one application provides consideration for federal and state grants, federal student loans and work-study opportunities. CCC’s School Code: 004878.

UNDOCUMENTED OREGON RESIDENTS:
Complete the Oregon Student Aid Application (ORSAA) at www.getcollegefunds.org to determine eligibility for some state-based financial aid programs. The ORSAA is for undocumented Oregon students, including students who have DACA (Deferred Action for Childhood Arrivals) status.
Note: Do NOT complete the ORSAA if you are a U.S. citizen or a legal permanent resident with an Alien Registration number, as you will already be considered for Oregon-based financial aid through FAFSA.

STEP 3 CHECK YOUR EMAIL IN MYCLACKAMAS
Go to: https://my.clackamas.edu
• Indicates the college has received your FAFSA or ORSAA.
• We communicate all instructions for your next steps via email.

STEP 4 CHECK YOUR MYCLACKAMAS ACCOUNT - WEEKLY
Click on: My Documents
• Complete all documents requested.
• Once documents are submitted, it may take a few weeks to review your file.
• Additional information may be required.
• You will be notified of the result in your award letter. You will receive an email once your file is reviewed.
• Accept or reject your award letter online.
• To receive loans, go to: studentloans.gov
Complete: Entrance Counseling for CCC and a Master Promissory Note (MPN). (Select Subsidized/Unsubsidized.)

NEED HELP?
• Drop-in hours are Monday, Tuesday, Thursday and Friday from 9 a.m.–4 p.m. and Wednesday from 10 a.m.–4 p.m.
• FAFSA Lab is open Monday–Thursday 10 a.m.–1 p.m. & 1:30–3 p.m. The FAFSA Lab is open to the public to assist with completing the FAFSA, FSA ID, ORSAA, Scholarship Applications, Entrance Counseling, Master Promissory Note and more.
• Email: finaid@clackamas.edu
Follow the CCC financial aid recommended deadlines to ensure you receive financial aid funds in a timely manner.

2018-2019 Financial Aid Recommended Deadlines

SUMMER TERM 2018: APRIL 16, 2018
FALL TERM 2018: JUNE 25, 2018
WINTER TERM 2019: SEPT. 24, 2018
SPRING TERM 2019: JAN. 7, 2019
Scholarships
www.clackamas.edu/Scholarships
503-594-6100
Clackamas Community College has many scholarship opportunities available for students of all majors. Anyone who plans to attend CCC during the academic year to pursue a degree or certificate can apply. A complete list is available at https://clackamas.academicworks.com.

General Student Scholarships
The CCC Foundation funds more than $500,000 in scholarships each year for new and returning students. Our application is online at www.clackamas.edu/scholarships. Once you have completed our scholarship application, you are automatically considered for all CCC Foundation scholarships you meet the criteria for. The application is open Jan. 30 through October with two deadlines; April 12 and Nov. 1. We review applications in April for awarding in fall term and in November for winter term awards.

High School Scholarships
The CCC Foundation offers two full-year tuition scholarships and one single-term full-time scholarship through each public high school in our district. Information about these scholarships is available in local high school counseling or career centers. Apply online Jan. 30–April 12 at www.clackamas.edu/Scholarships.

High school students who live in the district and compete in the annual Clackamas Regional Skills contest are eligible for special CCC scholarships. Partial one-term tuition scholarships are awarded to the top three winners in all categories of the competition.

Special Tuition Scholarships
If you have special skills or plan to participate in extra-curricular activities like art, athletics, speech, journalism, student government, music or theater, you may be eligible for a tuition waiver. Contact the appropriate college department to find out how to apply.

Private (Non-CCC) Scholarships
A variety of sources offer scholarships for Community College students of all ages. These scholarships are listed at http://clackamas.academicworks.com. Click on Opportunities, and choose External.

Environmental Learning Center
www.clackamas.edu/clc
CCC OREGON CITY CAMPUS
503-594-3015
The John Inskeep Environmental Learning Center is a great place for people of all ages to explore the outdoors and learn about watersheds in a natural environment. Trails, interpretive signs, bird blind, an outdoor amphitheater and classrooms provide an ideal place for all ages to explore and learn.
CCC classes, students and staff, as well as community members, are encouraged to visit during daylight hours - explore the trails, discover wildlife and native plants, or simply enjoy some relaxation!
Program offerings include:
- Field trips and day camps designed to enrich the learning of K-12 students in the area of environmental education
- Workshops for adults
- Continuing Education for professionals covering topics related to the environment and water quality
For additional information: rharber@clackamas.edu

Fitness Center
CCC OREGON CITY CAMPUS, RANDALL HALL
503-594-3043
The CCC Fitness Center is open to students and staff when classes are not scheduled in the center. Equipment includes pyramid weight machines, free weights, exercise bicycles, steppers and rowing machines, treadmills, as well as spinning bikes, ellipticals, an upper body ergometer and several single station machines.

Food Service
www.triohosp.com/ccc/ cougar_cafe
CCC OREGON CITY CAMPUS, COMMUNITY CENTER
Cougar Café, located in the Community Center, is open Monday–Thursday, 7 a.m.–4 p.m., and Friday, 7 a.m.–2 p.m. In addition to beverages and snacks, a grab and go case is available with a wide variety of housemade salads, sandwiches, pastries and snack packs. We offer a full assortment of specialty coffee beverages featuring locally roasted beans from Caffe Vita Coffee Roasters. Bottled beverages, smoothies and blended coffee drinks are also available. Hot breakfast options include burritos, sandwiches, plated meals, pancakes and biscuits and gravy. Breakfast is served each day until 10 a.m. Hot lunch offerings are available from 10 a.m. until closing and include wraps, burritos, rice bowls and sandwiches built to order. The Grill offers burgers (beef, chicken, turkey and vegan hemp seed) cooked to order, fries and tots. Two scratch-made soups and steamed rice are also available every day. Additional information and menus are available at www.triohosp.com/ccc/cougar_cafe.
CCC HARMONY CAMPUS
The Cougar Cafe Express located at the CCC Harmony Community Campus is open Monday–Thursday, 8 a.m.–1 p.m. and 4:30–6 p.m. Friday hours are 9 a.m.–noon. The Cougar Café Express is a family-operated business proudly serving K and F coffee, a local Portland vendor. It serves a variety of grilled sandwiches as well as cold sandwiches and wraps and handcrafted soup. They pride themselves in great fresh food and superior customer service.

Graduation Services
CCC OREGON CITY CAMPUS, COMMUNITY CENTER
503-594-6651
gradservices@clackamas.edu
Graduation Services can assist you on the total number of credits being transferred in from other colleges, identify the number of credits needed to complete your degree and assist you with your petition to graduate.
Graduation Services is located in the Community Center on the Oregon City Campus, CC124.

Honor Society
ΦΘΚ: Phi Theta Kappa
503-594-3040 or 503-594-3041
The Clackamas chapter of Phi Theta Kappa, the international honor society for students in community colleges, offers students recognition for hard work and ways to contribute to the community.
Students who have completed at least 12 college-level credits and have a 3.5 or better cumulative grade point average are invited to join.
Membership has many benefits, including Phi Theta Kappa scholarships, society publications and travel to regional and international meetings. You also have the opportunity to wear a gold stole and tassel at graduation. Chapter activities are centered around the society’s four hallmarks: scholarship, leadership, service and fellowship. Joining Phi Theta Kappa is a mark of distinction. Applications are available in the Student Activities Office, CC152.

The Learning Center
www.clackamas.edu/tutoring
CCC OREGON CITY CAMPUS, DYE LEARNING CENTER
503-594-6191
tutoring@clackamas.edu
The Learning Center: A welcoming environment, open and accessible to all, that inspires people to engage in lifetime learning. The Learning Center is located in the Dye building on the Oregon City campus and offers the services listed below. Hours: Monday–Thursday, 7:30 a.m.–8 p.m.; Friday, 7:30 a.m.–5 p.m.; Saturday, 11 a.m.–3 p.m.

Academic Computing Lab
www.clackamas.edu/tutoring/
503-594-6632
The Academic Computing Lab in the Dye Learning Center has Windows-based computers available for student use and offers drop-in tutoring for a variety of computing issues, such as accessing information on Moodle, using all Microsoft Office applications or printing. Business, accounting and computer science tutors are available during all open lab hours. You must be a currently registered student to use the lab. The Academic Computing Lab is open Monday–Thursday, 7:30 a.m.–8 p.m., Friday, 7:30 a.m.–5 p.m., and Saturday 11 a.m.–3 p.m.

Math Lab
503-594-3121
tutoring@clackamas.edu
Drop-in (no appointment) math tutoring is available in the Learning Center on the Oregon City campus and at the Harmony campus. In the Math Lab, students can obtain one-to-one help for their math homework and in preparation for exams. Help is available for most math classes taught on campus.
For hours of operation, view the Math Lab website at www.clackamas.edu/math

Writing Center
503-594-6275
writing@clackamas.edu
The Writing Center offers students one-to-one feedback on any writing assignment, for any class or project. Online tutoring may be available by request. Students can get help with any aspect of writing: understanding the assignment, strategies for getting started, grammar and editing, organization, strategies for revising and polishing, considering the audience and citing sources. Help is available for working on scholarship and admissions applications and essays, as well as cover letters and resumes.
continued…
The Learning Center, continued

Subject-Area Tutoring
503-594-6191
tutoring@clackamas.edu

The Learning Center provides free individual and small-group tutoring in many subjects, such as science. Tutors are available by request, with some drop-in tutoring and some by appointment. Limited services are available at Harmony and Wilsonville in some subjects.

Additional Tutoring Services and Labs
• Accounting Tutoring: Academic Computing Lab: Dye 128
• Adult Basic Skills SMART Learning Lab
• Anatomy and Physiology Study Room: Pauling 145
• Chemistry Help Center: Pauling 165
• Digital Media Lab: McLoughlin 125
• Foreign Language Lab: McLoughlin 244
• Harmony campus: Math Lab and Writing Center
• Horticulture library and computer lab: Clairmont
• MIDI and Music labs: Niemeyer 216, 211
• Volunteer Literacy Center, D132

Online Tutoring through Smarthinking.com
503-594-6191
tutoring@clackamas.edu

Smarthinking is offered to current Clackamas Community College students as a supplementary tutoring resource for subjects or during hours not currently offered in the Dye Learning Center. Students can access up to seven hours of free Smarthinking tutoring per term by logging into their Moodle account and clicking on the Smarthinking icon located on the top right of their screen. More information found at www.clackamas.edu/Smarthinking

Library
library.clackamas.edu

reference@clackamas.edu

CCC Library offers tens of thousands of print books, eBooks, electronic journals and magazines, print newspapers, magazines and journals, streaming videos and compact discs – both in the library and online from anywhere. Access our electronic resources from off-campus by visiting our website and logging in using your CCC username and password. Get help 24/7 from a librarian using the chat service available on our website, by email, by phone or by stopping by the library during open hours. Librarians teach and assist students with all research-related tasks, including using the library, developing research topics, and finding, evaluating and citing sources. Librarians also provide course-integrated instruction and formal library instruction via LIB-101. Other services include interlibrary loan, course reserves, calculator and headphone rental, printing, copying and scanning. CCC Library is available for use by students, faculty, staff and the general public.

Music
www.clackamas.edu/music

The Music Department sponsors a number of vocal and instrumental performing groups that are open to students and to the community. Groups include Wind Ensemble, Jazz Ensemble, Chamber Choir, Vocal Jazz Ensemble, String Ensemble, Jazz Combo/Improvisation, Contemporary Music Ensemble and Pep Band (pop/blues/rock/R&B). Some ensembles require auditions. Scholarship funds and work-study positions may be available for students who participate in music groups or activities (need not be a music major).

The Music Department offers group instruction on guitar, voice and piano. In addition, individual (private) lessons are available for almost all instruments. Music Technology Labs and Audio Recording Studios enable students to compose, record, print and produce music. Software includes Finale, ProTools and Reason. The Labs are available to CCC students enrolled in appropriate music classes.

The CCC Music Department is home to the Ed Beach Collection, a library of more than 2,200 hours of recorded jazz. The original master tapes are now in the National Archives; this edition of the collection is the only other edition in existence.

Peer Program
www.clackamas.edu/peer-program

Students selected to serve in the Peer Program serve in the leadership roles of Peer Assistants and Peer Mentors. They serve our college in a variety of positions on campus, ranging from in-classroom mentoring to working a variety of student services across campus. These students also receive tuition waivers in exchange for their leadership.

Service Learning Volunteers
www.clackamas.edu/music

The Service Learning program provides volunteer/community service opportunities for CCC students. Service Learning takes place in the form of community service events, individual service for a particular agency and a for-credit service learning course. In this latter case, college credit can be earned for participation in the program and tuition is free. Email us at serve@clackmas.edu.

Student ID Cards

Photo student ID cards are available at each of our campuses. You’ll need this card for transactions on campus, including library checkout, access to computer and tutorial labs, the Assessment Center, enrollment verification and admission to college events. Picture identification will be required to obtain your photo ID card. First card is free, replacements are $10.

www.clackamas.edu
The Student Life & Leadership Office serves as a resource and information center and coordinates student activities on campus. The office provides information on transportation, insurance, student government, special events, clubs, health and wellness events, intramurals, housing and other programs of interest to students. The office is also the location for calculator and locker rentals, as well as the campus lost and found.

Student Publications
theclackamasprint.net
www.clackamas.edu/journalism

The Clackamas Print is an award-winning student-run newspaper published weekly during the school year. Clackamas News Online trains students in broadcast journalism. Clackamas Literary Review is a nationally distributed literary magazine designed and edited by students that publishes poetry, fiction and essays, and offers a student writing contest. Together, these student-run media provide the opportunity to gain practical experience in writing, broadcast journalism, publishing, photography, multimedia reporting, illustration, layout, desktop publishing and graphic design. Tuition waivers are available to student editors.

For information, contact Rita Shaw at ritas@clackamas.edu or 503-594-3254.

Testing & Placement Services
www.clackamas.edu/testing
CCC OREGON CITY CAMPUS, ROGER ROOK HALL, RR136
503-594-3283
testing@clackamas.edu

The Testing & Placement Centers offer a variety of services:
- Placement testing and advising
- CCC & non-CCC proctored testing (by arrangement)
- Computer science placement
- Workkeys (National Career Readiness Certificate)
- Oregon Department of Agriculture Exams
- State of Oregon Tax Board Exams
- Pearson Vue Testing
- TEAS Testing (Test of Essential Academic Skills)

Theatre
www.clackamas.edu/theatre
CCC OREGON CITY CAMPUS, NIEMEYER CENTER
503-594-3153

The Theatre Department produces one full-length play and several student-directed theatre projects each term. Workshop courses focus on the production of theatre for public performance, and everyone in the community is welcome to participate. The department also offers lecture courses, which encompass technique, theory and philosophy of theatre arts. College credit is available for each production, and students in need of financial assistance may qualify for tuition waivers or work-study.

Clackamas Repertory Theatre
www.clackamasrep.org
CCC OREGON CITY CAMPUS, NIEMEYER CENTER
503-594-6047

Founded in 2005 as an extension of the CCC Theatre Department, Clackamas Repertory Theatre is a professional theatre company that produces a three-play season July through October. CRT features current and former CCC Theatre Department students both on stage and behind the scenes, as well as professional Portland area actors and directors. For information on our current season, visit www.clackamasrep.org

Veterans Education and Training Center

www.clackamas.edu/veterans

CCC OREGON CITY CAMPUS, COMMUNITY CENTER CC100
503-594-3438
vetinfo@clackamas.edu

Clackamas Community College welcomes veterans, service members and their family members. We are dedicated to providing exceptional, individualized service and resources to every veteran and military family member. We offer assistance and information about veterans’ benefits, education and career options, referrals to community and college services, and enrollment. In 2016, CCC was ranked No. 2 in the Nation by the Military Times: Best for Vets (2-year Colleges) annual survey, making CCC the No. 1 two-year college in the West. Our purpose is to ensure student success by creating a community of student veterans committed to making the transition from military service to academic and civilian success.

Veterans Services

www.clackamas.edu/veterans

CCC OREGON CITY CAMPUS, COMMUNITY CENTER CC100
503-594-3438
vetinfo@clackamas.edu

Clackamas Community College provides a comprehensive range of services and assistance for service members, veterans and their family members, including:

• Assistance with all VA educational and college processes and resources
• Information about VA benefits and other forms of assistance
• Access to a full service computer lounge with free coffee and snack bar
• Assistance with all forms of military tuition assistance
• Cougar Vets, the student club for veterans and friends of veterans

If you are currently serving in the military, have ever served, or are a military family member, contact us to learn more. Our team at the Veterans Education and Training (VET) Center is committed to making your transition from military service to civilian life a success!

CCC OREGON CITY CAMPUS, FAMILY RESOURCE CENTER
503-594-6246

Building skills and growing businesses!

WorkSource Clackamas is the leading source for employment and training solutions in Clackamas County. Our goal is to develop a highly skilled workforce that creates economic prosperity in Clackamas County. One of our areas of expertise is helping laid-off workers, and those businesses that are in need of a skilled pool of talent to remain competitive. WorkSource Clackamas is preparing Oregonians for jobs in health care, manufacturing, construction and technology. WorkSource Clackamas has no-cost career advancement services that can help you:

- Update your skills
- Sharpen your job search expertise with our no-cost workshops
- Access jobs in high-growth careers

Student Rights

Campus Security Report – Jeanne Clery Act

The “Jeanne Clery Disclosure for Campus Security Policy and Campus Crime Statistics Act” (formerly the Campus Security Act) is a federal law that requires institutions of higher education to disclose campus security information, including crime statistics for the campus and surrounding area. As a current or prospective CCC student or employee, you have a right to obtain a copy of this information. You may review this information by accessing the federal government website (enter “Clackamas Community College” in the search field) or in the CCC student handbook. You may also obtain a hard copy of this information upon request by contacting the CCC Campus Safety at 503-594-6650 or at www.clackamas.edu/student-rights

Work Study

www.clackamas.edu/work-study

503-594-3428

The Work Study program is a federal financial aid program providing student employment. The program is based on financial need and available to eligible students who apply early and are enrolled in at least six credits of coursework in a degree or certificate program. Applicants should use the Free Application for Federal Student Aid (FAFSA) to apply for financial aid, then contact workstudy@clackamas.edu.
**Directory Information**

Clackamas Community College has established an institutional policy regarding the release of limited directory information as defined in the Family Educational Rights and Privacy Act (FERPA). The following information will be released upon request to anyone:

1. Full name
2. Enrollment status
3. Enrollment Dates
4. Verification of certificate, degree, or honors and awards
5. Residency status
6. Major/program
7. Athletic participation (Including height and weight of team members.)

The following information may be released by the Dean of Academic Foundations and Connections or Registrar:

   a. Address and telephone number
   b. Class location to Public Safety in case of health or safety emergencies.

Exceptions to the above may include but are not limited to:

1. Release of alumni names and addresses to our Foundation Office for communication with CCC graduates;
2. The release and posting of names of students receiving academic honors/awards;
3. Student athletes may sign a release of information form through the Athletic Department for the release of information regarding registration activity, grades and access to records by their coach or the athletic director. Other student groups may also sign similar releases through their department/group.

Students employed with the college that have access to student records receive FERPA training and are asked to read and sign an institutional confidentiality statement of understanding. Directory information for use within the college is permitted in accordance with FERPA guidelines. Disclosure within the college does not constitute institutional authorization to transmit, share or disclose any or all information received to a third party.

**Family Educational Rights & Privacy Act (FERPA)**

The Family Educational Rights and Privacy Act (FERPA) provides students with specific rights regarding their academic records. They are as follows:

- The right to inspect and review your records. You may request to review your records by submitting a written request to the Registration and Records Office or other school official having custody of such records.
- The right to seek amendment to your record if you believe it to be inaccurate, misleading or in violation of your privacy rights. Requests for amendments must be in writing and must describe the specific item or record you wish to have amended. You must also include the reasons why the amendment is justified.
- The right to consent to disclosure of personally identifiable information contained in your academic records, except when consent is not required by FERPA. FERPA does not require a student’s consent when disclosure is to school officials with legitimate educational interests (See AR 6-96-0031). Additionally, consent is not required by FERPA in the instances where a person or company with whom the college has contracted or appointed as its agent and/or students serving on official committees have legitimate educational interest. A school official has a legitimate educational interest if the official needs to review an academic record in order to fulfill his/her professional responsibilities.
- The right to file a complaint with the Department of Education, Family Compliance Office concerning alleged failures by the college to comply with the FERPA requirements.
- FERPA allows the college to disclose your directory information without consent. If you do not want this information released, you must submit a request with the Enrollment Services Office.

**Release of Information**

Clackamas Community College adheres to and is committed to honoring all state and federal laws pertaining to the privacy and confidentiality of your directory information and academic record. You have the right to restrict access to information if you so choose. Please refer to the following in regards to the release and restriction of directory information.

**Requesting to Restrict the Release of Directory Information**

You may restrict the release of directory information as mentioned above by submitting a Restrict Directory Information request form to the Enrollment Services Office. This restriction will remain in place until you ask for removal. It will remain in place even after you graduate or have stopped attending.

**Use of Your Social Security Number**

OAR 581-41-460 authorizes Clackamas Community College to ask you to provide your Social Security Number. The number will be used for reporting, research, and record keeping. Your number will also be provided by the college to the Oregon Community College Unified Reporting System (OCCURS), which is a group made up of all community colleges in Oregon, the State Department of Community Colleges and Workforce Development and the Oregon Community College Association. OCCURS gathers information about students and programs to meet state and federal reporting requirements. It also helps colleges plan, research and develop programs. This information helps the colleges to support the progress of students and their success in the workplace and other education programs.

continued...
OCCURS or the college may provide your Social Security Number to the following agencies or match it with records from the following systems:

- State and private universities, colleges and vocational schools, to find out how many community college students go on with their education and to find out whether community college courses are a good basis for further education.
- The Shared Information System, which gathers information to help state and local agencies plan education and training services to help Oregon citizens get the best jobs available.
- The Office of Professional Technical Education Management Information System, to provide reports to the state and federal governments. The information is used to learn about education, training, and job market trends for planning, research and program improvement. Funding for community colleges is based on this information.
- The Oregon Employment Department, which gathers information, including employment and earnings, to help state and local agencies plan education and training services to help Oregon citizens get the best jobs available.
- The Oregon Department of Education, to provide reports to local, state, and federal governments. The information is used to learn about education, training, and job market trends for planning, research and program improvement.
- The Oregon Department of Revenue and collection agencies only for purposes of processing debts and only if credit is extended to you by the college.
- The National Student Loan Clearinghouse for the purpose of verifying your enrollment at other colleges, universities and vocational schools.
- The Internal Revenue Service, to provide required information related to the Taxpayer Relief Act of 1997.

State and federal law protects the privacy of your records. Your number will be used only for the purposes listed above.

Solomon Amendment Disclosure

The Solomon Amendment requires by law that the college release: student name, address, telephone number, date of birth, educational level, academic major and degrees awarded upon request from recruiters of the branches of the U.S. military.

Student Information

The college collects data on all students.* The kind and amount of data differ for each student depending on the kind of services you use and the length of your stay at the college. Pursuant to Public Law 93-380, you may review all official records, files, or data pertaining to you, with the following exceptions:

- Confidential financial information reported by the parent or guardian unless the records explicitly grant by written permission the student to review the financial statement.
- Medical, psychiatric, or similar records used for treatment purposes.

Access to your student record is guaranteed and must be made available to you within 45 days of your official request. You may challenge the content of a record you consider inaccurate, misleading, or otherwise in violation of your privacy or other rights by contacting the college Registrar. You have the right to a hearing as outlined in the “Students’ Rights, Freedoms & Responsibilities” section of the Student Handbook.

* All data from records submitted, filed and accumulated in Enrollment Services become the property of the College.

Student Right to Know and Other Notification Requirements

Clackamas Community College information regarding academic programs, student completion/graduation rates, financial assistance, athletics, institutional financial support, privacy rights (FERPA), campus security, crime statistics and other Student Right to Know items may be obtained by going to www.clackamas.edu/student-rights

Printed copies of this information may also be obtained by contacting the Registration and Records Office at 503-594-3370 or registrar@clackmas.edu

www.clackamas.edu
Discrimination Concerns

Clackamas Community College does not discriminate on the basis of race, color, religion, gender, sexual orientation, marital status, age, national origin, disability, family relationship or any other protected status in accordance with applicable law. The college’s commitment to non-discrimination applies to curricular activity and all aspects of the college. In accordance with applicable law, Clackamas Community College does not discriminate on the basis of a disability and is specifically dedicated to providing a harassment free environment for all people with disabilities, as well as timely and effective provision of services for students with disabilities. To this end the following procedures are designed to serve any member of the community who experiences any form of discrimination.

ADA Complaint Procedure

Any student who feels that they have been discriminated against or harassed due to their disability should contact the Disability Resource Coordinator to report the event. The Disabilities Resource Coordinator will then investigate the incident consistent with the ADA complaint process. Any student who feels they have been discriminated against due to disability is free at any time to submit a complaint to the office for Civil Rights. Please refer to board policy for ADA Grievance Procedure and Discrimination form:

policy.osba.org/clackcc/AB/ACA%20R%20G1.PDF
policy.osba.org/clackcc/AB/AC%20R%20G1.PDF

Sexual Harassment, Assault, and Title IX

503-594-3300
TitleIX@clackamas.edu
www.clackamas.edu/sexualrespect

Title IX is a federal law that protects the rights of all students related to sex, gender and gender identity. The College is required to investigate all incidents of sexual misconduct and, other than those who are expressly exempt from reporting, faculty and staff (called “responsible employees”) are required to report such incidents when they receive information about sexual misconduct. Resources are available to those who have been sexually harassed or assaulted, including speaking with an on-campus confidential advocate (who does not have a duty to report). If you or someone you know has been harassed or assaulted, consult the Title IX website for more information and options.

If you need assistance resolving a problem, see page 42 for information and a Problem Resolution Form.

Clackamas Community College is a diverse community that provides equal opportunity in employment, activities, and its programs. It is the policy of the Clackamas Community College and its Board that there will be no discrimination or harassment in any education programs, activities or employment on the grounds of race, color, religion, ethnicity, use of native language, national origin, sex, sexual orientation, marital status, disability, veteran status, age, genetic information or any other status protected under applicable federal, state or local laws. The College also prohibits retaliation against an individual for engaging in activity protected under this policy, and interfering with rights or privileges granted under anti-discrimination laws. Persons having questions about equal opportunity and nondiscrimination should contact the dean of Human Resources for Clackamas Community College in Barlow Hall at the Oregon City campus, 503-594-3300.

Please note the following areas of responsibility, should you need relevant resources or information:

Section 504 Coordinator, Disability Coordinator
Oregon City campus, 503-594-6357

Title II Coordinator, Darlene Geiger, Associate Dean
Oregon City campus, 503-594-3392

Title IX Coordinator, Patricia Anderson Wieck, Dean, Human Resources
Oregon City Campus, 503-594-3300
Problem Resolution Form

This form is to help students who want to report a problem regarding a faculty or staff member of the College. Please read the instructions below. Students should submit this form to the Director (in the case of a staff member) or the Department Chair (in the case of a faculty member) of the department of the faculty/staff member of concern. Students unsure of where to direct this form should contact Jennifer Anderson, Associate Dean for Enrollment and Student Services, Community Center 123, jennifer.anderson@clackamas.edu.

Please reference the college rule, policy, or procedure allegedly violated as described in Student Rights, Freedom & Responsibilities www.clackamas.edu/students-rights

Name: __________________________ CCC Email: __________________________

Student ID: __________________________ Telephone: __________________________ Date: __________________________

Mailing Address: __________________________ City: __________________________ State: __________________________ Zip: __________________________

Date the Problem Occurred: __________________________ Location of incident: __________________________

On a separate piece of paper re-type or clearly print each question prior to each of your answers:

• Have you spoken with the staff member involved (circle one): yes  no
  If yes, please provide name(s) and describe the discussion, including outcome.
• Please describe the issue, giving rise to your problem/concern, in as much detail as possible. Include any places, dates and/or times you can recall. Also reference campus policy and/or procedures as they may apply.
• Please describe—as clearly as you can—what would resolve this issue for you.

Student Signature: __________________________________________________________

FOR OFFICE USE ONLY: Date Stamp Received: __________________________ By: __________________________ (initials)

Problem Resolution Form Instructions

Use this form if you have a problem with a member of the college staff that you would like help in resolving. This procedure is not appropriate to address a grade dispute (the instructor maintains authority over a grade) or to pursue a sexual harassment complaint or discrimination due to disability (separate procedures through the HR office are available for these.) To resolve a problem with a member of staff, please follow these steps:
The College encourages you to meet with the staff member involved and discuss the situation. Staff members are eager to listen and, if appropriate, accommodate the concerns of students. If you are uncomfortable doing this or if you are not satisfied with the outcome of your discussion and want to pursue this matter further, use this form as outlined in the remaining steps.
Fill out this form and give it to the staff member’s immediate supervisor or to the appropriate Department Chair. You must do this within 30 days of the end of the quarter (term) in which the incident occurred.
Within five working days of receipt of this form, staff will attempt to resolve the situation by discussing it with the staff member and the student. Working days are days that classes are in session.
If you are dissatisfied with the supervisor / Department Chair’s efforts on your behalf and want to pursue the “Formal Procedure,” follow the steps as outlined in the Student Handbook.
All parties are urged to respect the confidential nature of these discussions.

Tips for successful communication when using this form

Ask yourself these questions:
• Stick to the facts: What are the objective facts that describe the situation?
• Is there a policy in the student handbook or class syllabus that relates to the problem?
• Can you request a meeting that is in a safe location and provides time for all parties to prepare?
• Do you have any documentation to support the claims made about the problem?
Remember: Rarely do problems get resolved when emotions are high. Give yourself—and others—time to think about it prior to the conversation. Count to ten. Breathe.
• Separate the problem from the person.
• Focus on shared interests.
• Generate as many solutions as possible.
• Identify solutions that both parties would agree are viable options for resolution.
Graduation Requirements

Requirements for degrees, certificates and diplomas are subject to approval by the Oregon Department of Education. Students are encouraged to submit a Petition for Graduation TWO TERMS prior to their anticipated term of completion. Petitions submitted before the sixth week of each term will be reviewed during the term submitted. Petitions submitted after the sixth week will be handled in date order and may be processed for the current term as time allows. Forms are available at www.clackamas.edu/forms.

General Requirements
(apply to all degrees, certificates and diplomas)

You will be evaluated for degree and/or certificate requirements under the current catalog unless a request for a prior catalog year is indicated on your Petition for Graduation form. You must meet the following conditions to request an exception:

- You must complete 25% of your degree and/or certificate requirements at CCC.
- You must petition for graduation within one calendar year from the date you completed requirements for the degree and/or certificate.
- The prior catalog cannot be more than five years old (e.g. in 2017-18, the oldest catalog that can be used is 2012-13).
- For the catalog selected, you must have earned at least one credit in that calendar year.

The awarding of the credential becomes official only when graduation information has been posted to your transcript.

Multiple Degrees/
Certificates of Completion

Students may earn multiple different degrees. Student must meet all the requirements for each degree of certificate. Please note that a separate Petition for Graduation form must be filed for each individual associate degree and/or certificate of completion that you are attempting to earn.

To Successfully Graduate

You will be more likely to graduate if you do the following:

- Send all transcripts to Graduation Services as soon as possible
- Have coursework from other colleges evaluated early
- Talk with an Academic Advisor early and often
- Complete all pre-requisites for required courses
- If you change your mind about what you are studying, notify Enrollment Services as soon as possible
- If you plan to transfer to a four-year university or college, contact that institution to inquire about articulation agreements in your field of study
- Be sure to submit a Petition for Graduation form two terms before you think you will be finished with classes so CCC can confirm you have met all of your degree or certificate graduation requirements

Graduation Ceremony

Formal graduation activities are held at the end of Spring term. Students who complete degree or certificate requirements during preceding terms are invited to participate in the Spring term commencement ceremony. Two ceremonies are planned, the first for High School Diploma and GED graduates, and a second for certificate and degree program graduates.

Honors status is granted to students achieving a cumulative GPA of 3.5 on total credits earned at Clackamas. The honors status of Spring term graduates is determined by cumulative GPA through the preceding Winter term.
## Degree Programs

The following chart lists CCC degrees and certificates, comprised of related programs, which provide context for academic, technical, and career learning. See page 84 for an alphabetical listing of the following Career Technical programs.

Degrees

**Associate of Arts Oregon Transfer (AAOT)**

The AAOT is a two-year degree that has been designed for the student intending to transfer to a four-year college or university and pursuing upper division baccalaureate courses. CCC students who have earned an AAOT degree will be eligible for junior standing for the purposes of registration at any of the schools currently part of the Oregon University System (OUS).

**Associate of Science Oregon Transfer – Business (ASOT)**

The ASOT–Business degree is a two-year degree designed for the student intending to transfer to a four-year college or university within the Oregon University System (OUS) and pursuing upper division baccalaureate courses in Business. CCC students who have earned the ASOT–Business degree and have met the transfer institution’s lower-division general education degree requirements will be eligible for junior standing for the purposes of registration.

**Associate of Science Oregon Transfer – Computer Science (ASOT)**

The ASOT–Computer Science degree is a two-year degree designed for the student intending to transfer to a four-year college or university within the Oregon University System (OUS) and pursuing upper division baccalaureate courses in Computer Science. CCC students who have earned the ASOT–Computer Science degree and have met the transfer institution’s lower-division general education degree requirements will be eligible for junior standing for the purposes of registration.

**AAOT/ASOT Student Learning Outcomes**

The AAOT/ASOT transfer degrees at Clackamas Community College are designed to prepare students to succeed after transferring to Oregon University System schools and to attain GPAs comparable to students who begin their education at those institutions. Students who attain these degrees will possess a wide range of knowledge and skills, as described in the categories below.

As a result of completing the AAOT, students should be able to:

**ARTS & LETTERS**

- Interpret and engage in the Arts & Letters, making use of the creative process to enrich the quality of life; and
- Critically analyze values and ethics within a range of human experience and expression to engage more fully in local and global issues.

* “Arts & Letters” refers to works of art, whether written, crafted, designed, or performed and documents of historical or cultural significance.

**CULTURAL LITERACY**

- Identify and analyze complex practices, values, and beliefs and the culturally and historically defined meanings of difference.

**MATHEMATICS**

- Use appropriate mathematics to solve problems; and
- Recognize which mathematical concepts are applicable to a scenario, apply appropriate mathematics and technology in its analysis, and then accurately interpret, validate, and communicate the results.

**SCIENCE OR COMPUTER SCIENCE**

- Gather, comprehend, and communicate scientific and technical information in order to explore ideas, models, and solutions and generate further questions;
- Apply scientific and technical modes of inquiry, individually, and collaboratively, to critically evaluate existing or alternative explanations, solve problems, and make evidence-based decisions in an ethical manner; and
- Assess the strengths and weaknesses of scientific studies and critically examine the influence of scientific and technical knowledge on human society and the environment.

**SOCIAL SCIENCE**

- Apply analytical skills to social phenomena in order to understand human behavior; and
- Apply knowledge and experience to foster personal growth and better appreciate the diverse social world in which we live.

**SPEECH/ORAL COMMUNICATION**

- Engage in ethical communication processes that accomplish goals;
- Respond to the needs of diverse audiences and contexts; and
- Build and manage relationships.

**WRITING**

- Read actively, think critically, and write purposefully and capably for academic and, in some cases, professional audiences;
- Locate, evaluate, and ethically utilize information to communicate effectively; and
- Demonstrate appropriate reasoning in response to complex issues.

**INFORMATION LITERACY**

- Formulate a problem statement;
- Determine the nature and extent of the information needed to address the problem;
- Access relevant information effectively and efficiency; and
- Understand many of the economic, legal, and social issues surrounding the use of information.

*Information Literacy outcomes and criteria will be embedded in the Writing Foundational Requirements courses. At Clackamas, WR-121 and WR-122 meet that requirement.*
ASOT students will also be able to:

- Understand and apply micro- and macroeconomic theories and models to individual, group, and societal behavior and choices;
- Recognize and apply business statistical methods and explain how they affect business decision making;
- Prepare letters, reports and memos related to business topics using technology.

**Associate of Science (AS)**

The Associate of Science degree is designed for students who wish to take the first two years of their coursework at Clackamas Community College, then transfer to a particular four-year institution to complete a degree in the designated discipline. The Associate of Science degree has both general education and discipline specific requirements. In addition, this degree is institution specific, and the courses listed have been agreed on by the receiving institution as acceptable towards the four-year degree. Completing the Associate of Science degree does not guarantee acceptance into schools or departments that have special admissions requirements. It is important for the student to meet with an advisor to ensure that s/he fully understands the degree requirements.

**Associate of General Studies (AGS)**

The Associate of General Studies is a two-year foundational degree designed to provide flexibility and uses a variety of college-level course work to meet degree requirements. Students are encouraged to work closely with an academic advisor if they are planning to transfer to a four-year college or university upon completion of the AGS degree. Program outcomes for the AGS degree include a two-year college degree experience that supports individual student needs and interests.

**Oregon Transfer Module (OTM)**

The OTM represents approximately half of an associate's degree (45 credits). The OTM is designed for students who wish to transfer to an Oregon University System (OUS) school or another Oregon community college. Completion of the OTM can help those students taking courses at multiple post-secondary institutions by ensuring transferability of coursework. This is not a degree or certificate but is documentation on a student's transcript that they have met a subset of common general education requirements. Please refer to page 78 for Student Guide information. Students interested in the OTM should meet with an academic advisor in Student Services, see page 18.

**Associate of Applied Science (AAS)**

Associate of Applied Science degrees are career technical in nature and are intended primarily to lead students directly to employment in a specific career. Occupational licensure, career advancement and further study at a four-year college or university are additional opportunities for students earning an AAS degree. Associate of Applied Science degrees are awarded to students who complete the requirements of a specified, two-year career and technical program and are offered in a number of interest areas (see page 45-46).

**Certificates of Completion (CC)**

Certificates of Completion are career technical in nature and are designed to prepare students for entry into the workforce. Occupational licensure, career advancement and further study at a four-year college or university are additional possible opportunities for students earning Certificates of Completion at CCC. Certificates of Completion can be a one-year program or a less-than-one year program.

**Career Pathway Certificates**

Career Pathway Certificates of Completion programs are designed to acknowledge a proficiency in a particular technical skill grouping with occupational program outcomes. Please refer to the specific AAS or certificate program for certificate/degree requirements.

**General AAS and CC Requirements**

General requirements for obtaining an AAS or CC include:

- Complete a minimum of 90 credits for an AAS degree
- Establish a cumulative 2.0 GPA at CCC
- Establish residency by earning a minimum of 25% of the degree or certificate credits at CCC
- See page 44 for additional general requirements for all degrees and certificates
- Specific discipline requirements are listed on pages 81-158.
Diplomas

Adult High School Diploma (AHSD)

Clackamas Community College is authorized by the State Board of Education to award the Adult High School Diploma (AHSD). Students who enter the college’s high school diploma program may transfer credits from accredited high schools. AHSD students may also enroll in college credit classes and may receive dual credit.

Students who are under 18 years old, whose K-12 cohort has not yet completed four years of high school, must provide the AHSD program with one of the following:

- A Release from Compulsory Attendance from their boundary high school to be kept on file. A release must be obtained before commencing participation in the program. Instructors will not provide necessary signatures for a student to register for Adult Secondary Education courses until a Release from Compulsory Attendance is provided, or
- A contractual referral from their boundary high school which allows students to participate in the AHSD program while earning credits to transfer back to and graduate from their boundary high school.

REQUIREMENTS FOR ADULT HIGH SCHOOL DIPLOMA

Complete a minimum of 24 high school units:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Language Arts</td>
<td>4</td>
</tr>
<tr>
<td>(Shall include the equivalent of one unit in written composition.)</td>
<td></td>
</tr>
<tr>
<td>Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>Science</td>
<td>3</td>
</tr>
<tr>
<td>US History</td>
<td>1</td>
</tr>
<tr>
<td>Global Studies</td>
<td>1</td>
</tr>
<tr>
<td>Government &amp; Civics</td>
<td>1</td>
</tr>
<tr>
<td>Health Education</td>
<td>1</td>
</tr>
<tr>
<td>Physical Education</td>

</tr>
<tr>
<td>Career &amp; Technical Education, the Arts, and/or Second Language (any one area or in combination)</td>
<td>3</td>
</tr>
<tr>
<td>Electives</td>
<td>6</td>
</tr>
<tr>
<td>Total:</td>
<td>24</td>
</tr>
</tbody>
</table>

Additionally, students earning their AHSD are required to take the COMPASS college placement test as an exit activity the term prior to their expected graduation as part of their transition plan and as a way to show competency in Reading, Writing and Math.

COMPASS scores allowing admittance to MTH-060, WRD-090, and WRD-098 or equivalent are required. Students must demonstrate proficiency in essential skills for reading, writing, math, and create a personalized learning plan. Students must successfully complete at least 12 college credits or two high school units through CCC.

General Education Development (GED)

Students may earn a high school equivalency certificate by passing the General Education Development (GED) test. Students must be at least 16 years old; those under 18 are admitted only with a referral or a letter of release from compulsory attendance obtained from the high school principal or counselor. A fee is charged each term. Spanish GED is also available. Refer to the current Class Schedule for local GED options.

Registration for GED preparation classes takes place in the Dye Learning Center.

</table>

### GENERAL EDUCATION DISTRIBUTION AREA

#### Arts & Letters
3 courses from 2 or more disciplines. Each course must be at least 3 credits.

Choose from the following:

#### Social Science - 4 courses from 2 or more disciplines. Each course must be at least 3 credits.

Choose from the following list:
- ANT-101,*102,*103,*104,*205; CJA-101,201; EC-200,201,202; GEO-*100,*110,*121,*122,*130,*208; HST-*101,*102,*103,*130,*131,*132,*136,*137,*138,*201,*202,*203,*210,*220; PS-*200,201,202,203,204,205,206,225; PSY-*200,*205,*214,*215,*219,*221,*231; SOC-*204,*205,*206,*210,*225; SSC-*160,*231,*235,*240,*241,*242; WS-101 |

#### Science/Math/Computer Science - 4 courses from at least 2 disciplines including at least 3 laboratory courses in biological and/or physical science.

Choose from the following courses:

**Cultural Literacy** - 1 course

Courses meeting the Cultural Literacy requirement are noted with an asterisk.

**Elective Courses**

Any college-level course that would bring total credits to 90 credits.

Other courses numbered 100 or above may be used in this area, which may include up to 12 credits of career technical courses. Please refer to the Career Technical Programs, pages 81-158, for a listing of courses that may be included in the 12 credits mentioned above.

* Course meets Cultural Literacy requirement.

Note: Placement in WR-121 is recommended for courses on this page and in some cases, placement in MTH-105 or MTH-111 may also be recommended. See course descriptions, pages 159-256.

Note: No course may be used to satisfy more than one requirement or distribution area.

**Notes:**

1. All courses must be 100 level or higher.
2. All courses must be at least three credits.
3. All courses must be passed with a grade of C or better.
4. Students must establish a cumulative GPA of 2.0 or above.
5. No course may be used to satisfy more than one requirement or distribution area.
6. Submit a Petition for Graduation form to Graduation Services two terms prior to when you expect to graduate.

---

Students are encouraged to work closely with an academic advisor if they are planning to transfer to a four-year institution upon completion of these programs. Call 503-594-3475 or email: advising@clackamas.edu for more information.
**Associate of Science Degrees**

**Biology**

**Associate of Science Transfer Degrees in Biology**

Students receiving an Associates of Science degree with an emphasis in Biology will be prepared to transfer into upper division courses to complete a Bachelor of Science degree in Biology. Courses establish the foundations in understanding cellular processes, evolution, ecology, plant and animal physiology and population studies.

**CAREERS**

Career pathways include pre-pharmacy, pre-medical, pre-veterinarian, biological and zoology research fields, wildlife and fisheries management, and a wide range of related fields.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- communicate complex ideas by demonstrating an ability to gather and analyze data, construct evidence-based arguments and critically evaluate information;
- be able to apply critical thinking to address biological phenomena using scientific processes,
- demonstrate an understanding of the complexity and diversity of life,
- analyze and construct relationships between human activities and the environment,
- recognize the contributions of scientific knowledge in contributing to technological advances and advancing the human condition.

For information contact Tory Blackwell, 503-594-3646 or toryb@clackamas.edu, Lilly Mayer, 503-594-3356 or lillym@clackamas.edu, or Polly Schulz, 503-594-3358 or pollys@clackamas.edu

92

**CORE ELECTIVES**

Any General Education course in the respective distribution areas of Arts & Letters or Social Sciences listed on page 50 of this catalog.

**Computer Science**

An Associate of Science with an emphasis in Computer Science is a transfer degree intended to provide students with an overwhelming majority of the first two years’ coursework required for a Bachelor of Science in Computer Science. A degree in Computer Science is a degree in programming: creating new software applications. This is a high-demand, high-paying field that offers job security and ongoing growth as the number of computing devices and demand for sophisticated operating systems, web and productivity applications, and games increases. We encourage all students interested in this program to pursue a co-enrollment option with the university. For information contact Jen Miller, 503-594-3138 or jen.miller@clackamas.edu, or Richard Albers, 503-594-3166 or richa@clackamas.edu

**CAREERS**

AS degrees are not designed to be direct-to-work credentials. Students completing a Bachelor of Science in Computer Science, depending upon internships and focused electives, would be qualified for a career in computer programming with possible job titles including, but not limited to:

- application developer
- game developer
- web developer

Continued
Computer Science continued…

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

• explain the software development lifecycle and the specific tools and processes used to create software,
• describe the components, purposes, and benefits of both structured and object-oriented programming paradigms and demonstrate the development of software using them in a high-level language;
• explain and demonstrate various ways information is stored and manipulated, at both a low and high level, in computer systems and software,
• employ mathematics and computing techniques in a system and rigorous manner to solve technical problems,
• exhibit good teamwork skills and serve as effective members of project teams

Associate of Science with an emphasis in Computer Science with Portland State University

PREREQUISITES
Students entering the Associate of Science degree are expected to have the following courses complete, or to place at a level higher than the courses indicated:

• CS-120 Survey of Computing
• MTH-112 Trigonometry and Pre-Calculus

Credits required for degree 90-106

ARTS & LETTERS OR SOCIAL SCIENCE ELECTIVES

Any 100 level or above Arts & Letters or Social Science course in the prefixes of:

ARTS & LETTERS
ART, ASL, BA, COMM, ENG, FR, GER, HUM, J, MUS, MUP, PHL, R, SPN, TA, WR

SOCIAL SCIENCE
ANT, EC, GEO, HST, PS, PSY, SOC, SSC, WS

COMPUTER SCIENCE RECOMMENDED ELECTIVES

Students must choose 12-16 credits from the following two categories. Students do not need to complete all of the electives within any one category.

• OPERATING SYSTEMS
Transfer students will be expected to be fluent with UNIX/Linux systems used in university labs. These courses, CS-140 and CS-240L, will help students with no Linux experience build the necessary competencies.

• ADDITIONAL LANGUAGES
These courses, CS-125H, CS-133S, CS-234J, and CS-234P, will help students expand their language repertoire to enhance their marketability and job opportunities.

SCIENCE ELECTIVES
Any General Education science course listed under prefixes: BI, CH, ESR, G, and PH on page 50 of this catalog.
Engineering

The Associate of Science with an emphasis in Engineering is for students interested in transferring a bachelor's degree to Portland State University, Oregon State University, Oregon Tech (Oregon Institute of Technology) or George Fox University.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- identify the broad context of engineering problems, including describing the problem conditions, identifying possible contributing factors, and generating alternative solution strategies;
- identify the fundamental elements of engineering design, including associated safety, quality, schedule and cost considerations;
- employ mathematics, science, and computing techniques in a systematic and rigorous manner to support the study and solution of engineering problems;
- conduct and document laboratory experiments in the sciences and engineering, effectively communicating determined quantitative relationships using both graphs and equations;
- exhibit good teamwork skills and serve as effective members of laboratory and project teams,
- articulate and justify technical solutions to an audience through oral, written, and graphical communication;
- communicate the importance of professional and ethical responsibilities of engineers, and be aware of codes and other sources of guidance for professionally ethical decision making.

Credits required for degree 107

**SOCIAL PROCESSES ELECTIVE:**

ANT-103; EC-201, 202, 230; HST-101, 102, 103; PS-201, 202, 204, 205, 225; PSY-110, 200, 205, 219, 231; SOC-204, 205, 206

**WESTERN CULTURE ELECTIVE**

ART-204, 205, 206; ENG-107, 108, 109, 201, 202, 203, 204, 205, 250, 251, 253, 254, 255, 275; GEO-122, 208, 230; HST-101, 102, 103, 201, 202, 203; PHL-102, 215; PS-206; R-204

Optional: While not required for the AS degree, students may complete additional coursework at CCC that meet requirements for the Bachelor of Science degree at Oregon State University. The Bachelor of Science degree requires the completion of one course from each category below.

**CULTURAL DIVERSITY ELECTIVE**

ANT-230, 231, 232; ENG-213, 252; GEO-110, 121, 230; R-101, 102, 103, 210

**LITERATURE AND THE ARTS ELECTIVE**

ART-101, 102, 103, 204, 205, 206; DMC-194; ENG-104, 105, 106, 107, 108, 109, 194, 195, 201, 202, 203, 204, 205, 213, 250, 251, 252, 253, 254, 255, 260, 275; MUS-105, 205, 206

**DIFFERENCE, POWER, AND DISCRIMINATION ELECTIVE**

HST-201, 202, 203; SOC-225

**PHYSICAL EDUCATION ELECTIVE**

HPE-295

**Emphasis in Chemical Engineering**

**PROGRAM REQUIREMENTS – FIRST YEAR**

Complete one set of Engineering electives for the AS degree.

ELECTRICAL & COMPUTER ENGINEERING MAJORS:
ENGR-221 (Circuits I, 4 credits, Fall), ENGR-222 (Circuits II, 4 credits, Winter), ENGR-171 (Digital Logic, 4 credits, Winter), and ENGR-271 (Digital Systems, 4 credits, Spring)

MECHANICAL & CIVIL ENGINEERING MAJORS:
ENGR-211 (Statics, 4 credits, Fall), ENGR-212 (Dynamics, 4 credits, Winter), ENGR-231 (Properties of Materials, 4 credits, Winter), Intercultural Experience elective (Choose one of the following: FR/GER/SPN-101, 102, 103, 201, 202, 203; ANT-103; COMM-140; ENG-107, 108, 109; R-210)

HISTORY ELECTIVE
Choose one of the following:  
HST-101, 102, 103, 201, 202, 203; PS-205

English

The Associate of Science degree with an emphasis in English is for students interested in transferring a bachelor’s degree to Marylhurst University, Oregon State University, Portland State University, or University of Oregon with an emphasis in Literature, Creative Writing, and Publishing.

Reading and writing skills have never been as central to our lives as they are today. Within the course of one day or one hour, we are bombarded with information on our televisions, computer screens, and telephones. We write socially, creatively, professionally, and/or academically, and we do so on a phone, a tablet, a desktop, or a physical piece of paper. An AS degree in English offers an array of opportunities. We offer four focus areas, including studies in English Literature, Creative Writing, Comics, and Publishing to prepare students to navigate the world of images and words.

Where can a degree in English take you? The possible answers to that question lie in the skills that you gain through focusing on reading and writing, thinking and words. English majors graduate with the ability to analyze the words of others, think both critically and creatively, research ideas and argue important positions, and organize their own thoughts into effective and articulate forms from web content to grant applications, business proposals to novels. Because of these skills, the National Association of Colleges and Employers has ranked English as one of the top-paying liberal arts majors, with average starting salaries above $40,000, and often rising much higher in the ten years after graduating.

The employment opportunities that accompany an English major are myriad. One obvious example is the field of publishing. But English majors rarely stop at the obvious. Their skills apply equally well to the fields of public relations, marketing, advertising, and copywriting. In a business setting, English majors often find success as communications managers, web developers, researchers, project leaders, or administrators. If you want your words to reach the lives of others, English might guide you to the areas of law, government, and public policy. For those who truly love filling a blank page, English can lead into creative writing, speech writing, professional blogging, or technical writing. And the careers of professional writer, librarian, and teacher are ideal if you find that your love of English is uncontainable and must be shared.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:
- identify research methods appropriate for specific topics,
- interpret and analyze a variety of texts based on close reading and analysis,
- construct sound academic arguments that prove an understanding of rhetorical conventions and diverse audiences,
- rewrite and edit work after reflection upon peer and instructor feedback,
- collaborate with peers on writing projects and presentations.

Creative writing and publishing students will additionally be able to:
- complete a short play, screenplay, series of poems, collection of creative nonfiction pieces, compilation of short stories, and/or text for a graphic novel,
- demonstrate an understanding of independent publishing and production,
- discover and/or create opportunities for professional publishing and production.

or SPN-203 Second-Year Spanish III 4

ENG-254 American Literature, Part 2
or ENG-297 AS Degree Portfolio 1

HST-103 History of Western Civilization
or — — English program elective 3-5

Credits required for degree 90-93

Note: Prerequisites for second year world languages: Either two years of high school world languages, OR, one year of college 100-level courses ASL, FR, GER or SPN-101, 102, 103.

SOCIAL SCIENCE ELECTIVES

- ANT-102, 103, 231, 232; EC-201, 202; GEO-110, 121, 122, 208;
- HST-101, 102, 103, 131, 132, 136, 137, 138, 201, 202, 203, 220;

OTHER SCIENCE ELECTIVES

- PH-121, 122, 123, 201, 202, 203, 211, 212, 213; PSY-200; Z-201, 202, 203

ENGLISH PROGRAM ELECTIVES

*NOTE: One selection from ENG-104, 105, and 106 will count for credit at UO.

GENERAL ELECTIVE

Any other minimum 4-credit transferable course, except for prefixes PE or HPE, that is not already part of the degree requirements.

ARTS & LETTERS

Minimum 4 credit course per term

WR-220, 241, 243, 245, 263, 240, 242, 244, 246, 262, 265

Horticulture

Students receiving an Associate of Science with an emphasis in horticulture will be prepared to transfer into upper division courses to complete a Bachelor of Science degree in General Horticulture to Oregon State University. Courses establish a foundation in chemistry, biology and horticulture science/practices.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- communicate complex ideas by demonstrating an ability to gather and analyze data, construct evidence-based arguments and critically evaluate information,
- demonstrate an understanding of how horticulture integrates with contemporary social and environmental issues,
- apply critical thinking to assess a horticulture system: diagnose problems and recommend solutions,
- identify common woody and herbaceous plants in the landscape.

For information contact April Chastain, Horticulture Advisor, 503-594-3055 or april.chastain@clackamas.edu

Geology

The Associate of Science with an emphasis in Geology prepares students to complete a Bachelor of Science degree in Geology. Courses establish the foundations in understanding of plate tectonics, geologic time, rock and mineral systems, rock and mineral identification, seismology, fossil formation, surface processes, map reading and geologic structures.

CAREERS
Career pathways include hydrogeology, geological research, geologic hazards, mineral resources, and a wide range of related fields.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

• assess geological environments and explain human impact on the environment, hazards associated with them and how these hazards affect society;
• use geologic tools to gather, assess, interpret and explain data relative to a geologic setting, tools include: rocks and minerals, maps, fossils, compasses and GPS;
• communicate complex ideas by demonstrating an ability to gather and analyze data, construct evidence-based arguments and critically evaluate information;
• demonstrate an understanding of the basic principles that guide the science of geology, these include: plate tectonics, Earth's structure, seismology, rock and mineral formation, rock and mineral identification, fossil formation, geologic time and dating, surface processes, and Earth's history.

Courses are not always offered during the terms indicated. MTH-254 can be taken in fall and MTH-261 can be taken in spring.

GENERAL ELECTIVES

General electives for this requirement can be any college-level course 100 level or above.

Recommended courses that would compliment upper division courses at Portland State University include:

- Computer Science (CS-120, 161, or 162)
- Math (MTH-253 or 256)
- World Languages (SPN, FR, GER, ASL)
- Geographic Information Systems (GIS)
- Geology (G-145 or 148)
- Time permitting also recommended: PH-201, 202, 203, 211, 212 or 213.

SOCIAL SCIENCE ELECTIVES

Electives for this requirement can be any Social Science General Education course as listed on page 50 of this catalog.

Music

The Associate of Science with an emphasis in music is for students interested in transferring into a bachelor's degree program at Portland State University. Students will be prepared to transfer into upper division courses to complete a bachelor of music degree. Courses establish the foundations in understanding of music theory, aural skills, keyboard skills, ensemble playing, music performance and music technology.

CAREERS

Career pathways include music performance, composition, music education, jazz studies, and a wide range of related fields.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- communicate understanding of the inner workings of musical compositions, relating to theory, form, range, and emotional impact;
- demonstrate proficiency with performance of musical instrument, utilizing standard performance practice of multiple eras and styles;
- use industry software to notate musical examples;
- demonstrate an understanding of the basic principles that guide music, these include: recognition of musical building blocks (pitch, rhythm, intervals, scales, etc.), basic level of keyboard proficiency, four-part composition, analysis of musical examples.

**TOTALS**

(Total minimum of 45 credits required.)

**Additional Requirements**

- Complete a minimum of 45 credits
- Complete at least 11 credits at CCC
- Establish cumulative GPA of 2.0 or above at the time the module is posted

*Note: All courses must be 100 level or higher. All courses must be at least three credits. All courses must be passed with a grade of "C" or better. No course may be used to satisfy more than one requirement or distribution area. The OTM is not a certificate or degree, but is documentation that students have met a subset of common general education requirements.*

Students are encouraged to work closely with an academic advisor if they are planning to transfer to a four-year institution upon completion of these programs. Call 503-594-3475 or email: advising@clackamas.edu for more information.
Prerequisites for Reading, Writing and Math Courses

These charts regarding math, writing and reading prerequisites are designed to help you map out the courses you will take to complete your studies, or to meet prerequisites for other courses you wish to take. First, determine your academic or career goal on the Math Pathways Chart. Next, meet with a PASS advisor or take a placement test to determine which math and writing course you need to register for first.

*M indicates a math course for a specific program.

Education That Works

Clackamas Community College
Approved Related Instruction Courses

Associate of Applied Science Degrees and Certificates

**Associate of Applied Science (AAS)**
For an Associate of Applied Science degree complete one course from each of the following requirement areas:
- Communication
- Computation
- Human Relations
- Physical Education/Health/Safety/First Aid

**Certificate of Completion (CC)**
For a Certificate of Completion that is at least one academic year in program length, complete one course from each of the following requirement areas:
- Communication
- Computation
- Human Relations

Students are encouraged to work closely with an academic advisor if they are planning to transfer to a four-year institution upon completion of any of these programs.

**List of Approved Courses:**
The following represents approved courses for meeting related instruction requirement areas.

**Communication**
- WR-101, 121, 122, 222, 227; BA-214

**Computation**
- Computer Science: CS-133VB, 161, 162, 163
- Mathematics: MTH-050, 052, 054, 065 or above (except 199 and 299)

**Human Relations**
- Business: BA-285
- Criminal Justice: CJA-250
- Education: ED-258
- Human Services: HS-156; HD-161
- Oral Communication: COMM-100, 126, 140, 218, 219, 227
- Psychology: PSY-101, 215 (for Nursing Program only)

**Physical Education/Health/Safety/First Aid**
- Health/Safety/First Aid: Courses with an HE prefix or MFG-107
- Physical Education: Courses with an HPE or PE prefix

www.clackamas.edu
Cooperative Work Experience (CWE)
The Cooperative Work Experience (CWE) is an internship program which offers students the opportunity to earn college credit by working in a job directly related to their program of study. CWE offers expanded learning experiences through exposure to actual work situations, organizational relationships, equipment, and techniques that cannot be duplicated in the classroom.

CCC’s CWE program creates a vital bridge between college studies and workplace success

Requirements & Registration for CWE:
- Declare a program of study and complete all prerequisites for CWE.
- 1-3 terms before the end of your program, meet with the CWE instructor in your department to discuss CWE requirements.
- Determine number of credits to enroll in. You are expected to work approximately 30 hours for each CWE credit.
- Secure the CWE Work Site
  - If you have a job appropriate to your program of study, get this approved by your CWE instructor.
  - If you do not have a CWE site, find one with the assistance of your instructor.
- Final Steps to enrolling in CWE
  - Fill out online application. (Application can be found at www.clackamas.edu/cwe)
  - Fill out the form with 1) the appropriate CWE course for program of study, and 2) the classroom or online CWE seminar.
  - Get signature from your instructor on the registration form.
  - Get signature and stamp from the CWE office on the registration form.
  - Turn registration form in to registration office.
  - Participate in a CWE seminar course on career management skills and complete seminar assignments.
  - Successfully complete 30 hours of work experience for every credit.

Credit & Grading
The number of credits earned depends on the number of hours worked and the program requirements. Students may earn a maximum of 12 CWE credits per year.

Accounting Assistant

Associate of Applied Science Degree

PROGRAM CODE: AAS.ACCNTG

The Accounting Assistant program at Clackamas Community College emphasizes developing an advanced understanding of accounting principles, analytical skills and the capacity to solve problems. Students should have the ability to reason, read with comprehension and compute math applications.

The objective of the Accounting Assistant AAS program is to prepare students for a professional career within a focus area of accounting by building both technical and soft skills.

The program is not designed to lead to a traditional four-year business administration degree. For students interested in pursuing a bachelor’s degree, the Accounting Assistant Associate of Applied Science articulates to a Bachelor of Applied Science in Technology and Management at Oregon Tech.

For information contact Dr. Joan San-Claire, 503-594-3013 or joan.san-claire@clackamas.edu.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- BA-104 Business Math)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- BA-285 Human Relations in Business)
• Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (1 credit- courses with HE, HPE, or PE prefix)
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
• analyze and record accounting transactions;
• analyze and interpret basic financial statements;
• prepare basic budgets;
• identify and explain the basics of general fund accounting as used in municipal governments;
• identify and explain basic tax concepts with regard to individuals, partnerships, and corporations;
• accurately prepare product cost sheets in order to price manufactured goods;
• use basic business and accounting computerized tools.

CAREERS

Career opportunities include GSI Accountant I, bookkeeper, data-entry clerk, financial staff accountant, cost accountant and general office clerk.

ACCOUNTING ASSISTANT ASSOCIATE OF APPLIED SCIENCE DEGREE: 1ST YEAR

FALL TERM CREDITS
BA-101 Introduction to Business 4
BA-104* Business Math 3
BA-111 General Accounting I 4
WR-121 English Composition 4

WINTER TERM
BA-131 Introduction to Business Computing 4
BA-156 Business Forecasting 3
BA-177 Payroll Accounting 3
BA-211 Financial Accounting I 4
— — PE/Health/Safety/First Aid requirement
(see page 82) 1

SPRING TERM
BA-205 Business Communications with Technology 4
BA-212 Financial Accounting II 4
BA-285 Human Relations in Business 4
CS-135S Microsof Excel 3

ACCOUNTING ASSISTANT ASSOCIATE OF APPLIED SCIENCE DEGREE: 2ND YEAR

FALL TERM CREDITS
BA-213 Decision Making with Accounting Information 4
BA-223 Principles of Marketing 4
BA-226 Business Law I 4
BA-256 Income Tax Accounting 3

WINTER TERM
BA-216 Cost Accounting 3
BA-218 Personal Finance 4
BA-222 Financial Management 3
BA-227 Business Law II 4

SPRING TERM
BA-217 Budgeting for Managers 3
BA-228 Computerized Accounting 3
BA-255 Advanced Topics in Accounting & Auditing 4
WR-227 Technical Report Writing 4
— — Any BA/BT course not already included in the Accounting Assistant program 2-4

Credits required for degree 90-92

*For this degree, BA-104 meets the Related Instruction Computation requirement..
Accounting Clerk

Certificate

PROGRAM CODE: CC.ACNTGCLERK

Curriculum includes basic bookkeeping and accounting, including manual and computerized data entry, transaction analysis, preparation of financial statements and other related tasks.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- BA-104 Business Math)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- BA-285 Human Relations in Business)
• Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
• analyze and record accounting transactions and closing entries;
• analyze and interpret basic financial statements;
• prepare and account for basic payroll;
• use basic business and accounting computerized tools and systems.

CAREERS

Career opportunities include accounts payable clerk, accounts receivable clerk and data entry clerk for small and medium-sized service businesses.

For information contact Dr. Joan San-Claire, 503-594-3013 or joan.san-claire@clackamas.edu.

Credits required for certificate 47

*For this certificate, BA-104 meets the Related Instruction Computation requirement.

Courses in this program can be applied to satisfy elective requirements in the Business AAS degree.

Administrative Office Professional

Associate of Applied Science Degree

PROGRAM CODE: AAS.ADMINOFFPRO

This program provides a strong foundation of office and technology skills and courses in business administration, with an emphasis on critical thinking and human relations skills. The program includes Related Instruction requirements, industry standard computer programs and more advanced business administration courses.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- BA-104 Business Math)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- BA-285 Human Relations in Business)
• Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (1 credit- courses with HE, HPE, or PE prefix)
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
• effectively and independently use Microsoft Office (Word, Excel, Access, and PowerPoint), Adobe Professional, and Google Applications;
• identify and analyze organizational and planning procedures in business office operations;
• identify and analyze effective working relationships and Human Resources practices within a business or office environment;
• articulate, analyze, and apply basic business math and accounting skills common to business operations;
• analyze the concepts, rules, and principles of law applying to effective business practices.

CAREERS

Career opportunities may include administrative assistant, office manager, project coordinator, legal assistant and medical secretary.

For information contact Beverly Forney, 503-594-3115 or beverlyf@clackamas.edu.
### Administrative Office Assistant

**Certificate**

**PROGRAM CODE: CC.ADMINOFFASST1**

This program provides a strong foundation of basic skills in office administration. Emphasis is placed on critical thinking and human relations skills. Course work includes Related Instruction requirements, industry-standard computer programs and specific business and office administration courses.

#### RELATED INSTRUCTION OUTCOMES

- **Computation (1 course - BA-104 Business Math)**
  - Use appropriate mathematics to solve problems
- **Communication (1 course - WR-121 English Composition)**
  - Read actively, think critically, and write purposefully and capably for professional audiences
- **Human Relations (1 course - BA-285 Human Relations in Business)**
  - Engage in ethical communication processes that accomplish goals

#### PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- identify and analyze effective working relationships and Human Resources practices within a business or office environment;
- identify and analyze the skills necessary for effective business office operations;
- effectively use of Microsoft Office (Word, Excel, Access, and PowerPoint);
- apply correct English grammar in a business office environment;
- apply key concepts in the full cycle bookkeeping process;
- effectively apply basic math skills as required in business and financial environments.

#### CAREERS

Career opportunities include administrative assistant, legal secretary and medical secretary.

For information contact Beverly Forney, 503-594-3115 or beverlyf@clackamas.edu.

Administrative Office Assistant Training

Certificate

PROGRAM CODE: CC.ADMINOFFTRNG

This is a targeted job training program designed for those seeking new career opportunities in administrative office support positions. This program covers two-thirds of the required curriculum for the Administrative Office Assistant (one-year) certificate program.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- identify and analyze organizational and planning procedures in business office operations;
- effectively use Microsoft Office Outlook (email, calendar, and meeting scheduling);
- effectively use Microsoft Office Word;
- apply correct English grammar in a business office environment;
- analyze and apply basic computer literacy, including typing by touch;
- apply key concepts in the full cycle bookkeeping process;
- effectively apply basic math skills as required in business and financial environments.

CAREERS

Continued education and/or experience may lead to positions such as administrative assistant, office manager, or legal or medical office assistants.

For information contact Beverly Forney, 503-594-3115 or beverlyf@clackamas.edu.

APPRENTICESHIP

Certificate

Associate of Applied Science Degree

PROGRAM CODES: VARIES ACCORDING TO TRADE. SEE APPRENTICESHIP COORDINATOR.

Apprenticeship programs are approved for BOLI registered apprentices and are not available to the general student population. For more information about Oregon State registered apprenticeship programs, visit: www.oregon.gov/BOLI/ATD/Pages/A_Atdopen.aspx or contact the Apprenticeship and Training Division at 971-673-0760 for program and entrance requirements.

In conjunction with the Oregon State Apprenticeship Council, the Apprenticeship and Training Division (ATD), of the Bureau of Labor and Industry (BOLI), and local Joint Apprenticeship Training Committees (JATC), Clackamas Community College offers apprenticeship programs for the different trades. Clackamas’ Apprenticeship model offers educational trainings to prepare students for careers in the trades, provides statewide transfer opportunities, ladder-type certificates of completion, and an optional transfer path into Bachelor of Science degrees at Oregon Tech.

Clackamas offers a Certificate of Completion (CC) and an Associate of Applied Science (AAS) degree in Electrician Technologies Apprenticeship for Inside Electrician, Limited Energy Technician-License A, Limited Energy Technician-License B (CC only), Line Estimator, Lineman, Meterman, and Wireman; a Certificate of Completion and an Associate of Applied Science degree in Construction Trades, General Apprenticeship for Plumbers and Painters.

An apprentice has the opportunity to receive a certificate of completion (CC) and/or Associate of Applied Science degree (AAS) in their designated field of study upon the completion of their OJT, related training, journey level card/certificate and the required Related Instruction courses and possible elective courses, depending on the trade.

For more information on Clackamas’ apprenticeship certificates and degrees, please contact Leslie Donohue at 503-593-3031 or apprenticeship@clackamas.edu.
RELATED TRAINING
The related training is usually available from a nearby community college, employer, or union-based training program. The related training courses are based on ATD and local JATC-approved related training courses developed to meet industry standards. The related training provides the theories and background information that a person may not otherwise be exposed to working on the job. This technical knowledge complements the on-the-job training during the apprenticeship program and requires at least 144 hours per year. The course of study relates to the specific craft (electrician, plumber, etc.). The related training is a vital component that provides the apprentice with a solid background from which to continue learning and growing to meeting the changing demands of the workplace.

APPRENTICE
Upon completion of an apprenticeship program, the worker has enjoyed the opportunity to work with qualified craft workers and has learned the theories and science of the craft from qualified instructors. In addition, the apprentice receives an Apprenticeship Certificate of Completion that is recognized by companies nationwide. This certificate is one of the most basic and highly portable industry credentials in use today.

Construction Trades, General Apprenticeship AAS Degree (Limited Entry Program-Journeyman’s card required)

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- complete a minimum of 6000-8000 hours State of Oregon-approved on-the-job training (OJT);
- repair, install and maintain a variety of building construction projects using trade specific tools and techniques in compliance with building codes and OSHA regulations;
- complete required related training with a C or better;
- complete required General Education instruction courses and general electives with a C or better.

CAREERS
6000-8000 hour BOLI-ATD Trades: asbestos removal, carpenter, HVAC/R, interior/exterior finisher, painter, pile driver, plumber, scaffold erector, and sheet metal. (This degree does not guarantee licensure.)

Electrician Apprenticeship Technologies AAS Degree (Limited Entry Program-Journeyman’s card required)

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- complete the 6000-8000 hours State of Oregon-approved on-the-job training;
- apply theory to electrical wiring;
- repair, install electrical wire devices according to licensure regulations to meet NEC and OSC for inside electrician, limited energy technician license A, limited manufacturing plant electrician, sign assembler/fabricator, sign maker/erector, and stationary engineer;
- complete required related training with a C or better;
- complete required General Education instruction courses and general electives with a C or better.

CAREERS
6000 hour BOLI-ATD Trades: Limited Energy Technician-License A and Sign Maker/Fabricator.

8000 hour BOLI-ATD Trades: hydro generation, inside electrician, line estimator, lineman, manufacturing plant electrician, meterman, sign assembler/fabricator, sign maker/erector and stationary engineer, and wireman. (This degree does not guarantee licensure.)

Construction Trades, General Apprenticeship Certificate of Completion Degree (Limited Entry Program-Journeyman’s card required)

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- complete a minimum of 6000-8000 hours State of Oregon-approved on-the-job training (OJT);
- repair, install and maintain a variety of building construction projects using trade specific tools and techniques in compliance with building codes and OSHA regulations;
- complete required related training with a C or better.

CAREERS
6000-8000 hour BOLI-ATD Trades: asbestos removal, carpenter, HVAC/R, interior/exterior finisher, painter, pile driver, plumber, scaffold erector, and sheet metal. (This degree does not guarantee licensure.)

Electrician Apprenticeship Technologies Certificate of Completion Degree (Limited Entry Program-Journeyman’s card required)

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- complete the 6000-8000 hours State of Oregon-approved on-the-job training;
- apply theory to electrical wiring;
- repair and install electrical wire devices according to licensure regulations to meet NEC and OSC for inside electrician, limited energy technician license A, limited manufacturing plant electrician, sign assembler/fabricator, sign maker/erector, and stationary engineer;
- complete required related training with a C or better.

CAREERS
6000 hour BOLI-ATD Trades: Limited Energy Technician-License A and Sign Maker/Fabricator.

8000 hour BOLI-ATD Trades: inside electrician, manufacturing plant electrician, sign assembler/fabricator, sign maker/erector and stationary engineer. (This degree does not guarantee licensure.)
Apprenticeship continued...

Electrician Apprenticeship Technologies, Limited Electrician Technologies Certificate of Completion Degree (Limited Entry Program—Journeyman’s card required)

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

• complete 4000 hours State of Oregon-approved on-the-job training (OJT);
• repair or install electrical wire devices according to limited licensure regulations to meet NEC and OSC for limited inside electrician—license B, limited maintenance electrician, limited renewable energy technician, and limited residential electrician;
• complete required related training with a C or better.

CAREERS
4000 hour BOLI-ATD Trades: Limited Energy Technician—license B, Limited Maintenance Electrician, Limited Renewable Energy Technician, and Limited Residential Electrician. (This degree does not guarantee licensure.)

Auto Body/Collision Repair and Refinishing Technology

Associate of Applied Science Degree

PROGRAM CODE: AAS.ABCOLRRTech

The Auto Body/Collision Repair and Refinishing program simulates real working conditions in a well-equipped modern shop facility. Training combines intensive theory and practical lab experience tailored to specific needs. Course work includes one term of cooperative work experience with a local employer. The flexibility of the program allows students to enter any term and proceed at their own pace.

Technicians repair or replace parts, straighten structure, install and adjust glass and components, repair electrical systems, restraints, suspension components, brakes, prepare all types of surfaces for necessary refinishing operations, mix and apply modern urethane and waterborne paint products, and finish their work to industry standards. Skills learned include welding, metal straightening, filler use, plastic repair, surface preparation, masking, product selection, mixing, color matching and application techniques, as well as detailing and troubleshooting. This degree qualifies students for I-CAR Non-structural Technician Pro Level I and I-CAR Refinish Technician Pro Level I Certification.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics or MTH-065 Algebra II)
• Use appropriate mathematics to solve problems
Communication (1 course- WR-101 Communication Skills: Occupation Writing or WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (1 course - Human Relations; Recommended: COMM-100 or PSY-101)
• Engage in ethical communication processes that accomplish goals
Physical Education/Health/Safety/First Aid (3 credits- courses with HE, HPE, or PE prefix; Recommended: HE-252 or MFG-107)
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

• demonstrate the proper selection of tools and materials needed to perform metal straightening and plastic filler repair processes;
• prepare a repaired surface, choose and apply appropriate materials, block sand, clean surface, and apply topcoat, detail;
• repair sheet metal damage, demonstrate panel replacement techniques, identify structural damage, and formulate viable repair processes;
• perform spot repairs and blends using the latest industry accepted practices and materials, to the standards of industry;
• demonstrate skill in major body repair, including frame and Unibody repair;
• demonstrate the use of electronic frame measuring systems, during the repair of full frame and Unibody vehicles;
• plan and execute an industry acceptable repair on both full frame and Unibody vehicles, including structural, non-structural, cosmetic and mechanical repairs;
• display the skills needed to apply high-end automotive finishes to a variety of automotive substrates;
• perform a variety of welding processes needed to properly repair vehicles of both steel and aluminum construction, in accordance with I-CAR guidelines;
• demonstrate competency in Collision Repair Estimating, using Mitchells guides, Audatex, and CCC One software.

CAREERS
Employment opportunities include auto body technician, frame technician, auto body mid-tech, painter’s helper, painter, estimator or manager in an independent repair shop, automobile dealership, truck or heavy equipment dealer or service center, or sales of auto body related tools and materials.

For information contact Dave Bradley, 503-594-3051, or the Automotive Department, 503-594-3047.

www.clackamas.edu
## Auto Body/Collision Repair and Refinishing Technology

### Career Pathway Certificate

**PROGRAM CODE: CC.ABCOLRRTCH**

The Auto Body/Collision Repair Refinishing Technology program simulates real working conditions in a well-equipped modern shop facility. Training combines intensive theory and practical lab experience tailored to specific needs. In order to complete the course in three consecutive terms, students must start fall term.

Technicians repair or replace parts, straighten frames and Unibody structure, install and adjust components and glass, repair electrical systems, restraints, suspension components, brakes, prepare all types of surfaces for necessary refinishing operations, mix and apply modern waterborne and solvent-borne paint products, and finish their work to industry standards. Skills learned include welding, metal straightening, filler use, plastic repair, surface preparation, masking, product selection, mixing, color matching and application techniques, as well as detailing and troubleshooting. This certificate qualifies students to apply for I-CAR Pro Level 1 Certification.

### PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- demonstrate the proper selection of tools and materials needed to perform metal straightening and plastic filler repair processes;
- prepare a repaired surface, choose and apply appropriate materials, block sand, clean surface, and apply topcoat, detail;
- repair sheet metal damage, demonstrate panel replacement techniques, identify structural damage, and formulate viable repair processes;
- perform spot repairs and blends using the latest industry accepted practices and materials, to the standards of industry;
- demonstrate skill in major body repair, including frame and Unibody repair;
- perform a variety of welding processes needed to properly repair vehicles of both steel and aluminum construction, in accordance with I-CAR guidelines;

### CAREERS

Employment opportunities may include entry level positions as a prepper, masker, painter's helper, body mid-tech, paint or body technician at independent, dealership, or fleet repair facilities in any transportation related field: automotive, trucking, transit, light rail, aircraft, recreational vehicle, industrial or marine.

For information contact Dave Bradley, 503-594-3051, or the Automotive Department, 503-594-3047.

*Program requirements: Current enrollment in or successful completion of AB-112 Collision Repair Welding I and ABR-125 Collision Repair Refinishing I must be completed or in progress prior to enrolling in ABR-127 Collision Repair Refinishing.*
Auto Body/Collision Repair and Refinishing Technology continued…

**AUTOMATIC SERVICE TECHNOLOGY**

**Associate of Applied Science Degree**

**PROGRAM CODE: AAS.AUTOSETCH**

The program focuses on the repair and maintenance of passenger cars and light trucks. Course work includes cooperative work experience working for a local employer. Those who wish to specialize may take advanced mechanical studies courses for more in-depth experience. Students may enter the program any term.

**RELATED INSTRUCTION OUTCOMES**

- **Computation** (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II or higher)
  - Use appropriate mathematics to solve problems

- **Communication** (1 course- WR-101 Communication Skills-Occupational Writing or WR-121 English Composition)
  - Read actively, think critically, and write purposefully and capably for professional audiences

- **Human Relations** (1 course- recommended: PSY-101 or COMM-100 Basic Speech Communication)
  - Engage in ethical communication processes that accomplish goals

- **Physical Education/Health/Safety/First Aid** (3 credits- courses with HE, HPE, or PE prefix, HE-252 or MFG-107 recommended)
  - Use effective life skills to improve and maintain mental and physical wellbeing.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- practice safety precautions to protect the environment, the student, and the vehicle;
- test and repair basic automotive electrical systems;
- diagnose, repair, and service modern automotive brake systems including, anti-lock systems, traction control systems, and stability control systems;
- diagnose, repair, and service modern suspension systems;
- diagnose, repair, and maintenance of all hybrid systems;
- diagnose and repair symptom based mechanical engine problems, including, cylinder head, valve train; and engine block problems;
- communicate clearly with team members and supervisors;
- conduct yourself on the job with a high degree of professionalism;
- diagnose, repair, and service front and rear wheel drive automatic transmissions;
- diagnose, repair, and service modern fuel and emissions systems;
- diagnose and repair automotive electrical accessory systems;
- diagnose, repair, and service modern heating and air conditioning systems;
- diagnose, repair, and service front and rear wheel drive manual drive train and axle systems.

**CAREERS**

Career opportunities include: automotive service mechanic/technician, recreational vehicle service technician and truck service mechanic/technician.

For information contact Jay Leuck, 503-594-3052 or jayl@clackamas.edu, or the Automotive Department, 503-594-3047.

Under Car Technician–
Automatic Transmission

Career Pathway Certificate

PROGRAM CODE: CC.UNDRCARTECAUTO

The Under Car Technician–Automatic Transmission Program combines the initial courses of the Associate of Applied Science (AAS) Automotive Service Technology degree to provide the student with an opportunity to gain entry level employment. This alternate first-year schedule offers accelerated employment qualification for the student. These courses train the student in the skills necessary to earn certification from Automotive Service Excellence (ASE) in the specified areas of A2, A3, A4, and C1, as described in the ASE Alignment Section. Coursework also qualifies the student to earn American Welding Society (AWS) certification. The National Institute for Automotive Service Excellence requires two years of documented time in trade before testing, and this nine month program is awarded 4.5 months equivalency. The AWS requires one year of documented time in trade before testing. These classes comprise an alternate first year schedule of our AAS degree in Automotive Service Technology. They focus on one skill set necessary for employment within the automotive service industry.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• practice safety precautions to protect the environment, students, and the vehicle;
• test and repair basic automotive electrical systems;
• diagnose, repair, and service modern suspension systems;
• diagnose, repair, and service front and rear wheel drive manual drive train and axle systems;
• diagnose, repair, and service front and rear wheel drive automatic transmissions.

CAREERS

Manual transmission technician, automatic transmission technician, front-end and alignment technician, drive axle specialist, four wheel drive service technician, apprentice technician, and service writer.

For information contact Jay Leuck, 503-594-3052 or jayl@clackamas.edu, or the Automotive Department, 503-594-3047.

**Basic Engine Technician**

**Certificate of Completion**

**PROGRAM CODE: CC.BASICENGINE**

The Basic Engine Technician program combines Automotive Fundamentals, Small Engine Repair, and General Automotive Repair I and II to provide the student with an opportunity to develop essential skills needed to gain entry level employment. This course sequence trains students in the skills necessary to earn industry certifications from the Equipment & Engine Training Council (EETC) in Two Stroke and Four Stroke engine operation as well as small engine electrical systems. Practical aspects of vehicle ownership are also covered so that students can develop good ownership habits such as scheduling periodic maintenance work.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:
- Develop foundational skills needed for entry level employment
- Earn up to three Industry certificates from EETC
- Develop good automobile ownership habits

**CAREERS**

Graduates of this program may find work in the outdoor power equipment and other small engine mechanics fields. There are over 200 regional jobs in outdoor power equipment and other small engine mechanics. Over the next 10 years the projected regional growth is 14%. Program completers may continue their education in the Automotive Service Technology certificate and degree programs at CCC.

For information contact Jay Leuck, 503-594-3052 or jayl@clackamas.edu.

---

**Business**

**Associate of Applied Science Degree**

**PROGRAM CODE: AAS.BUSINESS**

This AAS degree establishes a foundation for a successful management career while enabling students to explore a wide variety of business topics. The program is designed to enhance skills and employability for students who desire a career path in management as well as those who choose the entrepreneurial path. The AAS in Business permits students to complete certificates in Accounting, Business Management, Human Resource Management, Marketing, Project Management or Retail Management and to apply those credits towards completion of the AAS in Business degree. Students may also select courses from a cross section of the aforementioned disciplines.

**RELATED INSTRUCTION OUTCOMES**

- Computation (1 course: BA-104 Business Math or MTH-065 Algebra II)
  - Use appropriate mathematics to solve problems
- Communication (1 course: WR-121 English Composition)
  - Read actively, think critically, and write purposefully and capably for professional audiences
- Human Relations (1 course: BA-285 Human Relations in Business)
  - Engage in ethical communication processes that accomplish goals
- Physical Education/Health/Safety/First Aid (1 credit: courses with HE, HPE, or PE prefix)
  - Use effective life skills to improve and maintain mental and physical wellbeing.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:
- Demonstrate an understanding of fundamental business concepts through the integration of the functional areas of business into a comprehensive plan;
- Interpret and present business-related financial information,
- Use Microsoft Office applications to create business documents, data files and presentations;
- Demonstrate the ability to communicate effectively;
- Identify effective human resource practices;
- Demonstrate an understanding of key legal concepts as they apply to business, e.g. torts, crimes, ethics, and contracts;
- Identify effective interpersonal strategies for individual and group situations.

**CAREERS**

Career opportunities include managers, coordinators, or supervisors in areas such as project management, human resource management, customer service, or retail management.

For information contact Sharon Parker, 503-594-3075 or sharonp@clackamas.edu.

*continued*
Business continued...

Business Management

Certificate

PROGRAM CODE: CC.BUSMANAGEMENT

This certificate focuses on basic management and leadership skills, motivation, decision-making, ethics, workflow analysis, ergonomics, personality and human relations, communications, technological innovations and adapting to change.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- BA-104 Business Math)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- BA-285 Human Relations in Business)
- Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
- demonstrate an understanding of fundamental business concepts through the integration of the functional areas of business into a comprehensive plan;
- make informed business decisions based on the use of financial and budgetary data;
- demonstrate an understanding of the functions of leading, planning, organizing, and controlling in an organization;
- identify effective supervisory strategies (e.g. motivation, goal setting, coaching, leadership, etc.) for given individual and group situations;
- demonstrate all the program’s learning outcomes for the Management Fundamentals Career Pathway Certificate.

CAREERS

Career opportunities include management trainee, first-line supervisory, management analyst, merchandiser, or marketing/sales representative in small and medium-sized retail and service companies.

For information call Sharon Parker, 503-594-3075 or sharonp@clackamas.edu.

SPRING TERM
BA-205 Business Communications with Technology 4
BA-206 Management Fundamentals 4
BA-217 Budgeting for Managers 3
BA-224 Human Resource Management 4
BA-280 Business/CWE 3

Credits required for certificate 54

*For this certificate, BA-104 meets the Related Instruction Computation requirement. BA-104 requires completion of MTH-050 or higher as a pre-requisite.

Courses in this program can be applied to satisfy elective requirements in the Business AAS degree.

WR-121 requires completion of WRD-098 or placement into WR-121.

Management Fundamentals

Career Pathway Certificate

PROGRAM CODE: CC.MGMTFUND

This program is designed for students who seek a foundation of managerial knowledge to support their advancement toward a career in management.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- demonstrate the ability to communicate effectively;
- identify the various laws that impact employee management practices;
- identify effective supervisory strategies (e.g. motivation, goal setting, coaching, leadership, etc.) for given individual and group situations.

CAREERS
Career opportunities include frontline or entry-level supervisory positions in retail, manufacturing, sales, and service industries.

For information contact Sharon Parker, 503-594-3075 or sharomp@clackamas.edu.

Credits required for certificate 18

Courses in this program can be applied to satisfy requirements in the Business Management certificate.

WR-121 requires completion of WRD-098 or placement into WR-121.

Human Resource Management

Certificate

PROGRAM CODE: CC.HUMANRESMNGT

This certificate is recommended for students and/or professionals currently working in the human resource field who wish to obtain national certification in Professional in Human Resources (PHR) from the Human Resource Certification Institute. Though this certificate is intended to enhance the qualifications of people already working in the human resource field, others may wish to take the classes to advance their own skills and knowledge.

RELATED INSTRUCTION OUTCOMES
Computation (1 course- BA-104 Business Math or MTH-065 Algebra II)
- Use appropriate mathematics to solve problems
Communication (1 course- WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (1 course- BA-285 Human Relations in Business)
- Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- describe the impacts of the major laws and Supreme Court decisions affecting Human Resource Managers;
- describe disparate treatment and adverse impact, and explain the Uniform Guidelines related to national origin, religion, and other discrimination;
- conduct job analyses;
- conduct recruitment and selection processes, and advise hiring supervisors regarding legal and ethical issues;
- implement and maintain Human Resource Management processes, including Training and Development and Performance Management, under direction of HR Manager;
- describe issues related to financial equity and direct and indirect financial compensation;
- apply reflective thinking and self-management in professional settings;
- explain legal and process considerations related to collective bargaining and Collective Bargaining Agreement management.

CAREERS
Career opportunities include human resource manager, human resource generalist, human resource specialist, human resource assistant, and information and records clerk.

For information call Michael Moiso, 503-594-3770 or mmoiso@clackamas.edu.
Human Resource Management continued...

Human Resource Management Essentials

Career Pathway Certificate

PROGRAM CODE: CC.HRMESSENTIALS

This program is designed for students who either are currently employed in or desire to be employed in Human Resource Management (HRM), and who lack formal education in Human Resource Management laws and processes. The classes provided in this pathway certificate form the foundation for work as a Human Resource Manager or for future education in the discipline.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- describe the impacts of major laws and Supreme Court decisions affecting Human Resource Managers,
- describe disparate treatment and adverse impact, and explain the Uniform Guidelines related to national origin, religion, and other discrimination;
- assist in conducting job analyses;
- assist in recruitment and selection processes, and advise hiring supervisors regarding legal and ethical issues;
- assist in implementing and maintaining Human Resource Management processes, including Training and Development and Performance Management;
- describe issues related to financial equity and direct and indirect financial compensation;
- apply reflective thinking and self-management in professional settings.

CAREERS

Career opportunities include wholesale and manufacturing sales representative, insurance and financial sales agents and marketing and advertising assistants.

www.clackamas.edu
For students interested in an AAS in Business with a concentration in Marketing, include the following courses within your Business AAS electives: BA-223 Principles of Marketing, BA-238 Sales, BA-239 Advertising, and BA-261 Consumer Behavior.

For information contact Dale Hatfield, 503-594-3074 or daleh@clackamas.edu.

- BA-238 Sales: 4
- BA-261 Consumer Behavior: 4
- BA-280 Business/CWE: 3

*Credits required for certificate: 49*

*For this certificate, BA-104 meets the Related Instruction Computation requirement.*

Courses in this program can be applied to satisfy elective requirements in the Business AAS degree.

---

**Integrated Marketing & Promotion**

**Career Pathway Certificate**

**PROGRAM CODE: CC.INTMARKPRO**

Students who successfully complete this pathway will be prepared to develop integrated marketing and promotional strategy within the current business environment. Skills developed in this pathway should enhance effectiveness of the marketing and promotional functions for small business owners and develop practical marketing and promotion skills for employees working within the marketing function.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:
- demonstrate a conceptual understanding of the strategic organization through the integration of the functional areas of business into a comprehensive marketing plan;
- develop a marketing plan;
- develop a promotional plan;
- prepare and deliver effective presentations.

For information contact Dale Hatfield, 503-594-3074 or daleh@clackamas.edu.

*Credits required for certificate: 16*

Courses in this program can be applied to satisfy requirements in the Marketing certificate.

---

**Clinical Laboratory Assistant**

**Certificate**

**PROGRAM CODE: CC.CLINLABASST**

Clinical laboratory assistants serve a diverse ancillary role assisting other laboratory personnel, physicians and patients. Their duties may include specimen collection and handling, data entry, laboratory billing practices, back office skills, and the performance of waived testing according to standard operating procedures. Students are trained in all aspects of medical laboratory support personnel, including phlebotomy, specimen processing, quality control, laboratory orientation, and regulation. Students will participate in unpaid, supervised externships in ambulatory or acute care laboratory settings.

See website below for program mission statement.

The CCC Clinical Laboratory Assistant (CLA) program is approved through the National Accrediting Agency for Clinical Laboratory Science (NAACLS), 5600 N River Rd, Suite 720, Rosemont, IL, 60018, 773-714-8880, www.naacls.org

**PROGRAM REQUIREMENTS AND PREREQUISITES**

Students who wish to apply to the CLA program are welcome to apply for our fall cohort. The CLA applications may be downloaded from our website.

To determine the availability of applications and the appropriate deadlines for each cohort, please visit the Health Sciences website: www.clackamas.edu/clinical-lab-assistant.

Applicants are advised that a high level of dexterity, the ability to multi-task, and a high degree of attention to detail are required for the successful completion of this program. For a complete list of Essential Functions please visit the above website.

During the application process, CLA applicants must:
- Meet appropriate placement scores in reading, writing, and math by either taking the placement exams or by providing proof of comparable assessment. The CLA program accepts competencies in writing, math, and reading as measured by CCC placement assessments dated no earlier than 2004, or previous college coursework as documented on official college transcripts. To be eligible to apply, students must show placement by: 1) passing WRD-098 or placement in WR-101; 2) passing WRD-090 or placement in WRD-098.
Clinical Laboratory Assistant continued...

- Have completed MA-110 Medical Terminology, and MTH-050 Technical Mathematics I or MTH-065 Algebra II. Curriculum prerequisites and requirements may be subject to change. In order to assure students have the most current information, please review the department website.

- Provide: 1) proof of a recent physical examination by a licensed healthcare provider, 2) required immunizations, 3) a current AHA or ASHI Healthcare Provider CPR, First Aid card, and complete a criminal history background check and drug testing as arranged by the Health Sciences department. Students may also be subject to a second drug and criminal screen just prior to clinical placement depending on clinical site requirements.

CLA students will be required to participate in unpaid, supervised externships in ambulatory or acute care laboratory settings. For a list of community partners, please visit the website.

RELATED INSTRUCTION OUTCOMES
Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- COMM-100 Basic Speech Communication or COMM-218 Interpersonal Communication)
- Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

- demonstrate the ability to serve in an entry-level position as a CLA including using correct lab, medical, anatomical terminology to effectively and appropriately communicate, both verbally and non-verbally in the health-care setting;

- following SOP demonstrate proficiency in all types of blood and body fluid collection techniques and the skill to prepare the specimens for analysis displaying effective anatomical understanding;

- perform and evaluate the preparation and use of appropriate reagents, standards and controls with the entry-level scope of practice;

- understand, apply and communicate state and national laboratory regulations, including infection control, health and safety, quality management and ethical considerations;

- perform and record vital sign measurements using information systems as well as other forms of documentation as needed;

- identify and report potential pre-analytical, analytical, and post-analytical errors, demonstration the correct use of quality control.

CLINICAL LABORATORY ASSISTANT APPLICATION REQUIREMENTS
Application packets with admission procedures and requirements are available online: www.clackamas.edu/clinical-lab-assistant.

CAREERS
Career opportunities may include but are not limited to phlebotomist, laboratory specimen processor, waived testing analyzer, medical research assistant and physician office laboratory assistant.

For continuing education opportunities for healthcare providers see Healthcare Professional Development (HPD) in the course description section on page 215.

For more information, contact: health-sciences-questions@clackamas.edu.

CLINICAL LABORATORY ASSISTANT CERTIFICATE PREREQUISITES
The following prerequisites must be completed prior to the start of the student’s cohort. Curriculum prerequisites and requirements may change yearly. To see prerequisites or requirements, please review the department website.

*Additional options to meet biology requirement: pass with C or better BI-101 & BI-102 or successfully complete the entire BI-231, BI-232, BI-233, Anatomy & Physiology series.

Current First Aid card and Healthcare Provider level CPR (AHA or ASHI) card are required during practicaeums and must be taken prior to the first term practicum. All CLA students will be required to complete a criminal history background, provide proof of immunization, and take a drug test.

www.clackamas.edu
Note: All clinical practicum courses are Pass/No Pass. CLA-130 may be taken for either a letter grade or pass/no pass option. All other courses are letter grades only and must be passed with a C grade or better in order to continue to the next term.

Core curriculum is sequential and may not be taken out of order, with the exception of CLA-100 which may be taken prior to beginning the program. Curriculum is intended to be completed in one academic year.

Individuals who have been found guilty of a felony or pleaded guilty to a felony may not be eligible for clinical practicum placement or be eligible to take the National exams.

**Basic Health Sciences**

**Career Pathway Certificate**

PROGRAM CODE: CC.BASICHEALTH

The Basic Health Sciences Career Pathway Certificate prepares students for a career in health care by introducing them to the soft skills, communication skills and terminology necessary to interact within a breadth of health sciences disciplines. Students will be further exposed to the important safety and confidentiality regulations in the field and will have the opportunity to earn certifications in HIPAA and blood-borne pathogens. Courses in this Career Pathway Certificate fulfill requirements for the Clinical Lab Assistant program and are either required or encouraged for all other Health Sciences programs at Clackamas Community College.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- demonstrate the ability to serve in an entry level position using correct laboratory, medical, and anatomical terminology to effectively and appropriately communicate, both verbally and nonverbally in healthcare settings;
- understand, apply, and communicate state and national laboratory regulations, including infection control, health and safety, and ethical considerations.

**CAREERS**

Students who successfully complete this pathway will be prepared to assist and interact with healthcare professionals. Their duties may include data input, intake/reception, and other administrative duties as assigned in a variety of healthcare and clinical settings.

For information contact Helen Wand, 503-594-0694 or helenw@clackamas.edu.

**Computer-Aided Manufacturing**

**Associate of Applied Science Degree**

PROGRAM CODE: AAS.COMPAIDEMFG

This program combines training in computer-aided drafting (CAD) and computer-aided manufacturing (CAM). Course work emphasizes machine tool fundamentals, computer numerical control (CNC) and computer-aided manufacturing.

**RELATED INSTRUCTION OUTCOMES**

Computation (1 course- MTH-050 Technical Mathematics I)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (3 credits- See course list on page 82)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits - MFG-107 Industrial Safety & First Aid)
- Use effective life skills to improve and maintain mental and physical wellbeing.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- set-up and operate manual machine tools to produce machined products to required specifications by applying appropriate skills, processes, and technologies;
- set-up and operate CNC machine tools to produce machined products to required specifications by applying appropriate skills, processes, and technologies.
- apply computer software applications to produce manufacturing related documents, create CAD models, and generate CAM programs for machining processes;
- apply knowledge of programming electronic systems to improve industrial efficiency;
- apply knowledge of materials, physics and mathematics to effectively machine industrial materials;
- apply critical thinking skills to solve common machining and manufacturing problems;
- work safely in an industrial environment around machinery, power tools, electricity and chemicals.

**CAREERS**

Career opportunities may include CNC programmer and operator, CAD technician, manufacturing engineering technician and CAD/CAM technician.

For information contact Mike Mattson, 503-594-3322 or mattsonm@clackamas.edu.

Credits required for degree 98

COMPUTER-AIDED MANUFACTURING PROGRAM ELECTIVES

Any course with a CDT, EET, MFG, RET or WLD prefix.

Students with specialized job training needs may be eligible
to substitute some classes. Consult your instructor or the
department chair for more information.

**Substitute college transfer courses for these courses if you plan
to continue your education at a higher education institution. It is
recommended that you consult with a faculty advisor or a staff
member in Student Services for the transfer requirements of the
specific advanced program or school.

Computer & Network Administration

Certificate
Associate of Applied Science Degree

PROGRAM CODE: AAS.COMPNETADMIN, CC.COMPNETADMIN

The Computer & Network Administration program prepares
students for technical support careers specializing in network
administration and maintenance. Students may earn either a
one-year Certificate of Completion or two-year Associate of
Applied Science degree. The course work emphasizes develop-
ment of analytical and problem-solving skills in addition to
specific hardware and software configurations. Cooperative
Work Experience (CWE) is supervised real-world employ-
ment that supplements the academic classroom environment.

For students interested in pursuing a bachelor’s degree, the
Computer & Network Administration Associate of Applied
Science articulates to a Bachelor of Applied Science in
Technology and Management at Oregon Tech.

PROGRAM REQUIREMENTS

Prerequisites for first term classes include completed course
work or placement out of BA-131 Introduction to Business
Computing, WRD-098 Introductory Reading & Writing 2:
College Preparation and MTH-065 Algebra II. This is an open
program. Students may take any class in the program for
which they have completed the prerequisite.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- See page 82 for course list)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills:
Occupational Writing or WR-121 English Composition)
• Read actively, think critically, and write purposefully and
capably for professional audiences

Human Relations (1 course- See page 82 for course list)
• Engage in ethical communication processes that
accomplish goals

Physical Education/Health/Safety/First Aid (1 credit- courses
with HE, HPE, or PE prefix) (NOT REQUIRED FOR THE
CERTIFICATE)
• Use effective life skills to improve and maintain mental and
physical wellbeing.

PROGRAM OUTCOMES

Computer & Network Administration AAS Degree

Upon successful completion of this program, students should
be able to:
• demonstrate all the program learning outcomes of the
Computer & Network Administration Certificate;
• operate, install, manage, and troubleshoot major server
operating systems;
• understand advanced network technologies and imple-
ment intricate internetwork infrastructures;
• understand and demonstrate basic computer and network
security principles;

www.clackamas.edu
• develop, implement, and document an integrated information systems project;
• communicate the importance of professional and ethical responsibilities and be aware of codes of conduct and other sources of guidance for professionally ethical decision making;
• articulate and justify technical solutions to an audience through oral, written, and graphical communication.

PROGRAM OUTCOMES
Computer & Network Administration Certificate Degree

Upon successful completion of this program, students should be able to:
• explain basic troubleshooting processes and procedures from initial diagnosis to final documentation and reporting,
• explain and demonstrate how to interact and communicate effectively with people of different technical backgrounds and professional positions;
• operate, install, manage, and troubleshoot major desktop operating systems;
• identify, install, and troubleshoot computer and network hardware components;
• understand fundamental network technologies and implement a basic local area network;
• exhibit good teamwork skills and serve as effective members of project teams.

CAREERS
Career opportunities include network specialist, computer service technician, field engineer, customer service engineer, computer technician, and PC/LAN support specialist.

For information contact Rick Carino, 503-594-3167, or rcarino@clackamas.edu.

Computer Application Support

Certificate
Associate of Applied Science Degree

PROGRAM CODE: AAS.COMPAPPSUPP, CC.COMPAPPSUPP

The Computer Application Support program prepares students for a variety of technical support careers including help desk, training, and design positions. Students may earn either a one-year certificate or a two-year Associate of Applied Science degree. The course work emphasizes development of analytical and problem-solving skills in addition to specific hardware and software configurations. Cooperative work experience (CWE) is supervised real-world experience that supplements the academic classroom environment.

For students interested in pursuing a bachelor’s degree, the Computer Application Support Associate of Applied Science articulates to a Bachelor of Applied Science in Technology and Management at Oregon Tech.

For information contact Jen Miller at 503-594-3138 or jen.miller@clackamas.edu.
Computer Application Support continued...

PROGRAM REQUIREMENTS
Prerequisites for first term classes include completed course work for CS-120 Survey of Computing, WRD-098 Introductory Reading & Writing 2: College Preparation and MTH-065 Algebra II or placement in BA-131 Introduction to Business Computing, WR-121 English Composition. This program is an open program, meaning that students may take any class in the program for which they have completed the prerequisite.

RELATED INSTRUCTION OUTCOMES
Computation (1 course- see page 82 for course list)
- Use appropriate mathematics to solve problems
Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
  - Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (1 course- see page 82 for course list)
- Engage in ethical communication processes that accomplish goals
Physical Education/Health/Safety/First Aid (1 credit- courses with HE, HPE, or PE prefix) (NOT REQUIRED FOR THE CERTIFICATE)
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES
Computer Application Support AAS Degree
Upon successful completion of this program, students should be able to:
- operate, install, manage, and troubleshoot major desktop operating systems;
- apply sophisticated word processing and spreadsheet development techniques and provide support to businesses using word processing and spreadsheet applications;
- use HTML and CSS, along with current web editing software, to create standards-compliant websites or support a front-end web development team;
- integrate into a help desk or IT support team to provide professional customer service and application training;
- exhibit good teamwork skills and serve as effective members of project teams;
- articulate and justify technical solutions to an audience through oral, written, and graphical communication.

Computer Application Support Certificate Degree
Upon successful completion of this program, students should be able to:
- operate, install, manage, and troubleshoot major desktop operating systems;
- apply sophisticated word processing and spreadsheet development techniques and provide support to businesses using word processing and spreadsheet applications;
- use HTML and CSS, along with current web editing software, to create standards-compliant websites or support a front-end web development team;
- integrate into a help desk or IT support team to provide professional customer service and application training;
- exhibit good teamwork skills and serve as effective members of project teams;
- articulate and justify technical solutions to an audience through oral, written, and graphical communication.

CAREERS
Career opportunities include web designer, database specialist, software trainer, software installation and maintenance engineer, computer applications specialist, client support representative, customer service engineer, help desk technician or software consultant.

For information contact Debra Carino, 503-594-3170 or dcarino@clackamas.edu.

Associate of Applied Science Degree

PROGRAM CODE: AAS.CORRECTIONS

The Corrections program utilizes an interdisciplinary approach, including sociological, psychological and biological behavioral perspectives to provide students with a well-rounded basis for interacting with corrections clients in a variety of correctional settings.

Course work includes cooperative work experience, hands-on experience in a correctional agency to supplement and apply knowledge gained in academic courses.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I, MTH-065 Algebra II or MTH-098 College Math Foundations)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- CJA-250 Reporting, Recording, and Testifying)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits- HE-163 Body & Drugs I: Introduction to Abuse & Addiction or HE-205 Youth Addictions)
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
- identify and define each step in the criminal justice process, and critically analyze how a case proceeds through the system, including landmark U.S. Supreme Court decisions;
- explain the functions of law enforcement and corrections in the United States in terms of historical roots, structure and contemporary issues;
- identify conditions and personal characteristics that are specific to working with offenders in an institutional or community setting, and develop strategies for coping with those conditions;
- demonstrate knowledge of ethical practices in educational and professional settings;
- recognize how criminal justice professionals work effectively within a diverse society;
- identify causes and indicators of crime and their effect on the criminal justice system's response;
- analyze contemporary issues in the adult and juvenile corrections systems in the United States and outline possible responses to those issues;
- demonstrate effective verbal communication skills in a criminal justice setting;
- demonstrate effective written communication skills in a criminal justice setting.

CAREERS

Career opportunities are generally in jail and prison facilities as well as community corrections agencies and may include correctional officer, correctional counselor and probation and parole officer.

For more information contact Ida Flippo, 503-594-3363 or iflipp@clackamas.edu.

### Related Instruction Outcomes

- Computation (1 course: MTH-050 Technical Mathematics I or MTH-065 Algebra II or MTH-098 College Math Foundations)
- Use appropriate mathematics to solve problems
- Communication (1 course: WR-121 English Composition)
  - Read actively, think critically, and write purposefully and capably for professional audiences
- Human Relations (1 course: HS-156 Conducting Human Service Interviews)
  - Engage in ethical communication processes that accomplish goals

### Program Outcomes

Upon successful completion of this program, students should be able to:

- Explain the function of juvenile corrections in the United States in terms of historical roots, structure and contemporary issues;
- Determine causes of juvenile delinquency, and identify system responses based upon the various theories of causation;
- Identify conditions that are specific to working with juvenile offenders in an institutional or community setting, and develop strategies for coping with those conditions;
- Analyze contemporary issues in the juvenile corrections system in the United States and outline possible responses to those issues;
- Communicate effectively both verbally and in writing.

### Careers

Career opportunities are within secure facilities or in the community and may include youth correctional counselor, juvenile detention officer and group life coordinator.

For more information contact Ida Flippo, 503-594-3363 or iflipp@clackamas.edu.

### Juvenile Corrections Certificate

**Program Code: CC.CORRECTIONSJUV**

The Juvenile Corrections Certificate is a one-year program developed in cooperation with the Oregon Youth Authority. Students are prepared to interview for an entry level position in a juvenile correctional facility. The certificate curriculum is challenging and is aimed at providing the skills most desired for working within the juvenile corrections system in Oregon.

Course work includes cooperative work experience, hands-on experience in a correctional agency enabling students to demonstrate the skills and knowledge acquired in the academic courses in a practical manner.

## Criminal Justice

### Associate of Applied Science Degree

**Program Code: AAS.CRIMJUSTICE**

The course work for this two-year program is designed to develop students' knowledge and skills in the areas of law enforcement, courts and corrections. Areas emphasized include community policing, criminal investigation, routine patrol and criminological theory. Students gain an appreciation of the various parts of the criminal justice system and how they function as a whole. Students may enter this program any term.

The course work for this program includes cooperative work experience which affords the student opportunity for hands-on experience with many local, federal and state law enforcement agencies.

### Related Instruction Outcomes

- **Computation (1 course)** - MTH-050 Technical Mathematics I, MTH-065 Algebra II or MTH-098 College Math Foundations
  - Use appropriate mathematics to solve problems
- **Communication (1 course)** - WR-121 English Composition
  - Read actively, think critically, and write purposefully and capably for professional audiences
- **Human Relations (1 course)** - CJA-250 Reporting, Recording, & Testifying
  - Engage in ethical communication processes that accomplish goals
- **Physical Education/Health/Safety/First Aid (3 credits)** - HE-163 Body & Drugs I: Introduction to Abuse & Addiction or HE-205 Youth Addictions
  - Use effective life skills to improve and maintain mental and physical wellbeing

### Program Outcomes

Upon successful completion of this program, students should be able to:

- Identify and define each step in the criminal justice process, and critically analyze how a case proceeds through the system, including landmark U.S. Supreme court decisions;
- Explain the functions of law enforcement and corrections in the United States in terms of historical roots, structure and contemporary issues;
- Demonstrate knowledge of ethical practices in educational and professional settings;
- Recognize how criminal justice professionals work effectively within a diverse society;
- Identify causes and indicators of crime and their effect on the criminal justice system's response;
- Demonstrate effective verbal communication skills in a criminal justice setting;
- Demonstrate effective written communication skills in a criminal justice setting.

### Careers

Career opportunities include law enforcement officer at the local, state or national level, loss prevention officers and Homeland Security officers. Many departments require college course work or degrees in addition to civil service requirements.

For general information or information about transferring to a four-year institution contact Sharron Furno, 503-594-6424 or sharron.furno@clackamas.edu.

CTE Instruction

Subject to state approval. For more details please refer to the contact information listed below.

Less than one year certificate

PROGRAM CODE: CC.CTEINSTRUCT

This program is designed to provide existing and prospective CTE teachers with foundational skills to be successful in the classroom. In 2017, the Oregon Teacher Standards and Practice Council (TSPC) revised its requirements for individuals coming from industry to teach CTE classes. The new requirements now include foundational education skills such as classroom management and adapting instruction to meet the needs of diverse learners. This certificate meets the TSPC requirements.

For information contact Laurette Scott, 503-594-3840 or laurette@clackamas.edu

Dental Assistant

Certificate

PROGRAM CODE: CC.DENTALASST

The Dental Assistant (DA) program is designed to prepare students for entry level positions in the dental care setting. The goal of the program is to graduate students that have demonstrated competencies in clinical and administrative practices as well as demonstrated work ethics and professional values consistent with that of the American Dental Association (ADA).

PROGRAM REQUIREMENTS AND PREREQUISITES

This limited entry program requires the applicant to meet the program requirements prior to being formally admitted into the program. The requirements are to be completed in a four-phase process, with specific timelines for each phase. Information regarding specific requirements and timelines are located at www.clackamas.edu/dental-assistant.

The applicant must follow and complete all steps to be invited to continue through each phase of the admission process, with the final phase resulting in the opportunity to be invited for admission.

DA students will participate in unpaid, supervised externships in the dental care setting.
Disclaimer: Clinical training is required in order to complete certain Health Sciences programs offered by Clackamas Community College (CCC). Although CCC does not restrict program entry based on age, some college partners, such as healthcare agencies, organizations and clinics, require students to be at least 18 years of age before they can participate in clinical training. Students who intend to enroll prior to reaching 18 years of age should consult with the appropriate Health Sciences program director or administrator to determine when clinical training begins for their program and to understand any limitations.

RELATED INSTRUCTION OUTCOMES
Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II)
• Use appropriate mathematics to solve problems
Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (1 course- PSY-101 Human Relations)
• Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:
• demonstrate proficiency in exposing, processing, and mounting dental radiographs and digital imaging;
• apply current concepts of occupational safety hazards, infection control and aseptic procedures to promote a safe work environment and prevent disease transmission;
• perform entry-level chairside dental assisting skills;
• demonstrate basic competencies in dental administrative practices;
• utilize dental material for specific dental procedures;
• assist with medical emergencies in the dental office;
• demonstrate Expanded Functions Dental Assistant (EFDA) skills necessary to obtain EFDA certification.

CAREERS
Career opportunities may include but are not limited to managed care facilities, private dental practices, state and county clinics, dental schools and the insurance industry. Application packets with admission procedures and requirements are available online at [www.clackamas.edu/dental-assistant](http://www.clackamas.edu/dental-assistant).

For continuing education opportunities for healthcare providers see Healthcare Professional Development (HPD) in the course description section on page 215.

For more information, contact health-sciences-questions@clackamas.edu.

Credits required for certificate 53-54

Dental lab schedules (am/pm) are based on lottery. Information will be provided at orientation.

Current American Heart Association (AHA) BLS Provider (provider level CPR) and First Aid (AHA Heartsaver) certification are required during practicums. All DA students will be required to complete a criminal history background, provide proof of immunization, and students will be asked to take a drug test as arranged by the department.

Note: Students must achieve a C or higher grade in all required courses prior to advancing to the next term.

Core curriculum is sequential and may not be taken out of order. Core curriculum is intended to be completed over three consecutive terms.
Digital Media Communications

Associate of Applied Science Degree

PROGRAM CODE: AAS.DMC1

The Digital Media Communications (DMC) degree is designed to successfully prepare students for careers in the expanding fields of digital media productions and communications.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II or CS-161 Computer Science I)
- Use appropriate mathematics to solve problems
Communication (1 course- WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (1 course- PSY-101 Human Relations or COMM-100 Basic Speech Communication)
- Engage in ethical communication processes that accomplish goals
Physical Education/Health/Safety/First Aid (1 credit- courses with HE, HPE, or PE prefix)
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- employ concepts and use terminology reflecting an understanding of two-dimensional design fundamentals in the context of completed digital media design and/or artistic projects;
- produce media that demonstrates preparedness for entry into a field related to one of the DMC focus areas and present the work for potential professional opportunities;
- critically analyze and discuss digital media works in the context of mass media and society;
- demonstrate an awareness of ethical and legal considerations involved when creating digital media works; including basic professional skills related to documentation and rights licensing for copyright, fair use, etc.;
- complete digital media video projects illustrating professional entry-level competence in planning, production, and editing tools and techniques;
- create or contribute to a comprehensive digital media project in a way that showcases specialized skills in one or more of the following focus areas: Motion Graphics & Computer Animation, Web Design, Journalism, Film Studies, Video Production, Audio & Sound Engineering, or Music & Sound for Media.

CAREERS

Some of the careers available in media include: production designer, art department coordinator, camera operator, writer (general, film and documentary), editor, visual effects production, digital media producer, sound mixer and recordist, boom operator, post production sound design, duplication, music composer, looping and Foley, mobile location recording, voice-over work, audio for interactive digital media, steadicam operator, assistant editor, weblog contributor, broadcast journalist, podcast writer and production, script supervisor and continuity, videographer, production assistant, graphic artist, photographer (still), location assistant, storyboard artist, art assistant, web designer, electronic news gatherer, web radio program editor, live sound engineer, broadcast reporter and other emerging opportunities.

For information contact Kelly White, 503-594-3034 or kellyw@clackamas.edu.

#### DMC PROGRAM ELECTIVES

Additional selected electives must be from different subject areas, from the following list of prefixes: ANT, ART, BA, COMM, CS, DMC, EC, ENG, GEO, HST, J, MUS, PS, PSY, SOC, SSC, TA, WR, or WS.

---

### Entry Level Journalist

**Career Pathway Certificate**

**PROGRAM CODE: CC.ELVLMMJRNLST**

The Entry Level Journalist certificate prepares students for entry level positions in the field of digital media and journalism. Students attain knowledge and learn skills to seek careers in creative and support professions related to digital media and broadcast journalism, such as visual and audio editing, digital media production, post production, weblog and podcast writing and production, broadcast reporting and electronic news gathering.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- display preparedness for an entry-level position in the field of journalism by orchestrating multiple news teams, generating newsworthy story ideas, and checking content for problem with libel and newsworthiness;
- demonstrate video production skills and understanding in broadcast journalism by managing a news crew to follow up and record video news stories, editing video news stories, compressing video into needed formats, uploading and updating video news stories onto an internet server;
Video Production Technician continued...

- demonstrate skills and understanding in journalism by writing news stories and taking photographs for publication in the weekly newspaper, working with a peer group toward a common goal, conducting interviews in a professional manner, synthesizing information gathered from sources to put together news articles, writing photo captions with no errors, researching, collecting and evaluating information for use in news stories, practicing ethical journalism in gathering information, and processing advertising contracts;
- demonstrate skills and understanding in digital video editing which include logging and capturing raw video, cutting video sequences into individual shots, assembling shots into cohesive and meaningful order within a timeline, generating text to place into video, adjusting audio levels and apply audio transitions and color correction, discuss the historical cultural impact of the language of film and how that impacts present-day editing decisions, apply established editing techniques and style to a creative video editing project using Premiere Pro, create a digital slide show, produce an audio news story, design and maintain a working news website.

CAREERS
Career opportunities include work in radio, television stations, motion picture industry, as well as advertising and promotions.

For information contact Kelly White, 503-594-3034 or kellyw@clackamas.edu.

Credits required for certificate: 36

Early Childhood Education & Family Studies

Certificate
Associate of Applied Science Degree

PROGRAM CODES: AAS.EARLYCHILDFAM, CC.ECEFS

This program provides a foundation in the ten core knowledge categories: Family and Community Systems; Diversity; Health, Safety and Nutrition; Human Growth and Development; Learning Environments and Curriculum; Observation and Assessment; Personal, Professional and Leadership Development; Program Management; Special Needs; and Understanding and Guiding Behavior (The Oregon Registry, 2008).

Students must obtain a First-Aid certificate with infant-toddler CPR by the end of the first year.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II or MTH-098 College Math Foundations)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- ED-258 Multicultural Education)
• Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (2-3 credits-courses with HE, HPE, or PE prefix) NOT REQUIRED FOR CERTIFICATE
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Early Childhood Education & Family Studies

Upon successful completion of this program, students should be able to:
• promote children’s development and learning by creating and maintaining environments that are healthy respectful, supportive and challenging for each child;
• build family and community partnerships based on understanding and valuing the complex characteristics of children’s families and communities;
• observe, document and assess young children;
• implement developmentally effective approaches, depending on children’s ages, characteristics and the settings within which teaching and learning occurs;
• use content knowledge to build meaningful curriculum by designing, implementing and evaluating experiences that promote positive development and learning for each and every young child;
• identify and conduct themselves as members of the early childhood profession and be continuous collaborative learners.

CAREERS

After completing the two-year AAS in Early Childhood Education & Family Studies, students will be prepared to work in a variety of educational settings as lead teacher in private and public early learning programs serving infants, toddlers, and preschoolers and as teacher assistants in kindergarten – 3rd grade classrooms. Additionally, students will be prepared to work as family support personnel (e.g. family advocates, parent practitioners, family life paraprofessionals, etc.) in various education settings or child and family support agencies.

For information contact Dawn Hendricks, 503-594-6158 or dawn.hendricks@clackamas.edu

Electronics Engineering Technology

Certificate
Associate of Applied Science Degree

PROGRAM CODE: AAS.ELECTRONENGTECH, CC.ELECTRONENGTECH

Program course work focuses on a traditional electronics foundation, including a basic electronics series, digital logic series, a troubleshooting series, a physics series and a semiconductor linear circuit series. The degree focuses on electronics and engineering design principles and electronics systems and is taught in a team environment whenever possible.

Specific skill areas for the Electronics Engineering Technology degree include test equipment use, computer use, problem-solving, teamwork, understanding math and electronics fundamentals and writing and oral communication.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-095 Algebra III)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- See page 82 for course list)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (1 course - MFG-107 Industrial Safety & First Aid) NOT REQUIRED FOR CERTIFICATE
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Electronics Engineering Technology AAS Degree

Upon successful completion of this program, students should be able to:
- demonstrate safe work habits around electricity and manufacturing equipment;
- apply verbal and graphical means to communicate effectively about electronics;
- design, analyze and troubleshoot complex AC and DC circuits found in industrial, military and consumer electronics applications;
- use test equipment such as oscilloscopes, digital multimeters, signal generators and power supplies to test and maintain components and equipment;
• apply the concepts of digital electronics, computing and programming to implement automation.

PROGRAM OUTCOMES

Electronics Engineering Technology Certificate Degree

Upon successful completion of this program, students should be able to:

• demonstrate safe work habits around electricity and manufacturing equipment;
• apply verbal and graphical means to communicate effectively about electronics;
• design, analyze and troubleshoot common AC and DC circuits found in industrial, military and consumer electronics applications;
• use test equipment such as oscilloscopes, digital multimeters, signal generators and power supplies to test and maintain components and equipment;
• apply the concepts of digital electronics, to build elementary circuits.

CAREERS

Career opportunities may include engineering technician, manufacturing equipment technician, field services technician and operators and processors with large and small employers in high-tech industries.

For information contact the Manufacturing Department, 503-594-3318.

RELATED INSTRUCTION OUTCOMES

Computation (1 course - MTH-065 Algebra II)
• Use appropriate mathematics to solve problems

Communication (1 course - WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course - PSY-101 Human Relations)
• Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• apply standard precautions in infection control during patient assessment and treatment;
• apply medical legal and ethical principals in the prehospital setting;
• quickly assess the scene and patients as to determine critical or non-critical;
• demonstrate basic life support patient care following standard scope of practice protocols;
• extricate and package patients for safe and expedient transport to an appropriate medical facility;
• give an effective verbal patient transfer report and document scene and patient information;
• demonstrate knowledge and skills necessary to successfully pass Oregon licensing and National certification.

CAREERS

Career opportunities that may require EMT training include but are not limited to: firefighter (career or volunteer), paramedic, search and rescue, critical care transport or basic life support transport provider. The EMT certificate can lead to a career as a paramedic if a student wishes to continue their studies and completes the requirements for an AAS-EMT (Associate of Applied Science - EMT) degree at an accredited institution.

For continuing education opportunities for healthcare providers see Healthcare Professional Development (HPD) in the course description section on page 215.

For information contact the EMT program director at 503-594-0696 or department at 503-594-0650.

Credits required for certificate 53

*Instructor consent required.

Current Healthcare Provider level CPR (AHA or ASHI) are required; criminal history background check, proof of immunization, and students will be asked to take a drug test as arranged by the department.

Employment Skills Training

Certificate

PROGRAM CODE: CC.EMPLOYSKILLS

The Employment Skills Training Certificate provides a quick entry strategy for learning the knowledge and skills necessary to start or change a career path.

The certificate combines college courses with specified hands-on instruction at a local employer to improve employability. The student’s goals and needs are combined with information from employers, the labor market and the college to determine the knowledge and skills needed to obtain employment in a specific occupation. The student receives an individualized Employment Skills Training (EST) plan.

In addition to preparing a person for employment, the individualized EST plan guides the student in gaining more education and training which develops the student’s career path. The program is open entry/open exit, allowing students to begin any term.

PROGRAM REQUIREMENTS

An EST plan must be developed with and approved by a department’s faculty advisor.

All of the college’s collegiate level credit courses are eligible to be included in the certificate. Developmental courses may be included as prerequisites in a plan but cannot be part of the EST certificate.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• demonstrate the knowledge developed on-the-job and in the classroom;
• complete an individualized career plan;
• demonstrate employment skills, job search skills, career management skills and/or introductory contact with an employer(s) and/or hiring manager.

CAREERS

Completion of an EST certificate can impact any career.

For information contact Student Academic Support Services Department, 503-594-3475, or www.clackamas.edu/advising.
Wildland Fire Management

Subject to state and accrediting commission approval. For more details please refer to the contact information listed below.

Associate of Applied Science

PROGRAM CODE: AAS.WLDLNDMGMT

The Fire Science (Wildland) program provides education and training that can lead to seasonal employment in wildland firefighting or to the first step to a career in fire management, the forest industry or park service. There are many career tracks in the field of wildland firefighting and forestry. It’s exciting work that requires fundamental survival, safety and firefighting training and skills. It is also important to be physically fit, work well in a team environment, and respond quickly and efficiently to emergencies.

Clackamas Community College is a certified training site recognized by the Pacific Northwest Wildfire Coordinating Group (PNWCG), the Oregon Department of Forestry, and federal fire management agencies. Program instructors are National Wildfire Coordinating Group (NWCG) certified and offer 15-30 years of wildland firefighting experience. Many of the courses carry NWCG certification as well as college credit.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 or MTH-065)
- Use appropriate mathematics to solve problems

Communication (1 course – WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (3-4 credits- See page 82 for course list)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (1-3 credits- courses with HE, HPE, or PE prefix)
- Use effective life skills to improve and maintain mental and physical wellbeing

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- Evaluate hazards in the wilderness, forest and fire environments.
- Design a plan appropriate to the fire or incident situation.
- Execute the plan based on the appropriate strategy, tactics and incident objectives.
- Effectively communicate with pertinent individuals to accomplish the mission and/or incident objectives.
- Successfully lead, supervise and direct incident personnel at the appropriate level of organization.

CAREERS

Wildland fire fighter, Hot Shots, fire fighting managers or supervisors, prevention workers, forest fire inspectors, forest worker.

For information contact Jeff Ennenga, 503-594-3539 or jeff.ennenga@clackamas.edu.

Certificate

PROGRAM CODE: CC.FSWILDLAND

The Fire Science (Wildland) program provides training that can lead to seasonal employment in wildland firefighting or to the first step to a career in the forest industry or park service. There are many career tracks in the field of wildland firefighting and forestry. It's exciting work that requires fundamental survival, safety and firefighting training and skills. It is also important to be physically fit, work well in a team environment, and respond quickly and efficiently to instruction/commands.

Clackamas Community College is a certified training site recognized by the Pacific Northwest Wildfire Coordinating Group (PNWCG), the Oregon Department of Forestry, and National Forest Service. Program instructors are National Wildfire Coordinating Group (NWCG) certified and offer 15-30 years of wildland firefighting experience. Many of the courses carry NWCG certification as well as college credit.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Math I or MTH-065 Algebra II)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- See page 82 for list)
- Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
- demonstrate the basic knowledge of wildland fire behavior;
- recognize situations where safety may be at risk and take appropriate actions to insure personal safety;
- apply the fundamental skills necessary to work as a wildland firefighter at the Firefighter 2 level, working as a member of a hand crew or engine crew;
- demonstrate an understanding of basic forest management.

CAREERS

The certificate can lead to careers as a wildland firefighter, forest and conservation technician, forest fire inspector or investigator, forest fire prevention specialist, independent firefighting contractor or employment in the timber industry.

For information contact Jeff Ennenga, 503-594-3539 or jeff.ennenga@clackamas.edu or visit www.clackamas.edu/fire-science

Wildland FireFighter 1

Career Pathway Certificate

PROGRAM CODE: CC.FIREFIGHT1

This program will provide students the opportunity to gain the skills necessary to prepare them for entry-level jobs in the wildland firefighting industry. The courses will be offered over three terms so students will be ready for employment late spring.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
- demonstrate the ability to function as a Wildland Firefighter at the Firefighter 2 level;
- recognize situations and take corrective actions when personal safety may be at risk;
- apply the basic skills to operate portable pumps, read and understand fire maps, compass and GPS.

For information contact Jeff Ennenga, 503-594-3539 or jeff.ennenga@clackamas.edu or visit www.clackamas.edu/fire-science.
Wildland Fire Forestry

Career Pathway Certificate
PROGRAM CODE: CC.FIREFOREST

The Wildland Fire Forestry program provides training in forestry and conservation skills needed for technicians in this field of work. Intended for students who would like to pursue a variety of careers in the outdoors. Students are introduced to the functions, basic tools and processes to manage forestland in Oregon.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

• summarize use of Silviculture and regeneration practices;
• demonstrate how to identify trees and shrubs commonly found in Oregon;
• discuss the basics of forest road development;
• demonstrate the basics of forest measurement tools;
• explain the basics of marketing timber;
• identify logging systems;
• cite Oregon forest harvest laws.

For information contact Jeff Ennenga, 503-594-3539 or jeff.ennenga@clackamas.edu or visit www.clackamas.edu/fire-science.

Wilderness Survival & Leadership

PROGRAM CODE: CC.WILDSURVIVAL

The Wilderness Survival and Leadership program is designed for those students who would like to pursue a variety of careers in the outdoors. Students will understand leadership, survival and rescue in the wilderness. The certificate is part of the Fire Science (Wildland) career pathway.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:

• demonstrate appropriate search and rescue methods including evacuation techniques,
• demonstrate first aid and CPR skills used in the field,
• discuss the basics of land navigation and Northwest weather prediction,
• articulate the knowledge areas required for an understanding of wilderness preparedness.

CAREERS
This program prepares students for employment in parks and recreation, guide services, search and rescue, state and federal agencies, private organizations, forestry jobs and wildland firefighting. The certificate gives students the necessary skills to lead and/or participate in any program in a wide variety of settings that require leadership and competency in the backcountry regions of the Northwest.

For information contact Jeff Ennenga, 503-594-3539 or jeff.ennenga@clackamas.edu or visit www.clackamas.edu/fire-science.

Credits required for degree 14

Note: Courses do not need to be taken in sequence.
**Fitness Technology**

**Certificate**

**PROGRAM CODE: CC.FITNESSTECH**

The Fitness Technology certificate will give students the core skills and experience needed to enter the fitness industry at an entry level position. Students attain knowledge and learn skills to seek careers related to personal training, nutrition, strength and conditioning specialist as well as other careers in the fitness industry.

The course work for this program includes cooperative work experience which affords the student opportunity for hands-on experience within the various areas of the health and fitness industry. Students may enter this program at any term.

**RELATED INSTRUCTION OUTCOMES**

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- COMM-218 Interpersonal Communication or COMM-227 Non-Verbal communication)
- Engage in ethical communication processes that accomplish goals

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:
- demonstrate excellent interpersonal skills in the areas of leadership, motivation and communication;
- understand and apply advanced exercise principles related to injury prevention, conditioning, resistance training, and functional training;
- understand and apply nationally recognized standards for fitness and health and be able to communicate the benefits and precautions associated with exercise;
- understand and apply behavior modification strategies to enhance exercise and health behavior change with clients;
- demonstrate excellent leadership abilities, interpersonal communication skills, organizational and presentation skills and other necessary professional qualities demanded of health and fitness professionals in the workforce.

**CAREERS**

Career opportunities include personal trainer, life coach, nutrition specialist, strength and conditioning specialist, athletic coach, fitness instructor and physical education instructor.

For information contact Tracy Nelson, 503-594-3274 or tracyn@clackamas.edu.

---

**Geographic Information Systems (GIS) Technology**

**Certificate**

**PROGRAM CODE: CC.GISTECHNOLOGY**

The Geographic Information Systems (GIS) Technology Certificate offers instruction in the fields of geography, data analysis, cartography, global positioning systems (GPS), database theory and mathematics. The program also includes instruction in research skills, technical mathematics, computer programming, human relations skills and other field competencies.

**RELATED INSTRUCTION OUTCOMES**

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (3 credits - See page 82 for course list)

- Engage in ethical communication processes that accomplish goals

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- apply geographic knowledge and GIS software techniques to create high quality digital maps;
- create and design advanced geodatabases from original and proprietary sources for use in GIS projects;
- apply programming and geoprocessing tools to automate the capture, analysis and reporting of GIS data;
- analyze and interpret GIS data from remote sources including LIDAR and GPS signals;
- capture and transform data to GIS format from a variety of vector and raster sources.

**CAREERS**

Career opportunities may include: GIS technician, GIS analyst, mapping technician and survey and remote sensing technician.

For information contact the Manufacturing Department, 503-594-3318.

**Gerontology**

**Certificate**

**PROGRAM CODE: CC.GERONTOLOGY**

The Gerontology program offers a one-year certificate on the study of aging, which is designed for individuals who work with older people. The one-year certificate can provide significant coursework towards the two-year Associate of Applied Science degree in Human Services.

**RELATED INSTRUCTION OUTCOMES**

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II or MTH-098 College Math Foundations)

- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)

- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- HS-156 Conducting Human Service Interviews)

- Engage in ethical communication processes that accomplish goals

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- describe the different career options available in the field of gerontology;
- apply gerontological concepts to practice settings working with older adults;
- demonstrate an understanding of current community resources available to older adults and how to access them;
- communicate effectively with co-workers and clients of all ages;
- differentiate between normal aging and disease processes associated with aging, especially chronic illness and dementia;
- provide support to older adults grieving a loss (such as loss of spouse, job, or independence) by utilizing knowledge and skills of grief and bereavement.

**CAREERS**

Career opportunities include activity director, volunteer coordinator, senior services case worker, information and referral worker, client advocate, and administrative and support personnel in senior residential facilities.

For more information, contact Yvonne Smith at 503-594-3207 or yvonne@clackamas.edu.

Gerontology for Health Care Professionals

Career Pathway Certificate

Program Code: CC.GERHLCAREPRO

The need for nurses to be better prepared for caring for our aging population has been highlighted by the National League for Nurses (NLN) 2012, The Hartford Center for Geriatric Nursing (1996), the Institute of Medicine (IOM) 2012, Healthy People 20-20 and myriad other nursing organizations. Currently the Oregon Consortium for Nursing Education (OCNE) requires students receive Older Adult content in NRS-110 (Health Promotion) and then the assumption is that as the curricula addresses the life span of an individual, that more gerontology content is included throughout the program. Although this may be the case, it is up to each individual college and then each individual instructor to determine when and how much gerontology content to include. This career pathway certificate will address the need for students in nursing and other allied health care programs (such as Medical Assistant, and Emergency Management Technology) to have the background and knowledge to work with the aging population.

Program Outcomes

Upon the successful completion of this program, students should be able to:

- apply current theories in gerontology to their field of practice;
- apply gerontological concepts to practice settings working with older adults;
- differentiate between normal aging and disease processes associated with aging, especially chronic illness and dementia;
- provide support to older adults grieving a loss (including the death of a loved one) by utilizing knowledge and skills of grief and bereavement;
- discuss the impact of aging on patient care in the allied health fields.

For information, contact Yvonne Smith at 503-594-3207 or yvonnes@clackamas.edu.

Horticulture

Certificate
Associate of Applied Science Degree

PROGRAM CODES: AAS.HORT1, CC.HORT

The Horticulture Department provides quality education and training for industry and community members. Greenhouse, nursery, landscape, arboriculture, and organic farming courses integrate technical knowledge, critical thinking and environmental stewardship appropriate for the 21st century.

Horticulture is a hands-on, broad-based curriculum where all students participate in a laboratory-style practicum class which develops a full season’s experience in growing and caring for plants. Learning activities involve students in the day-to-day operation of a wide range of power and hand tools used in the trade, including: landscape mowers, rototillers, computers, tractors, skid steer loader, pruning tools and greenhouse equipment. Students cultivate plants in CCC’s extensive landscape and greenhouse facilities, including: the Water-Efficient Demonstration Garden, Annual Display Garden, Herb Garden, Perennial Garden, Landscape Industry Certified Technician test site, Farm site and several greenhouses.

Students may begin this program any term. Degree options include a one-year certificate program or a two-year Associate of Applied Science degree program. Following the course offerings in the order listed is not required, but will allow for completion in the one or two year period.

RELATED INSTRUCTION OUTCOMES
Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- BA-285 Human Relations in Business or COMM-100 Basic Speech Communication)
• Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits- HE-252 First Aid/CPR/AED) NOT REQUIRED FOR CERTIFICATE
• Use effective life skills to improve and maintain mental and physical wellbeing.

Nursing Assistant–Gerontology Specialist

Career Pathway Certificate

PROGRAM CODE: CC.NAGERONSPEC

This program combines the nursing assistant clinical training with the applicable theory aimed at serving our aging population. This certificate will ultimately lead to an advanced workforce for employers and more robust employment opportunities for students.

PROGRAM OUTCOMES

Upon the successful completion of this program, students should be able to:
• apply gerontological concepts to practice settings working with older adults;
• differentiate between normal aging and disease processes associated with aging, especially chronic illness and dementia;
• provide support to older adults grieving a loss (including the death of a loved one) by utilizing knowledge and skills of grief and bereavement.

For information, contact Yvonne Smith at 503-594-3207 or yvonnes@clackamas.edu.

Horticulture continued...

PROGRAM OUTCOMES

Horticulture AAS Degree

Upon successful completion of this program, students should be able to:

- demonstrate a broad range of skills in the production and maintenance of plants, including: safe use of tools and equipment, propagation from seeds and cuttings, landscape maintenance activities, growing in a greenhouse environment, and vegetable bed preparation;
- identify common woody plants in the landscape;
- recognize and evaluate key pests and propose solutions based on IPM strategies;
- use a basic understanding of plant biology and soil science to make sound decisions in the production and maintenance of plants;
- display effective decision making, time management and project management skills in the horticulture industry;
- communicate effectively with co-workers and customers through speaking, writing and computer technology;
- pass the ODA Pesticide Laws & Safety exam, and an applicator exam.

PROGRAM OUTCOMES

Horticulture Certificate Degree

Upon successful completion of this program, students should be able to:

- demonstrate a broad range of skills in the production and maintenance of plants, including: safe use of tools and equipment, propagation from seeds and cuttings, landscape maintenance activities, growing in a greenhouse environment, and vegetable bed preparation;
- identify common woody plants in the landscape;
- implement IPM strategies in the horticulture industry;
- use a basic understanding of plant biology and soil science to make sound decisions in the production and maintenance of plants;
- effectively communicate with co-workers and customers through speaking, writing, and computer technology;
- pass the ODA Pesticide Laws & Safety exam.

Students are eligible to sit for the Oregon Certified Nursery Professional Exam. Students completing the Horticulture Associate of Applied Science (AAS) Degree with a 2.5 GPA or higher, are eligible to take the Oregon Landscape Contractors License exam.

CAREERS

Career opportunities include nursery and garden center manager and associate, nursery production, greenhouse grower, organic food production, supply and equipment sales, landscape design, installation and maintenance worker, parks department personnel and groundskeeper.

For information contact April Chastain, Horticulture Department advisor, 503-594-3055 or april.chastain@clackamas.edu.

OREGON STATE UNIVERSITY TRANSFER AGREEMENT

Some horticulture classes transfer to Oregon State University as part of a bachelor's degree. Horticulture students planning to continue their studies at a four-year college should consult the Horticulture advisor to obtain the most recent transfer information.

Irrigation Technician

**Career Pathway Certificate**

**PROGRAM CODE: CC.IRRTECHNICIAN**

The Irrigation Technician program provides instruction for design, installation, repair, upgrade, maintenance, monitoring and programming of irrigation systems for landscapes, nurseries, golf courses, parks or agriculture. This pathway certificate is a part of both the Horticulture and Landscape Management AAS degree programs.

Students in this program also have the opportunity to take Backflow Assembly Operation & Testing (WET-109), which prepares them to become certified as a Backflow Assembly Tester.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- design, install, maintain, troubleshoot, repair and program irrigation systems.

**CAREERS**

Career opportunities include working as an Irrigation Technician in nurseries, greenhouses, parks, golf courses, landscapes or production agriculture.

For information contact April Chastain, Horticulture Department advisor, 503-594-3055 or april.chastain@clackamas.edu.

Plant Health Management

Career Pathway Certificate

PROGRAM CODE: CC.PLANTHEALMGT

The Plant Health Management program provides instruction for monitoring and identifying pests, selecting and utilizing appropriate control measures and evaluating their effectiveness. Course work is offered mainly through evening classes and on-the-job training. This pathway certificate is a part of both the Horticulture and Landscape Management AAS programs.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• pass the ODA Pesticide Laws & Safety exam, and a Commercial Pesticide Applicator exam;
• recognize and evaluate key pests in the landscape and propose solutions based on IPM strategies.

CAREERS

Career opportunities include working as a Plant Health Management Technician or Pest Control Specialist in nurseries, greenhouses, parks, golf courses, landscape management, or production agriculture.

For information contact April Chastain, Horticulture Department advisor, 503-594-3055 or april.chastain@clackamas.edu.

Credits required for certificate 16

Human Services Generalist

Certificate

Associate of Applied Science Degree

PROGRAM CODES: AAS.HUMANSERVGEN, CC.HUMANSERVGEN

Both the one-year certificate and the two-year AAS in Human Services Generalist degree offer training for entry-level positions in diverse social services agencies. The degree combines academic course work with 12 credits of supervised field experience. In addition to general course work in human services, students may select a variety of approved elective certificates/courses to focus on different concentration areas.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II or MTH-098 College Math Foundations)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- HS-156 Conducting Human Service Interviews)
• Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (1 course-HE-163 Body & Drugs I: Introduction to Abuse & Addiction)
NOT REQUIRED FOR CERTIFICATE
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Human Services Generalist AAS Degree

Upon successful completion of this program, students should be able to:

• complete human service assessments that include client strengths and challenges;
• outline key resources in the community and the network of service delivery;
• apply knowledge about the development and function of individuals and families in a practice setting;
• practice professional communication skills both verbally and in writing in a human services setting;
• adhere to the professional ethics, attitudes and values necessary for effective human service work;
• recognize the role of human services professional as a change agent;
• analyze the context and the role of diversity in determining and meeting people.

PROGRAM OUTCOMES

Human Services Generalist Certificate Degree

Upon successful completion of this program, students should be able to:

• outline key resources in the community and the network of service delivery;
• apply knowledge about the development and function of individuals and families in a practice setting;
• practice beginning-level professional communication skills both verbally and in writing in a human services setting;
• adhere to the professional ethics, attitudes and values necessary for effective human service work.

CAREERS

Opportunities for employment include positions such as case managers and assistants, resource specialists, family advocates, client advocates, intake workers, family assistance workers and volunteer coordinators.

For information contact Yvonne Smith, 503-594-3207 or yvonnes@clackamas.edu.

## HUMAN SERVICES GENERALIST PROGRAM ELECTIVES

Students take 30 credits from any of the following certificate programs, as electives in the Human Services Generalist program:

Any course numbered 100 or above in the following prefixes as long as the course is not fulfilling another requirement in this degree:

- ASL
- CJA
- COMM
- ECE
- ED
- FR
- GER
- GRN
- HD
- HDF
- HS
- MA
- PSY
- SOC
- SPN
- WS

## Alcohol & Drug Counselor

### Career Pathway Certificate

**PROGRAM CODE: CC.ALDRUGCOUNSLR**

The Alcohol & Drug Counselor Pathway Certificate prepares students to sit for the certification examination offered by the Addiction Counselor Certification Board. The coursework is appropriate both for new students to the field, and those wishing to update their skills or seek additional certification. The certificate provides the 150 educational hours required by the certification board. Students can also opt to add a CWE component that will partially fulfill the 1000 required practicum hours. Qualifying for the CADC I certificate is a stepping stone for students who want to work now, but may also be thinking of pursuing further education in the future. More information about certification can be found at [www.accbo.com](http://www.accbo.com).

### PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- demonstrate appropriate interviewing skills in an assessment or treatment setting;
- articulate the ethics required for effective work in the substance abuse field;
- recognize the signs of common substance abuse disorders;
- discuss the impact of drug use and abuse on society and the public health.

*continued*
Alcohol & Drug Counselor continued…

CAREERS
This program prepares students to work in a variety of human service settings, including both inpatient and outpatient treatment programs, programs for the homeless, and a variety of community agencies.

For information contact Yvonne Smith, 503-594-3207 or yvonnes@clackamas.edu.

Industrial Maintenance Technology

Certificate
Associate of Applied Science Degree

PROGRAM CODE: AAS.INDMAINTECH, CC.INDMAINTECH

Industrial Maintenance Technology (IMT) is a program that prepares students to succeed as maintenance technicians in industry. IMT graduates perform mechanical and electrical maintenance of manufacturing equipment such as machine tools, automated process equipment and buildings systems to keep production operational. Maintenance technicians study subjects from a wide variety of technical disciplines ranging from welding to industrial electronics to robotics. This is a high-wage, high-demand field that typically attracts talented people who are excellent problem solvers and enjoy challenging work.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- COMM-100 Basic Speech Communication)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits-MFG-107 Industrial Safety & First Aid) NOT REQUIRED FOR CERTIFICATE
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Industrial Maintenance Technology AAS Degree

Upon successful completion of this program, students should be able to:
- Work safely in an industrial environment around machinery, power equipment, heat, chemicals and electricity.
- Troubleshoot, install and repair complex electromechanical systems by using knowledge of electrical and mechanical fundamentals, diagnostic instruments, and hand and power tools.
- Use knowledge of manufacturing and welding processes to execute the repair and replacement of machine elements.
- Effectively apply computer technology to the automation and control of manufacturing and building systems
- Communicate effectively though graphical means including schematics, diagrams, engineering drawing and sketches to determine system functions to effect repairs and improve performance.

PROGRAM OUTCOMES

Industrial Maintenance Technology Certificate Degree

Upon successful completion of this program, students should be able to:
- Work safely in an industrial environment around machinery, power equipment, heat, chemicals and electricity.
- Troubleshoot, install and repair basic electromechanical systems by using knowledge of electrical and mechanical fundamentals, diagnostic instruments, and hand and power tools.
- Use knowledge of manufacturing and welding processes to execute the repair and replacement of machine elements.
- Communicate effectively though graphical means including schematics, diagrams, engineering drawing and sketches to determine system functions to effect repairs and improve performance.

CAREERS

IMT graduates find careers as maintenance mechanics, millwrights, process technicians, maintenance machinists, building engineers, robotics technicians and industrial electrician apprentices.

For information contact Mike Mattson, 503-594-3322 or mattsonm@clackamas.edu.
INDUSTRIAL MAINTENANCE TECHNOLOGY CERTIFICATE

FALL TERM
- IMT-104 Reading Schematics and Symbols 2
- MFG-103 Machining for the Fabrication and Maintenance Trades 3
- MFG-107 Industrial Safety & First Aid 3
- MFG-109 Computer Literacy for Technicians 3
- MFG-130 Basic Electricity I 3
- MTH-050 Technical Mathematics I 4

WINTER TERM

Landscape Management

Associate of Applied Science Degree

PROGRAM CODE: AAS.LANDSCAPEMGMT

The Landscape Management degree will prepare students for entry-level management positions in the landscaping industry by providing them business, communication and project management skills in addition to a basic understanding of, and hands-on experience with, the activities involved in the installation and maintenance of landscapes.

Sustainable practices, such as the use of Integrated Pest Management, low water landscapes, and techniques that protect and care for the soil are emphasized throughout the program. Students use industry standard equipment and practices in the care of CCC’s extensive landscape facilities, including an arboretum, water-efficient demonstration garden, large turf areas, and several annual, herbaceous perennial and shrub beds.

CCC’s landscape program is the only one in Oregon accredited by the National Association of Landscape Professionals (NALP), which speaks to its credibility in the industry. Students have the opportunity to compete on the team that attends NALP’s National Collegiate Landscape Competition each year. Also, NALP’s certified technician testing site for Oregon is located on campus, and is used for instructional purposes.

Landscape Management graduates may be eligible to take NALP’s Landscape Industry Certified Technician-Exterior Ornamental Maintenance test free of charge.

Students completing the Landscape Management Associate of Applied Science (AAS) Degree with a 2.5 GPA or higher are eligible to take the Oregon Landscape Contractors License exam.

Students may begin this program any term. Following the course offerings in the order listed is not required, but will allow for completion in a two year period.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition or BA-214 Business Communications)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- BA-285 Human Relations in Business or COMM-100 Basic Speech Communication)
• Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits- HE-252 First Aid/CPR/AED)
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
• demonstrate competency in sustainable landscape maintenance and installation activities, including: safe use of tools and equipment, operation of irrigation systems, pruning and training techniques, turf maintenance, hardscape installation and reading/installing from a design plan;
• identify common woody and herbaceous plants in the landscape;
• recognize and evaluate key pests in the landscape and propose solutions based on IPM strategies;
• use a basic understanding of plant biology and soil science to make sound decisions in the design and maintenance of landscapes;
• display effective decision making, time management and project management skills in the landscape industry environment;
• effectively communicate with co-workers and customers through speaking, writing and computer technology;
• pass the ODA Pesticide Laws & Safety exam, and an applicator exam;
• pass NALP’s Landscape Industry Certified Technician-Exterior test for Ornamental Maintenance.

CAREERS

As a graduate of our Landscape program, you will be prepared to work in a supervisory or skilled landscape technician position for a landscape design/build company, estate garden, parks department, tree care company, golf course or as a self-employed installation/maintenance contractor.

For information contact April Chastain, Horticulture Department advisor, 503-594-3055 or april.chastain@clackamas.edu.

OREGON STATE UNIVERSITY TRANSFER AGREEMENT

Some horticulture classes transfer to Oregon State University as part of a bachelor’s degree. Landscape students planning to continue their studies at a four-year college should consult the Horticulture advisor to obtain the most recent transfer information.

Associate of Applied Science Degree

PROGRAM CODE: AAS.LANDMGMTARBOR

This degree prepares students for entry-level positions in commercial arboriculture and urban forestry, while enhancing their ability to move into management positions. Students will gain practical expertise in the establishment and caring for landscape trees, including planting, pruning, pest management, tree diagnostics, and operating industry standard equipment. Additionally, students will learn skills in communicating with customers, both orally and through report writing.

Sustainable practices, such as the use of Integrated Pest Management, low water use landscapes, and techniques that protect and care for the soil are emphasized throughout the program. Students use industry standard equipment and practices in the care of CCC’s trees and shrubs.

Students may begin this program any term, but some courses have prerequisites, which must be taken first. Following the course offerings in the order listed is not required, but will allow for completion in a two year period.

continued
Landscape Management, Arboriculture Option continued…

RELATED INSTRUCTION OUTCOMES
Computation (1 course- MTH-050 Technical Mathetics I or MTH-065 Algebra II or higher)
• Use appropriate mathematics to solve problems
Communication (1 course- WR-121 English Composition or BA-214 Business Communications)
• Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (1 course- BA-285 Human Relations in Business or COMM-100 Basic Speech Communication)
• Engage in ethical communication processes that accomplish goals
Physical Education/Health/Safety/First Aid (3 credits- HE-252 First Aid/CPR/AED)
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:
• demonstrate competency with the use of standard arboriculture equipment, including: climbing gear, chainsaw, chipper, hydraulic sprayer, truck and trailer;
• identify common woody and herbaceous plants in the landscape;
• recognize and identify key biotic and abiotic disorders in trees;
• perform site assessments, including: plant health inspections of key plants, hazard tree identification, and water audit interpretations;
• effectively communicate with co-workers and customers through speaking, report writing and computer technology;
• pass the International Society of Arboriculture’s Certified Arborist exam;
• pass the ODA Pesticide Laws & Safety exam, and the ODA Ornamental & Turf Insecticide/Fungicide exam.

CAREERS
As a graduate of our Arboriculture program, you will be prepared to work as a tree-climber or plant care technician for a tree care company, parks department, or as a self-employed arborist.

For information contact April Chastain, Horticulture Department advisor, 503-594-3055 or april.chastain@clackamas.edu.

OREGON STATE UNIVERSITY TRANSFER AGREEMENT
Some horticulture classes transfer to Oregon State University as part of a bachelor’s degree. Arboriculture students planning to continue their studies at a four-year college should consult the Horticulture advisor to obtain the most recent transfer information.

---

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- demonstrate competency in sustainable landscape maintenance and installation activities, including: safe use of tools and equipment, operation of irrigation systems, pruning and training techniques, turf maintenance, hardscape installation and reading/installing from a design plan;
- identify common woody and herbaceous plants in the landscape;
- recognize key pests in the landscape and follow IPM strategies;
- use a basic understanding of soil science to make sound decisions in the maintenance of landscapes;
- pass the ODA Pesticide Laws & Safety exam.

**CAREERS**

As a graduate of our Landscape Practices program, you will be prepared to work in a skilled landscape technician position for a: landscape design/build company, estate garden, parks department, tree care company, golf course or as a self-employed maintenance contractor.

For information contact April Chastain, Horticulture Department advisor, 503-594-3055 or april.chastain@clackamas.edu.

OREGON STATE UNIVERSITY TRANSFER AGREEMENT

Manufacturing Technology

Professional Upgrade Certificate
Associate of Applied Science Degree

PROGRAM CODES: AAS.MANUFTECH, CC.MANUFTECH

Course work in manufacturing technology prepares students for careers in high-tech manufacturing by producing products to exacting industrial standards utilizing current manual and computer-aided machine tool technology. Many classes are taught in a flexible, open-lab format and students may enter the program any term.

Individualized daytime and evening instruction is provided in the operation of machine tools such as: lathes, mills, surface and cylindrical grinders and common machine shop equipment. Included in the degree program is the study of computer numerical control (CNC) programming and machining for milling, turning and electrical discharge machining (EDM), as well as courses in computer-aided manufacturing (CAM) utilizing current industrial CAD/CAM software. Quality control is stressed while students are taught a wide range of measuring and inspection techniques. Other topics include courses offered in welding, materials science and basic electricity. Many students enroll in these courses to upgrade existing job skills and several of our courses satisfy the continuing education unit (CEU) requirements of local apprenticeships and trade organizations.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (3 credits - see page 82 for course list)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits- MFG-107 Industrial Safety & First Aid) NOT REQUIRED FOR CERTIFICATE
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Manufacturing Technology AAS Degree

Upon successful completion of this program, students should be able to:
- set-up and operate manual machine tools to produce machined products to required specifications by applying appropriate skills, processes, and technologies;
- set-up and operate CNC machine tools to produce machined products to required specifications by applying appropriate skills, processes, and technologies;
- apply computer software applications to produce manufacturing related documents, create CAD models, and generate CAM programs for machining processes;
- apply knowledge of materials, physics and mathematics to effectively machine industrial materials;
- apply critical thinking skills to solve common machining and manufacturing problems;
- work safely in an industrial environment around machinery, power tools, electricity and chemicals.

PROGRAM OUTCOMES

Manufacturing Technology Certificate Degree

Upon successful completion of this program, students should be able to:
- work independently on manual machine tools to produce machined products to required specifications by applying appropriate skills, processes, and technologies;
- work independently on CNC machine tools to produce machined products to required specifications by applying appropriate skills, processes, and technologies;
- apply critical thinking skills to solve common machining and manufacturing problems;
- work safely in an industrial environment around machinery, power tools, electricity and chemicals.

CAREERS

Career opportunities may include machinist, tool maker, CNC programmer/operator and CAD/CAM technicians.

SHORT TERM TRAINING

For students who need a quick-entry strategy into the work force, an individualized education and employment plan can be created that concentrates the knowledge and skills necessary to start or change a career path. Please see a faculty advisor for more information. A short-term training certificate is available.

For information contact the Manufacturing Department, 503-594-3318.

*Credit for college transfer courses for these courses if you plan to continue your education at a higher education institution. It is recommended that you consult with a faculty advisor or a staff member in Student Services for the transfer requirements of the specific advanced program or school.

MANUFACTURING ENGINEERING TECHNOLOGY
(Oregon Tech transfer courses)

The Manufacturing Technology Department, in partnership with Oregon Tech, offers a significant number of transferable classes into Oregon Tech's Manufacturing Engineering Technology degree program. For information contact the Manufacturing Department, 503-594-3318.

CNC Machining Technician

Career Pathway Certificate

PROGRAM CODE: CC.CNCMACHTECH

The CNC Machining Technician program at Clackamas provides the training necessary for employment within the advanced manufacturing field. The program is arranged with core CNC competencies in mind while allowing the student flexibility to take other relevant manufacturing courses. Course work covers blueprint reading, technical mathematics, safety, and manual and CNC machining. The program is fully transferable to the one-year Manufacturing Technology certificate or two-year Manufacturing Technology AAS degree.

This certificate is part of the manufacturing career pathway preparing students for a wide variety of manufacturing careers and opportunities to continue at a four-year institution.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• accurately interpret technical drawings to determine key inspection dimensions and specifications;
• work safely in an industrial environment around machinery, power tools and chemicals;
• operate manual machine tools to produce simple products to required specifications;
• operate CNC machine tools including: program try-out, tooling/work-piece setup and adjustment of three-axis lathes;
• apply mathematics to solve manufacturing problems in machining and inspection.

CAREERS

Career opportunities may include entry-level CNC operator, machinist or general manufacturing technician.

For more information contact the Manufacturing Department, 503-594-3318.

CNC MACHINING TECHNICIAN CAREER PATHWAY CERTIFICATE

COURSE  CREDITS
MFG-104  Print Reading  2

Mastercam

Certificate

PROGRAM CODE: CC.MASTERCAM

The Mastercam program is comprised of a series of three classes that prepare students to use Mastercam for 2D and 3D model building, toolpath selection and creation, and toolpath verification. Students will learn all basic 2D milling toolpaths, 3D surfacing toolpaths, and lathe with live-tooling toolpaths.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:
- utilize Mastercam for programming two dimensional toolpaths, advanced surface toolpaths, and lathe/mill-turn toolpaths;
- attain the skills necessary for employment as CAD/CAM CNC programmer.

CAREERS
CNC programmer.

For information contact the Manufacturing Department, 503-594-3318.

Medical Assistant

Certificate

PROGRAM CODE: CC.MEDASST

Medical assistants function as an integral member of the healthcare delivery team by performing administrative, clinical and other general functions of the ambulatory care setting. The Clackamas Community College, Medical Assistant (MA) program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) upon the recommendation of the Medical Assistant Educational Review Board, MAERB (CAAHEP), 25400 U.S. Highway 19 N. Ste. 158, Clearwater, FL 33763; telephone: 727-210-2350, online: www.caahep.org

PROGRAM PREREQUISITES & REQUIREMENTS
The application process to this limited entry program is a multi-phase admission process. Phase requirements are explained in detail on the program website. They include prerequisites, requirements and pertinent dates as listed in the current application: www.clackamas.edu/healthSciences. Information is also available at Student Advising Services located on Harmony, Oregon City and the Wilsonville campuses.

The program consists of three successive terms of full-time study with the addition of two prerequisite courses. Applicants are advised that a high level of dexterity, the ability to multitask and "think on your feet," increased physical and mental stamina, along with a high degree of "attention to detail" are required for the successful completion of the MA program. Successful students are required to complete an administrative and clinical practicum within an ambulatory care setting in the Portland metro area.

Prior to application the MA student candidate must:
- Successfully complete MA110, Medical Terminology and WR121, English Composition with a letter grade of ‘C’ or better.
- Please note that prerequisites and/or application requirements may change from year to year. Please check the website listed above for the most accurate information.

Students seeking to enter this special admit program must meet additional admission criteria including Oregon statutory mandates for all healthcare students and providers:
- Must not have been convicted of, pleaded guilty to or currently charged with a felony; and they must pass a Criminal history Background Check. Must also pass Urine Drug Screen to enter the program (CBC and UDS repeated and passed prior to third term externship)
- Provide official documentation that he/she will be at least 18 years of age prior to beginning his/her externship experience in Spring term
- Must certify high school diploma or pass GED exam
- Must be in good standing with any organization that has granted a professional license, certification or registration
- Provide and submit all Oregon Health Authority (OHA) required documents within the specified time frame of the multiphase application process.
  - Criminal history background check
  - Urine drug/alcohol screen
  - American Heart Association
  - BLS CPR certification (Basic Life Support CPR)
  - Heartsaver 1st Aid certification
  - Health & Physical Form
  - OHA required vaccinations and/or titers and health screens
RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-054 Medication Calculations for Medical Assistants)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- PSY-101 Human Relations)
- Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- Demonstrate entry level employment skills (psychomotor/affective)
- Demonstrate knowledge of medical assistant concepts (cognitive)
- Communicate relevant patient information concisely and accurately
- Apply infection controls (medical/surgical), safety and bloodborne pathogen principles and techniques to the practice of medical assisting
- Apply medical laws and ethical principles to the practice of medical assisting
- Calculate and administer medications: oral and parenteral
- Describe the structure, function and organization of the human body across the lifespan

CAREERS

Career opportunities may include but are not limited to: employment in the ambulatory healthcare facilities, and outpatient surgical centers. Students should be prepared for entry-level employment as a medical assistant.

The Medical Assistant program of Clackamas Community College does not discriminate among applicants as to age, gender affiliation, sexual orientation, color, religion, or national origin.

For continuing education opportunities for healthcare providers see Healthcare Professional Development (XHPD) in the course description section of this catalog.

Credits required for certificate 53-54

**To meet graduation requirements in addition to successful completion of courses, the MA student is required to:

- Participate in an unpaid, supervised externship in an ambulatory care setting.
- Perform 20 hours of public health-related community service.
- Register for the CMA (AAMA) certification exam.

Note: All clinical/practicum courses are Pass/No Pass. All other related instruction courses may be taken prior to entering the MA program.

Core curriculum is sequential and may not be taken out of order. Core curriculum is intended to be completed over three consecutive terms in one academic year.

For the Certified Medical Assistant (CMA) exam, direct inquiries to: AAMA Certification Department at www.aama-ntl.org or by phone 800-228-2262.

Microelectronics Systems Technology

Certificate
Associate of Applied Science Degree

PROGRAM CODES: AAS.MICROSYSTECH, CC.MICROSYSTECH

This program prepares students for entry into the microelectronics and semiconductor industries. Course work focuses on wafer manufacturing, integrated circuit fabrication, component manufacturing, microelectronic assembly and equipment maintenance. Specific skill areas include: silicon materials fabrication, silicon manufacturing, semiconductor processing, microcontamination and particle control, troubleshooting of equipment and systems, microlithography, ion implantation, etch and chemical vapor deposition.

continued
Microelectronics Systems Technology continued...

RELATED INSTRUCTION OUTCOMES

Computation (1 course-MTH-050 Technical Mathematics I)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (3 credits - see page 82 for course list)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits-MFG-107 Industrial Safety and First Aid) NOT REQUIRED FOR CERTIFICATE
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Microelectronics Systems Technology AAS Degree

Upon successful completion of this program, students should be able to:
- demonstrate safe work habits around electricity and manufacturing equipment;
- apply verbal and graphical means to communicate effectively about electronics;
- design, analyze and troubleshoot common AC and DC circuits found in industrial, military and consumer electronics applications;
- use test equipment such as oscilloscopes, digital multimeters, signal generators and power supplies to test and maintain components and equipment;
- use test equipment such as oscilloscopes, digital multimeters, signal generators and power supplies to test and maintain components and equipment;
- apply knowledge of control systems and industrial technologies to select, program, operate and maintain automated manufacturing systems.

CAREERS

Career opportunities may include fabrication technician, equipment technician and product test technician.

For information contact the Manufacturing Department, 503-594-3318.

www.clackamas.edu
MICROELECTRONICS SYSTEMS TECHNOLOGY
PROGRAM ELECTIVES:

Any course with a CDT, EET, MFG, RET, SM, or WLD prefix not already in the Microelectronics Systems Technology program.

*Substitute college transfer courses for these courses if you plan to continue your education at a higher education institution. It is recommended that you consult with a faculty advisor or a staff member in Student Services for the transfer requirements of the specific advanced program or school.

ELECTRONICS ENGINEERING TECHNOLOGY
(Oregon Tech transfer courses)

The Manufacturing Technology Department, in cooperation with Oregon Tech, offers a number of transferable microelectronics classes into Oregon Tech's Electronics Engineering Technology degree program. For information contact the Manufacturing Department, 503-594-3318.

Music Performance & Technology

Associate of Applied Science degree

PROGRAM CODE: MUSICPERFTECH

The Music Performance & Technology AAS (MPT) degree provides skills in three broad categories necessary to successfully make a living as a professional musician and closely-related fields: 1) musicianship and performance skills; 2) technical skills appropriate to composition, recording, digital audio and studio production; and 3) business skills necessary for an entrepreneurial career that generates income from multiple sources at any time, and different combinations of sources over time.

The MPT AAS overlaps both with more narrowly targeted programs such as CCC's one-year Music Technology certificate, and also with transfer-oriented programs such as CCC's AS Music degree for transfer to music at Portland State University.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I or MTH-065 Algebra II)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- COMM-100 Basic Speech Communication)
• Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (1 credit- courses with HE, HPE, or PE prefix)
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:
• recognize and articulate the interrelationships of basic musical properties such as rhythm, melody, harmony, timbre, texture, and form, when listening, performing, evaluating and composing;
• demonstrate performance proficiency on their instrument of choice and at a basic level on the keyboard by: using technique adequate for artistic self-expression, performing music in at least one style appropriate for the instrument and its repertory, chart reading/writing, showing growth in artistry, technical skills, collaborative competence, and knowledge of repertory through regular ensemble experiences;
• use industry-standard recording techniques and equipment, and other types of music technology studios and equipment;
• complete recording projects that include elements of music and audio in digital format, including MIDI, sound sampling, synthesis, processing, editing, and mixing, and use software/hardware appropriate for these tasks in a professional setting;
• create basic business plans, marketing plans and financial statements appropriate for small music businesses (e.g. showing typical musician income streams in these contexts, marketing via social media and other channels).

CAREERS

Career opportunities includes musician, singer, vocalist, performing artist, arranger, songwriter/lyricist, touring artist, private studio teacher, studio assistant, promoter/band manager, director/conductor, composer, independent musician, accompanist, chamber musician, orchestrator, audio-visual technician, production assistant (media, audio, sound), studio technician.

For students interested in owning their own business, the Music department highly recommends as preparation for, or enhancement of, an entrepreneurial career, CCC's SBM-020, Small Business Greenhouse course offered through the Small Business Development Center (SBDC) at the Harmony Community Campus. Students create business, marketing and financial plans for their own business and gain access to SBDC resources for startup businesses, including 1-on-1 financial counseling and other support. Note: SBM-020 does not qualify for financial aid.

For more information contact Kathleen Hollingsworth, 503-594-6299 or kathleen.hollingsworth@clackamas.edu.

www.clackamas.edu
• Engage in ethical communication processes that
  accomplish goals.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• complete recording projects illustrating competence in professional audio recording technologies and the ability to complete the production process using appropriate software/hardware;

• produce a final recording project that demonstrates preparedness for entry into a career related to music technology, and articulate how that project relates to professional opportunities in that field;

• critically analyze and discuss multimedia works (their own or others) in the context of music history and/or theory;

• demonstrate an awareness of ethical, legal, and business considerations involved when creating recorded audio works, including basic professional skills related to documentation and rights licensing for copyright, fair use, etc.

CAREERS

Careers include recording engineer, live sound engineer, media and sound post-production for internet companies, sound/music for video games, sound/media engineer for TV, recording/sound for advertising production, video post-production engineer, sound engineer for radio, video production engineer, film sound recording engineer, film post production for mixed media, film post production for sound only, film sound designer (FX), film foley artist, technical support for music production software companies, technical development for music production hardware and software and sound technical development for software companies.

For more information contact Brian Rose, 503-594-3340 or brianr@clackamas.edu.

Nursing

Associate of Applied Science Degree

PROGRAM CODE: AAS.NURSING

NURSING ASSISTANT OPTIONS

Being a certified nursing assistant can be a fulfilling, life-long vocation or the first step in your health care career.

NURSING ASSISTANT 1 (CNA 1)

Clackamas Community College Nursing Assistant course provides the student with the skills to perform basic level nursing care. Certified Nursing Assistants are defined by law as people who assist licensed nursing personnel in the provision of nursing care. Content includes: introduction to health care facilities, communication, basic body structure and function, patient needs, preventing infection, body mechanics, and much more. This course is approved by the Oregon State Board of Nursing.

Class times may vary term to term. This one-term course consists of 155 contact hours including 80 hours of lecture and lecture/lab and 75 hours of clinical experience. Clinical hours begin the sixth week of the course and are normally done at local Skilled Nursing Centers. Approximate length of the course is 11 weeks.

COURSE OFFERED–SUMMER, FALL, WINTER, SPRING TERMS:

<table>

<tbody>
<tr>
<td>NUR-100</td>
<td>Nursing Assistant 1 7 credits</td>
</tr>
<tr>
<td>NUR-100C</td>
<td>Nursing Assistant 1 Clinical 0 credits</td>
</tr>
</tbody>
</table>

Upon successful completion of this 7 credit course, students may apply for the Oregon State Board of Nursing certification exam for nursing assistants (CNA 1).

The cost of the course will include pre-registration requirements such as criminal background check, American Heart Association CPR for Healthcare Professionals, immunizations and UA drug screen. Course tuition, textbooks, name badge, state exam fee, and a watch with a second hand, uniform and shoes.

READING & WRITING COMPETENCIES:

You will need to prove competency levels in reading and writing. Competency in reading and writing is measured by CCC placement test(s) or previous college coursework (unofficial transcript). Placement exam scores must be at least WR-121 and RD-115 to be eligible to apply or an unofficial transcript indicating WRD-098 was taken with a C or better.

You must be at least 18 years of age. High school students may apply with written authorization from their high school counselor. (Proof must be provided.)

Before you will be permitted to enroll you must attend the Nursing Assistant Mandatory Orientation. Specific details can be found in the college's Schedule of Classes and online at www.clackamas.edu/nursing.

NURSING ASSISTANT II – ACUTE CARE TRAINING (CNA 2)

This course is designed to prepare students to perform routine and acute nursing assistant tasks for clients in the following venues: hospital, long-term and skilled care facilities and the community. Instruction incorporates concepts of safety and preventing complications, communicating
client responses to the nurse, and documenting/recording outcomes of client care. By Oregon State Board of Nursing regulations, the course is restricted to those who hold a current, unencumbered Oregon CNA 1 license and have their name listed on the CNA Registry. Also, you must be able to demonstrate proficiency in CNA 1 skills during lab sessions. This course meets the minimum state requirements with 60 hours of lecture and lab instruction as well as 28 hours of clinical experience.

**COURSE OFFERED--SUMMER, FALL, WINTER, SPRING TERMS:**

- NUR-101 Certified Nursing Assistant II 4 credits
- NUR-101C Certified Nursing Assistant 2 Clinical 0 credits

Before you will be permitted to enroll you must attend the Nursing Assistant 2 Mandatory Orientation. Specific details can be found in the course schedule and online. For more information email: health-sciences-questions@clackamas.edu.

**NURSING PROGRAM**

The Clackamas Community College nursing program, which is approved by the Oregon State Board of Education and the Oregon State Board of Nursing, is also a partner in the Oregon Consortium for Nursing Education (OCNE). OCNE is a coalition of nurse educators and nursing programs across the state. The curriculum in OCNE nursing programs is competency-based and was developed in collaboration with Oregon Health & Science University (OHSU) and other community colleges around the state. The curriculum was created to educate nurses regarding the prevalent health needs of our population: Health Promotion, Chronic Illness Management, Care of the Acutely Ill and End of Life Care. As a part of the consortium, Clackamas Community College nursing program has joined with ten other Oregon community college programs and all campuses of the Oregon Health & Science University (OHSU) in a unique, unified approach to nursing education. In addition, OCNE schools share the same prerequisites and have comparable application processes for students. For more information on the OCNE curriculum, refer to www.ocne.org

Admission into the nursing program is by special application only. The application is a two-step process. Students must submit an application to the Allied Health Admissions Office by the stated deadline. Based upon a point system, qualified applicants will progress to the interview/essay portion of the application process. Acceptance to the nursing program allows for co-admission to Clackamas Community College and Oregon Health & Science University School of Nursing. A criminal background check will be required prior to acceptance into the nursing program. An applicant who has been arrested, charged or convicted of any criminal offense will be evaluated on an individual basis. Certain convictions will automatically exclude an applicant from being accepted into the nursing program. Additional information pertaining to offenses that will deem an applicant as ineligible for the nursing program can be found at: www.oregon.gov/OSBN/Pages/criminal_history.aspx

A physical examination by a licensed healthcare provider, validation of up-to-date immunization, and urine drug screen are also required prior to the start of clinical rotations in the first term of the program. Maintenance of vaccinations (such as influenza) and American Heart Association Healthcare Provider BLS (CPR) is required throughout all terms of the nursing program. Technical standards related to the ability to perform safe patient care will need to be maintained while in the nursing program.

**RELATED INSTRUCTION OUTCOMES**

- Use appropriate mathematics to solve problems
- Communication (1 course- WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences
- Human Relations (1 course- PSY-215 Introduction to Developmental Psychology)
- Engage in ethical communication processes that accomplish goals
- Physical Education/Health/Safety/First Aid (3 credits- courses with HE, HPE, or PE prefix. Current Basic Life Support (AHA) is required throughout the nursing program and meets PE requirement)
- Use effective life skills to improve and maintain mental and physical wellbeing.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- practice personal and professional actions that are based on a set of shared core nursing values;
- locate, evaluate, and ethically utilize information to communicate effectively;
- develop the use of reflection, self-analysis and self-care to deliver culturally appropriate nursing care;
- utilize techniques in motivational interviewing and therapeutic communication to practice relationship-centered nursing care;
- apply scientific and technical modes of inquiry, individually, and collaboratively, to critically evaluate existing or alternative explanations, solve problems, and make evidence-based decisions in an ethical manner;
- recognize which mathematical concepts are applicable to a scenario apply appropriate mathematics and technology in its analysis, and then accurately interpret, validate, and communicate the results;
- collaborate as part of a health care team, by demonstrating effective leadership in nursing and health care;
- utilize knowledge and analysis to make sound clinical judgments;
- practice reflects utilization and contribution to the broader health-care system;
- engage in intentional, life-long learning;
- apply analytical skills to social phenomena in order to understand human behavior.

*continued*
Nursing continued...

The OCNE curriculum is designed as a four-year course of study (for a full-time student) with the first year devoted to pre-admission requirements. The second and third year of designated study will be completed at Clackamas Community College. Upon completion of the CCC nursing program, students will be eligible to receive their Associate of Applied Science degree in nursing and take the national examination (NCLEX-RN) for registered nurse licensure. Graduates of the nursing program at Clackamas Community College should be prepared for entry-level employment as a registered nurse. The student may elect to continue for the fourth year of study in the OCNE curriculum, leading to a Baccalaureate of Science degree with a focus in nursing offered by OHSU.

CAREERS
Due to an impending nursing shortage, nursing is one of the fastest growing occupations in the United States. Nurses are in demand and may choose to work in a variety of specialties and settings. Newly graduated nurses will enjoy the benefit of a profession that values life-long learning and offers many opportunities for not only educational, but also career advancement. Career opportunities may include but are not limited to entry-level employment as a registered nurse in the acute care setting, sub-acute setting and the ambulatory care setting. With additional education nurses may choose to work as nurse practitioners, nurse educators, nurse researchers, nurse anesthetists, as well as in other specialized roles.

NURSING APPLICATION REQUIREMENTS
Information regarding the program, the application process and pre-nursing academic advising sessions is available at [www.clackamas.edu/nursing](http://www.clackamas.edu/nursing)

Students are eligible to be considered for admission to the nursing program after completing 30 credit hours of the Prerequisite/Required Preparatory courses listed below. BI-231 (Human Anatomy/Physiology I) must be completed and math competency must be demonstrated prior to submission of program application.

A total of 45 credit hours of the Prerequisite/Required Preparatory courses must be completed prior to the start of the first term of the nursing program.

- **Minimum Prerequisite/Required Preparatory Course credits to apply:** 30
- **Prerequisite/Required Preparatory Course credits prior to starting NRS course work during first term of nursing program:** 45

Completion of all Prerequisite/Required Preparatory courses must be with a letter grade of C or better. Plus and minus grade will not be factored into the GPA calculations. If a course has been taken more than once, the most recent grade received will be the course considered. Application to the nursing program requires a minimum GPA of 3.0 for all completed Prerequisite/Required Preparatory courses.

</tbody>
</table>

- **The following courses or their equivalents will meet the eight credit minimum writing requirement:**
  - WR-121, WR-122 and either WR-222 or WR-227 when each course is three credits each
  - WR-121 and WR-122 when each course is four credits
  - Completion of WR-121 and WR-122 as a part of a previous bachelor’s degree at a regionally accredited college or university is considered equivalent to completion of the writing series.
  - Students may need to take elective credits in order to meet the 45 credit hour prerequisite minimum required for entry into the nursing program.
  - At least six credits must come from Social Sciences
  - See list below for approved prerequisite/elective courses

Note: Courses listed above may have prerequisites. See course descriptions for those requirements.

### COMPETENCIES
- **MTH-095 or higher, 4-5 credits**
  - Passing MTH-095 or higher with a “C” or better.
  - Note: MTH-095 does not meet the math competency
  - Placing into MTH-105/111 as determined by CCC placement test dated after 6/15/13. (No credit given)
- **Completed MTH-095 can be applied toward the 45 credits of prerequisites as a science course.**
- **MTH-095 credits will not count toward the BS degree.**

Applicants should consider completing math through statistics, which will be required for entrance into the OHSU Bachelor’s degree program.

Credits required for degree 90-93

*Required only if eight credit writing requirement not previously met.

- Students must achieve C or higher grades in all required courses (including prerequisites/preparatory courses) prior to advancing to the next term.
- Core curriculum is sequential and may not be taken out of order. Core nursing curriculum is intended to be completed in two academic years for an AAS degree.

**APPROVED COURSES TO MEET PREREQUISITE/ELECTIVE CREDIT REQUIREMENTS FOR THE NURSING PROGRAM**

NOTE: All electives must be taken at the 100 level or higher unless otherwise noted.

**HUMANITIES (ARTS & LETTERS)**

Courses used in this area must be at least three credits.

Select courses with a prefix of:

- ASL, FR, GER, RUS, SPN (other foreign languages are accepted; languages must be 200 level)
- ART, DMC, ENG, HUM (except HUM-100), J, MUP, MUS, PHL, R ‘TA
- COMM (courses numbered COMM-126 and above)
- WR (except WR-101, 121, 122, 123 or 227)

**SOCIAL SCIENCE**

Courses used in this area must be at least three credits.

Select courses with a prefix of:

- ANT, EC, GEO, HST, PS, PSY, SOC, SSC, WS

**NATURAL SCIENCES (SCIENCE/MATH/COMPUTER SCIENCE)**

Courses used in this area must be at least three credits.

Select courses with a prefix of:

- ASC, BI* (except BI-160, 163, BI-165C), BOT, CH (except CH-150), CS, ESR, G (except G-119, G-124), GS (except GS-160), MTH (MTH-095** accepted), PH, Z

**MTH-095 may be applied toward prerequisite credits but not toward the BSN degree.**

**NURSING**

NUR-160, NUR-217, NUR-218

**BACCALAUREATE OF SCIENCE DEGREE WITH A FOCUS IN NURSING**

After receiving the AAS degree in Nursing, students who wish to continue on for their baccalaureate degree may do so through co-admission at OHSU. Students who plan to continue through to OHSU must be aware that to earn their Baccalaureate of Science degree with a focus in Nursing, they must have:

- Two years of the same high school foreign language, or two terms of college-level foreign language credit (includes American Sign Language) or a foreign language proficiency examination.
- MTH-243 Statistics I

**COURSE WORK FOR A BACCALAUREATE OF SCIENCE DEGREE WITH A FOCUS IN NURSING THROUGH OHSU WILL INCLUDE THE FOLLOWING NURSING CLASSES:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>NRS-410</td>
<td>Population Based Care: Chronic Illness &amp; Health Promotion</td>
</tr>
<tr>
<td>NRS-411</td>
<td>Epidemiology</td>
</tr>
<tr>
<td>NRS-412</td>
<td>Leadership Outcomes Management in Nursing</td>
</tr>
<tr>
<td>NRS-424*</td>
<td>Clinical Immersion I</td>
</tr>
<tr>
<td>NRS-425</td>
<td>Clinical Immersion II</td>
</tr>
</tbody>
</table>

*AT least 15 credits of elective credit must be taken at the upper division level (300/400 level) for the BS program. These can be taken under a co-enrollment agreement with PSU, Oregon Tech, EOU, or SOU.

*NRS-224 articulates to OHSU for substitution of NRS-424.
Occupational Skills Training

Certificate

PROGRAM CODE: CC.OCCSKILLSTRN

The Occupational Skills Training program provides the opportunity for students to receive hands-on training in a specific occupational area. This program is designed for students who need or prefer work-based training to develop their skills. Students may begin their training at any time. Students participate in supervised and structured work-based training in addition to classroom instruction. The program utilizes local businesses as training sites. Individualized training plans are developed in consultation with the student, work-site trainer, CCC faculty and program coordinator.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• complete an individualized training curriculum and employment plan, describing the skills and knowledge necessary to become competitively employable;
• demonstrate the ability to contact employers beyond what would ordinarily be available through an application process;
• demonstrate an increase in occupational skills through hands-on training provided by an employer and through general education and occupation-related classroom instruction.

CAREERS

Career opportunities may be available in a variety of occupations, depending on the goals, skills and aptitude of the student and the availability of local training sites.

For information contact Student Academic Support Services Department, 503-594-3475, or www.clackamas.edu/advising.

Paraeducator

Certificate

PROGRAM CODE: CC.PARAEDUCATOR

The Paraeducator Certificate is designed for those who would like to work as Educational Assistants in K-12 schools. Course work provides a basic foundation in theory and practical application in how children learn, teaching strategies, developing positive relationships with students, integrating technology into the learning environment, addressing the needs of special-needs students and the role of the classroom in a multicultural society.

Course work includes cooperative work experience and core courses in education, which are offered online to meet the needs of currently employed teacher assistants and students exploring educational careers. Federal Law mandates that paraeducators who work in Title I schools must complete a formal state, or local assessment or para-educator certificate program.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-065 Algebra II)
• Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- ED-258 Multicultural Education)
• Engage in ethical communication processes that accomplish goals

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• demonstrate appropriate strategies and techniques to provide instructional support to students of diverse populations;
• demonstrate attitudes and behaviors that are appropriate in meeting the needs of diverse populations;
• apply best practices in classroom management to optimize the potential for student learning;
• practice ethical and legal standards of conduct;
• apply technology to support teaching, learning, and communication;
• demonstrate competence in core skill areas of written and oral communications, reading, and mathematics.

PORTLAND STATE UNIVERSITY TRANSFER AGREEMENT

Portland State University will accept the Paraeducator Certificate as part of a 90 credit Associate of General Studies. Contact Laurette Scott at 503-594-3840 for requirements.

CAREERS

Career opportunities include educational or instructional assistant positions in public or private elementary or secondary schools.

For information contact Laurette Scott, 503-594-3840 or laurette@clackamas.edu.

### Project Management

#### Associate of Applied Science Degree

**PROGRAM CODE: AAS.PROJECTMGT**

Upon completion of the two-year Project Management Associate of Applied Science (AAS) Degree program, students with appropriate work experience are qualified to sit for the national certification examination in project management and to earn the PMP professional designation.

**RELATED INSTRUCTION OUTCOMES**

- **Computation** (1 course- MTH-065 Algebra II)
  - Use appropriate mathematics to solve problems
- **Communication** (1 course- WR-121 English Composition)
  - Read actively, think critically, and write purposefully and capably for professional audiences
- **Human Relations** (1 course- BA 285 Human Relations in Business)
  - Engage in ethical communication processes that accomplish goals
- **Physical Education/Health/Safety/First Aid** (1 credit- courses with HE, HPE, or PE prefix)
  - Use effective life skills to improve and maintain mental and physical wellbeing.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- identify project management’s five process group along with primary activities associate with each;
- successfully employ common project management tools, such as a work breakdown structure, network diagram, risk assessment, and earned value management;
- demonstrate effective interpersonal communications, especially meeting and stakeholder management;
- list and explain key motivational, influence, and conflict management techniques;
- deliver persuasive and informative presentations;
- employ common software tools for project management;
- analyze scenarios to determine appropriate responses to ethical dilemmas within the context of a defined scenario, plan, execute, control, and close a project;
- demonstrate appropriate written communication—emails, memos, and reports;
- develop and maintain budgets to track financial and human resources;

---

### Project Management

**Certificate**

**PROGRAM CODE: CC.TRUCKDRIVER**

The Professional Truck Driver program provides the necessary training for employment within the Transportation and Logistics field. Course work covers rules, regulations and practices, practical applications, customer service skills, and Commercial Driver’s Licensing (CDL) training provided in conjunction with the IITR truck driving school. This four class series is part of a statewide program designed to put you in the driver’s seat of an exciting career.

**PROGRAM OUTCOMES**

Upon successful completion of this program, students should be able to:

- use the necessary skills to take the Commercial Driving License exam and be qualified for employment in the transportation and logistics industry;
- maintain logbooks and other written records as required by the I.C.C. and other agencies, as well as employers;
- operate vehicles of multiple configurations safely on surface streets, highways, and freeways, complying with all regulations and provide excellent customer service throughout the distinct seasonal weather challenges.

**CAREERS**

Career opportunities include short and long haul trucking, delivery services, public transportation, supply and logistics management, and dispatching.

For information contact Amanda Watson, Admissions/School Director IITR Truck Schools, 503-657-8225 or amandaw@ittr.net

---

Careers include project and program management, project portfolio management, and project administration. Potential job titles include project manager, program manager, project scheduler, cost estimator, project portfolio manager, project administrator, project leader, project office manager/director, procurement planner/analyst, procurement assistant, project assistant, and project coordinator.

For more information contact Frank Corona, 503-594-6498, or francisco.corona@clackamas.edu.

PROJECT MANAGEMENT CERTIFICATE

COURSE CREDITS
- BA-120 Project Management Fundamentals 3
- BA-122 Teamwork 3
- BA-123 Leadership and Motivation 3
- BA-124 Negotiation 3
- BA-125 Advanced Project Management Tools 5
- BA-126 Project Management: Workshop 3
- BT-177 Microsoft Project 3

Credits required for certificate 23

Certificate

PROGRAM CODE: CC.PROJECTMNGT

This program is designed for students who are interested in upgrading their professional skills, those who want to learn new and valuable interpersonal skills and those who might be interested in pursuing the two-year Project Management Associate of Applied Science (AAS) Degree.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- successfully employ common project management tools, such as a work breakdown structure, network diagram, risk assessment, and earned value management;
- demonstrate effective interpersonal communications, especially meeting and stakeholder management;
- list and explain key motivational, influence, and conflict management techniques;
- employ common software tools for project management;
- analyze scenarios to determine appropriate responses to ethical dilemmas within the context of a defined scenario, plan, execute, control, and close a project.

CAREERS

Career opportunities include career enhancement such as more marketable skills in one’s current employment or job opportunities in a project management training program.

For more information contact Frank Corona, 503-594-6498, or francisco.corona@clackamas.edu.
Project Management Leadership & Communication

Career Pathway Certificate

PROGRAM CODE: CC.PMLEADERCOM

This program is designed for students with prior project management experience who want to build their interpersonal skills, including effective approaches to leadership and motivation, group dynamics, conflict, power, and organizational behavior. This program also provides a solid grounding in effective written and oral communication techniques, including meeting management, presentations, reports and correspondence. Since project managers typically spend over 80 percent of their time interfacing with people—communicating—these skills are critical to successful project management.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- demonstrate effective interpersonal communications, especially meeting and stakeholder management;
- list and explain key motivational, influence, and conflict management techniques;
- deliver persuasive and informative presentations;
- analyze scenarios to determine appropriate responses to ethical dilemmas;
- demonstrate appropriate written communication—emails, memos, and reports.

For more information contact Frank Corona, 503-594-6498, or francisco.corona@clackamas.edu.

Project Management Tools & Techniques

Career Pathway Certificate

PROGRAM CODE: CC.PMTOOLTECH

This program is designed for students with prior project management experience and good interpersonal skills who want to develop their technical competencies in project management. It provides a foundation in fundamental project processes such as initiation, planning, execution, monitoring and control, and closing. The program also focuses on management techniques, such as project management. The software programs, Microsoft Project and Excel, are employed for project estimating, scheduling, tracking, and analysis. This program provides the tools and techniques required for successful project management.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- identify project management’s five process groups along with primary activities associate with each,
- successfully employ common project management tools, such as a work breakdown structure, network diagram, risk assessment, and earned value management;
- employ common software tools for project management within the context of a defined scenario, plan, execute, control, and close a project;
- develop and maintain budgets to track financial and human resources.

For more information contact Frank Corona, 503-594-6498, or francisco.corona@clackamas.edu.

Renewable Energy Technology

Certificate
Associate of Applied Science Technology

PROGRAM CODES: AAS.RNEWNRGYTECH, CC.RNEWNRGYTECH

The Renewable Energy Technology (RET) program provides technical training for employment in the field of manufacturing, installation and maintenance of renewable energy systems and products. Graduates will be prepared to integrate, install and make repairs related to equipment and controls. This program takes a broad-based approach to training renewable energy technicians, with emphasis on mechanical and electro-mechanical systems, fluid power, instrumentation and controls as well as systems troubleshooting. RET graduates will be prepared to work in the capacity of a technician with specialized skills in energy system measurement, energy efficiency, system design and electronic controls.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-050 Technical Mathematics I)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (3 credits - see page 82 for course list)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits- MFG-107 Industrial Safety & First Aid) NOT REQUIRED FOR CERTIFICATE
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Renewable Energy Technology AAS Degree
Upon successful completion of this program, students should be able to:
- communicate effectively through technical drawings to determine product and customer specifications in building systems, energy products and thermal components;
- diagnose and repair electromechanical systems;
- design, install and troubleshoot electrical and fluid power controls related to energy system integration;
- analyze potential energy sources and select appropriate technologies;
- perform a residential energy audit, recommend and implement remediation measures;
- communicate the pros and cons of renewable energy technologies to a diverse user base;
- determine the financial feasibility of a project through the mathematical analysis of thermal and electrical energy problems.

PROGRAM OUTCOMES

Renewable Energy Technology Certificate Degree
Upon successful completion of this program, students should be able to:
- communicate effectively through technical drawings to determine product and customer specifications in building systems, energy products and thermal components;
- diagnose and repair electromechanical systems;
- design, install and troubleshoot electrical and fluid power controls related to energy system integration;
- analyze potential energy sources and select appropriate technologies;
- perform a residential energy audit, recommend and implement remediation measures;
- communicate the pros and cons of renewable energy technologies to a diverse user base.

CAREERS

Career opportunities include residential/commercial energy systems integrator, energy audit and efficiency technician, energy systems installer, photo-voltaic (PV) manufacturing and industrial maintenance technician, wind turbine technician, limited renewable technician; PV, geothermal and solar thermal technicians. Additional opportunities exist in the utilities and building trades.

For information contact the Manufacturing Department at 503-594-3318

RENEWABLE ENERGY TECHNOLOGY CERTIFICATE

FIRST TERM
MFG-109 Computer Literacy for Technicians 3
MFG-130 Basic Electricity I 3
MTH-050 Technical Mathematics I 4
RET-200 Renewable Energy Systems 4
RET-240 Alternative Fuels 4

SECOND TERM
EET-139 Principles of Troubleshooting I 2
MFG-107 Industrial Safety & First Aid 3
MFG-131 Basic Electricity II 3
MTH-080 Technical Mathematics II 3
RET-209 Renewable Energy I: Energy Efficiency 3

THIRD TERM
MET-170 Introduction to Manufacturing Processes 3
MFG-103 Machining for the Fabrication & Maintenance Trades 3
RET-211 Renewable Energy II: System Fundamentals 3
RET-280 Renewable Energy/CWE 2
WR-101 Communication Skills: Occupational Writing 3
Human Relations requirement (see page 82) 3

Credits required for certificate 49

RENEWABLE ENERGY TECHNOLOGY ASSOCIATE OF APPLIED SCIENCE DEGREE: 1ST YEAR

Complete certificate program.
RENEWABLE ENERGY TECHNOLOGY
ASSOCIATE OF APPLIED SCIENCE DEGREE: 2ND YEAR

FOURTH TERM
- EET-239 Principles of Troubleshooting II 2
- GEO-100 Introduction to Physical Geography or GEO-110 Cultural & Human Geography or GEO-130 Introduction to Environmental Geography or GIS-201 Geographic Information Systems 3–4
- IMT-104 Reading Schematics & Symbols 2
- IMT-215 Electromechanical Systems I 2
- RET-213 Renewable Energy III: Installation & Maintenance 3
- Renewable Energy Technology program elective 3

FIFTH TERM
- IMT-223 Instrumentation and Controls 3
- MFG-140 Principles of Fluid Power 3
- MFG-209 Programming & Automation for Manufacturing 3
- Renewable Energy Technology program elective 3

SIXTH TERM
- IMT-233 Programmable Logic Controllers I 3
- MFG-221 Materials Science 3
- RET-217 Renewable Energy Capstone Project 3
- RET-280 Renewable Energy/CWE 2
- WLD-150 Welding Processes 4
- Renewable Energy Technology program elective 3
- Credits required for degree 97-98

RENEWABLE ENERGY TECHNOLOGY PROGRAM ELECTIVES
Any course with a CDT, EET, ERM, GIS, MET, MFG, RET, SM or WLD prefix.

Energy Systems Maintenance Technician

Career Pathway Certificate

PROGRAM CODE: CC.ENSYSMAINTECH

The Energy Systems Maintenance Technician certificate provides students with the basic technical skills and principles to support manufacturing, installation and maintenance, and electronics and communication engineers related to renewable energy.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:
- communicate effectively through technical drawings to determine product and customer specifications in building systems, energy products and thermal components;
- diagnose and repair electromechanical systems;
- design, install and troubleshoot electrical and fluid power controls related to energy system integration;
- analyze potential energy sources and select appropriate technologies;
- perform a residential energy audit, recommend and implement remediation measures;
- communicate the pros and cons of renewable energy technologies to a diverse user base.

CAREERS
Career opportunities include employment in the field of manufacturing, installation and maintenance of renewable energy production.

For information contact the Manufacturing Department at 503-594-3318.

ENERGY SYSTEMS MAINTENANCE TECHNICIAN CAREER PATHWAY CERTIFICATE

COURSE CREDITS
- EET-139 Principles of Troubleshooting I 2
- MFG-104 Print Reading 2
- MFG-107 Industrial Safety & First Aid 3
- MFG-130 Basic Electricity 3
- MTH-050 Technical Mathematics I 4
- RET-200 Renewable Energy Systems 4
- Energy Systems Maintenance Technician program electives 6-8
- Credits required for certificate 24-26

ENERGY SYSTEMS MAINTENANCE TECHNICIAN PROGRAM ELECTIVES
Select 6-8 elective credits from the following:

COURSE CREDITS
- MET-170 Introduction to Manufacturing Processes 3
- MFG-103 Machining for the Fabrication & Maintenance Trades 3
- RET-209 Renewable Energy I: Energy Efficiency 3
- WLD-150 Welding Processes 4
- or WLD-102 Introduction to Welding 2
- *For this certificate, BA-104 meets the Related Instruction Computation requirement.

Courses in this program can be applied to partially satisfy elective requirements in the Business AAS degree.

Retail Management

Certificate

PROGRAM CODE: CC.RETAILMGTL1Y

This certificate is sponsored by members of the retail industry and is recommended for students currently working in retail sales positions or those students who would like to work in retail sales and progress into management roles and responsibilities. Course work is specific to the retail industry and focuses on preparing retail employees for upward mobility.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:
- identify effective human relations and leadership strategies;
- communicate effectively using written documents, spreadsheets, and slide presentations;
- demonstrate an understanding of marketing concepts;
- analyze and evaluate the legal, procedural and ethical impacts of personnel management decisions;
- interpret and analyze financial information to make budget forecasts and analyses;
- evaluate retail management strategies to make sound decisions.

continued
First-Line Supervisor Fundamentals

Career Pathway Certificate

PROGRAM CODE: CC.FIRSTLINEFUND

The First-Line Supervisor Fundamentals career pathway certificate provides the skills in four categories necessary to make a living in retail or food service, human relations in business; business computing; business communication; and fundamentals of management. These skills are necessary for a first-line supervisor career.

The First-Line Supervisor Fundamentals career pathway builds directly into the Retail Management certificate, the Retail Management Expanded certificate and the AAS Business.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

- describe basic psychological principles that help build relationships among employers and employees;
- create documents using the internet, Microsoft Word, Power Point and Excel;
- demonstrate critical skills for successful business communication;
- communicate theories of management.

CAREERS

Career opportunities includes entry level and first-line supervisors in retail and food services.

For more information contact Pamela Akini, 503-594-3196 or pamic@clackamas.edu.
CAREERS
The Organic Farming certificate prepares graduates to operate their own farm or work in the community food system. Graduates will be qualified to run small-scale farms, work closely with existing farmers, and be advocates of local food systems. Other career opportunities include working and managing community gardens, farmers markets, and school gardens.
For information contact April Chastain, Horticulture Department advisor, 503-594-3055 or april.chastain@clackamas.edu.

*Offered alternate years

Water & Environmental Technology

Professional Upgrade Certificate
Associate of Applied Science Degree

PROGRAM CODES: AAS.WATERENVIRONTECH, CC.WATERENVIRONTECH

The Water & Environmental Technology program provides career technical classes combined with field experience. Classes are offered in day/evening combinations and have enrollment limits to enhance instructional quality and job placement.

Course work emphasizes fundamental aspects of drinking water distribution, drinking water treatment, wastewater collection and wastewater treatment. Course work includes 240 hours of industry cooperative work experience, laboratory methods in environmental chemistry, aquatic microbiology and preparation for the provisional operator in training certification exams.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-082A-E)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-101 Communication Skills: Occupational Writing or WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- PSY-101 Human Relations)
- Engage in ethical communication processes that accomplish goals

Physical Education/Health/Safety/First Aid (3 credits-HE-252 First Aid/CPR/AED) NOT REQUIRED FOR CERTIFICATE
- Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Water & Environmental Technology AAS Degree

Upon successful completion of this program, students should be able to perform the following AAS program outcomes in addition to the one year certificate outcomes:
- be more marketable through a second career related work experience;
- attain higher grade certification which will lead to higher wages;
- be certified and licensed as a State of Oregon approved Backflow Assembly Tester;
- develop a thorough understanding of the principles of hydraulics as applied to the water and wastewater industry;
- obtain increased knowledge of bacterial processes used in water and wastewater systems;
- obtain hands-on experience with instrumentation and control systems used in water and wastewater plant operations.

continued
PROGRAM OUTCOMES

Water & Environmental Technology Certificate Degree

Upon successful completion of this program, students should be able to:

• successfully pass the state required level-1 certificate/licensure exams for Oregon water treatment and water distribution (note: these exams can only be taken after completion of the WET-AAS degree); pass the Oregon Operator in Training certificate wastewater treatment and collection systems examinations;
• maintain and operate water and waste water treatment facilities and collection and water distribution systems;
• utilize mathematical skills to solve certification exam problems as well as situations experienced at water and waste water facilities;
• conduct and document scientific laboratory experiments as applied to the water and waste water industry and effectively communicate determined quantitative relationships using both graphs and equations;
• exhibit good teamwork skills and serve as effective members of laboratory and project teams;
• articulate and justify technical solutions to an audience through oral, written, and graphical communication;
• communicate the importance of safety in operator daily activities and be good stewards of ethical and professionally work place interactions.

CAREERS

Career opportunities include water and/or liquid waste treatment plant and system operator, environmental science technician and environmental engineering technician. Careers also include environmental lab technician, source control technician, surface water specialist and environmental regulator.

For information contact Matthew LaForce 503-594-3148 or laforce@clackamas.edu.

WATER & ENVIRONMENTAL TECHNOLOGY CERTIFICATE

FALL TERM CREDITS
MTH-082A Wastewater Math I 1
MTH-082B Waterworks Math I 1
WET-110 Wastewater Operations I 3
WET-111 Waterworks Operations I 3

High Purity Water

Certificate

PROGRAM CODE: CC.HIPURITYWATER

The High Purity Water certificate program provides classes and hands-on experience with advanced water treatment methods used in the high-tech industry. The certificate program has been developed in cooperation with Intel Corporation. Based on student demand WET-125 and WET-135 may be offered biannually.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• correctly operate and maintain SCADA equipment and other instrumentation involved in the general operation of facilities where high purity water is produced;
• perform calculations related to electrical circuit operation and hydraulics;
• correctly use reverse osmosis-based equipment to manufacture high purity water.

CAREERS

Career opportunities include high-purity lab technician and high-purity production technician.
For information contact Matthew LaForce, 503-594-3148 or laforce@clackamas.edu

HIGH PURITY WATER CERTIFICATE

Credits required for certificate 17

Web Design & Development

Associate of Applied Science Degree

PROGRAM CODE: AAS.WEBDESIGNDEV

The Web Design & Development program prepares students for technical positions related to web programming and design. This multidisciplinary program incorporates classes from computer science, art, English, and business. Course work includes computer graphics and design, web development with a focus on current industry standards, web server administration, data-driven web programming, digital media and animation, and technical writing. Cooperative Work Experience (CWE) is supervised real-world employment that supplements the academic classroom environment.

PROGRAM REQUIREMENTS

Prerequisites for first term classes include completing course work for CS-120 Survey of Computing, WRD-098 Introductory Reading & Writing 2: College Preparation, and MTH-060 Algebra I or placement in BA-131 Introduction to Business Computing, WR-121 English Composition and MTH-065 Algebra II. This is an open program. Students may take any class in the program for which they have completed the prerequisite.

RELATED INSTRUCTION OUTCOMES

Computation (1 course- MTH-065 Algebra II)
• Use appropriate mathematics to solve problems
Communication (1 course- WR-121 English Composition)
• Read actively, think critically, and write purposefully and capably for professional audiences
Human Relations (1 course- See page 82 for course list)
• Engage in ethical communication processes that accomplish goals
Physical Education/Health/Safety/First Aid (1 credit- courses with HE, HPE, or PE prefix)
• Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Upon successful completion of this program, students should be able to:

• demonstrate all the program learning outcomes of the Web Design Certificate;
• create sophisticated custom logos, graphics, and animations for a wide variety of client applications;
• describe the significance of relational databases to web development and apply these database concepts along with server-side scripting technologies towards the creation of data-driven web applications;
• interview and communicate with clients to create web applications that match client vision, personality, and needs;
• describe and complete the steps to begin a consulting business, including initial market research, marketing plans, and budgeting;
• exhibit good teamwork skills and serve as effective members of project teams.

CAREERS

Career opportunities may include web designer/consultant, webmaster, web programmer, web systems specialist, and graphic designer.
For information contact Debra Carino, 503-594-3170 or dcarino@clackamas.edu.

Web Design

Certificate

PROGRAM CODE: CC.WEBDESIGN2

The Web Design program should prepare students for technical positions related to web and graphic design. This multidisciplinary program incorporates classes from computer science and art. Course work includes a strong emphasis on computer graphics and design, data communications theory, operating systems, and web design with a focus on current industry standards. Cooperative Work Experience (CWE) is supervised real-world employment that supplements the academic classroom environment.

RELATED INSTRUCTION OUTCOMES
Computation (1 course- MTH-065 Algebra II)
- Use appropriate mathematics to solve problems

Communication (1 course- WR-121 English Composition)
- Read actively, think critically, and write purposefully and capably for professional audiences

Human Relations (1 course- See page 82 for course list)
- Engage in ethical communication processes that accomplish goals

PROGRAM REQUIREMENTS
The Web Design program prepares students for technical positions related to web and graphic design. This multidisciplinary program incorporates classes from computer science, English, and art. Course work includes a strong emphasis on computer graphics and design, data communications theory, operating systems, and web design with a focus on current industry standards. Cooperative Work Experience (CWE) is supervised real-world employment that supplements the academic classroom environment.

PROGRAM OUTCOMES
Upon successful completion of this program, students should be able to:
- apply knowledge of current graphic design software to capture or create images for use in client websites;
- use HTML, CSS, JavaScript, and current web editing technologies, to create standards-compliant, professional websites;
- leverage existing component tools to create e-commerce applications that solve real-world problems;
- perform client needs analyses to create web applications that solve real-world problems;
- articulate and justify technical solutions to an audience through oral, written, and graphical communication;
- communicate the importance of professional and ethical responsibilities and be aware of codes of conduct and other sources of guidance for professionally ethical decision making.

CAREERS
Career opportunities include web designer, web production staff, and graphic designer.

For information contact Debra Carino, 503-594-3170 or dcarino@clackamas.edu.

Welding Technology

Professional Upgrade Certificate
Associate of Applied Science Degree

PROGRAM CODES: AAS.WELDINGTECH, CC.WELDINGTECH

This program prepares students for entry into these industries: fabricated structural metal products, motor vehicles and equipment, construction and heavy construction, transportation equipment, ship and boat building and repair, aircraft and parts, self-employment and miscellaneous fabricated metal products.

CCC's welding instructors are American Welding Society (AWS) certified professionals. The program's curriculum is based on the AWS national standard for entry level welders.

Course work focuses on the knowledge and skills to perform:

- Fillet welds and groove welds using:
  - Shielded metal arc welding (SMAW)
  - Gas-metal arc welding (GMAW)
  - Flux-core arc welding (FCAW)
  - Gas-tungsten arc welding (GTAW)
  - Steel, stainless steel and aluminum
  - A variety of different electrodes
- Plasma arc cutting (PAC), air carbon arc cutting (CAC-A) and gouging, manual and automatic oxy-fuel cutting (OFC and OFC-Track Burner) processes
- Knowledge of materials science and welding theory
- Print reading, inspection, quality, safety and shop practices
- Fabrication techniques, including job cost calculations, layout, sketching, bills of material, fitting and cutting welding applied to real projects designed by industry partners

RELATED INSTRUCTION OUTCOMES

- Computation (1 course- MTH-050 Technical Mathematics I)
  - Use appropriate mathematics to solve problems
- Communication (1 course- WR-101 Communication Skills: Occupational Writing)
  - Read actively, think critically, and write purposefully and capably for professional audiences
- Human Relations (3 credits- see page 82 for course list)
  - Engage in ethical communication processes that accomplish goals
- Physical Education/Health/Safety/First Aid (3 credits- MFG-107 Industrial Safety and First Aid) NOT REQUIRED FOR CERTIFICATE
  - Use effective life skills to improve and maintain mental and physical wellbeing.

PROGRAM OUTCOMES

Welding Technology AAS Degree

Upon successful completion of this program, students should be able to:

- work safely in an industrial environment around machinery, power tools, and chemicals;
- set-up, operate, and make adjustments to welding equipment as necessary to demonstrate quality workmanship that meets current American Welding Society (AWS) and industry standards;
- demonstrate the ability to set up and operate oxy-fuel cutting equipment, carbon arc cutting and gouging and plasma cutting equipment safely and skillfully;
- apply basic knowledge of blueprint reading to fabricate projects as assigned;
- complete welding projects such as fillet welds and groove welds in all positions with Gas Metal Arc Welding (GMAW), Shielded Metal Arc Welding (SMAW), Flux Core Arc Welding (FCAW), and Gas Tungsten Arc Welding (GTAW) that will meet visual inspection criteria based on AWS codes and industry standards;
- perform advanced welding on materials such as stainless steel and aluminum with all welding processes;
- pass AWS D 1.1/D 1.1M structural steel welding certification tests;
- recognize and be able to repair common welding defects according to AWS and industry standards.

PROGRAM OUTCOMES

Welding Technology Certificate Degree

Upon successful completion of this program, students should be able to:

- work safely in an industrial environment around machinery, power tools, and chemicals;
- set-up, operate, and make adjustments to welding equipment as necessary to demonstrate quality workmanship that meets current American Welding Society (AWS) and industry standards;
- demonstrate the ability to set up and operate oxy-fuel cutting equipment, carbon arc cutting and gouging and plasma cutting equipment safely and skillfully;
- apply basic knowledge of blueprint reading to fabricate projects as assigned;
- complete welding projects such as fillet welds and groove welds in all positions with Gas Metal Arc Welding (GMAW), Shielded Metal Arc Welding (SMAW), Flux Core Arc Welding (FCAW), and Gas Tungsten Arc Welding (GTAW) that will meet visual inspection criteria based on AWS codes and industry standards;
- perform advanced welding on materials such as stainless steel and aluminum with Gas Tungsten Arc Welding (GTAW);
- recognize and be able to repair common welding defects according to AWS and industry standards.
Welding Technology continued...

**CAREERS**
Career opportunities include welding, fabrication, construction, production welding, CNC cutting machine operation and sheet metal fabrication.

**SHORT-TERM TRAINING**
For students who need a quick-entry strategy into the work force, an individualized education and employment plan can be created that concentrates the knowledge and skills necessary to start or change a career path. Please see a faculty advisor for more information.

For information contact the Manufacturing Department, 503-594-3318.

Credits required for degree 98

*Substitute college transfer courses for these courses if you plan to continue your education at a higher education institution. It is recommended that you consult with a faculty advisor or a staff member in Student Services for the transfer requirements of the specific advanced program or school.

**WELDING TECHNOLOGY PROGRAM ELECTIVES**
Any course with a WLD or MFG prefix or other technical course with approval.

**Entry Level Welding Technician**

**Career Pathway Certificate**

**PROGRAM CODE: CC.ENTERYWLDTECH**

This program is designed with core competencies in mind while allowing the student flexibility to take other relevant welding courses.

**PROGRAM OUTCOMES**
Upon successful completion of this program, students should be able to:

- work safely in an industrial environment around machinery, power tools, and chemicals;
- set up, operate, and make adjustments to welding equipment as necessary to demonstrate quality workmanship that meets current American Welding Society (AWS) and industry standards;
- apply basic knowledge of blueprint reading to fabricate projects as assigned.

**CAREERS**
Career opportunities include entry level jobs in cutting parts, blueprint reading and fitting, tacking, production welding, repair welding and fabrication.

For information contact the Manufacturing Department, 503-594-3318.

AB  Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Auto Body/Collision Repair

AB-101 Auto Restoration
3 credits, Fall/Winter/Spring/Summer
Designed for students interested in auto body repair and painting their own vehicles. Includes dent removal, panel replacement, welding and painting. May be repeated for up to 12 credits.

AB-105 Street Rod Construction Techniques
3 credits, Fall/Winter/Spring/Summer
Instruction on panel forming, welding, basic body work and repair of your own projects. Includes shop safety, chemical hazard safety, proper and safe use of tools, basic metal work and finishing, and paint preparation and application.

AB-106 Basic Metalforming
2 credits, Not Offered Every Term
Instruction in basic metalforming techniques used in the fabrication of replacement or modified parts used in the construction of automobiles, motorcycles, aircraft, and metal sculpture. Includes shop safety.

AB-112 Collision Repair Welding I
2 credits, Fall/Winter/Spring
Focus is on auto collision damage repair. Emphasis on Metal Inert Gas (MIG), Gas Metal Arc Welding (GMAW), welding on light gauge metals, oxygen-acetylene welding cutting and forming.

AB-113 Collision Repair I/Nonstructural
6 credits, Fall/Winter/Spring
Provides basic instruction in collision repairs, including shop safety and chemical hazard safety; proper and safe use of tools; basic metal work and finishing; use of filler; door removal, replacement and alignment; and replacement and alignment of bolt-on front end sheet metal parts. Prerequisite Or Corequisite: AB-112 and ABR-125

AB-123 Collision Repair Welding II
2 credits, Fall/Winter/Spring
Training in light gauge metal repair: Gas Metal Arc Welding (GMAW), Plasma Arc Cutting (PAC), Squeeze Type Resistance Spot Welding (S-TRSW), and other advanced welding techniques specific to collision damage repair. Prerequisites: AB-112

AB-133 Collision Repair II/Structural
6 credits, Fall/Winter/Spring
Repair major body damage using modern frame repair equipment. Includes repair and replacement of bolt-on, bonded, and welded components using the latest technology. Includes introduction to computerized measuring and damage analysis. Prerequisites: AB-113

AB-149 Collision Repair Estimating I
2 credits, Fall
This course provides instruction in procedure and terminology used in the collision repair estimating field. Body part component identification and the effects of a collision on a vehicle will be studied.

AB-150 Collision Repair Estimating - Audatex
2 credits, Winter
Provides detailed instruction in the use of modern computerized estimating systems in the collision repair field. Focus is on Audatex software. Prerequisites: AB-149

AB-151 Collision Repair Estimating - Pathways
2 credits, Spring
Provides detailed instruction in the use of modern computerized estimating systems in the collision repair field. Focus is on CCC-ONE software. Prerequisites: AB-149

AB-152 Collision Repair Estimating - Audatex
2 credits, Winter
Provides detailed instruction in the use of modern computerized estimating systems in the collision repair field. Focus is on Audatex software. Prerequisites: AB-149

AB-153 Collision Repair Estimating - Pathways
2 credits, Spring
Provides detailed instruction in the use of modern computerized estimating systems in the collision repair field. Focus is on CCC-ONE software. Prerequisites: AB-149

AB-222 Collision Repair III/Advanced Structural
6 credits, Fall/Winter/Spring
Major collision repair with a systems approach: frame and structure, panels, suspension and brakes, electrical and cooling systems. Emphasis on frame and unibody repair, replacement of welded body panels, and diagnosis and repair of related damage. Prerequisites: AB-133

AB-224 Collision Repair IV/Advanced Structural
6 credits, Fall/Winter/Spring
Advanced frame and Unibody repair procedures. Electronic measurement and dimensioning, repair documentation, brakes, suspension, and alignment as they relate to collision repair. Prerequisites: AB-222

AB-226 Collision Repair V/Advanced Structural
6 credits, Fall/Winter/Spring
Uses the latest high quality, productive techniques and equipment to repair vehicles to pre-collision condition. Covers the refined collision repair processes for today's workplace. Prerequisites: AB-224

AB-235 Collision Repair Welding III
2 credits, Fall/Winter/Spring
Aluminum welding for collision damage repair. Gas Metal Arc Welding (GMAW) and Gas Tungsten Arc Welding (GTAW) processes are learned, along with related weld repair techniques and equipment/safety procedures. Prerequisites: AB-123

AB-280 Collision Repair/CWE
2-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Work-based learning experience in an auto body repair shop. Corequisites: CWE-281

ABR  Courses with this prefix may not transfer with credit to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Auto Body/Collision Repair/Refinishing

ABR-125 Collision Repair/Refinishing I
6 credits, Fall/Winter/Spring
Covers shop safety, fire prevention, selection and use of paint products, abrasives, fillers, basic application of primers, sealers, and top coats. Prerequisite Or Corequisite: AB-112 and AB-113

ABR-127 Collision Repair/Refinishing II
6 credits, Fall/Winter/Spring
Application of solvent and waterborne finishes, including spot repairs, color matching, complete refinishing, and problem solving. Introduction to computerized color information retrieval and mixing. Prerequisites: ABR-125
ABR-129 Collision Repair/Refinishing III
6 credits, Fall/Winter/Spring
Application of solvent and water-borne basecoats and tri-coats and urethane topcoats, using both foreign and domestic refinishing systems. Includes complete refinishing, spot and panel painting, color matching and problem solving. Prerequisites: ABR-127

ABR-142 Airbrush Art
2 credits, Fall
Includes origination or repair of automotive art, murals, lettering, logos, etc. Techniques may be applied to signage and manicurist projects. Topics include airbrush selection and maintenance, layouts and masking, colors and blending.

ABR-152 Custom Painting Fundamentals
2 credits, Spring
Custom color application and special effects. Covers personal protection, shop safety, environmental concerns, product choice and compatibility, selection and use of masking materials, and color harmony.

ABR-162 Basic Automotive Pinstriping
2 credits, Winter
Matching factory striping colors and patterns. Designing and applying custom designs. Integrating striping into graphic designs. Covers necessary materials and tools.

ABR-225 Production Shop Techniques
6 credits, Fall/Winter/Spring
Designed for students who wish to gain additional hands-on experience in refinishing, using the most up-to-date methods and materials. Prerequisites: ABR-129

ABR-227 Restoration Practices
6 credits, Fall/Winter/Spring
Designed for students who wish to broaden their skills base in the upper end refinishing market. Projects will be considerably more challenging, with standards and expectations set higher. Prerequisites: ABR-225

AM Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Auto Service
AM-100 Automotive Fundamentals
3 credits, Fall/Winter/Spring/Summer
An introductory automotive service class intended to provide fundamental knowledge and basic experience about automobiles. Covers automotive systems, preventive maintenance and performing basic repairs. Also provides skill and knowledge for purchasing cars, choosing quality mechanics, and making good economic decisions about repairs and costs. Intended generally to enhance the overall satisfaction of being an automotive consumer and car owner.

AM-106 Fix Your Own Car
2 credits, Fall/Winter/Spring/Summer
A do-it-yourself course for students who want to work on their own cars. Includes: oil change, lubrication, fluid checks, brakes, cooling system, electrical system, safety, and other quick services. May be repeated up to 12 credits.

AM-118 Small Engine Repair
3 credits, Fall/Winter/Spring/Summer
This course is designed to provide an overview of basic small engine maintenance, operation and repair. It covers safety, small engine theory, electrical systems, and troubleshooting. Classroom instruction covering theory of operation, 2 cycle and 4 cycle designs and applications, combined with hands-on live projects provides the student the opportunity to learn basic principles of small engine operation, including outdoor equipment, motorcycles, and A.T.V's.

AM-121 General Auto Repair I
3 credits, Fall/Winter/Spring
In this course students will experience working in an auto shop/lab as they repair customer vehicles. They will apply concepts such as shop and personal safety, tools and their usage, and customer service as they develop workplace employability skills and work habits. Prerequisites: AM-100, AM-118, AM-129, AM-130, AM-131, AM-133, or AM-235. Recommended: 1st term students seeking A.A.S. degree in Auto Service Technology should meet with Instructor prior to the beginning of the term.

AM-122 General Auto Repair II
3 credits, Fall/Winter/Spring
Course material is coordinated with other auto courses. Includes live repair work and fundamentals such as safety, tools, measuring, and fasteners. For second term automotive students. Prerequisites: AM-121

AM-129 Electrical Systems
7 credits, Fall
This course includes general electrical system diagnosis; battery diagnosis and service; starting system diagnosis and repair; charging system diagnosis and repair; lighting system diagnosis and repair; ignition system diagnosis and repair. Prerequisites: MTH-020 or placement in MTH-050 or MTH-060, WRD-080 or placement in WRD-090

AM-130 Brake Systems
7 credits, Fall
Theory and lab course covers basic hydraulics, brake fluids, friction materials, seals, disc and drum brakes, disc and drum brake servicing equipment, hydraulic and vacuum brake boosters and anti-lock brake systems. Prerequisites: MTH-020 or placement in MTH-050 or MTH-060, WRD-080 or placement in WRD-090

AM-131 Chassis Systems
7 credits, Winter
A theory and lab course covering the design, construction, service, and repair of front and rear suspension systems, wheels and tires, steering systems, and alignments. Prerequisites: MTH-020 or placement in MTH-050 or MTH-060, WRD-080 or placement in WRD-090

www.clackamas.edu
AM-133 Engine Systems  
7 credits, Spring  
This course is designed to provide students with the entry-level skills necessary to repair automobile engines. Includes General Engine Diagnosis; Cylinder Head and Valve Train Diagnosis and Repair; Engine Block Assembly Diagnosis and Repair; Lubrication and Cooling Systems Diagnosis and Repair.

AM-175 Advanced Mechanic Studies I  
3 credits, Fall/Winter/Spring  
Lab course for currently enrolled automotive students wishing to specialize in specific areas of automotive repair. Required: Second-year Automotive Service Technology student or previously enrolled in the Automotive Service Technology program. Prerequisites: AM-129, AM-130, AM-131, AM-133, AM-224, AM-235, AM-243, AM-244, and AM-245

AM-185 Advanced Mechanic Studies II  
3 credits, Fall/Winter/Spring  
Lab course for currently enrolled automotive students wishing to specialize in specific areas of automotive repair. Required: Second-year Automotive Service Technology student or previously enrolled in the Automotive Service Technology program. Prerequisites: AM-129, AM-130, AM-131, AM-133, AM-224, AM-235, AM-243, AM-244, and AM-245

AM-195 Advanced Mechanic Studies III  
3 credits, Fall/Winter/Spring  
Lab course for currently enrolled automotive students wishing to specialize in specific areas of automotive repair. Required: Second-year Automotive Service Technology student or previously enrolled in the Automotive Service Technology program. Prerequisites: AM-129, AM-130, AM-131, AM-133, AM-224, AM-235, AM-243, AM-244, and AM-245

AM-223 Hybrid Service Technology  
3 credits, Fall/Winter/Spring  
Provides students with knowledge of theory and physical description of hybrid vehicles. The student will have the opportunity to acquire practical experience in the area of diagnosing and repairing hybrid vehicles. Prerequisites: AM-244

AM-224 Comfort Systems  
4 credits, Spring  
This course covers design, construction, testing, maintenance, and repair of automotive heating and air conditioning systems. Prepares a student to take the Section 609 Environmental Protection Agency certification test. Prerequisites: MTH-020 or placement in MTH-050, and WRD-080 or placement in WRD-090

AM-228 Service Shop Management  
4 credits, Spring  
Course designed to familiarize students with the responsibilities of the parts manager, service manager and service writer and the day to day responsibilities of operating a business. Prerequisites: MTH-020 with a C or better, or placement in MTH-050 or higher

AM-235 Power Transmission Systems  
7 credits, Spring  
Covers construction, operation, service and repair of clutches, manual transmission, U-joints, drive lines, final drives, overdrive, and four wheel drives.

AM-243 Fuel & Emission Control Systems  
7 credits, Winter  
Covers service of fuel storage and delivery systems: fuel injection, emission controls, and other electronic engine controls. Includes DSO use and exhaust gas analysis. Prerequisites: AM-129 with a C or better

AM-244 Advanced Electrical Systems  
7 credits, Winter  
This course includes electronic and computer fundamentals, general electrical system diagnosis, instrument cluster and driver information systems diagnosis and repair, body electrical systems diagnosis and repair. Prerequisites: AM-129 with a C or better

AM-245 Automatic Transmission Systems  
7 credits, Fall  
This course covers the theory and physical description of the automatic transmission. The student will have the opportunity to acquire practical experience and learn the proper procedures for overhaul and service. Prerequisites: AM-129 with a C or better

AM-280 Auto Mechanics/CWE  
1-6 credits, Fall/Winter/Spring/Summer  
Cooperative work experience. Work-related learning experience in an auto repair shop or auto dealership. Corequisites: CWE-281

ANT Anthropology  

ANT-101 Physical Anthropology  
4 credits, Fall/Winter/Spring  
Introduces the study of humans as biocultural beings in the context of modern genetics, evolutionary theory, primate taxonomy, anatomy and behavior, fossil hominines, and the role of the physical anthropologist in forensic science. Recommended: WRD-090 or placement in WRD-098

ANT-102 Archaeology & Prehistory  
4 credits, Fall/Winter/Spring  
Introduces the methods used by archaeologists to study the development of human cultures. Provides a survey of world prehistory, tracing the transition of human societies from hunting and gathering to farming, to the beginning of urban life and the rise of early civilizations. Recommended: WRD-090 or placement in WRD-098

ANT-103 Cultural Anthropology  
4 credits, Fall/Winter/Spring/Summer  
Introduces the diversity of contemporary human cultures and the ways anthropologists study and compare them in an effort to understand how different societies organize their lives and make sense of the world around them. Explores the interrelationships among the various elements of culture. Recommended: WRD-090 or placement in WRD-098

ANT-231 Indians of the Pacific Northwest  
4 credits, Not Offered Every Term  
Survey of Native American cultures in the Pacific Northwest region from prehistoric times to the present. Course is based on archaeological, ethno-historical, and ethnographic evidence. Includes contemporary issues in Northwest Native American life. Recommended: WRD-090 or placement in WRD-098
ANT-232 Indians of North America
4 credits, Not Offered Every Term
A broad survey of the cultures, arts, and history of Native Americans north of Mexico. Uses archaeological, ethnographic, and ethnographic evidence to explore the diversity of Native American cultures from prehistoric times to the present. Includes contemporary issues in Native American life. Recommended: WRD-090 or placement in WRD-098

ANT-280 Anthropology/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides students with on-the-job work experience in the field of anthropology and/or archaeology. Corequisites: CWE-281

ART

ART-100A Jewelry Making Techniques
1 credit, Not Offered Every Year
Various topics will introduce techniques in: construction, forming, fabrication, soldering, inlay, etching, mold making, casting, stone setting, chain making and silversmithing. Students will be encouraged to create and design their own jewelry with both meaning and function. Historical and contemporary issues surrounding jewelry and body adornment will be presented and discussed during the course. May be repeated for up to 3 credits.

ART-100B Ceramic Making Techniques
1 credit, Not Offered Every Year
Various topics will introduce techniques in clay construction, kiln construction, firing methods, glazing and/or other ceramic methods. Students will create and design work using clay and/or clay materials. Historical and contemporary issues related to ceramics will be presented and discussed. May be repeated for up to 3 credits.

ART-101 Art Appreciation
3 credits, Fall
Discover the fundamentals of thinking about and creating art through readings, class discussions, and gallery/museum tours. This course will focus on art from the ancient through late nineteenth century and its connections and relationship to art-making, history, culture, ideas and issues.

ART-102 Art Appreciation: Modern & Contemporary
3 credits, Winter
Discover the fundamentals of thinking about and creating art through readings, class discussions, and gallery/museum tours. This course will focus on modern and contemporary art and its connections and relationship to recent art-making/ processes, history, culture, ideas and issues.

ART-103 Art Appreciation: Architecture & Design
3 credits, Spring
Discover the fundamentals of thinking about and creating art through readings, class discussions, and gallery/museum tours. This course will focus on architecture and design and their connections and relationship to recent history, culture, ideas and issues.

ART-104 Animation & Motion Graphics I
3 credits, Fall/Winter
Introduction to the fundamentals of animation and motion graphics design. This project-based course will explore experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn the basics of Adobe After Effects to create successful motion graphics projects. Previous experience with computer graphics and digital video is recommended. Recommended: ART-221, ART-225, ART-226, and DMC-104

ART-105 Animation & Motion Graphics II
3 credits, Spring
This project-based course will explore intermediate aspects of experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn intermediate features of Adobe After Effects to create successful motion graphics projects. Prerequisites: ART-106 or DMC-106. Recommended: ART-221, ART-225, ART-226, and DMC-104.

ART-106 Animation & Motion Graphics I
3 credits, Spring
Continuation of the process of animation and motion graphics design. This project-based course will explore advanced aspects of experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn advanced aspects of Adobe After Effects to create successful motion graphics projects. Prerequisites: ART-107 or DMC-107. Recommended: ART-221, ART-225, ART-226, and DMC-104.

ART-107 Animation & Motion Graphics II
3 credits, Spring
Continuation of the process of animation and motion graphics design. This project-based course will explore advanced aspects of experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn advanced aspects of Adobe After Effects to create successful motion graphics projects. Prerequisites: ART-106 or DMC-106. Recommended: ART-221, ART-225, ART-226, and DMC-104.

ART-108 Animation & Motion Graphics III
3 credits, Spring
Continuation of the process of animation and motion graphics design. This project-based course will explore advanced aspects of experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn advanced aspects of Adobe After Effects to create successful motion graphics projects. Prerequisites: ART-107 or DMC-107. Recommended: ART-221, ART-225, ART-226, and DMC-104.

ART-109 Basic Design: 2-Dimensional Design
4 credits, Fall/Winter
Explore the use of color in art. Create charts, paintings and collages that investigate the elements, principles and theory of color. Examine historical and contemporary issues and ideas related to visual composition.

ART-110 Basic Design: Color Theory & Composition
4 credits, Fall/Winter
Explore the use of color in art. Create charts, paintings and collages that investigate the elements, principles and theory of color. Examine historical and contemporary issues and ideas related to visual composition.

ART-111 Basic Design: 3-Dimensional Composition
4 credits, Spring
Examine the elements of form, space, structure, and sculpture. Create works of art using various sculptural processes. Examine historical and contemporary issues and ideas relating to sculpture and 3-dimensional design.

ART-112 Basic Design: 4-Dimensional Design
4 credits, Spring
Examine the elements of time and movement in art. Create works of art using various movement-based processes. Examine historical and contemporary issues and ideas relating to movement and 4-dimensional design.

ART-113 Drawing: Still Life and Landscape
4 credits, Fall/Winter/Spring
Introduces basic skills, drawing tools, materials, techniques, elements of composition; line, gesture, color and value. Projects will involve observational drawing with a focus on still life and landscape images. Assignments include drawing, assigned readings, term papers and group critiques of drawing projects. Historical issues of drawing will be examined.
ART-161 Photography I
3 credits, Winter
Introduction to basic camera operation and darkroom processes in developing and printing film. Elements of composition, content, and historical reference will be explored. Required: Access to a 35mm black and white camera with adjustable exposure controls (no digital cameras). Prerequisites: ART-161 and ART-162.

ART-162 Photography II
3 credits, Winter/Spring
This course is the second of a sequence of three darkroom photography courses. This course explores camera operation and darkroom processes in developing and printing film. Photography II explores the photo processes and elements of composition, content, and historical/contemporary references at an intermediate level. Required: Access to a 35mm camera with adjustable exposure controls (no digital cameras). Prerequisites: ART-161

ART-163 Photography III
3 credits, Spring
This course is the third of a sequence of three darkroom photography courses. This course explores camera operation and darkroom processes in developing and printing film. Photography III explores the photo processes and elements of composition, content, and historical/contemporary references at an advanced level. Required: Access to a 35mm black and white camera with adjustable exposure controls (no digital cameras). Prerequisites: ART-161 and ART-162.

ART-197 Gallery Design & Management
3 credits, Spring
Introduction to the fundamental goals and methodology of managing a visual arts gallery. This course examines issues of contemporary art while providing practical experience in curating, preparation and installation of exhibitions, funding, grant writing, public relations and related gallery objectives.

ART-204 History of Western Art
4 credits, Fall
Examines art, culture, and history from the Paleolithic era through the Byzantine eras. This is a broad overview of art history that promotes an understanding of art and its history through readings, lectures, papers and exams. Students must be able to write brief research papers. Recommended: WRD-098 or placement in WR-121.

ART-205 History of Western Art
4 credits, Winter
Examines art, culture, and history from the Medieval Era through the Renaissance. This is a broad overview of art history that promotes an understanding of art and its history through readings, lectures, discussions, papers and exams. Students must be able to write brief research papers. Recommended: WRD-098 or placement in WR-121.

ART-206 History of Western Art
4 credits, Spring
Examines art, culture, and history from the Baroque period through the current century. This is a broad overview of art history that promotes an understanding of art and its history through readings, lectures, papers and exams. Students must be able to write brief research papers. Recommended: WRD-098 or placement in WR-121.

ART-211 Introduction to 2D Animation: Design & Techniques
3 credits, Winter/Spring
Introduces the principes of 2D digital animation using the latest industry standard software. The course will emphasize design and physical principles, analytical skills, and creativity. Students will learn the fundamental principles of animation, character and environment design, FX animation, and basic narrative development, in order to create successful animated projects. Recommended: CS-195, ART-225, and ART-131.

ART-222 Advanced 2D Animation: Design & Techniques
3 credits, Spring
Covers advanced principles of 2D animation using the latest industry standard software. The course will emphasize professional workflow and techniques of animation production for multimedia platforms. This includes visual development and pre-production, advanced character design and physics, advanced environment design, FX animation and post-production, portfolio presentation, and industry expectations. Prerequisites: ART-221 or equivalent experience.

ART-225 Computer Graphics I
3 credits, Fall/Winter
Introduction to the use of digital graphics programs. Photo manipulation, illustration, and compositing techniques will be explored. Design principles and creative composition will be emphasized. Historical and contemporary issues related to graphic design aesthetics will be considered. Recommended: ART-115.

ART-226 Computer Graphics II
3 credits, Spring
Continue exploring the processes of digital graphics programs. More advanced aspects of image compositing, bit mapping, layering, and using channels in Photoshop. More advanced aspects of vector graphics creation and document creation in Illustrator and InDesign. Creative problem solving, design applications and contemporary issues will be explored. Historical reference and current trends in digital media will continue to be examined. Recommended: ART-225.
ART-226 Computer Graphics III
3 credits, Spring
Advanced use of multi-digital formats to create images, compositions and documents. Develop a design portfolio. Design principles, creative problem solving, historical and contemporary issues in graphics and aesthetics will be analyzed. Recommended: ART-225 and ART-226

ART-250 Ceramics/Begiinning I
4 credits, Fall
Broad general introduction to ceramics. Explore different methods of working with clay, including pinching, coiling, slab construction, and throwing on the wheel. Introduction to glazing and firing methods. Research into the ancient history of ceramics. Develop fundamental skills and clay experience to foster artistic growth.

ART-251 Ceramics/Begiinning II
4 credits, Winter
Broad general introduction to ceramics. Explore different methods of working with clay, including pinching, coiling, slab construction, and throwing on the wheel. Introduction to glazing and firing methods. Research into the history of ceramics from the 10th through the 19th centuries. Develop fundamental skills and clay experience to foster artistic growth.

ART-252 Ceramics/Begiinning III
4 credits, Spring
Broad general introduction to ceramics. Explore different methods of working with clay, including pinching, coiling, slab construction, and throwing on the wheel. Introduction to glazing and firing methods. Research ceramics from the early 20th century to the present. Develop fundamental skills and clay experience to foster artistic growth.

ART-253 Ceramics/Intermediate I
4 credits, Winter
Further develop skills and ideas to foster artistic growth. Explore different methods of working with clay, including pinching, coiling, and slab construction and throwing on the wheel. Continue to learn about glazing and firing. Research ceramics from the 10th through 19th centuries. Prerequisites: ART-250, ART-251, or ART-252, or Student Petition

ART-254 Ceramics/Intermediate II
4 credits, Winter
Further develop skills and ideas to foster artistic growth. Explore different methods of working with clay, including pinching, coiling, and slab construction and throwing on the wheel. Continue to learn about glazing and firing. Research ceramics from the 10th through 19th centuries. Prerequisites: ART-250, ART-251, or ART-252, or Student Petition

ART-255 Ceramics/Intermediate III
4 credits, Spring
Further develop skills and ideas to foster artistic growth. Explore working with clay: pinching, coiling, and slab construction and throwing on the wheel. Continue to learn about glazing and firing. Research ceramics from the 20th century through the present. Prerequisites: ART-250, ART-251, or ART-252, or Student Petition

ART-256 Ceramics/Advanced I
4 credits, Not Offered Every Term
This course introduces advanced techniques in ceramics. Students will explore concepts such as glazing, firing, and sculpture. Prerequisites: ART-250, ART-251, or ART-252, or Student Petition

ART-257 Metalsmithing/Jewelry
4 credits, Not Offered Every Term
This course examines basic techniques in metalsmithing and jewelry-making. Students will learn basic techniques and processes of metalsmithing such as sawing, cold connection, soldering, metal inlay, fabrication, forming, surface treatments, and casting. The focus of this class will be placed on creating forms for body adornment. Critiques, discussions, and presentations are included in this course.

ART-258 Metalsmithing/Jewelry II
4 credits, Not Offered Every Term
This course continues the study of metalsmithing and jewelry-making. Students will explore advanced techniques such as design, sculpture, and casting. Prerequisites: ART-256, ART-257, or Student Petition

ART-259 Metalsmithing/Jewelry III
4 credits, Not Offered Every Term
This course further develops skills in metalsmithing and jewelry-making. Students will focus on creating forms for body adornment. Prerequisites: ART-258, ART-257, or Student Petition

ART-260 Ceramics/Advanced II
4 credits, Not Offered Every Term
This course continues the study of ceramics. Students will explore advanced techniques such as glazing, firing, and sculpture. Prerequisites: ART-254, ART-255, or ART-256, or Student Petition

ART-261 Ceramics/Advanced III
4 credits, Not Offered Every Term
This course further develops skills in ceramics. Students will focus on creating forms for body adornment. Prerequisites: ART-256, ART-257, or Student Petition

ART-262 Digital Photography & Photo-Imaging
3 credits, Fall/Winter/Spring
Introduces concepts, techniques, practices, aesthetics and ethics of photographic imaging and image-making with digital technology. Students will use Adobe Photoshop software. Required: Access to a digital camera with adjustable exposure controls

ART-263 Graphic Design I
3 credits, Fall/Winter/Spring
Introduces basic principles of graphic design, including composition, typography, and color. Students will use Adobe Illustrator software. Required: Access to a digital camera with adjustable exposure controls

ART-264 Graphic Design II
3 credits, Fall/Winter/Spring
Introduces advanced techniques in graphic design, including digital imaging and print production. Students will use Adobe InDesign software. Required: Access to a digital camera with adjustable exposure controls

ART-265 Graphic Design III
3 credits, Fall/Winter/Spring
Introduces professional practices in graphic design, including project management and client relations. Students will use Adobe Photoshop and InDesign software. Required: Access to a digital camera with adjustable exposure controls

ART-266 Graphic Design IV
3 credits, Fall/Winter/Spring
Introduces entrepreneurial practices in graphic design, including business strategy and marketing. Students will work on real-world projects. Required: Access to a digital camera with adjustable exposure controls

ART-267 Introduction to Printmaking
1 credit, Not Offered Every Year
Introduces various non-chemical printmaking techniques, processes and methods. Students will be encouraged to create and design their own work using these forms using both meaning and intention. Contemporary issues related to printmaking will be presented and discussed. Can be repeated for up to 3 credits.
ART-285 Painting: The Figure/Intermediate
4 credits, Winter
Utilizes intermediate painting concepts, materials and techniques with emphasis on composition, color, gesture and value. Projects will involve observational painting with a focus on the human form and its relationship to volume and form on a two-dimensional plane. Assignments include paintings, readings, and critique of projects. Prerequisites: ART-283 or Student Petition

ART-286 Painting: Landscapes/Intermediate
4 credits, Spring
Utilizes intermediate painting concepts, materials and techniques with emphasis on composition, color, gesture and value. Projects will involve observational painting with a focus on landscape and its relationship to volume and form on a two-dimensional plane. Assignments include painting, drawing, assigned readings and group critiques of painting projects. Prerequisites: ART-283 or Student Petition

ART-291 Sculpture
4 credits, Fall
Introduction to the processes and concepts of sculpture; the elements of form and space will be explored. Clay, plaster, mold making, carving, and assemblage will be introduced. Reference to historical and aesthetic content will be presented.

ART-292 Sculpture (Figure Emphasis)
4 credits, Winter
Explores the human form in traditional and contemporary techniques and concepts. Use of clay, armatures, combining mediums, flexible molds and other sculpture media will be explored. Concepts of aesthetics in formal composition will be explored through projects, lectures, and critiques. The human figure and other life forms in the history of sculpture will be examined.

ART-293 Sculpture (Metal Emphasis)
4 credits, Spring
The processes and concepts of sculpture including the elements of form, space and visual communication will be examined with emphasis on current issues. Use of clay and plaster in relation to metal sculpture. Welding, casting, and assemblage will be explored. Historical and contemporary ideas and aesthetic content will be examined.

ART-297 Professional Practices and Artist’s Skills
3 credits, Winter
Professional practices relevant to emerging artists’ careers. Lecture format includes resume and portfolio preparation, developing resources and community connections, gaining exposure and representation for artwork, creating publicity, basic marketing and exhibition strategies, presenting and installing art work, business concerns, art market dynamics, art collecting. Field trips to local galleries and/or guest lectures. Recommended: WRD-098 or placement in WR-121

ASC
Arts & Sciences

ASC-175 Integrated Science Inquiry
4 credits, Fall
An introductory laboratory course for liberal arts majors emphasizing an evolutionary approach to major topics in science through the use of integrated themes. The themes focus on the scientific discoveries and people that shape our understanding of the world. The course emphasizes an interdisciplinary perspective on science, collaborative scientific investigations and critical thinking. Themes have included Evolution & Contemporary Issues, Africa, and the Lewis and Clark Expedition. Recommended: WRD-098 or placement in WR-121

ASC-176 Integrated Science Inquiry
4 credits, Winter
An introductory lab science course for liberal arts majors on science through the use of integrated themes. The themes focus on the scientific discoveries and people that shape our understanding of the world. The course emphasizes an interdisciplinary perspective on science, collaborative scientific investigations and critical thinking. Themes have included Human Evolution, Diseases of Africa and the Lewis and Clark Expedition. Recommended: WRD-098 or placement in WR-121

ASC-177 Integrated Science Inquiry
4 credits, Spring
An introductory laboratory course for liberal arts majors emphasizing an evolutionary approach to major topics in science through the use of integrated themes. The themes focus on the scientific discoveries and people that shape our understanding of the world. The course emphasizes an interdisciplinary perspective on science, collaborative scientific investigations and critical thinking. Themes have included Evolution & Contemporary Issues, Africa, and the Lewis and Clark Expedition. Recommended: WRD-098 or placement in WR-121

ASE
Courses with this prefix will not transfer to a four-year institution.

Adult Secondary Education

ASE-010 Basic Math
0 credits, Fall/Winter/Spring/Summer
Math concepts: addition, subtraction, multiplication, division of whole numbers, fractions and decimals; percentage; measurement; graphs; ratio/proportion; basic principles of algebra and geometry. Course is geared to those students who may need a slower-paced approach. Elective credit only for high school diploma requirement. May be repeated for up to 1.5 high school credits.

ASE-011 Applied Math I
0 credits, Fall/Winter/Spring/Summer
Presents the use of the numbers and operations of arithmetic while basic algebra and geometry are integrated throughout the course. The use of up-to-date technology is integrated. A scientific calculator is required.

ASE-012 Applied Math II
0 credits, Fall/Winter/Spring/Summer
Presents the use of numbers and operations of arithmetic while integrating algebraic and geometric concepts throughout the course. Current technology is also incorporated.
ASE-015 Basic English
0 credits, Fall/Winter/Spring/Summer
Review of English fundamentals of grammar, spelling, and punctuation. Builds understanding of audience and purpose for writing.

ASE-016 Intermediate English
0 credits, Fall/Winter/Spring/Summer
Review of capitalization, punctuation, and spelling. Includes emphasis on paragraph construction. Includes practical applications of sentence patterns, subject and verb agreement, and other writing skills.

ASE-017 Advanced English
0 credits, Fall/Winter/Spring/Summer
Language arts course emphasizing grammar, sentence structure, style, clarity, logic, organization, and paragraph composition. Emphasis on transition from paragraph to essay.

ASE-020 Literature I
0 credits, Fall/Winter/Spring/Summer
Course focuses on literature from the 17th-19th centuries, including the elements and examples of prose, poetry, and drama that produce good literature.

ASE-026 Health I
0 credits, Fall/Winter/Spring/Summer
Presents issues impacting psychological health; applies prevention and risk-reduction concepts to health-related problems. Determines the impact of behaviors that pose a threat to healthy living.

ASE-028 Global Studies I
0 credits, Fall/Winter/Spring/Summer
Focuses on geographic tools (maps, globes, charts, graphs) to explain and analyze geographical relationships and areas. Identifies areas and physical features that have impacted historical and modern issues and events.

ASE-029 Global Studies II
0 credits, Fall/Winter/Spring/Summer
Focuses upon examination, prediction, and critical evaluation of the interrelationships among social, cultural, historical, economic, and environmental processes that change the characteristics of places and regions throughout the globe over time.

ASE-032 U.S. History I
0 credits, Fall/Winter/Spring/Summer
Focuses on the settlement of America to 1900, emphasizing the development of economic, political, and social systems. Analyzes causes and effects of wars and domestic and foreign policy, and examines the growth of technology.

ASE-033 U.S. History II
0 credits, Fall/Winter/Spring/Summer
Focuses on the societal issues, trends, and events of U.S. history from World War II to the present including the Cold War, civil rights movement, Vietnam War, and terrorism. Analyzes causes and effects of wars and domestic and foreign policy, and examines the growth of technology.

ASE-034 Government I
0 credits, Fall/Winter/Spring/Summer
Introduces the basic principles of American government, including the branches of federal, state, and local government and how they interact. Explores foundational documents, and applies concepts to contemporary issues. Explores roles of government as they apply to foreign and domestic policies and policy shifts.

ASE-035 Career Exploration I
0 credits, Fall/Winter/Spring/Summer
Explores student role models, personal strengths and weaknesses, factors influencing workplace satisfaction, online occupational sorters, training, and earning. Presents job search, acquisition, and retention strategies; defines appropriate workplace behaviors, and analyzes workplace problems in context.

ASE-036 Personal Finance I
0 credits, Fall/Winter/Spring/Summer
Focuses on financial decision regarding personal income and career planning, budgeting and saving, shopping and consumption, banking and credit, investing, and rights and responsibilities in the marketplace.

ASE-037 Basic Developmental Reading
0 credits, Fall/Winter/Spring/Summer
Focuses on basic reading skills, including word parts, pronunciation, spelling, basic vocabulary, and comprehension skills. Employs strategies to assist students in becoming more proficient readers. Elective high school credit in the AHSD program.

ASE-038 Intermediate Reading
0 credits, Fall/Winter/Spring/Summer
Focuses on word attach vocabulary, spelling, and reading comprehension skills to improve basic reading fluency and reading strategies. Introduces genre and focuses on academic texts.

ASE-039 Advanced Reading
0 credits, Fall/Winter/Spring/Summer
Focuses on advanced vocabulary, reading comprehension skills, critical reading, and study skills. Explores reading in various genres including drama, poetry, fiction and non-fiction.

ASE-041 AHSD Life Experience Assessment
0 credits, Fall/Winter/Spring/Summer
Assists student in documenting actual life experiences, which are then assessed toward meeting credit requirements for an Adult High School Diploma. May be repeated up to 3 high school credits.

ASE-042 Job Skills Competency Lab
0 credits, Fall/Winter/Spring/Summer
Provides overview of college and career processes and expectations including cooperative work experience for employed high school students to earn elective credit. Focuses on appropriate work and college behaviors, decision making techniques, communication skills, and teamwork. Can be repeated up to 2 high school credit.

ASE-046 Human Development
0 credits, Fall/Winter/Spring/Summer
Provides instruction in the areas of parent education and life skills targeted to the issues of teen parents and high school students. This course will assist students in developing positive parenting skills, understanding child development, applying appropriate practices for various developmental stages, building self-esteem, improving personal communication skills and developing survival skills. May be repeated up to 2 high school credits.

ASE-047 Physical Education I
0 credits, Fall/Winter/Spring/Summer
Focuses upon examination, prediction, and critical evaluation of the interrelationships among social, cultural, historical, economic, and environmental processes that change the characteristics of places and regions throughout the globe over time.

ASE-048 American History
0 credits, Fall/Winter/Spring/Summer
Presents issues impacting psychological health; applies prevention and risk-reduction concepts to health-related problems. Determines the impact of behaviors that pose a threat to healthy living.

ASE-049 Intermediate Reading
0 credits, Fall/Winter/Spring/Summer
Focuses on intermediate reading skills, including word parts, pronunciation, spelling, basic vocabulary, and comprehension skills. Employs strategies to assist students in becoming more proficient readers. Elective high school credit in the AHSD program.

ASE-050 Advanced Reading
0 credits, Fall/Winter/Spring/Summer
Focuses on advanced vocabulary, reading comprehension skills, critical reading, and study skills. Explores reading in various genres including drama, poetry, fiction and non-fiction.

ASE-051 Human Development
0 credits, Fall/Winter/Spring/Summer
Provides instruction in the areas of parent education and life skills targeted to the issues of teen parents and high school students. This course will assist students in developing positive parenting skills, understanding child development, applying appropriate practices for various developmental stages, building self-esteem, improving personal communication skills and developing survival skills. May be repeated up to 2 high school credits.

ASE-052 Physical Education I
0 credits, Fall/Winter/Spring/Summer
Focuses upon examination, prediction, and critical evaluation of the interrelationships among social, cultural, historical, economic, and environmental processes that change the characteristics of places and regions throughout the globe over time.
ASE-054 American Civics II
0 credits, Fall/Winter/Spring/Summer
Presents basic principles and ideals embedded in American democracy. Examines power, authority government and public with relation to American ideals and the roles, rights, and responsibilities of citizens. Explores founding concepts and structures of American government including changing and managing the constitution.

ASE-056 Personal Finance II
0 credits, Fall/Winter/Spring/Summer
Explores personal finance related to types of loans, debt, large purchases, taxes, insurance, investments, financial careers, and retirement. Corequisite: ASE-057

ASE-057 Careers II
0 credits, Fall/Winter/Spring/Summer
Explores positive work ethics, personal qualities, people skills, workplace documents, problem solving, time management, and telecommunication devices. Corequisite: ASE-056

ASE-058 Physical Education II
0 credits, Fall/Winter/Spring/Summer
Presents a broad perspective of physical fitness, encouraging students to pursue and maintain a health enhancing level of physical fitness. Identifies the basic principles of fitness development.

ASE-059 Health II
0 credits, Fall/Winter/Spring/Summer
Builds on concepts of ASE-026, Health I. Provides a more in-depth examination of the behaviors that pose a threat to a healthy living. Further practice evaluating positive choices for long term physical mental and emotional health.

ASE-061 General Science/Frogs
0 credits, Fall/Winter/Spring/Summer
Presents principles of diversity and interdependence of life, anatomy and physiology, and animal structure and function through virtual dissection.

ASE-062 Science/Desert Ecology
0 credits, Fall/Winter/Spring/Summer
Presents principles of desert ecology. Explores how organisms interrelate and adapt to life in desert environments, how deserts are formed, and human impact on deserts.

ASE-063 General Science/Wetlands
0 credits, Fall/Winter/Spring/Summer
Presents principles of the plant and animal kingdom in virtual wetlands. Explores organisms, classification systems, and processes, within wetland ecosystems.

ASE-066 Technology I
0 credits, Fall/Winter/Spring/Summer
Focuses on the use of computers, understanding their structure and components, and word processing skills needed for academic environments.

ASE-067 Technology II
0 credits, Fall/Winter/Spring/Summer
Focuses on the use of technology in academic and career areas. Provides students hands on experience working with spreadsheets, databases, presentations, and computer applications.

ASE-068 Literature II
0 credits, Fall/Winter/Spring/Summer
Focuses on literature from 1850-present. Ties literature to national history to better understand political, economic, and religious forces influencing readers and authors.

ASE-071A Algebra 1A
0 credits, Fall/Winter/Spring/Summer
Algebra 1A explores the relationship between mathematical quantities, reasoning with equations and inequalities, graphing, functions and mathematical modeling.

ASE-071B Algebra 1B
0 credits, Fall/Winter/Spring/Summer
Algebra 1B reinforces concepts presented in Algebra 1A and introduces quadratic equations, parabolas, functions, and statistics related to data distributions. Prerequisites: ASE-071A

ASE-072 Algebra II
0 credits, Fall/Winter/Spring/Summer
Major topics (in an integrated approach) include linear sentences, division in algebra, slopes and lines, exponents, quadratic equations, and linear systems.

ASE-072A Algebra 2A
0 credits, Fall/Winter/Spring/Summer
Algebra 2A reinforces the concepts covered in the Algebra 1A and B sequence focusing on applications. Additionally, Algebra 2A introduces complex numbers.

ASE-072B Algebra 2B
0 credits, Fall/Winter/Spring/Summer
Algebra 2B reinforces the concepts presented in Algebra 1A and Algebra 2A. Additionally, Algebra 2B introduces basic trigonometric functions. Prerequisites: ASE-072A

ASE-086 General Science/Birds
0 credits, Fall/Winter/Spring/Summer
Explores principles of general science such as scientific classification, evolution and natural selection, distinguishing fact from value, the scientific method, and current events and their correlation to historical events in science in the context of bird adaptations, origins, physiology, flight, migration and current scientific cases.

ASE-087 Physical Science: Exploring the Rainforest
0 credits, Fall/Winter/Spring/Summer
Using virtual tours of the rainforest, students investigate the plant and animal life; animal characteristics; interdependence in an ecosystem; mechanisms in the biomass; and various types of rainforests.

ASL

American Sign Language

ASL-101 American Sign Language I
4 credits, Fall
First term of a three-term introductory course. Everyday communication is the centerpiece of each lesson. Topics revolve around sharing information about ourselves and our environment. Grammar is introduced in context, with an emphasis on developing question and answering skills. Strategies are presented to help the student maintain a conversation. Recommended: WRD-098 or placement in WR-121

ASL-102 American Sign Language
4 credits, Winter
Second term of a three-term introductory course. Emphasis will be on increasing communicative abilities. Course will focus on language functions such as making requests, describing others, and/or telling a short story. Grammar and vocabulary will also be emphasized throughout the course. Prerequisites: ASL-101 with a C or better
BA

Business Administration

BA-101 Introduction to Business
4 credits, Fall/Winter/Spring/Summer
Introduces the American business system in a changing global environment. Disciplines covered include economics, entrepreneurship, formation, accounting, finance, marketing, and management. Recommended: WRD-090 or placement in WRD-098

BA-103 Business Strategies for Computer Consultants
3 credits, Spring
Class introduces the procedures for establishing and developing a successful consulting business in computer-related services including web development, network support, and computer support.

BA-104 Business Math
3 credits, Fall/Winter
Apply mathematics to a variety of problems and situations found in the business world, including: mark-ups and mark-downs; statistical analysis; simple interest; present value and future value of single sums and annuities; and gains, losses and valuations of stocks, bonds, mutual funds, and other investments. Also included are accounting applications of depreciation, inventory valuation, and financial ratio analysis.

BA-111 General Accounting I
4 credits, Fall/Winter/Spring
Full-cycle recordkeeping and payroll for service and merchandising businesses; topics include general and special journals, subsidiary ledgers, journalizing, posting, preparing financial statements, and end-of-period adjustments for small businesses. Recommended: WRD-090 or placement in WRD-098

BA-112 General Accounting II
4 credits, Not Offered Every Year
Financial recordkeeping topics include reporting standards; cash collections and controls; receivables and payables; inventory adjustments; and valuing property, plant and equipment, accounting for proprietorships. Also introduced are partnerships and corporate form of ownership. Prerequisites: BA-111

BA-119 Project Management Practices
2 credits, Winter
Basic course in project management, intended for non-project management students. Students gain a basic understanding of project management principles and techniques, with emphasis on scope planning, scheduling, and resource management. Students learn practical application of cost control, time management, and communication in project environments.

BA-120 Project Management Fundamentals
3 credits, Fall
Foundational course in project management. Students gain a thorough grounding in project management principles and techniques, including project life cycle, chartering, stakeholder management, work/task breakdown, network diagram and critical path, contingency planning, resource allocation, and project monitoring, and reporting

BA-122 Teamwork
3 credits, Fall
Focuses on team dynamics and skills for achieving goals while working in a diverse group. Students complete a team project and in the process, practice successful communication strategies, goal definition, schedule coordination, peer feedback, and conflict management. Additional course topics include learning styles, diversity, appreciating differences, and ethical behavior in teams.

BA-123 Leadership & Motivation
3 credits, Fall
Focuses on leadership-achieving organizational goals by employing human, financial, and organizational resources and provides both a theoretical and a practical perspective on leadership and motivation skills. By engaging in both introspective and interactive exercises, students build the expertise necessary to lead both projects and organizations.

BA-124 Negotiation
3 credits, Spring
Approaches negotiation from both theoretical and practical perspectives, with an emphasis on successful--and ethical--negotiation techniques. Students engage in one-on-one and team negotiation role plays and complete both pre- and post-negotiation analyses. Students also predict and then evaluate effective negotiations from the perspective of themselves and their peers.
BA-125 Advanced Project Management Tools  
5 credits, Winter  
Tools and processes employed in the project knowledge areas of project communication, risk, procurement, and quality. Major topics include project communication planning and preferred communication channels and approaches; risk assessment and risk management in a project environment; project procurement planning and management with an emphasis on contract types and contract awards and administration; and approaches to project quality planning, quality assurance, control and improvement. Prerequisite Or Corequisite: BA-120

BA-126 Project Management: Workshop  
3 credits, Spring  
In small teams, students manage a simulated project, managing schedule, resources, and reporting project status. As a final outcome, student teams submit a report and presentation that summarizes the project experience and lessons learned. Course tools include Microsoft Project 2013, in which the student is expected to have prior training. Prerequisites: BA-120, BA-125, and BT-177

BA-130 Leadership in Literature  
4 credits, Not Offered Every Year  
Examines the nature of leadership by analyzing characters who are leaders in major literary works. Recommended: WRD-098 or placement in WR-121

BA-131 Introduction to Business Computing  
4 credits, Fall/Winter/Spring  
Introductory course using Microsoft Word, Excel, Access, and PowerPoint applications to create business documents, utilize the Internet, and file management. Recommended: BT-120, and WRD-090 or placement in WRD-098

BA-146 Entertainment Law & New Media  
3 credits, Spring  
Covers the basic elements of copyright law and licensing as it applies to artists, songwriters, composers, filmmakers, and New Media Artists. Also covers how to protect your intellectual property and benefit from your rights as a copyright owner.

BA-156 Business Forecasting  
3 credits, Winter  
Basic economic principles applied to business decision-making, forecasting, and critical thinking skills related to budgeting, planning, financial analysis, and application of business policy and practice. Designed for business majors. Recommended: WRD-090 or placement in WRD-098

BA-177 Payroll Accounting  
3 credits, Winter  
Basic personnel payroll records necessary in business firms, laws affecting payroll systems, procedures used in computing wages, salaries and deductions, and manual preparation of payroll records and reports. Prerequisites: BA-111 or BA-211

BA-205 Business Communications With Technology  
4 credits, Fall/Winter/Spring  
Students practice critical skills for successful communication in a business environment by employing a structured writing process, analyzing audience needs, and identifying and using appropriate communication channels and modalities. Students also work individually to produce a PowerPoint presentation with embedded narration and as team members to manage a comprehensive project and complete a business research paper. Prerequisites: BA-131 and WR-121. Recommended: WRD-090 or placement in WRD-098

BA-206 Management Fundamentals  
4 credits, Fall/Winter/Spring  
Concepts and theories of management with focus on planning, organizing, leading, and controlling. Decision making, planning principles, global management, managing people and teams, effective communication, and motivation are included. Prerequisites: WRD-090 or placement in WRD-098. Recommended: BA-251

BA-208 Employee and Labor Relations  
4 credits, Winter  
Provides a legal and historical overview of employee and labor relations in union and non-union environments. Presents a realistic picture of collective bargaining and labor relations situations and highlights contemporary issues in employee relations, unions, bargaining units, and employee group representation.

BA-211 Financial Accounting I  
4 credits, Fall/Winter/Spring/Summer  
Develop skills in the basic principles of accrual-basis financial accounting for service and merchandising companies, including the accounting cycle, managing inventory, reconciling cash, internal controls, ratio analysis, and financial statement reporting. Emphasis is on procedure. Prerequisites: BA-101. Recommended: BA-104 and BA-111

BA-212 Financial Accounting II  
4 credits, Fall/Winter/Spring/Summer  
Principles and practices in service and merchandising corporations, cash controls, receivables, assets, short-term and long-term liabilities, debt, and financial statements. Corporate analysis of financial position including the cash flow statement. Prerequisites: BA-211

BA-213 Decision Making With Accounting Information  
4 credits, Fall/Winter/Spring/Summer  
Accounting for manufacturing operations, cost systems, capital budgeting, variances and budget performance reports, job order, process, flow, and cost/volume profit analysis and standard costs. Presentation and interpretation of accounting data to aid decisions. Prerequisites: BA-212

BA-214 Business Communications  
3 credits, Winter  
Focuses on the development of written communication skills in a business organization. Within communications, the interpersonal skills, in the form of both written and oral expression, are integrated to achieve individual and organizational objectives. Both informal and formal techniques are applied to a variety of business communication scenarios. Recommended: WR-101 or WR-121, and CS-120 or BA-131

BA-216 Cost Accounting  
4 credits, Fall/Winter/Spring/Summer  
Principles and practices in service and merchandising corporations, cash controls, receivables, assets, short-term and long-term liabilities, debt, and financial statements. Corporate analysis of financial position including the cash flow statement. Prerequisites: BA-211

BA-217 Business Forecasting  
3 credits, Winter  
Basic economic principles applied to business decision-making, forecasting, and critical thinking skills related to budgeting, planning, financial analysis, and application of business policy and practice. Designed for business majors. Recommended: WRD-090 or placement in WRD-098
BA-217 Budgeting for Managers  
3 credits, Spring  
Focuses on developing and managing departmental and project budgets and on understanding how they fit into the overall organizational framework. Addresses fixed, flexible, and rolling budgets, break-even and contribution margin analysis, profit planning, manufacturing costs and sales forecasts, and cost behavior and variance analysis. Recommended: BA-111 or BA-211 or have experience in accounting or work-related budgeting; BA-131 or CS-135S; and WRD-090

BA-218 Personal Finance  
4 credits, Fall/Winter/Spring  
Analysis and application of basic principles of personal finance including career planning, budgeting and spending, financial decision-making, use of credit, saving and investing, home purchase, taxes, risk management, retirement planning, estate planning, and other major personal finance topics. Prerequisites: MTH-020 or placement in MTH-050 or MTH-060, or BA-104; and WRD-090 or placement in WRD-098

BA-222 Financial Management  
3 credits, Winter  
Study of sources and uses of funds, financials, and cash flows; includes valuation of financial assets; long-term cash flows and budgeting; cost of capital; capital structure and dividend policy; working-capital management, ethics, and international business finance. Prerequisites: BA-212

BA-223 Principles of Marketing  
4 credits, Fall/Winter  
Offers a comprehensive investigation of strategic marketing in a global environment. Topics covered will include research, ethics, consumer behavior, product strategy, distribution strategy, promotional strategy and pricing strategy. Recommended: WRD-090 or placement in WRD-098

BA-224 Human Resource Management  
4 credits, Fall/Winter/Spring  

BA-225 Business Report Writing  
3 credits, Not Offered Every Year  
Focuses on the skills and techniques required to write and produce professional business reports, including research, writing, formatting, and presentation. Prerequisites: WR-121 and BA-205

BA-226 Business Law I  
4 credits, Fall/Winter/Spring  
Includes concepts, principles, and rules of law applicable to business and personal transactions, with emphasis on sources of law, the U.S. Constitution, personal and business torts and crimes, case-based applications, ethics, and consumer contract law. Recommended: WRD-090 or placement in WRD-098

BA-227 Business Law II  
4 credits, Winter  
Emphasis on real and personal property, negotiable instruments, insurance, documents of title, secured transaction, bailments, commercial paper, agency, bankruptcy, suretyship, bulk sales, and estate planning. Prerequisites: BA-226

BA-228 Computerized Accounting  
3 credits, Spring  
Provides the student with an introductory hands-on experience to learn how computers are used for accounting applications using a Windows operating system environment. Prerequisites: BA-111 or BA-211

BA-229 Employment Law  
4 credits, Spring  

BA-238 Sales  
4 credits, Spring  
Professional consultative selling techniques and how professional selling fits into a comprehensive marketing program as well as daily life. Interactive exercises will be used throughout the course that emphasize face-to-face communication skills and relationship building. Recommended: WRD-090 or placement in WRD-098

BA-239 Advertising  
4 credits, Fall  
Emphasizes a strategic and integrated approach to promotion where traditional and non-traditional techniques of promotion are explored. The relationship and role of advertising to marketing will be stressed throughout the course. Recommended: BA-101, and WRD-090 or placement in WRD-098

BA-249 Retailing  
3 credits, Fall/Spring  
Provides an understanding of the types of retail businesses, strategies, operations, formats and environments through which retailing is carried out, including a multi-disciplinary approach to understand the structure of effective retail management. Recommended: WRD-090 or placement in WRD-098

BA-250 Small Business Management  
3 credits, Winter  
Managing a small business, identifying a market opportunity, developing a business plan, and meeting the competition. Also includes financial accounting and cash-flow projections. Recommended: WRD-090 or placement in WRD-098

BA-251 Supervisory Management  
3 credits, Fall/Winter/Spring  
Role and responsibilities of the first-line supervisor or manager. Analyzing business, dealing with change, staffing and scheduling, leadership, decision-making, motivational skills, legal considerations, and managing teams. Prerequisites: WRD-090 or placement in WRD-098

BA-254 Basic Compensation & Benefits  
4 credits, Spring  
Covers wages, salary benefits, and plans with a primary focus on designing an effective and strategic compensation and benefit program within an organization. Covers general compensation topics, terminology, and practical applications to the workplace.
BA-255 Advanced Topics in Accounting
4 credits, Spring
Build upon knowledge obtained from the Principles of Accounting courses to comprehend and gain practice in more advanced and specialized areas of accounting, which may include Government and Nonprofit Accounting, Auditing and Fraud, and/or Data Analytics. Prerequisites: BA-212. Recommended: BA-213

BA-256 Income Tax Accounting
3 credits, Fall
Detailed review of the federal tax structure, as it relates to the preparation of individual tax returns. This course briefly overviews partnership and corporate tax returns. Recommended: BA-211 and BA-212, or financial accounting experience

BA-261 Consumer Behavior
4 credits, Spring
Seeks to understand how and why people make consumption decisions then apply this understanding to marketing strategies. Concepts of the consumer decision-making process, personal and interpersonal factors and their impact on consumer decisions are major components. Recommended: WRD-090 or placement in WRD-098

BA-268 Applied Project Demonstration
3 credits, Spring
Students demonstrate the ability to manage a real-world project from initiation through closing. Course deliverables include project scope statement, communication management plan, risk management plan, status report with Gantt chart, and “Lessons Learned” report and presentation. The project—along with a comprehensive exam—demonstrates knowledge acquired in prerequisite classes in the Project Management degree program.

BA-272 Financial Analysis, Accounting and Budget Forecasting (Retail)
4 credits, Winter
This course uses the application of business math skills to teach students to prepare retail budgets and forecasts leading to profitability. Students will be taught how to use accounting concepts and principles related to financial statements for effective and ethical business decision making. Recommended: WRD-090 or placement in WRD-098

BA-280 Business/CWE
3-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. On-the-job experience in a business related to the student’s major course of study. Under supervision of instructor and employer. May be repeated for up to 6 credits. Corequisites: CWE-281

BA-285 Human Relations in Business
4 credits, Fall/Winter/Spring
Introduces the theory and practical application of human relations at the individual, group, and organizational levels. Emphasizes psychological principles that help build relationships among employees and employers. Includes goal setting, motivation, communication, leadership, conflict management, and individual and group behavior. Recommended: WRD-090 or placement in WRD-098

BI

BI-101 General Biology; Cellular Biology
4 credits, Fall/Winter/Spring/Summer
An inquiry-based laboratory course focusing on cellular biology, genetics, epigenetics, biotechnology and natural selection. Class uses student centered activities in a collaborative learning environment to enhance appreciation of the biological world. Recommended: MTH-060 or MTH-098 or placement in MTH-065; and WRD-098 or placement in WR-121

BI-102 General Biology; Animal Systems
4 credits, Fall/Winter/Spring/Summer
An inquiry based laboratory course focusing on human and animal body systems; including teratogens, Hox genes and hormone mimics in embryonic development. Activities emphasize comparisons across animal phyla to better understand the diversity of life. The class uses student centered activities in a collaborative learning environment to enhance appreciation of the animal kingdom. Recommended: MTH-060 or MTH-098 or placement in MTH-065; and WRD-098 or placement in WR-121

BI-103 General Biology; Plants & the Ecosystem
4 credits, Summer/Fall/Spring
An inquiry based laboratory course focusing on plants and the ecosystem; including plant identification, population dynamics, productivity and energy flow. Activities include an integrated approach to understanding environmental issues and the impact of humans on the biosphere. The class uses student centered activities in a collaborative learning environment to enhance appreciation of the biological world. Recommended: MTH-060 or MTH-098 or placement in MTH-065; and WRD-098 or placement in WR-121

BI-112 General Biology for Health Sciences
4 credits, Fall/Winter/Spring/Summer
A one-term preparatory course that introduces the Health Occupations student to the scientific method, molecular and cellular biology, principles of inheritance, natural selection, tissues and organ systems. Topics and skills covered prepare students to enter BI-231, Anatomy & Physiology and BI-234, Introductory Microbiology. Recommended: MTH-060 or placement in MTH-065 or MTH-098; WRD-098 or placement in WR-121. Recommended: CH-112

BI-120 Introduction to Human Anatomy and Physiology
4 credits, Fall
This laboratory course is designed to teach the students in the Career Technical Programs: Medical Assistant and Clinical Laboratory Assistant students as part of their core curriculum. Material covered includes the structure and function of the human body, basic chemistry and cell structures are covered, as well as the organization of tissues, organs, and organ systems. Correlations can then be made between this material and disease states commonly encountered in the practice of these fields. Animal organ dissection required. Prerequisite or Corequisite: BI-120L

BI-160 Bird Identification & Taxonomy
3 credits, Not Offered Every Term
Lecture course introducing bird taxonomy, evolution, anatomy and physiology, identification, and behaviors. Identification techniques applied to regional birds through lectures, slides and other activities.
BI-160L Bird Identification & Taxonomy with Lab
4 credits, Not Offered Every Term
Lecture/Lab course introducing bird taxonomy, evolution, anatomy and physiology, identification, and behaviors. Identification techniques applied to regional birds through lectures, slides and other activities. Includes field identification of common Oregon birds by sight, sound, and habitat. Field trips required along with online research.

BI-163 Malheur Field Trip
1 credit, Spring
Four day field trip. Study of plants, animals, geology, and history of the Northern Basin and Range ecoregion at the Malheur Environmental Field Station in southeast Oregon. Required: Field trip and Student Petition.

BI-165C Natural History of the Oregon Coast
3 credits, Not Offered Every Term
Explores the natural processes that form our Northwest coastal environment: geologic development, shore-line processes, oceanography, and environmental hazards. Topics include the ecology of marine mammals, birds, estuaries, tidepools, sand dunes, and coastal forests.

BI-165CL Natural History of the Oregon Coast With Lab
4 credits, Not Offered Every Year
Explores the natural processes that form our Northwest coastal environment: geologic development, shore-line processes, oceanography, and environmental hazards. Topics include the ecology of marine mammals and birds, estuaries, tide pools, sand dunes and coastal forests. Lab included with field trips and lab activities.

BI-165D Natural History of the Western Deserts
4 credits, Spring
A lecture and lab course studying plants, animals, geology, ecology and environmental issues of western deserts. This intensive nine-day field course travels through western desert regions. Required: Student Petition. Prerequisites: WRD-098 or placement in WR-121. Recommended: One term of college-level science

BI-175 Integrated Science Inquiry
4 credits, Fall
An introductory laboratory course for liberal arts majors emphasizing an evolutionary approach to major topics in science through the use of integrating themes. The themes focus on the scientific discoveries and people that shape our understanding of the world. The course emphasizes an interdisciplinary perspective on science, collaborative scientific investigations and critical thinking. Themes have included: Evolution: the idea that shocked the World; the People and Animals of Africa, and the Lewis and Clark Expedition. Recommended: WRD-098 or placement in WR-121

BI-176 Integrated Science Inquiry
4 credits, Winter
An introductory laboratory course for liberal arts majors emphasizing an evolutionary approach to major topics in science through the use of integrating themes. The themes focus on the scientific discoveries and people that shape our understanding of the world. The course emphasizes an interdisciplinary perspective on science, collaborative scientific investigations and critical thinking. Themes have included: Human Evolution; Diseases of Africa, and the Lewis and Clark Expedition. Recommended: WRD-098 or placement in WR-121

BI-177 Integrated Science Inquiry
4 credits, Spring
An introductory laboratory course for liberal arts majors emphasizing an evolutionary approach to major topics in science through the use of integrating themes. The themes focus on the scientific discoveries and people that shape our understanding of the world. The course emphasizes an interdisciplinary perspective on science, collaborative scientific investigations and critical thinking. Themes have included Evolution & Contemporary Issues, Africa, and the Lewis and Clark Expedition. Recommended: WRD-098 or placement in WR-121

BI-204 Elementary Microbiology
4 credits, Winter
A lab course with a focus on environmental microbiology. Discussion of bacterial cell structure, bacterial biochemistry, bacterial metabolism, microbial ecology, eukaryotic microbial life cycles, and how microbes influence the environment. Laboratory emphasizes bacterial culturing, staining, and biochemical analysis. Labs provide practice with aseptic technique and introduces tools and methods used in the identification of an unknown bacterial species.

BI-211 General Biology for Science Majors (Cellular Biology)
5 credits, Fall
First quarter of a three quarter sequence of a laboratory class for science majors and pre-professional students. It emphasizes cell biology; including the process of science, cell structure, organization and function, cellular communication, biochemical processes, DNA, cell cycle, protein synthesis, biotechnology, genetics; epigenetics, evolution, and an introduction to tissues, organs and organ systems. Prerequisite or Corequisite: CH-104 or CH-221. Prerequisites: MTH-111 or placement in MTH-112. Recommended: WRD-098 or placement in WR-121

BI-212 General Biology for Science Majors (Animal Biology)
5 credits, Winter
Second quarter of a three quarter sequence laboratory course for science majors and pre-professional students. It emphasizes an evolutionary approach to animal biology; including animal diversity, development and the effects of Hox genes and hormones, comparisons of animal body systems including human, homeostasis, and behavior. Prerequisite Or Corequisite: CH-105 or CH-222
CH-112, or CH-221
BI-101, BI-112, or BI-211; and CH-104, laboratory environment. Prerequisites: and analytical skills in a collaborative
/This course emphasizes critical thinking
/and principles of microbial control.
/organisms, immunology, infection and microorganisms, immunology, infection and principles of microbial control.
/This course emphasizes critical thinking and analytical skills in a collaborative laboratory environment. Prerequisites: BI-101, BI-112, or BI-211; and CH-104, CH-112, or CH-221

BI-231 Human Anatomy & Physiology I
4 credits, Fall/Winter/Spring/Summer
A lab course designed for students entering the physical education or medically-related fields. Includes body organization, terminology, tissues and systematic study of the integumentary, skeletal, and nervous systems. Animal organ dissection required. Prerequisites: BI-112 (preferred), or BI-101 and BI-102, or BI-211. Prerequisites: CH-112 (preferred), or CH-104 and CH-105, or CH-221 and CH-222

BI-232 Human Anatomy & Physiology II
4 credits, Fall/Winter/Spring/Summer
A lab course covering structure function of the muscular, cardiovascular, lymphatic, and respiratory systems. Animal organ dissection required. Prerequisites: BI-231 with a C or better

BI-233 Human Anatomy & Physiology III
4 credits, Fall/Winter/Spring/Summer
A lab course covering neuroendocrine control, digestive, excretory, and reproductive systems. Study of fluid, electrolyte, and acid base balance. Animal organ dissection required. Prerequisites: BI-232 with a C or better

BI-234 Introductory Microbiology
4 credits, Fall/Winter/Spring
An introductory microbiology course required for health science and science majors. Includes characteristics, physiology and growth requirement of microorganisms, interactions between humans and microorganisms, immunology, infection and principles of microbial control.
/This course emphasizes critical thinking and analytical skills in a collaborative laboratory environment. Prerequisites: BI-101, BI-112, or BI-211; and CH-104, CH-112, or CH-221

BT Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Business Technology

BT-120 Personal Keyboarding
2 credits, Fall/Winter/Spring/Summer
Basic instruction on electronic alphanumeric keyboard. Provides practice for speed and accuracy using industry standards for data entry. The skill is especially helpful to people in the fields of data entry, accounting, office administration, insurance, banking and finance, and any other work that requires numeric input.

BT-121 Data Entry
1 credit, Fall/Winter/Spring/Summer
This course is designed to teach the computer numeric keypad by touch with speed and accuracy using industry standards for data entry. The entry of the same textbook. It covers additional new grammar rules, in addition to other
of the same textbook. It covers additional new grammar rules, in addition to other

BT-122 Keyboarding Skillbuilding
2 credits, Fall/Winter/Spring/Summer
Designed to improve typing proficiency using microcomputers. Students will refine and further develop speed and accuracy skills learned in BT-120 Personal Keyboarding. Prerequisites: BT-120

BT-124 Business Editing I
3 credits, Fall
Course builds communication skills through the study of correct usage of grammar, spelling, vocabulary usage, effective writing, and editing principles. Recommended: WRD-090 or placement in WRD-098

BT-125 Business Editing II
3 credits, Winter
Follows BT-124 and uses the second half of the same textbook. It covers additional new grammar rules, in addition to other punctuation, capitalization, and numbers. The course also covers composing business communication documents such as memorandums, letters, and reports, as well as using effective communication in a business environment. Prerequisites: BT-124 with a C or better

BT-160 Word I
3 credits, Winter
Introductory-level course where students learn basic concepts of the Word software program. This course is designed for students who have no or little knowledge of Word. Prerequisites: BT-120. Recommended: 35 words per minute typing skill

BT-161 Word II
3 credits, Spring
This is an intermediate level course where students learn more advanced features of the Microsoft Word software program. This course is designed for students who have completed BT-160, Word 1. Prerequisites: BT-160. Recommended: BT-124 and 40 words per minute typing skill

BT-172 Introduction to Microsoft Outlook
2 credits, Not Offered Every Year
Introductory course using Microsoft’s Outlook application as a tool to send and receive email, organize schedules and events, maintain contact lists, to-do lists, and tasks. The material covered in this course teaches the necessary skills required in those business environments that use Outlook. Prerequisites: BT-120

BT-177 Microsoft Project
3 credits, Winter
Covers the basics of using Microsoft Project to plan, schedule, and track a project. Also addresses communicating project information, assigning and tracking resources and costs, tracing progress, and closing a project. Concludes with students using Microsoft Project to produce management and other reports and to share project information with other audiences and applications.

BT-216 Office Procedures
4 credits, Spring
Presents critical thinking, problem solving, and collaborative learning; skills and knowledge are applied to business office operations, including communications, technology, records management, safety, travel, meeting management, mail procedures, reprographics, and career planning. Prerequisites: BT-160
**Course Descriptions**

**BT-262 Integrated Projects**
4 credits, Fall
Advanced use and integration of Microsoft Word, Excel, Access and PowerPoint skills in creating letters, reports, and forms; creation of advanced Excel worksheets and budgets; creation of Access databases to generate reports and forms; creation of PowerPoint presentations. Introduction to the use of Adobe Professional for use with documents, forms, and web pages. Google applications such as documents, presentations, spreadsheets, and Gmail.

**BT-271 Advanced Business Projects**
4 credits, Spring
Participate in real-world administrative office experience on the campus of CCC by working as team members in a professional environment. Practice using oral and written communications, analyzing information, event and project planning, problem solving, decision making, prioritizing, applying time management skills, and using industry standard technology skills and tools. Each student will spend 60 to 72 hours per term working in a CCC Office (paired with an Administrative Professional). 2 hours per week within the classroom. Prerequisites: BA-205, BA-228, BT-125, BT-216, BT-262, and CS-135S

**CDT**
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

**Drafting**

**CDT-103 Computer-Aided Drafting I**
1-4 credits, Winter
Introduction to drafting applications using AutoCAD. Instruction includes problem solving, drawing layout, orthographic multi-view projection, line types, geometric construction and current drafting techniques. Use industry standards for CAD drawing, editing, file management, dimensions and notes. Recommended: CDT-102

**CDT-108A Introduction to SolidWorks**
3 credits, Summer/Winter
An introduction to the SolidWorks parametric mechanical design software. Students will design 3D solid parts and assemblies, and develop 2D documentation from them.

**CDT-223 Inventor Fundamentals**
3 credits, Winter
Introduces parametric and adaptive modeling techniques using Autodesk Inventor. This course will guide students through design environmental setup, creation of simple and complex part geometry, assembly building, animation, and detailed 2D drawing output. Recommended: Basic working knowledge of Windows operating system and Microsoft Excel

**CDT-224 Professional Web Design**
1-3 credits, Spring
Introduction to the design, creation and management of professional web pages. Basic and HTML document creation, introduction to JAVASCRIPT, use and manipulation of graphic image files, animating web page graphics, HTML forms.

**CDT-225 Advanced SolidWorks**
3 credits, Winter
Advanced features of SolidWorks will be discussed and problems will be worked that exemplify them. Subjects include equations, configurations, design tables and dynamics. Prerequisites: CDT-108A

---

**Chemistry**

**CH-104 Introductory Chemistry**
5 credits, Fall/Winter/Spring/Summer
A lab transfer course for students in nursing, allied health fields, and liberal arts. Observation, measurement, composition, stoichiometry, atomic structure, periodic table, bonding, and nomenclature. Prerequisites: MTH-065 or MTH-098 or placement in MTH-095; WRD-090 or placement in WRD-098

**CH-105 Introductory Chemistry**
5 credits, Winter/Spring/Summer
A laboratory course discussing heat; molecular and ionic interactions in solids, liquids, gases, and solutions; chemical reactions including acid-base, electron transfer, and equilibrium. Prerequisites: CH-104

**CH-106 Introductory Chemistry**
5 credits, Spring/Summer
A lab course discussing organic and biochemistry. Prerequisites: CH-105

**CH-112 Chemistry for Health Sciences**
4 credits, Fall/Winter/Spring/Summer
One-term preparatory chemistry lab course for students who want to take BI-231, Anatomy and Physiology and/or BI-234, Introductory Microbiology. Includes measurement; atomic structure; periodic table; bonding; nomenclature; heat; molecular and ionic interactions in solids, liquids, and solutions; chemical reactions including acid-base; organic chemistry; and biochemistry. Prerequisites: MTH-065 with a C or better or placement in MTH-080 or MTH-095; WRD-090 or placement in WRD-098. Recommended: BI-112

**CH-114 Chemistry in Art**
4 credits, Summer
An introductory laboratory science course designed specifically for the non-science student. Offers a broad, non-quantitative descriptive survey of scientific principles relevant to art and art-related topics such as light, color, pigments, dyes, solubility, acidity, oxidation, and polymers. Emphasizes an interdisciplinary perspective on chemistry. Recommended: WRD-090 or placement in WRD-098

www.clackamas.edu
CH-150 Preparatory Chemistry
4 credits, Fall
One term preparatory course for students who must take the general chemistry sequence (CH-221/222/223) but have no chemistry background. Prerequisites: MTH-095 with a C or better or placement in MTH-111

CH-221 General Chemistry
5 credits, Fall/Winter
A transfer lab course for science, engineering, and professional majors. The nature of chemistry, atomic theory, electron configuration, structure, bonding, properties, composition and nomenclature of covalent and ionic substances. Introduces organic chemistry and biochemistry topics. Prerequisites: A year of high school chemistry or CH-150, or CH-104 and CH-105. Prerequisites: MTH-095 with a C or better or placement in MTH-111

CH-222 General Chemistry
5 credits, Winter
A lab course discussing reactions, stoichiometry, thermodynamics, organic compounds and polymers, kinetics, and equilibrium. Topics involving organic chemistry and biochemistry are introduced. Prerequisites: CH-221

CH-223 General Chemistry
5 credits, Spring
A lab course discussing states of matter, solutions, acids and bases, electrochemistry, nuclear chemistry, and spectroscopy. Topics involving organic chemistry and biochemistry are introduced. Prerequisites: CH-222

CH-241 Organic Chemistry I
5 credits, Fall
First term of a transfer sequence meeting organic chemistry requirement for premedical, dental, veterinary, pharmacy, chiropractic medicine, chemical engineering and biology majors. Prerequisites: CH-223

CH-242 Organic Chemistry II
5 credits, Winter
Second term of transfer sequence meeting organic chemistry requirement for premedical, dental, veterinary, pharmacy, chiropractic medicine, chemical engineering and biology majors. Prerequisites: CH-241

CH-243 Organic Chemistry III
5 credits, Spring
Third term of a transfer sequence meeting organic chemistry requirement for premedical, dental, veterinary, pharmacy, chiropractic medicine, chemical engineering and biology majors. Prerequisites: CH-242

CJA

Criminal Justice

CJA-101 Criminology
4 credits, Fall/Winter/Spring
Examines the social problem of crime, including the process of making and breaking laws as well as society’s reaction to the phenomenon. Provides a multidisciplinary study of the causes of crime, including its distribution across social strata and demographics. Focuses on theories of criminal behavior and specific types of crime.

CJA-110 Introduction to Law Enforcement
4 credits, Fall
Explores theories, philosophies, and concepts of American law enforcement. This course also examines the history of law enforcement, specific components of the system, public safety responses, and the professionals charged with peace keeping.

CJA-112 Patrol Procedures
3 credits, Not Offered Every Term
Describes the nature and purpose of patrol activities for the law enforcement officer. Includes routine patrol, emergency procedures and different types of patrols. Examines crime prevention theory and community policing.

CJA-120 Judicial Process
3 credits, Winter
Studies the judicial process from arrest through appeals, including search and seizure; interrogation; roles of defense attorneys, prosecutors, juries, grand juries, and judges; plea bargaining and guilty pleas; rights of criminal defendants at trial; appeals and habeas corpus.

CJA-122 Criminal Law
4 credits, Fall
This course examines the elements, purpose and functions of criminal, traffic, juvenile and liquor laws. Studies historical development, philosophy of law, and constitutional provisions. Examines definition and classification of crime, application of administration of justice, legal research, study of case law, methodology and concepts of law as a social force.

CJA-130 Introduction to Corrections
3 credits, Spring
Examines the history, organization, and development of corrections in the United States, including sentencing, incarceration, community corrections and the juvenile justice system. Reviews the use of the death penalty. Identifies trends in corrections.

CJA-134 Correctional Institutions
3 credits, Winter
Examines the history, organization, and development of corrections in the United States, including sentencing, incarceration, community corrections and the juvenile justice system. Reviews the use of the death penalty. Identifies trends in corrections.

CJA-137 Mass Murder and Serial Killers
3 credits, Not Offered Every Term
Explores the phenomenon of both mass murders and serial killings, and the impact each has both upon society and individual victims. Examines recent and historically notorious cases, while probing issues such as causation, social environmental linkage, and the mindset of offenders.
CJA-170 Introduction to Field Work in Criminal Justice
3 credits, Fall
Provides required preparation for participation in Criminal Justice/Correction Cooperative Work Experience. Discusses the processes of pursuing a career in the criminal justice system, including law enforcement, the practice of law, courts, correction, and private security. Includes topics related to Cooperative Work Experience such as finding a field placement, interviewing, and creating learning objectives. Addresses hiring, promotions, and workplace ethics. Students must successfully complete this course before participating in Criminal Justice/CWE. Prerequisites: CJA-110 with a C or better

CJA-200 Community Policing in a Culturally Diverse Society
4 credits, Spring
Examines interrelationships and role expectations of agencies and public policy. Provides information on how law enforcement professionals work effectively with diverse cultural groups. Explores racial and community tension, minority group crime, racial profiling, hate crimes, community policing, police misconduct and alternative lifestyles encountered in law enforcement. Prerequisites: CJA-110 with a C or better

CJA-201 Juvenile Delinquency
4 credits, Winter/Spring
Surveys the nature, extent, and causes of delinquent behavior focusing on theories of criminal behavior as they apply to juveniles. Studies historical and contemporary perspectives on juvenile offenders. Provides a multidisciplinary study of the causes of juvenile delinquency. Describes laws, enforcement, court, and correctional procedures within the juvenile system, and explores the differences between adult and juvenile practices.

CJA-203 Crisis Intervention
3 credits, Winter
Examines crisis intervention as it applies to emergency service workers. Includes the psychodynamics of family crisis; alcohol/drug related problems; suicide; sexual assault victims; domestic violence; mentally disturbed individuals; neglected, battered, and abused children. Prerequisites: CJA-110 with a C or better

CJA-210 Criminal Investigation I
3 credits, Fall
Introduces the history, theory and principles of criminal investigation in the criminal justice system. Describes crime scene investigation and courtroom aspects of crime scenes including interviews, evidence, follow-up, case preparation, and investigative techniques.

CJA-211 Criminal Investigation II
3 credits, Winter
Continues the study and application of investigative techniques acquired in CJA-210 Criminal Investigation I and CJA-211 Criminal Investigation II. Includes “hands-on” application of investigative processes from a practical aspect, including: search warrant writing, fingerprinting, evidence collection, and crime scene photography, diagramming, and reconstruction. Prerequisites: CJA-210 and CJA-211 with a C or better

CJA-212 Criminal Investigation III
3 credits, Spring
Continues the study and application of investigative techniques acquired in CJA-210 Criminal Investigation I and CJA-211 Criminal Investigation II. Includes “hands-on” application of investigative processes from a practical aspect, including: search warrant writing, fingerprinting, evidence collection, and crime scene photography, diagramming, and reconstruction. Prerequisites: CJA-210 and CJA-211 with a C or better

CJA-213 Interview & Interrogation
3 credits, Not Offered Every Term
Examines the dynamics of interviews and interrogations including common processes, approaches and techniques. Ethical, legal and psychological issues are also considered. Includes methods of how to analyze statements and behavior for deception and truthfulness.

CJA-214 Intimate Partner Violence
3 credits, Not Offered Every Term
This course will analyze the history, theory and principles of intimate partner violence. Discusses the dynamics of interviews and interrogations including common processes, approaches and techniques. Ethical, legal and psychological issues are also considered. Includes methods of how to analyze statements and behavior for deception and truthfulness.

CJA-215 Sexual Violence and Human Trafficking
3 credits, Not Offered Every Term
This course will explore various aspects of sexual abuse cases and human trafficking in the state of Oregon and the U.S., including discussion of societal and historical perspectives, responses to victim trauma, sexual offenders and law enforcement response to these crimes.

CJA-216 Criminal Justice Ethics
3 credits, Winter
Introduces case management techniques used by corrections and human services professionals in one-on-one and group contacts with clients. Explores a variety of case management materials, with an emphasis placed upon objective case planning and monitoring. Prerequisites: CJA-130 or HS-100 with a C or better

CJA-217 Drugs, Crime and the Law
3 credits, Spring
Examines the most common types of drugs consumed in the U.S. and societal problems related to drug use. Discusses potential crimes associated with drugs, and law enforcement strategies used to address drug manufacturing, distribution and use. Prerequisites: CJA-110 with a C or better

CJA-218 Reporting, Recording & Testifying
4 credits, Spring
Surveys documentation skills in criminal justice professions. Verbal, nonverbal and written forms of criminal justice related workplace communication are studied and practiced, including communicating with the public, basic interviewing, documentation, courtroom testimony, and report writing. Prerequisites: WR-121 with a C better
CLA-252 Introduction to Restorative Justice  
3 credits, Fall  
Provides a critical introduction to the history, values, principles, and practices of restorative justice. Covers fundamental values and principles of restorative justice, and the experience and interests of key stakeholders (victims, offenders, communities, and systems). Prerequisites: CJA-130 with a C or better

CLA-280 Criminal Justice/Corrections/CWE  
1-6 credits, Fall/Winter/Spring/Summer  
Cooperative work experience. Supervised experience in criminal justice, corrections, juvenile corrections, or related occupations. Prerequisites: CJA-170. Corequisites: CWE-281

CLA-281 Criminal Justice/Corrections/CWE  
1-6 credits, Fall/Winter/Spring/Summer  
Cooperative work experience. Supervised experience in criminal justice, corrections, juvenile corrections, or related occupations. Prerequisites: CJA-170 and CJA-280. Corequisites: CWE-281

CLA-290 Issues in Criminal Justice  
1-3 credits, Not Offered Every Term  
This course gives students an opportunity to gain knowledge in a specific area relevant to the field of criminal justice. This topic will be pulled from a comprehensive list of areas identified by criminal justice and corrections professionals as having importance for students pursuing work in the field. Credits may vary from 1-3. May be repeated for up to 6 credits.

CLA  
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Clinical Lab Assistant  
CLA-100 Introduction to Health Care  
2 credits, Fall  
An overview and introduction to healthcare systems and career trends, ethical and legal responsibilities, personal and workplace safety, infection control, professionalism, life-long learning, and effective communication.

CLA-101 Clinical Laboratory Assistant Skills I  
3 credits, Fall  
Presents the student with a general overview of a clinical laboratory, including state and federal regulations, quality assurance practices, laboratory terminology, laboratory staffing and a basic understanding of Waived laboratory testing. Specimen collection and handling will be addressed. The majority of the competencies required in the Core Module of the National Accrediting Agency for Clinical Laboratory Science (NAACLS's) Clinical Assistant Program will be covered. Prerequisites: MA-110, and MTH-050 or MTH-065. Required: Admission to the Clinical Laboratory Program. Corequisites: CLA-101L.

CLA-101L Clinical Laboratory Assistant Skills Lab I  
1 credit, Fall  
CLA-101L is a companion course to CLA-101 and presents the students with a general overview hands-on clinical laboratory skills, including performance of waived testing and specimen processing within the boundary of state and federal regulations. It presents quality assurance practices, insuring a basic understanding of quality laboratory testing. Many of the competencies required in the Core Module of the National Accreditation Agency for Clinical Laboratory Science (NAACLS's) Clinical Assistant Curriculum will be covered. Corequisites: CLA-101

CLA-102 Clinical Laboratory Assistant Skills II  
3 credits, Winter  
This course covers hematology and urinalysis theory at the clinical assistant level scope of practice. Correct specimen collection will be emphasized. This course will instruct students to define, assess, and evaluate various waived tests. Accuracy and attention to detail will be stressed. Quality control topics covered include the use of controls, standards, and laboratory protocols. Prerequisites:  
Required: Students must be admitted into the current CLA cohort, or Student Petition. Corequisites: CLA-102L.

CLA-102L Clinical Laboratory Assistant Skills Lab II  
1 credit, Winter  
Presents students with hematology and urinalysis skills with the assistant level scope of practice, while demonstrating correct specimen collection, processing and handling. Students will perform various waived tests, while demonstrating and analyzing the correct use of controls, standards, reagents, and other various laboratory protocols. Prerequisites: CLA-100, CLA-101, CLA-101L, CLA-118, CLA-118L, BI-120 or BI-101 & BI-102. Corequisites: CLA-102

CLA-103 Clinical Laboratory Assistant Skills III  
3 credits, Spring  
This course emphasizes Microbiology, Clinical Chemistry and Serology/Immunology theory with regards to laboratory assistant scope of practice and professionalism in the workplace. The course will review controls, standards and laboratory regulations. Required: Students must be admitted into the current CLA cohort, or Student Petition. Prerequisite: CLA-100, CLA-101, CLA-101L, CLA-102, CLA-102L, CLA-118, CLA-118L, BI-120 or the equivalent

CLA-103L Clinical Laboratory Assistant Skills III Lab  
1 credit, Spring  
This course, a companion to CLA-103, is a skills lab that emphasizes Microbiology, Clinical Chemistry, and Serology/Immunology. Attention to detail and accuracy will be discussed. The student will demonstrate the correct use of controls, standards and laboratory protocols. Required: Students must be admitted into the current CLA cohort, or Student Petition. Prerequisite: CLA-100, CLA-101, CLA-101L, CLA-102, CLA-120L, CLA-118, CLA-118L, BI-120 or the equivalent

CLA-115 Laboratory Administrative Skills  
2 credits, Winter  
Designed for the clinical laboratory assistant employed in a physician's laboratory, instructing them in laboratory coding, billing practices, and other administrative duties, with emphasis on patient test management and professionalism. EKG techniques will be included as well as other back office skills, as required by NAACLS.
CLA-118 Phlebotomy for Clinical Laboratory Assistants
1 credit, Fall
This course is designed to instill a broad understanding of blood collection and specimen handling theory used in the clinical laboratory and to prepare students to perform these tasks safely and effectively in the workplace. Universal and standard precautions and Federal and State Regulations will be emphasized. Customer satisfaction, professionalism, quality control and ethical issues will be addressed. Required: Student must be admitted into the current CLA cohort. Corequisite: CLA-118L
CLA-118L Phlebotomy for Clinical Laboratory Assistant Lab
1 credit, Fall
This course is a companion course to CLA-118, is designed for the Clinical Lab Assistant student practice and gain skill and experience in blood collection according to standard operating procedures. They will practice specimen handling and processing techniques used in laboratories. The students will perform these activities effectively and safely, emulating the workplace environment. Universal and Standard Precautions will be stressed. The students will collect blood samples on their lab partners throughout the term. Required: Student must be admitted into the current CLA cohort. Corequisite: CLA-118
CLA-119 Laboratory/Phlebotomy Practicum
3 credits, Winter
Supervised unpaid assignment to area medical center laboratories to gain practical experience.
CLA-120 Laboratory/Phlebotomy Practicum II
4 credits, Spring
Students will participate in a supervised, unpaid assignment, known as a clinical practicum, in area medical center laboratories to gain practical experience. A weekly seminar accompanies this course. Prerequisites: CLA-119
CLA-125 Introduction to Clinical Research
2 credits, Spring
Overview of research as applied through clinical studies. Participants will learn elements of proper research techniques as conducted under the supervision of a physician or Ph.D.
CLA-130 Specimen Collection
1 credit, Winter
Students will learn appropriate specimen collection for all types of blood and body fluid specimens used for laboratory testing. Students will recognize inappropriate specimen collection and develop problem-solving skills to protect patient safety. Students will also learn to perform drug testing collections under US Department of Transportation (DOT) regulations. Specimen management and potential adulteration of specimens for drug testing will be addressed. This course is required for Clinical Laboratory Assistant program students. Prerequisites: CLA-100, CLA-101, CLA-101L, CLA-118, CLA-118L, and BI-120 or equivalent
COMM
Communication Studies
COMM-100 Basic Speech Communication
3 credits, Fall/Winter/Spring/Summer
Explores interpersonal and small group dynamics and communication skills in day-to-day formal and informal situations. Examines positive self-concept, listening skills, verbal and non-verbal modes of communication, and clarity of expression. Designed for non-transfer students.
COMM-111 Public Speaking
4 credits, Fall/Winter/Spring/Summer
Practice in organization, research and delivery of a variety of speeches. Prerequisites: WRD-098 or placement in WR-121
COMM-112 Persuasive Speaking
4 credits, Not Offered Every Year
Persuasive speaking, audience analysis, study of reasoning, and the basic theories of persuasion. Prerequisites: WRD-098 or placement in WR-121
COMM-126 Communication Between the Sexes
4 credits, Fall/Winter
Examines ways women and men are different and similar in their communication behaviors. Traditions, myths, social roles and current issues are discussed. Recommended: WRD-098 or placement in WR-121
COMM-140 Introduction to Intercultural Communication
4 credits, Not Offered Every Term
Explores the impact cultural differences have on the communication process; increases awareness of students’ own cultural behaviors. Students discover effective ways to deal with difficult situations when a cultural difference causes a problem. Required: Non-native English speakers must have a Student Performance Level of 8 as measured by the BEST Plus. There is not a requirement for native speakers. Recommended: WRD-098 or placement in WR-121
COMM-212 Mass Media & Society
4 credits, Fall/Winter/Spring
This course takes students through a critical study of the production and consumption of mass media, including television, radio, books, film, newspapers, advertising and the Internet. Students also examine the economic and social organization of mass media, the growth of new media technologies, and the relationship between media and the public. Recommended: WRD-098 or placement in WR-121
COMM-218 Interpersonal Communication
4 credits, Winter/Spring
The interpersonal communication process is examined through lectures, readings, and exercises. Subjects include goal-setting, first impressions, conflict resolution, non-verbal messages, image building, self-concepts and assertiveness. Recommended: WRD-098 or placement in WR-121
COMM-219 Small Group Discussion
4 credits, Winter
Theories and practices of small group communication through group discussions, readings and written exercises. Emphasis on effective group communication, leadership skills, and problem-solving in small groups. Recommended: WRD-098 or placement in WR-121
COMM-227 Nonverbal Communication
4 credits, Winter
Explores theories and types of nonverbal behavior in relation to the creative process of human communication. Examines the influence, interpretation and/or management of such qualities as appearance, body movement, facial expression, voice, use of space, touch, and time. Considers how physical environments, social roles, gender, and inter/intra-cultural beliefs and values have an effect on relationships among individuals and groups. Applies theoretical interpretations to nonverbal communication found in various forms of human expression. Recommended: Placement in WR-121

COMM-280 Speech/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides students with on-the-job experience in the field of communications. Corequisites: CWE-281

CS
Computer Science

CS-090 Fundamental Computer Skills I
2 credits, Fall/Winter/Spring/Summer
The course covers the basic use of computers running a Microsoft Windows operating system, including: using the mouse and keyboard, creating and editing documents, file management, and basic Internet use. Recommended: Basic typing skills

CS-091 Fundamental Computer Skills II
2 credits, Fall/Winter/Spring/Summer
Continued development of skills learned in CS-090. Topics include intermediate features of a Microsoft Windows operating systems, more work with applications (word processing using the latest version of Microsoft Word, spreadsheets using the latest version of Microsoft Excel, and presentations using the latest version of PowerPoint). Prerequisites: CS-090 or placement in CS-091

CS-120 Survey of Computing
4 credits, Fall/Winter/Spring/Summer
A computer competency course to familiarize students with computer concept, software applications and the implications of living in the digital age. Introduces students to computer concepts, including, but not limited to the Microsoft Windows environment, Microsoft Office Applications, hardware terminology, social media and the Internet. Prerequisites: CS-090 or placement in CS-120 and WRD-098 or placement in WR-121

CS-121 Computer Applications
3 credits, Not Offered Every Term
Continuation of CS-120. Hands-on approach to word processing, database management, and electronic spreadsheets. Microsoft Office Suite (Word, Excel, Access, and PowerPoint.) Prerequisites: CS-120 or placement in CS-121, and MTH-060 or placement in MTH-065

CS-125H HTML & Web Site Design
3 credits, Fall/Winter/Spring/Summer
Hands-on approach to planning, design, and developing published web sites using HTML tags in a text editor. The class focuses on basic HTML coding using HTML 5 models. Hyperlinks, images, cascading style sheets, forms, accessibility and design principles will be covered, as well as tools such as site management, validators, and page editors. Recommended: CS-120 or equivalent experience

CS-125R Podcasting
3 credits, Not Offered Every Year
Introduces audio and video recording and editing for the purposes of podcasting. Writing XML scripts. Includes hands-on projects and exercises.

CS-133S Introduction to JavaScript & Server-Side Scripting
3 credits, Winter
Design, programming, testing of scripted web pages using JavaScript for client-side applications and PHP for server-side applications. Introduction to fundamental concepts of interactive web pages and server-side connectivity. Covers the Document Object Model (DOM) and programming constructs like variables, operators, functions, control structures, exception handling. Prerequisites: CS-125H and MTH-065 or equivalent experience. Recommended: MTH-060 or placement in MTH-065

CS-133VB Visual Basic.NET I
3 credits, Fall/Winter/Spring
Hands-on approach to software design using object-oriented programming. Planning an application, building a user interface, using variables and constants, calculating, accumulating, counting, making decisions, using functions, and using menus. Prerequisites: BA-131 or CS-120. Recommended: MTH-060 or placement in MTH-065

CS-135DB Microsoft Access
3 credits, Fall/Spring
Focuses on the advanced database capabilities using a current version of Microsoft Access. Topics include design, construction, and documentation of a database management system, designing reports, forms, advanced form techniques, advanced queries, customizing tables, and creating and using an application system with macros. Required: Computer literacy: file management, familiarity with Microsoft Office interface; cut, copy & paste

CS-135I Advanced Web Design With Dreamweaver
3 credits, Fall/Spring
Plan and publish a standards-based, accessible web site via a variety of tools, including the Adobe Creative Suite. Complete market and user-needs analysis to best target site content and design. Create a graphical web site mock-up, then use CSS (including a framework and pre-processors), scripts, and multimedia to realize site goals. Emphasizes professional design techniques. Prerequisites: CS-125H, or equivalent experience with hand-coded HTML & CSS

CS-135S Microsoft Excel
3 credits, Fall/Winter/Spring
Focuses on advanced spreadsheet capabilities using a current version of Microsoft Excel. Topics include design, construction, and documentation of spreadsheets, use of templates, multiple worksheets, complex formulas, functions and filtering, Pivot Tables, advanced chart features, sorting, database capabilities, finding data, creating subtotals, using lookup tables, finding trends and forecasting, creating and editing macros, validating data, and working with controls. Required: Computer literacy: file management, familiarity with MS Office interface, ability to understand and use provided formulas to solve problems
CS-151 Networking I
4 credits, Winter
This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes. This course, along with CS-152, cover the topics on the CISCO CCENT exam. Prerequisites: CS-160 or placement in CS-121, and MTH-060 or placement in MTH-065, and WRD-098 or placement in WR-121.

CS-152 Networking II
4 credits, Spring
Practices the building and servicing of basic computer networks. Topics include physical media, network design, addressing, routing, switching, and management used in common LANs and the Internet. This course, in conjunction with CS-151, covers the topics of the CompTIA Network+ exam. Prerequisites: CS-151 and CS-227.

CS-153 Introduction to Operating Systems
4 credits, Fall/Spring
Introduction to the theory behind operating systems as well as basic functions of Windows, Linux/UNIX, and Macintosh operating systems. Discussion of operating systems interface with input, output, and storage devices and basic network theory. Prerequisites: CS-120 or placement in CS-121, and MTH-060 or placement in MTH-065, and WRD-098 or placement in WR-121.

CS-160 Computer Science Orientation
4 credits, Fall/Spring
Examines foundational computing subjects used in Computer Science and Information Technology. Topics include computer architecture, electronic logic, data representation, networking, algorithms and programming, which are used in successive Computer Science courses. Information about degrees in Computer Science and Information Technology is also covered. Recommended: MTH-060 or placement in MTH-065. WRD-098 or placement in WR-121. CS-120 or placement in CS-121.

CS-161 Computer Science I
4 credits, Fall/Winter
Introduction to fundamental concepts of structured programming, including problem solving, algorithm and program design, data types, loops, control structures, subroutines, and arrays. Learn to write structured programs in a high level programming language. Prerequisites: MTH-111 or placement in MTH-112, or 4 years high school math.

CS-162 Computer Science II
4 credits, Winter/Spring
Introduces fundamental concepts of object oriented programming and dynamic memory management. Covers objects, classes, pointers, dynamic memory allocation, linked lists, and program correctness, verification, and testing. Prerequisites: CS-161.

CS-168 CMS Web Development
3 credits, Winter
Explores creating dynamic and interactive web sites via the use of a current content management system (CMS) and shopping cart utility. Includes installation of CMS/database, working with templates, creating efficient site navigation, enhancing sites using components, modules, plugins and extensions, and user management. Prerequisites: CS-125H, or equivalent experience with hand-coded HTML & CSS.

CS-169 Flash Web Development
3 credits, Winter
Introduces the technologies and techniques behind creating an interactive, media-rich website using Adobe Flash. Topics include, but are not limited to, using the drawing tools, using the timeline, creating frame-based and tween-based animations, adding interactivity through ActionScript, and incorporating existing graphics, sound, and video files. Students will complete a portfolio of Flash creations throughout the class. Prerequisites: CS-125H or equivalent experience.

CS-170 Computer Systems II
4 credits, Fall
Introduction to computer systems from a software perspective. Topics include: Basic machine organization, system programming in C and assembly language, introduction to system programming tools (gcc, makefile, gdb), data representation (bits & bytes, characters, integers, floating point numbers), implementation of control flow, procedure calls, and complex data types at the machine level, linking and loading, exceptions and interrupts, process control and signals, system calls, file I/O, timing and improving program performance, basic memory hierarchy, and dynamic memory allocation techniques. Prerequisites: CS-162.

CS-171 Program Structures
4 credits, Winter
Students will become familiar with advanced C++ and Java syntax for object-oriented programming. Use of the file system, operating system calls, and shell-level programming; low-level debugging of high-level programs. Programming exercises will include applications of data structures and memory management techniques. Prerequisites: CS-162.

CS-172 Computer End User Support
3 credits, Fall
Addresses professional and interpersonal skills needed by technicians who support and manage hardware and software information systems. Customer service skills; troubleshooting; helpdesk operation; product needs analysis, evaluation, purchase, and installation; technical documentation and training. Prerequisites: CS-120 or placement in CS-121 or equivalent experience.

www.clackamas.edu
CS-227 Computer Hardware & Repair
4 credits, Fall
An in-depth course in computer hardware. Covers operational concepts, identification, installation, configuration, and troubleshooting of power supplies, motherboards, microprocessors, memory modules, disk drives, optical drives, and expansion cards. This course, in conjunction with CS-228, covers the topics of the CompTIA A+ certification exam. Prerequisites: CS-140

CS-228 Computer OS Maintenance & Repair
4 credits, Winter
An in-depth course in operating system maintenance and troubleshooting. Covers configuration, maintenance, and troubleshooting of desktop and mobile operating systems, the fundamentals of cloud computing, and client network configuration and troubleshooting. This course, in conjunction with CS-227, covers the topics on the CompTIA A+ certification exam. Prerequisites: CS-227

CS-234J jQuery Web Development
3 credits, Spring
In-depth exploration of creating dynamic websites using the jQuery function library. Topics include creating AJAX applications, XML and JSON data formats, image effects like sliders and lightboxes, navigation effects, mobile-friendly effects and more.

CS-234P PHP/MySQL Web Development
3 credits, Spring
Use PHP and MySQL to develop dynamic web sites for use on the Internet. Develop web sites ranging from simple online information forms to complex online applications. Introduce programming fundamentals including variables, control structures, functions and objects. Applications developed use MySQL as the backend database and will explore database connectivity, querying, and security. Prerequisites: CS-125H or equivalent experience. Recommended: CS-275

CS-240L Linux Administration
4 credits, Spring
Hands-on system administration of Linux. Installation, system configuration, file management, disk formatting and partitioning, local file systems, system startup and shutdown, text editing, run levels, backup and restore, printing, basic local area networking, and memory management. Prerequisites: CS-140

CS-240M MacOS Administration
3 credits, Winter
Designed to prepare students for the challenges they will face as a networking professional supporting multiple operating systems. Lectures, projects and exercises reinforce skills as they are learned. Specific topic coverage includes: installation and set-up, user accounts, file systems, data management, applications, network configuration, network services, peripherals, startup and troubleshooting. Prerequisites: CS-140

CS-240W Windows Desktop Administration
3 credits, Winter
An introduction to the current Windows desktop client operating system. Topics include: installation, managing disks and file systems, file access security, users, profiles and policies, groups, security, backup, remote access, printing and troubleshooting. Prerequisites: CS-140

CS-250 Discrete Structures I
4 credits, Winter
Students will be introduced to discrete structures and techniques for computing. The course, which is the first in the two-term sequence, aims to convey the skills in discrete mathematics that are used in the study and practice of computer science. Topics include: Sets; Graphs and trees; Functions: properties, recursive definitions, solving recurrences; Relations: properties, equivalence, partial order; Proof techniques: inductive proof; Counting techniques and discrete probability. Prerequisites: MTH-251

CS-251 Discrete Structures II
4 credits, Spring
Continuation of the introduction to discrete structures and techniques for computing started in CS-250. The course, which is the second in the two-term sequence, aims to convey the skills in discrete mathematics that are used in the study and practice of computer science. Topics include: Logic: propositional calculus, first-order predicate calculus; Formal reasoning: natural deduction, resolution; Applications to program correctness and automatic reasoning; Introduction to algebraic structures in computing. Prerequisites: CS-250

CS-260 Data Structures
4 credits, Spring
Covers common data structures used for the storage and manipulation of data, as well as data abstraction, sorting algorithms, and algorithm analysis. Data structures include linked lists, stacks, queues, binary trees, b-trees, hash tables, and graphs. Prerequisites: CS-162

CS-275 Database Design
3 credits, Winter
Focuses on design of a relational database management systems (RDMS). Topics will include database development using the a) requirement, b) design, c) implementation model, database theory from flat table design to relational systems, entity-relationship models, one-to-one, one-to-many, and many-to-many relationships, referential integrity, normalization of tables, database programming and querying with SQL, and database security. Although other platforms may be demonstrated, the majority of work will be done with MySQL Server. Required: Computer literacy: file management, fluency with a current Windows OS, familiarity with virtual machines

CS-279W Windows Server Administration
4 credits, Spring
Managing a Microsoft Windows server network. Topics include: Network protocols, Active Directory, performance issues, managing web resources, security, and disaster recovery. Prerequisites: CS-151 and CS-240W

CS-280 Computer Science/CWE
1-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience provides supervised work experience to supplement the school experience from the academic classroom environment. Examples would be providing user support, work with computer applications or programming languages, install or manage PC computer systems, and developing websites. Can be repeated for up to 9 credits. Prerequisites: BA-131, CS-140, and CS-150. Corequisites: CWE-281

CS-284 Network Security
3 credits, Winter
Comprehensive overview of network security. Covers communication security, infrastructure security, cryptography, operations/organizational security, disaster recovery, business continuity, and computer forensics. Prerequisites: CS-279W
CS-288W Windows Network Administration
4 credits, Winter
Practices network administration and design using Microsoft Windows Server and other operating systems. Topics include TCP/IP protocols and services such as: IPv4 and IPv6 addressing, DHCP, DNS, routing, filtering, network protection, and remote access. Prerequisites: CS-279W

CS-289 Web Server Administration
4 credits, Spring
An introduction to Apache and Microsoft Internet Information Server. Covers installation, administration, securing and troubleshooting, as well as the http, https, and ftp protocols. Prerequisites: CS-240L and CS-240W

CS-297N Network Capstone
4 credits, Spring
This class affords students the opportunity to put all the discrete information learned from their program classes together towards the completion of an enterprise computer project.

CS-297W Website Capstone
3 credits, Spring
The capstone course for the web development AAS programs. Provides the opportunity to function in a production design environment, work cooperatively with students from other focus areas, and research emerging website technologies. Emphasis will be placed on client interaction, project teams, and accountability, as well as the development of a professional portfolio web site or completion of a research project in an emerging web-related technology. Prerequisites: CS-195 and CS-133S; or CS-195 and CS-135I

CWE
Cooperative Work Experience

CWE-181 Work Exploration
1-3 credits, Fall/Winter/Spring/Summer
Work exploration provides students an opportunity to explore career options to make informed decisions about possible career fields and programs of study. This class is focused on exploration activities such as job shadow, not demonstration of skills gained through a program. Work exploration is a general course unrelated to specific program areas and does not have a co-requisite seminar. This course is variable credit and may be repeated for up to a total of 3 credits.

CWE-281 Cooperative Work Experience Seminar
0 credits, Fall/Winter/Spring/Summer
The seminar provides an opportunity to develop the career management skills necessary to obtain, sustain, and advance in employment. Prepares students for career success.

Discipline-Specific Cooperative Work Experience Classes:

COURSE DESCRIPTIONS

DA
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Dental Assisting

DA-101 Dental Radiology I
2 credits, Fall
Introduction to history and principles of dental radiology, terminology, and basic physics associated with x-rays, biological effects of x-rays, anatomical landmarks and infection control. Required: Admission into the Dental Assistant program. Corequisites: DA-101L

DA-101L Dental Radiology I Lab
1 credit, Fall
This course covers practical instruction in radiation health and safety, types of film, film holders, processing and mounting of dental films, use of x-ray equipment, infection control techniques, disposal of hazardous waste, and exposure techniques on x-ray manikins. Required: Admission into the Dental Assistant program. Corequisites: DA-101

DA-102 Dental Radiology II
2 credits, Winter
Alternative radiographic techniques are discussed as students develop their knowledge in the following areas: bisecting, extra-oral radiography, techniques for children, and patients with special needs. This course provides an in-depth study of the purpose and uses of panoramic imaging, digital imaging, three-dimensional digital imaging, and occlusal examinations. Identification of radiographic interpretation and infection control procedures will also be covered. Required: Admission into the Dental Assistant program. Prerequisites: DA-101 with a C or better. Corequisites: DA-102L

DA-102L Dental Radiology II Lab
1 credit, Winter
Knowledge and skills in alternative radiographic techniques are taught as students demonstrate exposure techniques and corrective measures of various alternative radiographic techniques. Students meeting radiographic proficiency on the x-ray mannequin prepare for the Radiation Health and Safety (RHS) proficiency exam. Candidates for the RHS proficiency exam will follow all RHS, Dental Assisting National Board (DANB) and Oregon examination requirements in preparation of patient radiographs. Required: Admission into the Dental Assistant program. Prerequisites: DA-101 with a C or better. Corequisites: DA-102

DA-104 Clinical Procedures I
2 credits, Fall
Discussion in the practice of patient care including the collection of patient medical and dental histories and maintenance of accurate treatment records. Explores the history of dentistry, dental ethics, law, and HIPAA. The dental healthcare team, dental office design and the dental profession will also be discussed. Required: Admission into the Dental Assistant program. Corequisites: DA-104L

DA-104L Clinical Procedures I Lab
1 credit, Fall
This course prepares the student for basic chairside assisting and general procedures. Application of essential skills in seating and dismissing patients, ergonomics, taking and recording vital signs, and infection control are taught and practiced in a dental laboratory setting. Required: Admission into the Dental Assistant program. Corequisites: DA-104

DA-105 Clinical Procedures II
2 credits, Winter
A foundational course in preventive dentistry. Examines the study of preventive education, oral hygiene instruction, nutrition, fluoride agents, coronal polishing and sealants. The continuation of oral evacuation and isolation techniques will also be covered. Required: Admission into the Dental Assistant program. Prerequisites: DA-104 with a C or better. Corequisites: DA-105L

DA-105L Clinical Procedures II Lab
1 credit, Winter
Furthers the development of chairside skills and introduces the application of preventive procedures such as coronal polishing, fluoride treatment and oral hygiene instruction. Basic knowledge in the application of dental sealants is also taught. Lab skills such as the placement and removal of matrix retainers and rubber dams are taught to provide preparation for chairside dental assisting functions. Aseptic procedures are practiced during all lab skills. Required: Admission into the Dental Assistant program. Prerequisites: DA-104L with a C or better

DA-106 Clinical Procedures III
2 credits, Spring
This course provides an in-depth knowledge of dental specialties. Advanced and expanded dental assisting functions, tray set-ups and procedures in endodontics, periodontics, oral surgery, orthodontics and pedodontics are covered. Principles and procedures for amalgam and composite polishing will also be covered.

DA-106L Clinical Procedures III Lab
1 credit, Spring
This course covers advanced and expanded dental assisting procedures in dental specialties. Tray set-up, dental materials and specific specialty procedures will be covered in the following dental specialties: orthodontic, periodontics, oral surgery and endodontics. Laboratory instruction in study casts, amalgam and composite polishing, will be taught on dental manikins. Required: Student Petition. Required: Admission into the Dental Assistant program. Prerequisites: DA-105L with a C or better. Corequisites: DA-106

DA-107 Dental Materials I
2 credits, Fall
This course is an in-depth level of instruction in the composition and manipulation of dental restorative materials, and dental cements. Examination of general dentistry and chairside assisting with direct permanent restorations such as amalgam and composite will also be covered. Required: Admission into the Dental Assistant program. Corequisites: DA-107L
DA-107L Dental Materials I Lab  
1 credit, Fall  
This course covers the application of the essential skills necessary in assisting with amalgam and composite restorations. Covers tray-set-ups, pre and post-operative instructions, instrument transfer, and oral evacuation with amalgam and composite procedures. The identification and application of dental cements used in general dentistry will also be covered. Includes manipulation, storage and disposal of hazardous dental materials and cements. Required: Admission into the Dental Assistant program. Prerequisites: DA-106L with a C or better. Corequisites: DA-107  

DA-108 Dental Materials II  
2 credits, Winter  
This course focuses on in-depth knowledge of the properties, uses and manipulation of impression materials, gypsum products and waxes. Foundational knowledge will prepare students for the fabrication of custom trays, bleaching trays, and provisional restorations. Includes knowledge of fixed and removable prosthodontic procedures and rational for polishing removable appliances. An overview of dental implants will also be covered. Required: Admission into the Dental Assistant program. Prerequisites: DA-107 with a C or better. Corequisites: DA-108L  

DA-108L Dental Materials II Lab  
1 credit, Winter  
Essential skills in the manipulation and application of dental impression materials, gypsum products and waxes will be covered. Thorough knowledge of laboratory skills in the fabrication of custom trays, bleaching trays, and provisional restorations will be taught. The instrumentation and procedures for fixed and removable prosthodontics will also be covered. Required: Admission into the Dental Assistant program. Prerequisites: DA-107L with a C or better. Corequisites: DA-108  

DA-110 Clinical Practicum I  
1 credit, Fall  
Clinical practicum begins in the seventh week of class. Students begin to apply basic dental assisting procedures taught in weeks one through six. OSHA, hazard communication and infection control are followed for student and patient safety. A minimum of 8 supervised unpaid hours per week is required for term one practicum. Students will participate in one seminar held prior to clinical practicum. Required: Student Petition. Required: Admission into Dental Assistant program.  

DA-115 Dental Science  
2 credits, Fall  
Introduction and general study of anatomy, physiology, and oral pathology. An in-depth level course of study in oral anatomy, histology and embryology. Introduction to charting will also be covered. Required: Admission into the Dental Assistant program.  

DA-120 Clinical Practicum II  
5 credits, Winter  
Supervised unpaid practice and improvement of clinical skills taught in clinical procedures, dental materials and radiology. Covers advanced Expanded Functions Dental Assisting (EFDA) skills and infection control protocols. Introduce basic business office procedures. Ten hours of community service will be required. Participate in two seminars during the term. Required: Admission into Dental Assistant program. Prerequisites: DA-110 with a C or better.  

DA-125 Dental Infection Control  
2 credits, Fall  
This course covers the introduction and general study of microbiology, major groups of microorganisms, viral and bacterial diseases. Disease transmission, infection prevention, disinfection and instrument processing techniques will also be covered. An in-depth level of the Bloodborne Pathogens Standards and Hazard Communication will be taught and integrated throughout the didactic, preclinical, laboratory and clinical courses of study. Required: Admission into the Dental Assistant program.  

DA-130 Clinical Practicum III  
8 credits, Spring  
Clinical practicum hours are increased to allow for advancement and completion of clinical competencies. Supervised unpaid practice and improvement of advanced clinical skills in all areas of chairside dental assisting, laboratory procedures, specialties, radiology and Expanded Functions Dental Assisting (EFDA) procedures. Students report to their assigned site three days a week, at a minimum of twenty-four hours per week, for eleven weeks. Clinical competency skills in business office procedures will also be completed in this term (minimum of forty-four hours). Students will be responsible to meet ten hours of community service. Students will also participate in two seminars during the term. Radiological proficiency examination will be administered in the first two weeks of this course. Required: Student Petition. Required: Admission into Dental Assistant program. Students are to make arrangements with instructor to take their exam at CCC’s dental lab. Prerequisites: DA-120 with a C or better.  

DA-135 Pharmacology/Medical Emergencies  
2 credits, Spring  
This course is an introduction to pharmacology, common drugs used in dentistry, drug agencies, regulations, and drug actions. The properties of anesthetic, topical anesthetics, and desensitizing agents will also be covered. An in-depth level knowledge of the identification, response and management of medical and dental emergencies in the dental office will be taught utilizing educational manikin simulators. Required: Admission into the Dental Assistant program.  

DA-145 Dental Office Procedures  
2 credits, Spring  
This course prepares the student for basic knowledge of dental office procedures to include dental charting. Introduction of dental software, management of patient information, maintenance and retention of business records, inventory and recall systems. Written and oral communication are taught to prepare students for employment opportunities. Required: Admission into the Dental Assistant program.  

www.clackamas.edu
DMC
Digital Media Communication

DMC-100 Introduction to Media Arts
3 credits, Fall
Presents an overview of career opportunities in the media industry. Introduces basic principles common to success in the media industry, common media industry entrance strategies and the history of the industry from film to online media. In addition this course will cover basic theories behind what shapes and drives the media industry.

DMC-104 Digital Video Editing
4 credits, Fall/Winter/Spring
Students will utilize video editing skills. These skills will include logging and capturing raw video, assembly of shots on a time line, and the use of effects in the creation of a final video sequence. Along with text generation and video compositing, this course will offer students an in-depth overview of the video editing process. Course will explore the history of film editing and the theory behind various forms of film and video editing. Lab component included. Recommended: WRD-090 or placement in WR-121

DMC-106 Animation & Motion Graphics I
3 credits, Fall/Winter
Introduction to the fundamentals of animation and motion graphics design. This project-based course will explore experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn the basics of After Effects to create successful motion graphics projects. Previous experience with computer graphics and digital video is recommended. Recommended: ART-221, ART-225, ART-226, and DMC-104

DMC-107 Animation & Motion Graphics II
3 credits, Spring
This project-based course will explore intermediate aspects of experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn intermediate features of Adobe After Effects to create successful motion graphics projects. Prerequisites: ART-106 or DMC-106. Recommended: ART-221, ART-225, ART-226, & DMC-104.

DMC-108 Animation & Motion Graphics III
3 credits, Spring
Continuation of the process of animation and motion graphics design. This project-based course will explore advanced aspects of experimental and new technological approaches to creating digital effects and animation for video and web-based applications. Students will learn advanced aspects of After Effects to create successful motion graphics projects. Prerequisites: ART-107 or DMC-107. Recommended: ART-221, ART-225, ART-226, and DMC-104.

DMC-109 Introduction to Stop Motion Animation
1 credit, Spring
Introduces basic stop motion animations tools, materials, techniques and elements of storyboarding, scripting, narrative development, compositing, special effects and audio integration into a final group film. Assignments include character development, rigging, set creation, photography, video compositing, and audio recording and synching. Uses digital cameras, Adobe After Effects and Photoshop, and Dragonframe stop motion software. Recommended: DMC-106 and ART-225

DMC-110 Introduction to Motion Animation
1 credit, Fall
Provides the basic components of designing, shooting, recording audio, and post production of movies as well as the history and theory that has led to contemporary film production.

DMC-131 JavaScript for Interactive Design
3 credits, Fall
This course introduces students to the skills and processes of creating interactive media for web browsers, using standard web technologies. Students will learn to create web pages in HTML that act as frameworks for animation, 3D graphics, audio media and rich interactivity. Students will explore JavaScript, the native programming language of all web browsers. Students will be able to create web pages with interactive and multimedia capabilities without plugins or other proprietary technologies. Students will gain a solid foundation in programming that can be expanded upon in future courses as well as their own work. Recommended: ART-106 or DMC-106 or Student Petition

DMC-132 Video Game 3D Modeling
3 credits, Not Offered Every Term
This course is intended for students interested in pursuing a career in 3D modeling and/or 3D Video Game Art Production. Upon completion of the course, students will have a working knowledge of tools and navigation in industry standard 3D modeling software along with techniques and pipeline familiarity in video game art production. Students will also learn the importance of deadlines, file management and organization. Recommended: DMC-104, DMC-107 or ART-107, and DMC-106 or ART-106

DMC-133 Introduction to Game Engines and Platforms (Beginning)
3 credits, Not Offered Every Term
This course provides students with an overview and practical introduction to creating games and other interactive experiences, such as simulations, educational content and even artistic media. Topics covered include: the game creation process, developing a critical understanding of games, basic programming skills, creating digital game assets, and interactive platforms such as WebGL and Unity3D. Recommended: DMC-106 or ART-106

DMC-147 Music, Sound & Moviemaking
1 credit, Fall/Winter/Spring
Presents the basic components of designing, shooting, recording audio, and post production of movies as well as the history and theory that has led to contemporary film production.
DMC-170 Introduction to VFX Compositing
3 credits, Not Offered Every Year
This course is a progression from layer based After Effects into node-based compositing. It will explore basic color theory and introduce the various techniques used in digital compositing. Students will be required to design and complete a series of projects applying basic rotoscoping, paint and keying techniques, using various rendering formats. Ultimately this course will explore “matchmoving concepts” and CG + Live Action integration. Prerequisite: ART-106 or DMC-106. Recommended: DMC-104 and DMC-107, or ART-107 and DMC-250

DMC-194 Introduction to Film
4 credits, Not Offered Every Term
Viewing, discussion, and analysis of films from a variety of eras and cultures. Students will learn to analyze a film beyond its surface meaning, drawing on film aesthetics, technology, history, and theory. The interpretive and critical thinking skills they develop can be applied to a variety of modern media. Recommended: WRD-098 or placement in WR-121

DMC-195 American Film
4 credits, Not Offered Every Term
This course will focus on the history and theory of American filmmaking from 1895 to the present. Film will be viewed as a visual language and an evolving art form that expresses and influences American culture. Recommended: WRD-098 or placement in WR-121

DMC-205 Directing for Film & Video
3 credits, Winter
This course provides students interested in filmmaking the opportunity to develop the skills needed to successfully direct films and performances specifically for the screen. Recommended: DMC-104, DMC-264, and WR-121

DMC-222 Advanced 2D Animation: Design & Techniques
3 credits, Spring
Covers advanced principles of 2D animation using the latest industry standard software. The course will emphasize professional workflow and techniques of animation production for multimedia platforms. This includes visual development and pre-production, advanced character design and physics, advanced environment design, FX animation and post-production, portfolio presentation, and industry expectations. Prerequisites: ART-221 or Student Petition

DMC-230 Documentary Film Production
4 credits, Winter
Introduction to the concepts, fundamentals and production of documentary film making. This lecture/lab course will explore traditions and new technological approaches to creating digital documentary films. Recommended: DMC-104 and DMC-194. Previous experience with film studies and digital video

DMC-233 Game Engines and Platforms (Intermediate)
3 credits, Not Offered Every Term
This course provides students who have completed DMC-133 with an opportunity to expand and enhance their skills in creating games and interactivity, while exploring more advanced and complex projects. Topics covered include: designing and developing 3D games and interactivity, designing for touch and mobile interfaces, and professional practice. Students will complete projects that involve designing and developing a complete original 3D game prototype, both independently and as part of a team. Prerequisites: DMC-133

DMC-242 Field Recording for Media
1 credit, Spring
This course offers students interested in recording and sweetening audio for film an opportunity to work with student film crews during the shooting and editing process. Corequisites: DMC-265

DMC-247 Sound for Media
3 credits, Fall
Introduction to sound as related to moviemaking, animation, and video game production. Students will have the opportunity to create and assemble sound for media into a finished product. Explores the basic components of commercial film/video production as they relate to sound.
DMC-291 Digital Multimedia Communications Portfolio Project I
3 credits, Winter/Spring
This course is an individual portfolio project class for Digital Media Communication (DMC) students. Students create an original finished work representative of one of the focus areas included in the DMC program. Students will develop a professional online portfolio (website) that represents their skills in their chosen DMC focus area in preparation for internships and employment. The process of portfolio production at this level includes planning for, refining and completing a project, presentation of the completed work, and project assessment. Prerequisites: DMC-100 and DMC-104. Recommended: Two courses from a DMC Focus Area

DMC-292 Digital Multimedia Communications Portfolio Project II
3 credits, Winter/Spring
This course is a group-focused portfolio project class for Digital Media Communication (DMC) students. The purpose of this course is to provide students the opportunity to combine their skills, knowledge, and special interests in development of a collaboratively planned and produced original work representative of more than one of the focus areas in the DMC program. The process of portfolio production at this level includes working with peers in designing, planning, refining and completing a group project. Students will also further develop their professional online portfolio (website) to represent their skills in their DMC focus area in preparation for internships and employment. Prerequisites: DMC-291

EC

Economics

EC-200 Introduction to Economics
4 credits, Fall/Winter/Spring
General introduction to microeconomics as applied to individual decision-making units and to macroeconomics as applied to the operation of the economy as a whole. Course topics include economic decision making, economic systems, supply and demand models, price determination, elasticity, household income, business ownership, profit maximization, production functions and costs, and competition and market structures. Also includes goals and problems of the macro economy such as fiscal and budgets, the role of financial institutions, money creation, and monetary theory and policy. Recommended: WRD-090 or placement in WRD-098

EC-201 Principles of Economics: MICRO
4 credits, Fall/Winter/Spring/Summer
Focuses on micro-economic theory dealing with the behavior of individuals and individual firms within different market structures. Covers concepts of competition, consumer decisions, the use price of economic resources, and international trade. Prerequisites: MTH-020 or placement in MTH-098. Prerequisite Or Corequisite: WRD-098 or placement in WR-121. Recommended: Sequence of EC-201 and EC-202 taken in order

EC-202 Principles of Economics: MACRO
4 credits, Fall/Winter/Spring/Summer
Introduction to economic theory, policy, and institutions. Focuses on macro-economic theory, scarcity, production, money, unemployment, inflation, and international finance. Prerequisites: MTH-020 or placement in MTH-050 or MTH-060. Prerequisite Or Corequisite: WRD-098 or placement in WR-121. Recommended: Sequence of EC-201 and EC-202 taken in order

ECE

Early Childhood Education

ECE-121 Observation and Guidance I in ECE Settings
4 credits, Winter
Course is designed to help students explore in depth observation of and recording techniques of children's development and learning and to examine various child guidance techniques for children from birth-3rd grade. Students will be provided with strategies to assist them in providing positive guidance to children in a variety of settings and situations.

ECE-135 Self-Esteem in the ECE Classroom
1 credit, Not Offered Every Term
Focuses on the feelings of love, selfworth, trust, competency, and even power that begin to form long before the child has the capacity to express them in words. Emphasis is on understanding the importance of facilitating children's feelings of self-esteem, while focusing on the nurturing needs of the children.

ECE-139 Program Management in ECE
1 credit, Not Offered Every Term
Focuses on planning and evaluating an early childhood program's specific goals (short and long term) for working with children and their families. Emphasis on administrative tasks such as meeting state and national standards and requirements, maintaining records, and striving for continuous improvement in program quality.

ECE-142 Media, Technology and the Influences on Child Development
1 credit, Not Offered Every Term
Focuses on the implication and influences of media and technology on the development of the young child. Emphasizes analysis of media and technology tools for effectiveness in supporting the development of young children.
ECE-143 Kindergarten Readiness
1 credit, Not Offered Every Term
Introduces core concepts of kindergarten readiness, including outcomes that are focused on in Pre-K as well as strategies for children as they prepare for kindergarten.

ECE-144 Working With the Gifted Young Child
1 credit, Not Offered Every Term
Focuses on understanding the needs of the gifted young child and selecting strategies for supporting their development individually as well as in group settings.

ECE-145 Understanding Superhero Play in the Classroom
1 credit, Not Offered Every Term
Develops an understanding of superhero play in the development of young children and explores the role of adults in supporting and guiding their dramatic play. Emphasis will include how adults show children to use power wisely, understand the difference between real violence and pretend violence, settle conflicts without hurting anyone and act with compassion when others need help.

ECE-150 Introduction to Early Childhood Education & Family Studies
3 credits, Fall
Focuses on the history of early childhood education and the prominent theorists that have significantly contributed to the field. The types of programs that serve young children, birth-age 8, and their families will be examined. State and national standards in early childhood education and family studies will be explored.

ECE-154 Language & Literacy Development
3 credits, Winter
Focuses on language and literacy development of children from birth-age 8. The research foundation and components of language and literacy development will be examined. Practical strategies for promoting optimal development will be emphasized.

ECE-177 Maximizing the Outdoors in ECE Curriculum
3 credits, Spring
Focuses on how to plan, create, and implement effective outdoor learning experiences. Topics include the benefits of using the outdoors to build a child’s interest in the environment and expand understanding of the world while fostering divergent thinking and creativity. Prerequisites: ECE-240

ECE-179 The Professional in Early Childhood Education and Family Studies
2 credits, Spring
Focuses on the role of the professional in Early Childhood Education (ECE) and is individualized to meet the unique professional development needs of each student. Students working on their Child Development Associate (CDA) credential will receive guidance on compiling the resource file, while students pursing their ECE AAS will receive information and assistance in applying in the Oregon Registry.

ECE-190 Administration of Early Childhood Programs
6 credits, Not Offered Every Term
This course focuses on exploration of topics for directors of childhood care and education programs for children ranging in age from birth to twelve in diverse settings. Students will focus on best administrative practices and community relationships to build and sustain quality programs for children and families.

ECE-221 Observation & Guidance II in ECE Settings
4 credits, Spring
Designed to help students explore in greater depth the observation and guidance of children from birth-3rd grade within the classroom environment. In this more advanced course, the student focuses on additional observation and guidance techniques for observing groups of children and addresses challenging behaviors and other issues within the early childhood environment. The practitioner’s role in using observation to promote his/her own development and to assist in the development of the children is explored in depth. Prerequisites: ECE-121

ECE-235 Nutrition, Music and Movement In Early Childhood Education
3 credits, Fall
Course focuses on factors that contribute to childhood obesity. Students explore current standards and evidence-based practices in nutrition education, movement and music in early childhood and explore ways to incorporate developmentally appropriate nutrition, music and movement education into the early childhood environment and curriculum.

ECE-239 Helping Children and Families Cope With Stress
3 credits, Fall
Focuses on stressors in society that can affect children and families including environmental stress, divorce and death. Effective strategies teachers can use to support children and families during times of stress are included.

ECE-240 Environments and Curriculum Planning
3 credits, Winter
Focuses on an introduction of creating learning environments and curriculum for children from three years old through five years old in home or center-based programs. Course covers theories and relationships between physical and social space, activities, experiences, and materials. Students are introduced to the use of developmentally and culturally appropriate practices in planning and selecting environments and curriculum for young children.

ECE-241 Environments and Curriculum Planning: Infants and Toddlers
3 credits, Fall
Builds upon knowledge and skills learned in ECE-240: Environments and Curriculum Planning. Emphasis is on application of research-based strategies to implement and evaluate early childhood environments and curriculum for children from birth-three years old. Focus is on integrating content knowledge throughout all classroom activities. Prerequisites: ECE-240

ECE-280 Early Childhood Education/CWE
2-6 credits, Spring/Summer
Provides students with on-the-job experience in the field of early childhood education. Students will work nine hours a week in pre-approved educational settings that serve children from six weeks old through age eight. Prerequisites: ECE-150, ECE-121, and ECE-154. Corequisites: CWE-281
COURSE DESCRIPTIONS

**ECE-289 The Project Approach in Early Childhood Education**  
1 credit, Winter  
Designed to help participants explore in depth The Project Approach methodology. They will become familiar with the steps involved in setting up this integrated approach to learning within their own classroom, while acquiring knowledge on how this study method supports young children’s development in all domains: social, emotional, cognitive, physical, and language-literacy.

**ECE-291 Practicum II**  
4 credits, Winter  
Focuses on field experience for students in a variety of educational settings, paralleling duties regularly assigned to early childhood educators. This course allows students to apply knowledge, methods, and skills gained from early childhood education and family studies courses. The seminar covers classroom experiences, best practices and assessment techniques. Prerequisites: ECE-121, ECE-150, ECE-280, HDF-225, and HDF-247

**ECE-292 Practicum III**  
4 credits, Spring  
Focuses on field experiences for early childhood education students in a variety of educational settings, serving children from birth through kindergarten. This course allows students to deepen and apply their knowledge, methods, and skills gained from early childhood education and family studies courses as well as the previous terms of practicum and CWE. The seminar covers continuing observation/assessment, assisting the supervising teacher in implementing an integrated approach to curriculum with attention paid to working with diverse children and their families. Students will complete their professional portfolio in this course, documenting how they have achieved the program learning outcomes. Required: Student Petition. Prerequisites: ECE-154, ECE-240, ECE-291, ED-254, HDF-240

**ED**

**Education**

**ED-100 Introduction to Education**  
3 credits, Fall/Winter/Spring  
Examines career options and pathways in the field of education. Explores the history of and current issues impacting the American educational system. Provides an overview of diversity in educational settings and the characteristics of effective schools and teachers.

**ED-113 Instructional Strategies in Reading & Language Arts**  
3 credits, Fall  
Provides foundational knowledge for the teaching of literacy skills in pre-Kindergarten through secondary settings. Addresses foundations of literacy as well as the development stages of literacy. Focuses on instructional strategies for teaching reading and writing to diverse student populations.

**ED-114 Instructional Strategies in Math & Science**  
3 credits, Spring  
Introduces the development of math and science concepts and presents a systematic approach to math and science instruction. Emphasis is on linking math and science instruction and assessment to content standards.

**ED-130 Comprehensive Classroom Management**  
3 credits, Fall  
Focuses on creating positive classroom and school climates, organizing and managing classrooms, improving instruction, dealing with classroom discipline problems, developing individualized plans for students experiencing behavioral problems, and developing school-wide student management programs.

**ED-131 Instructional Strategies**  
3 credits, Spring  
Examines the knowledge, skills, and characteristics of effective teachers. Focuses on successful instructional planning and delivery of curriculum. Covers teacher-centered and student-centered instructional strategies and ways to differentiate instruction for diverse learners.

**ED-150 Creative Activities for Children**  
3 credits, Not Offered Every Term  
Focus is on understanding and implementing developmental approach to creative activities for young children; involves hands-on experience with a variety of mediums including art, music, movement, and creative dramatics.

**ED-169 Overview of Students With Special Needs**  
3 credits, Winter  
Provides an introduction to the categories of disability described in the Individuals with Disabilities Education Act (IDEA). Topics include definitions under federal law, implications in school settings, and intervention strategies to meet student’s special needs.

**ED-200 Foundations of Education**  
3 credits, Winter  
Provides an overview of the American educational system, including historical, legal and philosophical foundations of education. Explores the financing, governance and organization of education in the U.S. Examines the roles and ethical obligations of professional educators.

**ED-220 Foundations of Career Technical Education**  
3 credits, Not Offered Every Term  
Provides an introduction to the field of Career and Technical Education (CTE). Examines the historical and legislative foundations of CTE in the United States. Discusses the role of special populations in CTE programs. Provides an overview of CTE programs, teacher certification, and student organizations. Addresses current trends and issues in the field.

**ED-229 Learning & Development**  
3 credits, Fall  
Examines developmental stages of literacy. Addresses foundations of literacy as well as the development stages of literacy. Focuses on instructional strategies for teaching reading and writing to diverse student populations.

**ED-230 Comprehensive Classroom Management**  
3 credits, Fall  
Focuses on creating positive classroom and school climates, organizing and managing classrooms, improving instruction, dealing with classroom discipline problems, developing individualized plans for students experiencing behavioral problems, and developing school-wide student management programs.

**ED-231 Instructional Strategies**  
3 credits, Spring  
Examines the knowledge, skills, and characteristics of effective teachers. Focuses on successful instructional planning and delivery of curriculum. Covers teacher-centered and student-centered instructional strategies and ways to differentiate instruction for diverse learners.
ED-235 Educational Technology
3 credits, Fall
Prepares students for the use of media and technology in educational settings. Develops an understanding of the role of media in learning and methods for incorporating technology in instruction. Focuses on the use of technology tools to support how teachers create and evaluate learning experiences for students.

ED-246 School, Family & Community Relations
4 credits, Summer
Focuses on the knowledge and skills to work effectively with families and community professionals in early childhood education (6 weeks of age through 3rd grade). Emphasis is on building and maintaining positive relationships to foster cooperation and mutual respect between early childhood professionals and the families of the children with whom they are working. Prerequisites: WRD-098 or placement in WR-121 and ECE-150.

ED-254 Instructional Strategies for Dual Language Learners
3 credits, Winter
Examines pedagogical and cultural approaches which lead to successful development of English language skills and content knowledge for children who speak a home language other than English.

ED-258 Multicultural Education
3 credits, Spring
Covers the philosophy, activities, and techniques appropriate to a culturally sensitive classroom for children from pre-Kindergarten through post-secondary. Emphasis will be on understanding the impact of culture on individual perception and learning and group dynamics.

ED-280 Practicum/CWE
2-6 credits, Fall/Winter/Spring
Supervised practicum in a elementary, secondary, or post-secondary educational setting. Participants will utilize and develop knowledge, skills, and attitudes relevant to working in schools and with students. Allows students to gain classroom experience and apply knowledge gained in education courses. Prerequisite Or Corequisite: ED-100. Corequisites: CWE-281. Required: Student Petition

EET Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Electronic Systems Technology

EET-112 Electronic Test Equipment & Soldering
3 credits, Fall
Provides basic understanding, operation and set-up of electronic test equipment. Students will set-up, operate, and make measurements using meters, function generator, digital storage oscilloscope and logic analyzer and solder to IPC 610A standards.

EET-127 Semiconductor Circuits I
4 credits, Spring
Introduction to the basic concepts of semiconductor devices and the fundamental principles of the device operation. Industry standard devices will be used. Prerequisite: EET-137

EET-132 Electronic Fundamentals I
4 credits, Fall
Introduction to basic concepts of semiconductor devices and the fundamental principles of the device operation. Industry standard devices will be used. Recommended: EET-137 or MFG-130

EET-139 Principles of Troubleshooting I
2 credits, Winter
Emphasizes theories and practices useful in troubleshooting failures in any application. Focuses on the overall philosophy and strategy of troubleshooting, as opposed to detailed tactics of specific applications. Includes a computer applications laboratory. Recommended: MGF-109 or MGF-209

EET-141 Electrical Fundamentals II
4 credits, Winter
Introduction to basic concepts of source conversion and current sources. Network theorems, inductors, capacitors, magnets, and transient analysis of RC and RL circuits will also be covered. Prerequisite: EET-137

EET-142 Electrical Fundamentals III
4 credits, Spring
AC circuits analysis, peak, average, RMS, and peak-to-peak voltages in relation to AC circuits. Power, energy, frequency, and transformers are covered. Prerequisite: EET-141

EET-157 Digital Logic I
3 credits, Winter
Introduction to digital logic principles, numbering systems and conversions and gate operations. Using principles, circuit analysis will be used to minimize logic networks. Industry standard devices will be used. Recommended: EET-137 and MTH-050

EET-215 Electromechanical Systems I
2 credits, Fall
This course emphasizes applied electromechanical principles. The theory and application of force, work, torque, energy power and force transformers are explored. Covers motion control systems, basic relay circuits and sensors, stepper and servo motors and power transmission systems. Introductory mechanics areas also covered, including simple machines and an introduction to static and dynamic forces. Prerequisite or Corequisite: EET-137 or MFG-130

EET-227 Semiconductor Circuits II
3 credits, Fall
Second in series concentrating on the application, design and circuit analysis of transistor amplifying and switching circuits. Industry standard devices will be used. Prerequisite: EET-127

EET-230 Laser and Fiber Optics
3 credits, Spring
This course focuses on basic theory and practice of laser and fiber optics. Students study optical fiber, optical components, testing and instrumentation, optical networks, etc. as well as general characteristics of lasers, laser excitation, semiconductor lasers, etc.

EET-239 Principles of Troubleshooting II
2 credits, Fall
Covers advanced applications of diagnosis, service, maintenance and repair of systems. Also includes preventative maintenance, applied statistical process control and RF power generation. Recommended: EET-139
EET-250 Linear Circuits
3 credits, Winter
Introduction to the operation and functions of operational amplifiers and linear devices. Design and circuit analysis of op-amps, comparators, converters and special purpose linear devices. Industry standard devices will be used. Prerequisite: EET-137. Recommended: EET-127

EET-252 Control Systems
3 credits, Winter
Covers basic control system and sub-systems used controllers, sensors, transducers, motion and motor control systems. Recommended: EET-157 and EET-127

EET-254 Introduction to Microcontrollers
4 credits, Winter
Introduction to processor architecture and microcontrollers. Internal structure, registers, busses, control unit. Clock, machine and instruction cycling timing, interrupts and DMA. Instruction set, mnemonics, functions, and assembly language programming. Interfacing to external memory and I/O on-chip peripherals. Recommended: EET-257

EET-257 Digital Logic II
4 credits, Spring
Bus systems and computer peripherals and systems using latches, registers, counters, and memory circuits are developed and analyzed. Prerequisite: EET-157

EL Study Skills
See also Reading (RD)

EL-090 Applied Study Skills
3 credits, Fall/Winter/Spring/Summer
Emphasizes practical study skills. Strategies for organizing study materials and time, remembering information, studying textbooks and taking lecture notes will be applied. Methods of preparing for tests, taking tests, and managing online course components such as Moodle are addressed. Recommended: WRD-098 or placement in WR-121

EL-103 Taking Effective Notes
1 credit, Fall/Winter/Spring/Summer
Designed to help students develop effective note-taking skills. Several note-taking systems are introduced and practiced. Prerequisites: WRD-080 or placement in WRD-090

EL-111 College Study Skills
3 credits, Fall/Winter/Spring
Emphasizes time management, listening/notetaking, testing skills/anxiety, college resources, learning styles, reading strategies, textbook reading, and concentration skills. Prerequisites: Placement in WRD-090

EMT
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Emergency Medical Technician

EMT-101 Emergency Medical Technology Part I
5 credits, Fall/Winter/Summer
Continuation of EMT-101. Focus on: medical and trauma emergencies, EMS operations, and special populations. Includes 16 hours of observational time in an emergency department and with an EMS unit. Prerequisites: EMT-101

EMT-102 Emergency Medical Technology Part II
5 credits, Fall/Winter/Summer
Continuation of EMT-101. Focus on: medical and trauma emergencies, EMS operations, and special populations. Includes 16 hours of observational time in an emergency department and with an EMS unit. Prerequisites: EMT-101

EMT-104 Introduction to Emergency Medical Services
3 credits, Fall
Introduces the student to EMS. Examines the career path for paramedics. Explores structure and function of EMS systems. Includes roles and responsibilities, operations, medico-legal consideration, stress management, blood borne pathogens, and other Oregon specific content.

EMT-105 EMT Rescue
3 credits, Spring
Covers EMS operational areas including rescue practices, standard and rapid patient extrication, introduction to heavy extrication, control of rescue operations, scene safety, and more. Prerequisites: EMT-101

EMT-108 Emergency Response Patient Transportation
2 credits, Spring
Covers ambulance operations, laws, maintenance and safety, emergency response driving and route planning. Prerequisites: EMT-101

EMT-109 Emergency Response Communication/Documentation
2 credits, Winter
Covers principles of communication via verbal, written and electronic modes in the provision of EMS. Documentation of the elements of patient assessment, patient care and transport, communication systems, radio types, reports, codes and correct techniques. Prerequisites: EMT-101

EMT-217 Basic EKG Interpretation I for Emergency Medical Technicians
1 credit, Spring
Builds upon the knowledge gained in EMT-217. The course will focus on the student’s ability to perform cardiac monitoring via 3, 5 and 12-lead monitoring devices.

EMT-218 Basic EKG Interpretation II for Emergency Medical Technicians
1 credit, Spring
Emphasizes time management, listening/notetaking, testing skills/anxiety, college resources, learning styles, reading strategies, textbook reading, and concentration skills. Prerequisites: Placement in WRD-090

EMT-219 Advanced Cardiac Life Support
1 credit, Winter
Builds upon the knowledge gained in EMT-217. The course will focus on the student’s ability to understand and recognize variations in the electrical conduction of the heart as evidenced by changes in the waveform on the cardiac monitoring device. The course will also focus on the student's ability to perform cardiac monitoring via 3, 5 and 12-lead monitoring devices.
ENG

English

ENG-104 Introduction to Literature: Fiction
4 credits, Summer/Fall
An introduction to American and international short stories, with a focus on the fundamental elements of fiction. Also examines the historical, social, and cultural background and significance of fiction. Recommended: WRD-098 or placement in WR-121

ENG-105 Introduction to Literature: Drama
4 credits, Winter
An introduction to American and international drama, emphasizing reading, appreciation, discussion, and literary analysis. Focuses on defining the genre and elements of drama, encouraging students' personal reflections and cultural understanding, incorporating relevant literary theories, and practicing the close reading and analysis of dramatic works. Recommended: WRD-098 or placement in WR-121

ENG-106 Introduction to Literature: Poetry
4 credits, Spring
An introduction to American and international poetry. Explores the fundamental elements of poetry and examines the historical, social, and cultural significance of various poems. Students engage in literary analysis, use literary terminology, and develop personal and scholarly responses to poetry. Recommended: WRD-098 or placement in WR-121

ENG-107 World Literature: Ancient
4 credits, Fall
Literature of the ancient world: epic, lyric, and dramatic literature with an emphasis on Greek, Roman, Hebrew, Egyptian, and Hindu works. Through class discussion and written work, students practice close reading and literary interpretation, explore the readings' contemporary relevance, and relate the readings to their own lives and the world. Recommended: WRD-098 or placement in WR-121

ENG-108 World Literature: Medieval Through Enlightenment
4 credits, Winter
Readings from the Middle Ages through the eighteenth century 'Enlightenment' period, emphasizing Cervantes, Dante, and Voltaire. Through class discussion and written work, students practice close reading and literary interpretation, explore the readings' contemporary relevance, and relate the readings to their own lives and the world. Recommended: WRD-098 or placement in WR-121

ENG-109 World Literature: Romantic Through Modern
4 credits, Spring
Readings from the late eighteenth century 'Romantic' period through modern times, ranging from Russia to Nigeria to Columbia. Through class discussion and written work, students practice close reading and literary interpretation, explore the readings' contemporary relevance, and relate the readings to their own lives and the world. Recommended: WRD-098 or placement in WR-121

ENG-116 Introduction to Literature: Comics
4 credits, Winter
Examines the intrinsic literary and artistic qualities of comics, as well as their connections to classic literature, and the literature and other art they have inspired. Prerequisites: WRD-098 or placement in WR-121

ENG-121 Mystery Fiction
4 credits, Fall
An introduction to the genre of detective or "mystery" fiction. Students will read, discuss, and analyze short stories and novels by writers including Mystery novels and short stories by such writers including Edgar Allan Poe, Sir Arthur Conan Doyle, Agatha Christie, Dorothy Sayers, Raymond Chandler, and Sue Grafton. Recommended: WRD-098 or placement in WR-121

ENG-130 Leadership in Literature
4 credits, Not Offered Every Year
Examines the nature of leadership by analyzing characters who are leaders in major literary works. Students will read and analyze texts, discuss character motivation, and determine an alternate resolution if possible. Recommended: WRD-098 or placement in WR-121

ENG-194 Introduction to Film
4 credits, Fall
Viewing, discussion, and analysis of films from a variety of eras and cultures. Students will learn to analyze a film beyond its surface meaning, drawing on film aesthetics, technology, history, and theory. The interpretive and critical thinking skills they develop can be applied to a variety of modern media. Recommended: WRD-098 or placement in WR-121

ENG-195 American Film
4 credits, Winter
This course will focus on the history and theory of American filmmaking from 1895 to the present. Film will be viewed as a visual language and an evolving art form that expresses and influences American culture. Recommended: WRD-098 or placement in WR-121

ENG-201 Shakespeare
4 credits, Fall
Selected comedies, histories, tragedies, romances, and poetry. Students focus on reading and discussion, literary interpretation, and relating Shakespeare's work to their lives and the world. Works from ENG-201 will not be repeated in CCC's other Shakespeare course, ENG-202. Recommended: WRD-098 or placement in WR-121

ENG-202 Shakespeare
4 credits, Winter
Selected comedies, histories, tragedies, romances, and poetry. Students focus on reading and discussion, literary interpretation, and relating Shakespeare's work to their lives and the world. Works from ENG-202 will not be repeated in CCC's other Shakespeare course, ENG-201. Recommended: WRD-098 or placement in WR-121

ENG-204 Survey of English Literature, Part 1
4 credits, Fall
Representative study of British literature, including major works, writers, and literary forms, from its beginnings through early eighteenth century. Readings from the Anglo-Saxon, Middle English, Renaissance, Earlier Seventeenth century, and Restoration periods. Recommended: WRD-098 or placement in WR-121

ENG-205 Survey of English Literature, Part 2
4 credits, Winter
Representative study of British literature, including major works, writers, and literary forms, from its beginnings through early eighteenth century. Readings from the Anglo-Saxon, Middle English, Renaissance, Earlier Seventeenth century, and Restoration periods. Recommended: WRD-098 or placement in WR-121
ENG-205 Survey of English Literature, Part 2
4 credits, Winter
Representative study of British literature, including major works, writers, and literary forms. Late eighteenth century through modern. Representative readings from the Romantic, Victorian and modern periods. Recommended: WRD-098 or placement in WR-121

ENG-213 U.S. Latino Literature
4 credits, Not Offered Every Year
Survey of U.S. Latino/a literature of various genres and historical periods. Literary contributions by writers of varied cultural heritage, including Chicano, Cuban-American, Puerto-Rican and more. Prerequisites: WRD-098 or placement in WR-121

ENG-214 The Graphic Memoir
4 credits, Winter
Explores memoirs and other works of creative non-fiction executed in the medium of comics. Specific attention is given to the unique ways comics amplify the rhetorical and aesthetic impact of autobiographical storytelling upon its creators and audiences, as well as the social-historical contexts for such work. Prerequisites: WRD-090 or placement in WRD-098. Recommended: ENG-116

ENG-218 Arthurian Legends
4 credits, Not Offered Every Year
Origins and development of Arthurian literature from medieval to modern times. Examines topics such as knighthood, chivalry, the hero’s quest, abduction and adultery, courtly love, and the Round Table. Prerequisites: WRD-098 or placement in WR-121

ENG-225 Creative Nonfiction Literature
4 credits, Not Offered Every Year
Discussion and analysis of various types of creative nonfiction such as literary journalism, memoirs, nature or science writing, literary travel writing, and personal essays. Prerequisites: WRD-098 or placement in WRD-098

ENG-226 Popular Literature
4 credits, Winter/Spring
Focuses on genre work within prose, film, comics and/or videogames that is specific in theme and targeted towards a more mass audience than traditional literary work. Genres might include but not necessarily be limited to horror, fantasy, science-fiction, romance, and/or westerns. Prerequisites: WRD-098 or placement in WR-121

ENG-230 Documentary Film
4 credits, Not Offered Every Term
This course will focus on documentary film history and theory. Students will learn to analyze documentary film and appreciate its value as a mode of cultural expression and influence. Recommended: WRD-098 or placement in WR-121

ENG-240 Native American Mythology
4 credits, Not Offered Every Year
Explores Native American mythology and its cultural, social, and literary significance; views Native American mythology in its historical and geographic positions and in the larger context of world literary tradition; considers how studying myth affects and influences reading other works; introduces theoretical approaches to mythology and basic literary elements and terminology. Prerequisites: WRD-090 or placement in WRD-098

ENG-241 Norse Mythology
4 credits, Not Offered Every Year
Explores Norse mythology and its cultural, social, and literary significance; views Norse mythology in its historical and geographic positions and in the larger context of Western literary traditions; introduces theoretical approaches to mythology and basic literary elements and terminology; considers how studying myth affects and influences reading other works; connects Norse myth to medieval European and modern fantasy literature. Recommended: WRD-098 or placement in WRD-098

ENG-242 Middle Eastern Mythology
4 credits, Not Offered Every Year
Explores Middle Eastern mythology and its cultural, social, and literary significance; views Middle Eastern mythology in its historical and geographic positions and in the larger context of Western literary tradition; introduces theoretical approaches to mythology and basic literary elements and terminology; considers how studying myth affects and influences reading other works; connects Middle Eastern mythology to its cultural, social, and literary significance; views Middle Eastern mythology in its historical and geographic positions and in the larger context of Western literary tradition; introduces theoretical approaches to mythology and basic literary elements and terminology; considers how studying myth affects and influences reading other works; introduces theoretical approaches to mythology and basic literary elements and terminology; considers how studying myth affects and influences reading other works; introduces theoretical approaches to mythology and basic literary elements and terminology. Recommended: WRD-098 or placement in WR-121

ENG-243 Celtic Mythology
4 credits, Not Offered Every Year
Explores the historical, cultural, social, and literary significance of Celtic myths; views Celtic mythology in its historical and geographic positions and in the larger context of Western civilization and literary tradition; considers how studying myth affects and influences reading other works; introduces theoretical approaches to mythology and basic literary elements and terminology. Recommended: WRD-098 or placement in WR-121

ENG-250 Greek Mythology
4 credits, Not Offered Every Term
Explores the historical, cultural, social, and literary significance of Greek myths; views Greek mythology in its historical and geographic positions and in the larger context of Western civilization and literary tradition; considers how studying myth affects and influences reading other works; introduces theoretical approaches to mythology and basic literary elements and terminology. Recommended: WRD-098 or placement in WR-121

ENG-251 Celtic Mythology
4 credits, Not Offered Every Year
Explores the historical, cultural, social, and literary significance of Celtic myths; views Celtic mythology in its historical and geographic positions and in the larger context of Western civilization and literary tradition; considers how studying myth affects and influences reading other works; introduces theoretical approaches to mythology and basic literary elements and terminology. Recommended: WRD-098 or placement in WR-121

ENG-252 Hindu Mythology
4 credits, Not Offered Every Year
Explores the historical, cultural, social, and literary significance of Hindu myths; views Hindu mythology in its historical and geographic positions and in the larger context of world civilization and literary tradition; considers how studying myth affects and influences reading other works; introduces theoretical approaches to mythology and basic literary elements and terminology. Recommended: WRD-098 or placement in WR-121

ENG-253 American Literature, Part 1
4 credits, Winter
American literature from the pre-colonial to nineteenth century, both major and lesser-known writers. Recommended: WRD-098 or placement in WRD-121

ENG-254 American Literature, Part 2
4 credits, Spring
Representative readings from the mid-nineteenth century to twentieth centuries. Surveys the development of American fiction, nonfiction, poetry, and drama through the study of the works of both major and lesser-known writers. Recommended: WRD-098 or placement in WR-121
ENG-255 American Literature
4 credits, Not Offered Every Year
Focus on selected authors and works of modern American fiction, poetry, nonfiction, and drama. Recommended: WRD-098 or placement in WR-121

ENG-260 Introduction to Women Writers
4 credits, Not Offered Every Year
The study of the works (e.g. plays, poems, fiction, new media) created by women writers, both classic and contemporary, with an emphasis on women's evolving social, historical, and economic roles. Recommended: WRD-098 or placement in WR-121

ENG-261 Literature of Science Fiction
4 credits, Not Offered Every Year
Introduction to science fiction in literature and film, exploring historical and contemporary themes. Recommended: WRD-098 or placement in WR-121

ENG-266 The Literature of War
4 credits, Spring
Fiction, poetry, nonfiction, and popular song lyrics dealing with the experience of war. Crane, Remarque, Trumbo, Heller, Vonnegut, Owen, Sassoon, and writers of the Vietnam War will be examined and discussed. Literature emerging from the wars in Afghanistan and Iraq will also be covered. Recommended: WRD-098 or placement in WR-121

ENG-270 Introduction to Literary Criticism
4 credits, Spring
Students will closely study famous literary texts through a variety of critical approaches such as Feminism, Psychoanalysis, Marxism, reader-response, and New Historicism.

ENG-280 English/CWE
2-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Provides students with on-the-job experience in the field of English studies. Corequisites: CWE-281

ENG-295 Revolutionary Film
4 credits, Not Offered Every Term
This course focuses on revolutionary styles of filmmaking from around the world that were socially transformative, in addition to changing the way movies are made. Recommended: WRD-098 or placement in WR-121

ENG-297 A.S. Degree Portfolio
1 credit, Fall/Winter/Spring/Summer
This course provides the opportunity for A.S. Degree students to revise, edit, reflect upon, and compile their best work from their various focus areas to meet the outcomes for the program and prepare for transfer to a university. Required: Students must be in the second year of their course of study, and have the majority of their focus area and transfer requirements complete

ENGR

Engineering

ENGR-111 Introduction to Engineering
3 credits, Fall/Winter
Introduction to basic ideas and tools of the engineering profession. Rudiments and methods of engineering analysis, design, and problem solving culminating in a design project. The class will cover all facets of design, including background research, requirement specification and prioritization, development, prototype construction, testing, and evaluation for future redesigns. Prerequisite or Corequisite: MTH-112 or higher

ENGR-112 Engineering Programming
3 credits, Winter/Spring
Introduction to basic scientific and engineering computing using MATLAB. Rudiments and methods of engineering analysis, design, and problem solving with computational tools. Emphasis on developing proficiency in writing functions and programs. Prerequisite or Corequisite: MTH-112 or higher

ENGR-115 Engineering Graphics
3 credits, Spring
Mechanical design automation software used to design parts and assemblies, design methods used to build, maintain and modify parts. Covers 2D documentation and isometric views cooperated with ASME standards. Includes real time shaded 3D modeling. Prerequisite or Corequisite: MTH-112 or higher. Recommended: WRD-098 or placement in WR-121

ENGR-171 Digital Logic
4 credits, Winter
The first course in digital design covers basic logic gates, Boolean algebra, Karnaugh mapping, number systems, timing analysis, and state machines. Students will become proficient with computational tools including schematic capture programs and circuit simulators. Prerequisite: MTH-111 or placement in MTH-112

ENGR-211 Statics
4 credits, Fall
First term of engineering mechanics sequence. This course focuses on the study of force systems acting on particles or rigid bodies under equilibrium conditions. Prerequisites: MTH-252. Corequisites: PH-211

ENGR-212 Dynamics
4 credits, Winter
Kinematics, kinetics, work-energy, and impulse-momentum relationships of engineering systems. The course examines the fundamental principles of Newton's laws of motion, with applications to basic particles and rigid bodies in one, two, and three dimensions. Prerequisites: ENGR-211 and PH-211

ENGR-213 Strength of Materials
4 credits, Spring
Introduces the relation of externally applied loads and their internal effects on deformable bodies, such as columns, shafts, beams and statically indeterminate structures or systems made up of such members. Prerequisite: ENGR-211

ENGR-221 Electrical Circuit Analysis
4 credits, Fall/Spring
Designed to give the student a thorough understanding of basic electrical circuit theory, this course covers voltage and current relationships and fundamental methods of circuit analysis. Electrical circuit parameters such as resistance, inductance, and capacitance will be examined through theory and laboratory experiments. Prerequisite: MTH-252

ENGR-221L Electrical Circuit Analysis Lab
0 credits, Fall/Spring
Lab Course for ENGR-221. Must be taken concurrently with ENGR-221. Corequisite: ENGR-221

www.clackamas.edu
ENGR-222 Electrical Circuit Analysis II
4 credits, Winter
Expands upon the techniques of circuit analysis begun in Circuits I through theory and laboratory experiments. The course covers the time response of first- and second-order circuits, the steady-state circuit behavior of circuits driven by sinusoidal sources, three phase circuits, AC power, electrical motors, and the use of Laplace transforms to analyze the transient and steady-state behavior for a number of signal types. Prerequisites: ENGR-221

ENGR-222L Electrical Circuit Analysis II Lab
0 credits, Winter
Lab Course for ENGR-222. Must be taken concurrently with ENGR-222. Corequisites: ENGR-222

ENGR-223 Electrical Circuit Analysis III
4 credits, Spring
Final course in the electrical circuits sequence. The main emphases of the course are frequency response of circuits, the design and analysis of filters, A/C steady state circuits with Laplace transform analysis, three-phase power, and two-port networks. The laboratory portion of the course will consist of one project involving significant design and analysis. Prerequisites: ENGR-222

ENGR-223L Electric Circuit Analysis III Lab
0 credits, Spring
Lab Course for ENGR-223. Must be taken concurrently with ENGR-223. Corequisite: ENGR-223

ENGR-231 Properties of Materials
4 credits, Not Offered Every Term
This course is an introduction to materials science, a field that describes the behavior of materials by utilizing principles of chemistry and physics to engineer new materials and predict their resultant properties. The course will focus on describing the microscopic physical and chemical structure of materials and relating that structure to the macroscopic thermal, electrical, and mechanical properties. The course will also cover the connection between atomic/crystal structure and materials processing. Prerequisites: CH-221

ENGR-271 Digital Systems
4 credits, Spring
The second course in digital design covers synchronous state machine circuits, microprocessor architecture, shift register devices, and the design of memory systems. Prerequisite: ENGR-171

Environmental Safety & Health

ESH-100 Environmental Regulations
1-3 credits, Fall/Winter/Spring
An overview of environmental regulations as they pertain to industry, agriculture, schools and the general public. Major points of environmental law, federal and state regulatory statutes and regulations, and the agencies responsible for their enforcement. This course has been developed with the cooperation of DEQ.

ESH-101 Hazardous Waste Management
2 credits, Fall/Winter/Spring
DEQ authorized class. This class offers ways to reduce, identify, store, and dispose of hazardous waste in Oregon. Certificate available from DEQ.

ESL Courses with this prefix may not transfer with to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

ESL-012 Beginning ESL
0 credits, Fall/Winter/Spring/Summer
English language learners speak and listen to simple words, phrases, questions, and commands using common English vocabulary in simple, highly-structured tasks.

ESL-014 Beginning Reading & Writing
0 credits, Fall/Winter/Spring/Summer
English language learners read and write the alphabet, sight words, and simple sentences.

ESL-015 Beginning Reading, Writing and Grammar
0 credits, Fall/Winter/Spring/Summer
English language learners are introduced to the basic language necessary to function in day-to-day American society; language functions are taught in the contexts of work, family and community.

ESL-016 Integrated Beginning ESL
0 credits, Fall/Winter/Spring/Summer
English language learners study and practice basic verb forms (simple present and present progressive), and adverbs of frequency, in written and spoken English.

ESL-020 Upper Beginning Grammar
0 credits, Fall/Winter/Spring/Summer
English language learners study and practice basic verb forms (simple present and present progressive), and adverbs of frequency, in written and spoken English.

ESL-024 Upper Beginning Reading & Writing
0 credits, Fall/Winter/Spring/Summer
English language learners read short texts to improve reading skills, write simple, compound, and complex sentences, and write related sentences in paragraph form for the contexts of school, work, family and community.

ESL-025 Upper Beginning Writing
0 credits, Not Offered Every Term
English language learners write simple, compound, and complex sentences, and write related sentences in paragraph form for the contexts of school, work, family and community.

ESL-030 Intermediate Grammar A
0 credits, Not Offered Every Term
One of a two-part series. English language learners extend their understanding of basic verb forms (simple present, simple past, and present progressive), study and practice past progressive, used to, future time formations, and wh-questions in written and spoken English.
ESL-031 Intermediate Grammar B  
0 credits, Not Offered Every Term  
One of a two-part series. English language learners study and practice present perfect verb forms with time expressions and adverbs of frequency, modals of ability, permission, and advice, and comparative and superlative adjectives in written and spoken English.

ESL-032 Intermediate Conversation  
0 credits, Fall/Winter/Spring/Summer  
English language learners study and practice speaking and listening and strategies in structured tasks to improve fluency in the contexts of school, work, family and community.

ESL-034 Intermediate Reading & Writing  
0 credits, Fall/Winter/Spring/Summer  
English language learners read a variety of texts to improve reading skills, and write paragraphs focused on a single topic developed with logically organized facts and details for the contexts of school, work, family and community.

ESL-035 Intermediate Writing  
0 credits, Not Offered Every Term  
English language learners write paragraphs focused on a single topic developed with logically organized facts and details for the contexts of school, work, family and community.

ESL-040 Upper Intermediate Grammar A  
0 credits, Not Offered Every Term  
One of a two-part series. English language learners study and practice verb forms that frequently occur together, gerunds, infinitives, and causative verbs in written and spoken English.

ESL-041 Upper Intermediate Grammar B  
0 credits, Not Offered Every Term  
One of a two-part series. English language learners study and practice adjective clauses, phrasal verbs, and passive voice in written and spoken English.

ESL-042 Upper Intermediate Conversation  
0 credits, Fall/Winter/Spring/Summer  
English language learners study and practice speaking and listening and strategies for independent communication to improve fluency in the contexts of school, work, family and community.

ESL-044 Upper Intermediate Reading & Writing  
0 credits, Fall/Winter/Spring/Summer  
English language learners read a variety of texts to improve reading skills, and produce basic multi-paragraph texts for the contexts of school, work, family and community.

ESL-045 Upper Intermediate Writing  
0 credits, Summer  
English language learners read a variety of texts to improve reading skills, and produce basic multi-paragraph texts for the contexts of school, work, family and community.

ESL-046 Editing for Better Writing  
0 credits, Fall/Winter/Spring/Summer  
English language learners improve their writing through editing. They also engage in extended reading to provide a context for writing.

ESL-047 Editing Part 1  
0 credits, Not Offered Every Year  
English language learners improve their writing through editing.

ESL-048 Editing Part 2  
0 credits, Not Offered Every Term  
English language learners improve their writing through editing.

ESL-050 Advanced Grammar A  
0 credits, Not Offered Every Term  
One of a three-part series. English language learners study and practice modals, adverb clauses, and discourse connectors in written and spoken English.

ESL-051 Advanced Grammar B  
0 credits, Not Offered Every Term  
One of a three-part series. English language learners study and practice count/non-count nouns, definite/indefinite articles, and some modals in written and spoken English.

ESL-052 Advanced Communication Skills 1  
0 credits, Not Offered Every Term  
English language learners practice speaking and listening strategies for effective communication in discussions, presentations, lectures, note-taking, and group projects. The course builds vocabulary, critical thinking skills, and an awareness of non-verbal communication. The focus of this course is to prepare students for college success.

ESL-053 Advanced Communication Skills 2  
0 credits, Not Offered Every Term  
English language learners practice speaking and listening strategies for effective communication for discussions, interviews, presentations, and note-taking to improve fluency in speaking and listening. Students will study the important effect intonation and body language have on meaning, build vocabulary and critical thinking skills, and develop confidence in speaking with purpose. The focus of this course is to prepare students for success in the workplace and community.

ESL-054 Advanced Reading & Writing  
0 credits, Fall/Winter/Spring/Summer  
English language learners develop writing skills including summarizing, response writing, and paraphrasing, and improve writing fluency. Develop reading skills and fluency through reading a range of texts on a variety of topics.

ESL-055 Advanced Grammar C  
0 credits, Not Offered Every Term  
One of a three-part series. English language learners study and practice gerunds, infinitives, passive voice, and adjective clauses in written and spoken English.

ESL-060 Vocabulary Building 1  
0 credits, Not Offered Every Term  
One of a two-part series. English language learners develop their passive and active vocabularies through numerous exposures to selected words from the General Service List and the Academic Word List, and develop their vocabulary acquisition skills.

ESL-061 Vocabulary Building 2  
0 credits, Not Offered Every Term  
One of a two-part series. English language learners develop their passive and active vocabularies through numerous exposures to selected words from the General Service List and the Academic Word List, and develop their vocabulary acquisition skills.

ESL-062 ESL Reading 1  
0 credits, Not Offered Every Term  
English language learners at all levels improve their reading fluency and expand and solidify their English vocabulary as needed for more advanced ESL and everyday life.
ESL-063 ESL Reading 2
0 credits, Not Offered Every Term
English language learners at all levels improve their reading fluency and expand and solidify their English vocabulary as needed for more advanced ESL and everyday life. The course can be repeated, as learners read texts of progressively greater challenge, up to the college reading level. Students who have completed ESL Reading 1 will develop their reading skills at a higher level in ESL Reading 2.

ESL-065 Film, Internet, and Culture
0 credits, Not Offered Every Term
English language learners develop their English speaking and listening skills in the context of contemporary media and U.S. culture. Students use speaking and listening skills to recognize and explain different cultural situations.

ESL-066 Bridge to College and Career
0 credits, Not Offered Every Term
English Language Learners apply their developing English language skills to read, write, speak and listen in real world contexts provided by college and career-related materials, intensifying their language acquisition process while preparing to move beyond the ESL program.

ESL-067 Spelling
0 credits, Not Offered Every Term
English language learners learn about and practice English spelling patterns and rules and individualize instruction to address spelling challenges.

ESL-068 Bridge to Computers
0 credits, Not Offered Every Term
English language learners beyond the beginning level are introduced to computer technology. The course includes an overview of computer components and terminology and an introduction to applications such as word processing, Internet, e-mail, presentation, and other software. English reading, writing, speaking, and listening skills are developed through a variety of computer projects and interactive classroom work.

ESL-069 Pronunciation
0 credits, Not Offered Every Term
English language learners develop pronunciation skills and knowledge to improve speech clarity, listening effectiveness, and pronunciation of written words.

ESL-080 ESL Tutoring
0 credits, Fall/Winter/Spring/Summer
Adult students meet one-on-one or in a small group with a tutor to focus on specific learning needs. The sessions are held in various public places throughout Clackamas County, such as libraries, schools, churches and the college campuses and outreach sites. Tutors help set student goals and a plan of learning. This class is a supplement to other ESL, ABE, or GED classes.

ESL-082 Assess/Evaluate New Students
0 credits, Fall/Winter/Spring/Summer
New students in the ESL program receive information about classes offered, departmental and college policies, college services available, campus facilities, student responsibilities, and community resources. Students are tested to determine their language levels and class placement.

ESL-083 Educational Planning for Returning Students
0 credits, Fall/Winter/Spring/Summer
Designed for returning students in the ESL program at CCC. Students meet with their instructors to review their progress, revisit their goals, register for classes, and learn how to transition to other educational and training opportunities at the college and in other community programs.

ESL-087 Computer Lab
0 credits, Fall/Winter/Spring/Summer
Provides opportunities to improve English language skills by using language learning software and Internet websites.

ESL-088 Beginning ESL Computer Skills Lab
0 credits, Fall/Winter/Spring/Summer
English language learners acquire basic computer skills.

ESL-089 ESL Skills Lab
0 credits, Fall/Winter/Spring/Summer
English language learners are provided the opportunity to intensify their learning at each level. Students build on the language learning skills and strategies acquired during the previous and current terms.

ESL-094 TOEFL/TOEIC Preparation
0 credits, Fall/Winter/Spring/Summer
Prepares students for the Test of English as a Foreign Language (TOEFL) and the Test of English for International Communication (TOEIC) by improving listening, grammar, reading and writing skills. It includes familiarization with the test components, test-taking techniques, strategies and computer skills.

ESR
Environmental Science

ESR-171 Environmental Science
4 credits, Fall
Introduction to environmental science issues, the scientific method, systems and feedback, biogeochemical cycles, human population growth, communities and ecosystems, productivity and energy flow, world food supply, the environmental effects of agriculture, and endangered species. Recommended: MTH-060 or MTH-098 with a C or better, or placement in MTH-065. WRD-098 or placement in WR-121

ESR-172 Environmental Science
4 credits, Winter
Introduction to planning of parks and preserves, the scientific method, energy principles, fossil fuel recovery and use, renewable energy sources, nuclear energy, environmental toxicology, air pollution, indoor air pollution, ozone depletion, and climate change. Prerequisite: MTH-060 or placement in MTH-065. Recommended: WRD-098

ESR-173 Environmental Science
4 credits, Spring
Introduction to minerals and the environment, the scientific method, environmental economics, waste management, biological diversity, biogeochemistry and invasive species, ecological succession and ecosystem restoration, water management, water pollution, urban environments, and environmental sustainability. Recommended: MTH-060 or MTH-098 with a C or better, or placement in MTH-065 and WRD-098.
Courses with this prefix may not transfer to a four-year institution.

Employment Skills Training

EST-180 Employment Skills Internship
1-12 credits, Fall/Winter/Spring/Summer
Develop entry level skills in a specific occupation and practice the career management skills necessary to obtain, sustain, and advance employment. A comprehensive employment plan is developed with a focus on a career path.

FN Food & Nutrition

FN-110 Personal Nutrition
3 credits, Fall/Winter/Spring/Summer
Explores how nutrition affects health and fitness for the individual and the family. Students apply knowledge of nutrition guidelines to analyze personal diet and improve current food preparation and habits. Basic nutrition course for student with little or no science background.

FN-225 Nutrition
4 credits, Fall/Winter/Spring/Summer
Explores the role of nutrients in the development and maintenance of a healthy body. Examines the relationship between diet and health. Students apply knowledge of nutritional adequacy through computer-aided analysis. Discusses current nutrition recommendations and controversies. Meets requirement for most nursing programs. Strong background in anatomy and physiology, biology or chemistry is recommended. Recommended: Strong background in anatomy and physiology, biology, or chemistry

FR French

FR-101 First-Year French I
4 credits, Fall
First term of a three-term foundational, multimedia course in beginning French designed to give the student a fundamental knowledge of pronunciation and intonation, structure and syntax as well as comprehension skills sufficient for basic communicative proficiency in the language. Student learning is assessed by means of oral interviews, written tests, written homework and classroom participation. Recommended: WRD-098 or placement in WR-121

FR-102 First-Year French II
4 credits, Winter
Second term of a three-term foundational, multimedia course in beginning French designed to give the student a fundamental knowledge of pronunciation and intonation, structure and syntax as well as comprehension skills sufficient for basic communicative proficiency in the language. Student learning is assessed by means of oral interviews, written tests, written homework and classroom participation. Prerequisites: FR-101

FR-103 First-Year French III
4 credits, Spring
Third term of a three-term foundational, multimedia course in beginning French designed to give the student a fundamental knowledge of pronunciation and intonation, structure and syntax as well as comprehension skills sufficient for basic communicative proficiency in the language. Student learning is assessed by means of oral interviews, written tests, written homework and classroom participation. Prerequisites: FR-102

FR-201 Second-Year French I
4 credits, Fall
The second year of academic French expands on first-year French in the review of grammar and in the cultural reading material. Communication skills are emphasized stressing oral proficiency. Prerequisites: FR-103

FR-202 Second-Year French II
4 credits, Winter
The second year of academic French expands on first-year French in the review of grammar and in the cultural reading material. Communication skills are emphasized stressing oral proficiency. Prerequisites: FR-201

FR-203 Second-Year French III
4 credits, Spring
The second year of academic French expands on first-year French in the review of grammar and in the cultural reading material. Communication skills are emphasized stressing oral proficiency. Prerequisites: FR-202

FR-211 Intermediate French Conversation
3 credits, Fall
Development of speaking and listening proficiency through creative activities such as discussions of excerpts from contemporary French-language media, presentations, games and interviews of classmates. Major topics and level of conversational difficulty will parallel FR-201. Prerequisite: FR-203 with a C or better

FR-212 Intermediate French Conversation
3 credits, Winter
Development of speaking and listening proficiency through creative activities such as discussions of excerpts from contemporary French-language media, presentations, games and interviews of classmates. Major topics and level of conversational difficulty will parallel FR-202. Prerequisites: FR-103 with a C or better

FR-213 Intermediate French Conversation
3 credits, Spring
Development of speaking and listening proficiency through creative activities such as discussions of excerpts from contemporary French-language media, presentations, games and interviews of classmates. Major topics and level of conversational difficulty will parallel FR-203. Prerequisites: FR-202 with a C or better
FRP Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Fire Science (Wildland)
The National Wildfire Coordinating Group (NWCG) is the governing body for wildland firefighting.

FRP-101 Basic Forest Management
3 credits, Not Offered Every Term
An introduction to forestry and forest land management activities and practices related to forest stewardship. Students will gain an understanding of how social, economic and environmental values influence current forest policies and regulations. Corequisites: FRP-101

FRP-102 Basic Forest Management Lab
1 credit, Not Offered Every Term
Provides lab and field exercises to provide experience using forest management field equipment discussed in FRP-101. The Lab includes the use of diameter tape, loggers tape, compass, clinometer, increment borer and wedge prism to measure tree height, diameter, tree age, diameter increment and basal area. Use fixed plot and variable plot forest sampling methods to gain the skills to gather data necessary to calculate stocking, volume, growth and determine timber appraised value. Corequisites: FRP-101

FRP-110 Basic Wildland Fire Investigation (FI-110)
1 credit, Not Offered Every Term
An introduction to the roles and responsibilities of wildland firefighters in determining a wildland fire origin. Students will identify the wildland fire categories, wildland fire behavior and the initial observations made by the firefighter responding to and arriving at a wildland fire. The primary emphasis of this course is to teach sound wildland fire observations and origin scene protection practices that enable first responders to a wildland fire scene to perform proper origin scene protection procedures. Prerequisites: FRP-130 (S-130/S-190/L-180)

FRP-130 Introduction to Wildland Firefighting (S-130/S-190)
2 credits, Not Offered Every Term
This course provides an introduction to wildland fire behavior, wildland firefighting safety and wildland firefighting techniques. The course covers the basic skills necessary to fight wildland fires under close supervision. NWCG Courses completed in class include S-130, S-190, L-180, IS-100 and IS-700. Also includes the Work Capacity Test (WCT) which is needed for employment.

FRP-131 Advanced Firefighter Training (S-131/S-133)
1 credit, Not Offered Every Term
This course provides instruction that meets the training requirements for the Wildland Firefighter Type 1 position and/or Incident Commander Type 5 (ICT5). Prerequisites: FRP-130 (S-130/S-190/L-180)

FRP-200 Basic Incident Command System (I-100),(I-200),(IS-700),(IS-800)
4 credits, Not Offered Every Term
Introduces the knowledge and skills to function efficiently during an incident or event within the Incident Command System (ICS). National Incident Management System (NIMS) and the National Response Framework (NRF) provide a consistent nationwide template to enable all government, private-sector, and nongovernmental organizations to work together during domestic incidents.

FRP-201 Advanced Forest Management
3 credits, Not Offered Every Term
Discusses and explores forest management concepts and principles through classroom lecture and field trips. Contrast forest management decisions made dependent on public or private landowner objections, economics and federal and state laws that provide for protection of soil, water, air, fish, and wildlife and consideration of recreation values. Prerequisites: FRP-101 and FRP-102

FRP-202 Portable Pumps and Water Use (S-211)
2 credits, Not Offered Every Term
This course is designed to provide knowledge and skills to design, setup, operate, troubleshoot, and shut down portable water delivery systems. The focus is on portable pumps; it does not address water delivery for engines. There is also a field exercise where students will apply what they learned in the classroom. Recommended: FRP-130 (S-130/S-190/L-180)

FRP-211 Wildfire Power Saws (S-212)
2 credits, Not Offered Every Term
This course introduces the function, maintenance and use of internal combustion engine powered chain saws in wildland firefighting operations. Required: Student Petition. Adequate footwear will be required for the field exercises. Adequate footwear includes a boot or hiking style boot with a minimum of an 8 inch upper (measured from the bottom of the heel to the top of the shoe/boot). A traction type (non-slip) tread is also required. The boot may either lace up or zip up. Students must be at least 18 years of age. Prerequisites: FRP-130 (S-130/S-190/L-180), FRP-250

FRP-212 Fire Operations in the Urban Interface (S-215)
2 credits, Not Offered Every Term
Assess homes and structures located in and around forest, grass and brush lands (urban interface) for vulnerability to a wildland fire. Prerequisites: FRP-130 (S-130/S-190/L-180)
FRP-219 Wildland Firing Operations (S-219)  
2 credits, Summer  
The Wildland Firing Operations course introduces the roles and responsibilities of a firing boss (FIRB) and outlines duties of other personnel who may engage firing operations. The course discusses and illustrates common firing devices and techniques. Although comprehensive in nature, the course work is not a substitute for the dynamic fire environment. The course provides students with important information regarding general tasks required to be successful. Course equivalent to NWCG S-219 Firing Operations. Prerequisites: FRP-131 (S-131/S-133)

FRP-220 Initial Attack Incident Commander (S-200)  
1 credit, Not Offered Every Term  
The course provides the students with the basic skills to lead the initial attack resources on small non-complex wildland fires. Provides the students with the knowledge to prepare for the assignment, assess the fire, determine resources needed and complete the necessary administrative functions required of an Initial Attack Incident Commander Type 4. Prerequisite: FRP-130 (S-130/S-190/L-180), FRP-230 (S-230), FRP-231 (S-231)

FRP-230 Crew Boss (Single Resource) (S-230)  
2 credits, Not Offered Every Term  
The course provides the student with the basic knowledge required of a crew leader (Crew Boss) of a wildland firefighting crew for a Federal, State or Contract Agency fire organization. Prerequisites: FRP-130 (S-130/S-190/L-180), FRP-131 (S-131/S-133). Recommended: FRP-290 (S-290) in the last 3 years

FRP-231 Engine Boss (Single Resource) (S-231)  
1 credit, Not Offered Every Term  
The course provides the student with the required initial training to perform as a wildland fire engine supervisor (Engine Boss) for a Federal, State or Contact Fire organization. Prerequisites: FRP-130 (S-130/S-190/L-180), FRP-131 (S-131/S-133). Recommended: FRP-290 (S-290) in the last 3 years. Corequisites: FRP-230 (S-230), FRP-231 (S-231), FRP-290 (S-290)

FRP-236 Heavy Equipment Boss (S-236)  
2 credits, Not Offered Every Term  
The course provides the student with the basic knowledge to perform the administrative tasks, equipment inspection procedures, safety procedures, communication procedures, and preparation of heavy equipment used in wildland firefighting and all hazard type non-fire incident response. Prerequisites: FRP-130 (S-130/S-190/L-180), FRP-131 (S-131/S-133). Recommended: FRP-290 (S-290) in the last 3 years

FRP-239 Division/Group Supervisor (S-339)  
2 credits, Not Offered Every Term  
The course prepares students to perform in the role of Division/Group Supervisor (DIVS). Instruction covers the specific tasks of the Division/Group Supervisor. Recommended: FRP-259 (S-330) and FRP-296 (S-390)

FRP-243 Wilderness I: Psychology of Survival  
2 credits, Not Offered Every Term  
The course prepares students to perform in the role of Division/Group Supervisor (DIVS). Instruction covers the specific tasks of the Division/Group Supervisor. Recommended: FRP-259 (S-330) and FRP-296 (S-390)

FRP-244 Wilderness II: Basic Land Navigation  
3 credits, Not Offered Every Term  
The course covers how to make and document field observations, how to produce hand drawn and GPS field maps, and how to navigate using a map, compass, and GPS.

FRP-245 Wilderness III: Weather of the Northwest  
2 credits, Not Offered Every Term  
The course covers the basics of weather forecasting, especially as it relates to the weather of the Northwest.

FRP-246 Wilderness IV: Backcountry CPR/First Aid/AED  
2 credits, Not Offered Every Term  
Introduction to general medical concepts and basic life support skills. It is targeted to the outdoor enthusiast on day trips or short adventures. Course results in CPR, first aid & AED certification.

FRP-248 Wilderness V: Intro Search/Rescue  
2 credits, Not Offered Every Term  
The course introduces students to the philosophy, tactics, and operations of search and rescue techniques and strategies. It will also address how people behave and respond when they become lost.

FRP-249 Fellowship to Leadership (L-280)  
2 credits, Not Offered Every Term  
The course prepares the student for a basic wildland fire leadership role. Students will be able demonstrate basic leadership skills through interactive classroom discussions and scenario based exercises.

FRP-250 Wilderness VI: Basic Tool Use and Care  
1 credit, Winter  
Selection, operation, and maintenance of power driven machines, such as chain saws, and hand tools to include shovels, Pulaski, single and double bit axes, hand saws, machetes and various other tools used in forestry, firefighting and survival activities. Class includes a lab component.

FRP-259 Task Force/Strike Team Leader (S-330)  
2 credits, Not Offered Every Term  
The course provides students with the initial required classroom training to perform as a leader of several wildland firefighting apparatus assigned to a wildland fire. This course provides the students with interactive group exercises and scenarios in which the students will gain experience managing multiple resources both on and off assignment at an incident. Prerequisites: FRP-230 (S-230), FRP-231 (S-231), FRP-290 (S-290)

FRP-265 Wildland Fire Prevention Education 1 (P-101)  
3 credits, Spring  
The course was developed as part of a multi-course national curriculum covering wildfire prevention. It is designed to provide a basic introduction of fire prevention principles and activities for fire prevention specialists, fire managers, public information officers and others who have wildland fire prevention, education, or mitigation responsibilities. Course equivalent to NWCG P-101 Fire Prevention Education 1. Prerequisites: FRP-130 (S-130/S-190/L-180)
FRP-270 Basic Air Operations (S-270)  
1 credit, Not Offered Every Term  
The course introduces students to basic air operations including the different types of aircraft used in wildland firefighting along with mission planning, risk management, safety, and communications.

FRP-271 Helicopter Crewmember (S-271)  
4 credits, Not Offered Every Term  
The course provides the student with the helicopter aviation classroom and field training required for the Helicopter Crew Member (HECM) position for wildland firefighting operations and support activities. Through exercises the students will demonstrate proper radio communications with helicopters, the identification and application of helicopter performance/limitations and load calculations, the application of standard risk management and safety principles and the proper techniques for preparing equipment or passengers for a helicopter mission. Prerequisites: FRP-130 (S-130/S-190/L-180), FRP-270 (S-270)

FRP-275 Wildland Fire Management  
4 credits, Fall  
This course is designed to meet the needs of current and future unit level Fire Program Managers. Students will learn how to identify the basic principle, policies, and procedures to effectively and safely lead, plan, and implement a fire management program. The responsibilities of the Fire Program manager include program management and personal accountability are also covered in this course. Prerequisites: FRP-130 (S-130/S-190/L-180), FRP-131 (S-131/S-133), FRP-249 (L-280), and WR-101 or WR-121

FRP-280 Wildland Fire CWE  
3 credits, Not Offered Every Term  
Cooperative Work Experience. Provides students with on-the-job experience in the field of wildland firefighting. Prerequisites: FRP-131 (S-131/S-133). Corequisites: CWE-281

FRP-285 Wildland Fire Facilitative Instructor (M-410)  
4 credits, Not Offered Every Term  
This course helps students become effective facilitative instructors. This course improves training delivery and quality by presenting instructional methods with an emphasis on student-oriented adult training techniques. This course is designed for students to meet NWCG instructor requirements. Prerequisite: FRP-130, WR-101, or WR-121

FRP-290 Intermediate Wildland Fire Behavior (S-290)  
3 credits, Not Offered Every Term  
This course provides the student with the basic skills to determine the characteristics of fuels (vegetation) when involved in a wildland fire, the effects weather has on a wildland fire, the various topographic features that impact wildland fire and the fire behavior patterns of a wildland fire. Prerequisites: FRP-130 (S-130/S-190/L-180)

FRP-294 Intermediate Incident Command System (I-300)  
2 credits, Not Offered Every Term  
This course provides students with a description and the functions of the positions and their duties found in the Incident Command System. The students will apply the appropriate titled functional positions with the Incident Command System to various exercises in order to create an Incident Action Plan that is designed to manage large or complex incidents or events.

FRP-295 Advanced Incident Command System (I-400)  
1 credit, Not Offered Every Term  
This course provides the student with the advanced level instruction and application of the functional positions and organizations found within the Incident Command System (ICS). Through exercises, the students will apply the functional titles and positions within ICS in order to identify and address incident or events needs and define the inter-agency coordination required to effectively manage large scale incidents or events. Prerequisites: FRP-294 (I-300)

FRP-296 Introduction to Wildland Fire Behavior Calculations (S-390)  
4 credits, Not Offered Every Term  
This course introduces the students to the fire behavior calculations used to estimate wildland fire behavior and fire spread. Students will apply the calculations using graphs and scales based on modeling to determine the characteristics of fuels, the weather and topography that influences fire behavior and document these calculations using the manual methods. Prerequisites: FRP-290 (S-290)

FYE  
First-Year Experience  
FYE-101 First Year Experience Level I  
2 credits, Fall/Winter/Spring/Summer  
This is the first course in the sequence which is designed to help students adjust to a new campus, connect with other students, understand college expectations and systems, and access services available through the college. The First Year Experience Level I course is designed to help students in developing relationships with both students and faculty, and to build student behaviors for successfully completing classes and continuing college through to completion.

FYE-102 First Year Experience Level II  
1 credit, Fall/Winter/Spring/Summer  
This course is a second in the First Year Experience sequence offered to new CCC students. This course is designed for students who want to continue to delve in depth into future educational and career planning, financial aid and scholarships, applied study skills, and college and community resources. Prerequisites: FYE-101

FYE-103 First Year Experience Level III  
1 credit, Fall/Winter/Spring/Summer  
This is the third course in the First Year Experience sequence. This course is designed to help students prepare for their future, including transferring to another school or university, how to search for employment, becoming proficient in the use of test taking skills, and how to break large projects and assignments into more manageable pieces for successful completion. Prerequisites: FYE-102
Saturday field trips
Mountains to the coast. Required: Two hazards of the Northwest from the Blue to rock types, geologic processes, and environmental geology. Introduction development and current problems in geology of Northwest landscapes, historic A lab course that explores the scenic 4 credits, Not Offered Every Term G-145 Geology of the Pacific NW 4 credits, Not Offered Every Term A lab course that explores the scenic geology of Northwest landscapes, historic development and current problems in environmental geology. Introduction to rock types, geologic processes, and hazards of the Northwest from the Blue Mountains to the coast. Required: Two Saturday field trips
G-148 Volcanoes & Earthquakes 4 credits, Not Offered Every Term A lab course that examines the geological processes that create volcanoes and earthquakes and the hazards associated with them. Examines basic geologic features, monitoring techniques, hazards, prediction methods, and future events, using historic episodes of volcanic eruptions and earthquakes. Required: Two Saturday field trips
G-201 General Geology 4 credits, Fall For science majors. A lab course introducing geologic principles and concepts; weathering, soils, Earth structure, igneous, sedimentary, metamorphic rocks, volcanic activity, and landscapes. Lab requires students to identify ore minerals, rock forming minerals, igneous, metamorphic and sedimentary rocks. Recommended: WRD-090 or placement in WRD-098. Corequisites: G-101L.
G-202 General Geology 4 credits, Winter For science majors. A lab course that examines the geological development of the North American continent through topics such as geologic time, plate tectonics, mountain building earthquakes/faults, and fossils. Examines important events in each geologic era and includes fossil ID, compass use, field techniques and GPS. Recommended: WRD-090 or placement in WRD-098. Corequisite: G-102L.
G-203 General Geology 4 credits, Spring For science majors. A lab course that examines the geological development of the North American continent through topics such as geologic time, plate tectonics, mountain building earthquakes/faults, and fossils. Examines important events in each geologic era and includes fossil ID, compass use, field techniques and GPS. Prerequisite: G-202 with a C or better. Recommended: MTH-065 or placement in MTH-080 or MTH-095. Corequisite: G-203L.
GBC Green Building Construction
GBC-101 Introduction to Green Building 2 credits, Not Offered Every Year This course introduces students to the tools and techniques of carpentry. It is intended to teach the elements of measurement, materials, layout and the safe use of hand and power tool in shop and field environments. It explores green building construction, materials and rating systems used in the industry.
GED Courses with this prefix will not transfer to a four-year institution.
Basic Academic Skills
GED-011 GED en Espanol 0 credits, Fall/Winter/Spring/Summer Instrucción del desarrollo de habilidades básicas ofrecida en español. El examen de diagnostico determina las necesidades académicas del alumno. Entrada y salida de la clase todo el tiempo, se ofrece en el colegio principal: Se requiere el consentimiento del Instructor para registrarse. Basic academic skill-development instruction offered in Spanish. Diagnostic tests determine individual academic needs. Open-entry, open-exit class offered at Dye Learning Center.
GED-015 GED Preparation 0 credits, Fall/Winter/Spring/Summer Basic academic skill development preparing for the GED 2014 tests and transition to career or post-secondary education. Course focuses primarily on language arts, math and technology skills. Provides direction and support for transitioning students.
www.clackamas.edu
GED-049 Latino GED & Life Skills
0 credits, Fall/Winter/Spring
Desarrollo de habilidades académicas básicas, ofrecida en español con énfasis en los requerimientos para presentar el test del GED para obtener el certificado equivalente a la High School. También se enfoca en habilidades básicas de la vida, metas personales e interés de carreras. Se requiere el consentimiento del Instructor para registrarse. Ofrecido en Español. Basic academic skill development with emphasis on requirements to take the GED test to obtain a high school equivalency certificate. Also focuses on basic life skills, personal and career goals and interests.

GEO
Geography
GEO-100 Introduction to Physical Geography
4 credits, Not Offered Every Term
Analyzes the physical elements of the Earth's surface and atmosphere. Focuses on natural processes that create physical diversity on the Earth including weather and climate, biosphere, soils and landforms. Recommended: WRD-090 or placement in WRD-098

GEO-110 Cultural & Human Geography
4 credits, Not Offered Every Term
Introduces geographical perspectives on human population, agriculture, political pattern, language, religion, folk culture, popular culture, ethnic culture, urban development, industry, and transportation as these play out on the landscapes of the world. Recommended: WRD-090 or placement in WRD-098

GEO-121 Regional Geography of the Developing World
4 credits, Not Offered Every Term
Provides students with the fundamental knowledge of the cultural and physical geography of developing world regions including Middle America, South America, SW Asia & North Africa, Sub-Saharan Africa, South Asia, Southeast Asia, East Asia and the Pacific world. Recommended: WRD-090 or placement in WRD-098

GEO-122 Regional Geography of the Developed World
4 credits, Not Offered Every Term
Provides students with the fundamental knowledge of the cultural and physical geography of developing world regions including Anglo-America; Europe; Russia; East Asia: Japan, Taiwan, South Korea; Australia and New Zealand. Recommended: WRD-090 or placement in WRD-098

GEO-130 Introduction to Environmental Geography
4 credits, Not Offered Every Term
Explores contemporary global environmental problems such as: overpopulation, overconsumption, ozone layer depletion, pollution, acid rain, deforestation, desertification, and waste. Examines alternative sources of energy to fossil fuel and sustainable development strategies. Recommended: WRD-090 or placement in WRD-098

GEO-208 Geography of the United States & Canada
4 credits, Not Offered Every Term
Provides students with the fundamental geographical knowledge of the United States and Canada and their paths of development. Presents the spatial arrangement of culture, economics, politics, and the natural environment. Recommended: WRD-090 or placement in WRD-098

GEO-280 Geography/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides students with on-the-job work experience in the field of geography. Corequisites: CWE-281

GER
German
GER-101 First-Year German I
4 credits, Fall
Introduces the sound system and basic structural patterns of German. Develops the skills of listening comprehension, speaking, reading, and writing. Teaches recognition of cultural similarities and differences. First of a three-term 1st year sequence. Recommended: WRD-098 or placement in WRD-121

GER-102 First-Year German II
4 credits, Winter
Introduces the sound system and basic structural patterns of German. Develops the skills of listening comprehension, speaking, reading, and writing. Teaches recognition of cultural similarities and differences. Second of a three-term 1st year sequence. Prerequisites: GER-101

GER-103 First-Year German III
4 credits, Spring
Introduces the sound system and basic structural patterns of German. Develops the skills of listening comprehension, speaking, reading, and writing. Teaches recognition of cultural similarities and differences. Third of a three-term 1st year sequence. Prerequisites: GER-102

GER-201 Second-Year German I
4 credits, Not Offered Every Term
Provides opportunities to review and expand language skills to the point of intermediate proficiency through reading, writing, hearing and talking about contemporary issues in US and German-speaking countries. First of a three-term second year course. Prerequisites: GER-103

GER-202 Second-Year German II
4 credits, Not Offered Every Term
Provides opportunities to review and expand language skills to the point of intermediate proficiency through reading, writing, hearing and talking about contemporary issues in US and German-speaking countries. Second of a three-term second year course. Prerequisites: GER-201

GER-203 Second-Year German III
4 credits, Spring
Provides opportunities to review and expand language skills to the point of intermediate proficiency through reading, writing, hearing and talking about contemporary issues in US and German-speaking countries. Third of a three-term 2nd year course. Prerequisites: GER-202
GIS

Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

GIS-101 Introduction to Maps and Geospatial Concepts
3 credits, Not Offered Every Term
Introduces principles and concepts needed to understand the use and interpretation of maps, geospatial technologies and geographic information systems software. Includes: scale, reference systems, coordinate systems, map projections, types of maps, role of maps in society and culture, data visualization, global positioning systems, remote sensing, digital landscapes, and map interpretation.

GIS-201 Geographic Information Systems
3 credits, Not Offered Every Term
The class covers key concepts, methodologies, and problem solving techniques used in a Geographic Information System (GIS). Students are introduced to the basics of viewing, analyzing and mapping GIS data using ArcGIS and open-source GIS software. Students will also apply GIS to real-world projects.

GIS-205 Cartography and Map Making
3 credits, Not Offered Every Term
Explores basic cartographic design principles and how to apply them to produce high quality maps using GIS software. Introduces cartographic terminology, principles, and map-making tools. Covers visual representation and communication; how to turn geographic data into effective maps for print and the web; how to critique maps; map design and elements; and color, fonts, labels, and symbols for maps. Corequisite: GIS-201

GIS-232 Data Collection & Application
3 credits, Not Offered Every Term
This course introduces data collection techniques and application of those techniques. This course explores different techniques to collect spatial and attribute data. The class focuses on GPS (Global Positioning System) data collection using a combination of recreational/mapping-grade GPS units and common mobile devices (with embedded GPS) used in industry. The class will emphasize the capabilities and strengths of each type of data collection equipment. Prerequisites: GIS-201

GIS-236 Introduction to Programming for GIS
3 credits, Not Offered Every Term
An introduction to computer programming and Object Orientated Programming (OOP) with the Python language. Covers basic computer programming concepts including data types, loops, control structures, functions, classes, and program development. Use Python for problem solving by creating basic scripts all the way to more advanced object-oriented programs. Prerequisites: GIS-101

GIS-237 Advanced Programming for GIS
3 credits, Not Offered Every Term
This course introduces Python programming in connection with Geographic Information Systems (GIS). It focuses on automating processes, procedures, programming with GIS data types, and building custom functions using ESRI’s ArcGIS software platform. It also provides the opportunity to build custom Python script tools that can be used and shared among GIS users. Prerequisites: GIS-236

GIS-238 GIS Web Mapping and Services
2 credits, Not Offered Every Term
This course presents the basic practices involved with GIS Web development. Gain an understanding of web GIS fundamentals. Introduces building GIS web maps, services, and applications. Focuses on developing and publishing on the web using the ESRI suite of web GIS technologies. Recommended: Familiarity with GIS software and applications

GIS-240 Geospatial Database Development and Management
3 credits, Not Offered Every Term
Introduces the fundamentals of relational databases (non-geographic and geographic). Covers SQL query basics to retrieve, edit, insert, and manipulate data. Learn geo-relational database design concepts and theory. Work with open source Postgres/PostGIS and ESRI’s geodatabase products. Identify and apply key differences in developing, querying, managing, and administrating an enterprise geodatabase. Recommended: Familiarity with GIS software and applications

GIS-280 GIS/CWE
2-6 credits, Fall/Winter/Spring/Summer
Cooperative Work Experience. Provides students with on-the-job work experience in the field of geographic information systems. 2 to 6 credits. Prerequisites: GIS-201. Recommended: This class is intended for students that are completing their GIS Certificate at Clackamas Community College. Corequisite: CWE-281

GIS-281 ArcGIS I
3 credits, Winter
This course covers the essential skills needed to navigate and operate ArcGIS software. The class also explores geoprocessing tools, spatial and attribute joins, the geodatabase format, raster analysis, geocoding and presenting GIS data. Prerequisites: GIS-201

GIS-282 ArcGIS II
3 credits, Spring
This class is an advanced study of the ArcGIS software, including working with geodatabases, feature datasets, feature classes, subtypes, domains and relationship classes. Additional topics include: establishing topological relationships, geometric networks, network analysis and advance editing. Students also learn 3D analysis of data and the use of ModelBuilder to automate tasks. Prerequisites: GIS-281

www.clackamas.edu
GIS-286 Remote Sensing  
3 credits, Winter  
This course is an introduction to the science of remote sensing. The course delves into the techniques used to acquire, interpret, and process remotely sensed data. It covers interpretation of remotely sensed data, the use of remote sensing data in GIS and the understanding and application of LIDAR data. Hyperspectral remote sensing is covered as well as the processes to transform and rectify remotely sensed raster data. The use of Unmanned Aerial Vehicles (UAV) provides students with a hands-on experience of UAV’s as part of the remote sensing environment. Prerequisites: GIS-201

GRN Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Gerontology

GRN-165 Activity Programs in Long Term Care Facilities  
3 credits, Not Offered Every Term  
Provides training for activity professionals in long-term care and residential facilities. Focuses on creating person-centered programs that provide meaningful activities for adults of all levels of cognitive ability. Includes federal guidelines for activities, as well as documentation. Course fulfills requirements for basic certification in the State of Oregon for Activity Professionals.

GRN-180 Careers in Gerontology  
1 credit, Fall  
This course provides students an introduction to the multidisciplinary field of gerontology. Focus will be on the varied areas students can utilize a gerontology education including healthcare, housing, fitness, community development, and advocacy.

GRN-181 Issues in Aging  
3 credits, Fall  
Provides an introduction to gerontology including the history of aging and current issues. Covers: myths, stereotypes, economic and political aspects, demographics and service availability for aging populations.

GRN-182 Aging and the Body  
3 credits, Winter  
Focuses on how aging affects physical health and well-being: impact on body systems, illness, disability, longevity research, wellness and health promotion. For students interested in working with the elderly and those in the field.

GRN-183 Death and Dying  
3 credits, Spring  
Introduces effective interaction with those experiencing a death or grief process. Includes: historical and cultural perspectives, funeral and death rites, grief across the lifespan, hospice and palliative care, ethical considerations and physician-assisted suicide.

GRN-184 Aging & the Individual  
3 credits, Winter  
This course explores the impact of aging on the individual as well as family members, caregivers, and professionals. Topics include: dementia, cognitive issues, stress, coping, life transitions, and intelligence. Course will also discuss the concept of successful aging from cross-cultural perspectives.

GRN-280 Gerontology/CWE  
2-6 credits, Not Offered Every Term  
Work-based experience to acquaint gerontology students with the roles and related activities of organizations serving the elderly. This course provides an opportunity to apply theories and techniques learned in the classroom. Prerequisite or Corequisite: HS-170. Corequisites: CWE-281

GRN-290 Special Topics in Gerontology  
1-3 credits, Not Offered Every Term  
This course gives students an opportunity to gain knowledge in a specific area relevant to the field of aging. This topic will be pulled from a comprehensive list of areas identified by gerontology and healthcare professionals as having importance for students pursuing work in the field. This course is variable credit (1-3). Course may be repeated for up to 6 credits.

GS

General Science

GS-104 Earth System Science  
4 credits, Fall  
A lab course designed to give an overview of the physical sciences by examining the relationship between physics, chemistry and geology in the natural world. Topics include plate tectonics, the Earth’s structure, earthquakes/hazards, mineral chemistry, igneous rocks, and volcanoes/hazards. Prerequisite: MTH-065 or placement in MTH-080 or MTH-095

GS-105 Earth System Science  
4 credits, Winter  
A lab course examining the chemistry and geology of scientific dating techniques, sedimentary rocks, surface processes, fossils, energy resources and the physics and chemistry of energy resources and mass wasting. Prerequisite: MTH-065 or placement in MTH-080 or MTH-095

GS-106 Earth System Science  
4 credits, Spring  
A lab course examining the relationship between chemistry/physics/geo/ology with regards to the hydrosphere and atmosphere. Topics include atmospheric processes, rivers and ground water, beach/ocean processes and climate change. Prerequisite: MTH-065 or placement in MTH-080 or MTH-095

GS-107 Astronomy  
4 credits, Fall/Winter  
A lab course including the history of astronomy, the Earth and Moon, all the planets in our solar system, along with asteroids, meteors, and comets. Recommended: WRD-098 or placement in WR-121, MTH-095 with a C or better or placement in MTH-105 or MTH-111
HD

Human Development/Career Planning

HD-100 College Survival
1-6 credits, Not Offered Every Term
Covers various topics supporting student success and retention. May be repeated for up to 6 credits.

HD-102 Service Learning Experience
1-6 credits, Fall/Winter/Spring/Summer
Provides students with a service learning experience in a community setting. Students complete 30–180 hours of volunteer work and participate in ongoing journaling as well as reflection exercises to connect volunteer work with an area of study. Variable course credits (1–6) with 30 hours of service required for each 1 credit earned.

HD-121 College Success Expanded
3 credits, Fall/Winter/Spring
Provides advanced strategies for creating college success including self-awareness, understanding motivation, employing interdependence, taking personal responsibility, learning style, goal setting, lifelong learning, emotional intelligence, critical thinking, time management, effective study habits/planning, and the use of on and off campus resources.

HD-130 Community College Peer Leadership
2 credits, Spring
Designed for Clackamas Community College peer mentors and Learning Center tutors. Covers a variety of elements that lead to effective leadership and tutoring in community colleges, including FERPA regulations training, communication styles, adult developmental theories, student resource training, and on-site contacts for each of CCC’s service areas.

HD-140 Career Exploration
1-3 credits, Fall/Winter/Spring
Students use information about themselves (values, interests, personality and skills) and information about the world of work (careers and industries) to explore and make long term career decisions.

HD-144 Assertive Communication
1 credit, Fall/Winter/Spring
Provides basic communication skills that students can use to state or declare their rights in a positive fashion to obtain desired results in career, social, and personal relations.

HD-145 Stress Management
1 credit, Fall/Winter/Spring
Identifies specific personal stressors and focuses on developing skills that enable students to deal more effectively with stress.

HD-146 Values Clarification - The Talk You Walk
1 credit, Not Offered Every Term
Helps students examine beliefs, attitudes, and values behind decisions and actions. The students will examine whether behavior matches their stated beliefs, evaluate the consequences of choices, and focus on clarifying a personal value system.

HD-147 Decision Making
1 credit, Fall/Winter/Spring
Develop and improve your process for making satisfying choices. The basics of decision making and processes for making personal, social, and work choices are included. Use this class for your current decision needs.

HD-153 Managing Conflict in Your Life
1 credit, Fall/Winter/Spring
Introduction to managing conflict in a positive way. Students will examine personal beliefs about conflict and become familiar with techniques for effective problem solving.

HD-154 Building Self-Confidence
1 credit, Fall/Winter/Spring
This course is designed to address the elements forming and influencing self-confidence as well as practicing techniques on disarming your inner critic, dealing with fear, reflection of confidence on self-esteem, personal power, and building on personal accomplishments and assets.

HD-156 Creative Goal Setting
1 credit, Not Offered Every Term
Using a variety of art media, learn how to use the creative process to define, plan, and achieve personal or professional goals.

HD-157 Procrastination & Time Management
1 credit, Fall/Winter/Spring
Provides students the opportunity to study their procrastination habits and time management patterns. Course focuses on components of time organization, choices regarding procrastination, and methods to improve overall use of time.

HD-158 Managing Change
1 credit, Fall/Winter/Spring
Course is designed to enhance each student’s knowledge and understanding about transition and change in their own life and others around them.

HD-161 Multicultural Awareness
3 credits, Fall/Winter/Spring
Introduction to the skills and personal attributes college graduates need to live and work in a diverse world, and how these characteristics influence interpersonal relationships in everyday life. This course focuses on the identification and application of strategies to improve personal multicultural awareness.

HD-185 Prior Learning Portfolio Development I
1 credit, Winter
Students are guided through the required steps of building a portfolio with the goal of requesting college credit for learning acquired through work experience, volunteer work, industry training, etc. Details of the content of the portfolio are explained and alternative options for obtaining college credit through non-traditional learning experiences are reviewed.

HD-186 A Digital You - Building an e-Portfolio
3 credits, Winter
This course offers techniques of developing course and assessment portfolios for application with current CCC course demands, career opportunities and educational pathway planning. The course also serves students seeking assessment for Credit for Prior Learning after learning the mechanics of Credit for Prior Learning (CPL) portfolio development in HD-185. CPL students will develop a detailed portfolio correlating non-traditional learning experiences with related courses at Clackamas Community College, for submission, consideration and evaluation to identified department and instructor at CCC.
HD-202 Life Transitions
3 credits, Fall/Winter/Spring
Examines process and stages of life transitions. Helps re-entry adults identify personal strengths and barriers related to success in education and employment. Offers opportunities to practice interpersonal skills. Provides information about CCC campus and community resources which can assist students in reaching their goals. Corequisites: HD-208

HD-208 Career & Life Planning
1-3 credits, Fall/Winter/Spring
Helps re-entry adults identify interests, abilities, values, and transferable skills and apply this information to goal setting and career decisions. Students identify and explore options for training, education, and employment. Covers job search skills such as interviewing, resume writing, and developing a career portfolio. Each student develops an action plan identifying goals and next steps. Required: Student must complete LCOP application. Applications are available in the Counseling Office. Corequisites: HD-202

HD-209 Job Search Skills
1-3 credits, Not Offered Every Term
Use a job search plan to conduct labor market research, develop job search networking relationships, and to prepare and present applications, cover letters, résumés, interviews, and thank you notes.

HD-220 Leadership: Theory Into Practice
2 credits, Fall
Introduces leadership skills and theories. Includes translating theory into practice. Students discuss how leadership practices are put to use in campus leadership roles. Required: Required for members of CCC’s Associated Student Government or a Peer Assistant (that have not previously taken this course)

HD-221 Leadership: Group Dynamics
2 credits, Winter
Develops leadership skills with an emphasis on group dynamics. Addresses building common vision and goals, managing conflict, negotiation, and collaboration. Includes the role of follower and avoiding ineffective group dynamics. Required: Required for members of CCC’s Associated Student Government or a Peer Assistant (that have not previously taken this course)

HD-222 Leadership: Building Community
2 credits, Fall/Winter/Spring
Strengthens leadership skills with an emphasis on building community. Addresses diversity issues, deliberation, building consensus, ethical leadership and followership, and influence. Includes the role of leaders in the planning, implementation and assessment of community service events. Required: Required for members of CCC’s Associated Student Government or a Peer Assistant (that have not previously taken this course)

HD-280 Human Development/CWE
2-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Provides students with career-related experience on-the-job at a local organization. Corequisites: CWE-281

HDF
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Human Development/Family Services

HDF-140 Contemporary American Families
3 credits, Spring
Focuses on the diversity of the American family today, and a historical overview of changes in the family environment and structure. Become familiar with internal/external factors that influence families such as parenting, violence, gender, divorce, remarriage, economics, and culture.

HDF-225 Prenatal, Infant & Toddler Development
3 credits, Fall
Explores the principles of child development, prenatal through three years of age. Emphasis will be placed on the physical, cognitive, and social-emotional development of young children.

HDF-247 Preschool Child Development
3 credits, Winter
This course focuses on principles of development in children three to six years, including physical, cognitive, social and emotional growth, observation and assessment. Explores major historical theories of child development and current research and practices. Prerequisites: HDF-225

HDF-260 Understanding Child Abuse and Neglect
4 credits, Fall/Winter/Spring
In this course, students will receive an overview of child abuse and neglect. Students will examine the types and causes of abuse, abused children, abusive parents, treatment, education and prevention, and resources available to assist children and families. An emphasis is placed upon intervention and mandatory reporting, as well as investigation and legal issues. This course presents the protocols related to forensic interviewing of abused children. Students will also learn about signs and symptoms of abuse and how trauma impacts an individual’s health across a lifetime.

HE
Health

HE-101 NCSF Certified Personal Trainer Exam
0 credits, Not Offered Every Term
Students will take the National Council on Strength and Fitness (NCSF) exam at Clackamas Community College to become certified as a Certified Personal Trainer. Students with a test score of 70% or better will receive their certification from the NCSF.

HE-103 NCSF Certified Sports Nutrition Exam
0 credits, Not Offered Every Term
Students will take the National Council on Strength and Fitness (NCSF) exam at Clackamas Community College to become certified as a Certified Sports Nutritionist. Students with a test score of 70% or better will receive their certification from the NCSF.
HE-151 Body & Drugs I
3 credits, Fall/Winter/Spring
The first of a two-course sequence, this course examines the history of legal and illegal drug use; drug classification; the physiological and psychological impact of drugs on the body; and treatment modalities for drug abuse/addiction. This class will also review the stimulant group of drugs.

HE-152 Body & Drugs II
3 credits, Winter/Spring
The second of a two-course sequence, this course examines three drug categories (depressants, hallucinogens, and the ‘other’ drugs), their history, their physiological and psychological impact; and their specific treatment modalities. Prerequisites: HE-151

HE-163 Body & Drugs I: Introduction to Abuse & Addiction
3 credits, Fall/Winter/Spring/Summer
The first of a four-course sequence, this course examines the history of the use of addictive drugs; the definition of addiction; psychosocial and neurobiological causes of drug and behavioral addiction; addictive drug classifications; and the history of/introduction to addiction treatment.

HE-164 Body & Drugs II: Alcohol
3 credits, Not Offered Every Term
The second of a four-course offering. Covers beverage alcohol as a drug; the history of alcohol use/abuse; physiological and psychological effects of alcohol use on the user; and the impact of that use on those around the user and society at large. Prerequisites: HE-163

HE-201 Personal Training
3 credits, Not Offered Every Term
Students will follow the curriculum for the National Council on Strength and Fitness (NCSF) Certified Personal Trainer certification. The course will guide students through the expectations, requirements, processes and knowledge to prepare to become a certified Personal Trainer through the NCSF. Through videos, lecture and self-study, students will be prepared to take the NCSF Certified Personal Training exam, which is offered through the NCSF and is not included in the course.

HE-202 Introduction to Fitness Technology Careers
1 credit, Not Offered Every Term
This course will explore the various careers in the Fitness Industry, through lecture and guest speakers currently in the professional field. Students will gain insight to the requirements, expectations, salary range, education requirements and any additional information related to specific careers.

HE-204 Nutrition & Weight Control
3 credits, Fall/Winter/Spring
Methods of maintaining or improving nutrition by considering diets and dieting, obesity, types of exercise, physical testing, cardio-vascular fitness and nutritional concepts.

HE-205 Youth Addictions
3 credits, Fall
This course surveys the nature and extent of youth addictions. Students will explore causes and consequences of youth addiction, as well as interventions for youth and their families.

HE-207 Introduction to Plant Based Living
3 credits, Not Offered Every Term
The course is designed to give students a basic understanding of a plant based diet/lifestyle and the benefits of this type of lifestyle. Students will learn about the physical benefits of a plant based diet, GMO’s, organic foods, current environmental impacts, impacts of the big agricultural companies as well as the research that has been documented to support the information. Recommended: WRD-090 or higher

HE-223 Sports Nutrition
3 credits, Fall
Examination of nutrition as it relates to the demands of exercise and competitive sport. Emphasis on the relationship of diet and exercise to optimal health and performance. This course can lead to a certification as a sports nutritionist through the NCSF.

HE-249 Mental Health
3 credits, Fall/Winter/Spring
Designed for each student to understand and improve their personal mental health. Teaches theories of mental health as well as practical strategies for improving one’s level of mental health. Analyzes factors that may impede optimal mental health, again with practical solutions for minimizing/avoiding such factors.

HE-250 Personal Health
3 credits, Fall/Winter/Spring
Explores the interaction and the quality of life. Includes emotional behavior, drugs, disease, nutrition, human sexuality, cardiovascular functioning, and medical care.

HE-252 First Aid/CPR/AED
3 credits, Fall/Winter/Spring/Summer
Provides instruction on immediate and temporary care of injuries and sudden illness. Covers poisoning, control of bleeding, bandaging and CPR/AED/airway obstruction for adult, child and infant. Successful completion (A or B grade) of course leads to a Red Cross First Aid/CPR/AED certification.

HE-255 Body & Alcohol
3 credits, Fall/Winter/Spring
Covers beverage alcohol as a drug. It deals with the physiological and psychological effects of alcohol use on the user; the impact of that use on those around the user and on society at large; the genetics of alcoholism; and the history of addiction treatment and the formation of Alcoholics Anonymous.

HE-263 Body & Drugs III: Marijuana
3 credits, Not Offered Every Term
The third of a four-course sequence. This course will examine marijuana in all of its forms as a drug and a medicine, as well as its non-drug uses. Explores current research about marijuana’s physiological and psychological effects on the user, as well as its addictiveness. Reviews historical and current medical uses of marijuana and cannabinoids, including an overview of Oregon's Medical Marijuana Program. Reviews Oregon's new “recreational” use legislation. Prerequisites: HE-163

HE-264 Body & Drugs IV: Other Drugs, Other Addictions
3 credits, Not Offered Every Term
The fourth of a four-course offering, this course examines other drugs/addictive behaviors beyond alcohol and marijuana. The class will select the drugs/addictive behaviors (one from each of the following categories: stimulants, depressants, hallucinogens, other drugs/addictions) that they wish to discuss. Students will learn the history and the physiological and psychological impact of the selected drugs. Gambling addiction is a mandatory topic, which is required for the CADC I State certification. Prerequisites: HE-163

HE-265 Other Drugs, Other Addictions
3 credits, Not Offered Every Term
The fourth of a four-course sequence, this course examines the history of legal and illegal drug use; drug classification; the physiological and psychological impact of drugs on the body; and treatment modalities for drug abuse/addiction. This class will also review the stimulant group of drugs.

HE-266 Other Drugs, Other Addictions
3 credits, Not Offered Every Term
The fourth of a four-course sequence, this course examines the history of legal and illegal drug use; drug classification; the physiological and psychological impact of drugs on the body; and treatment modalities for drug abuse/addiction. This class will also review the stimulant group of drugs.

HE-267 Other Drugs, Other Addictions
3 credits, Not Offered Every Term
The fourth of a four-course sequence, this course examines the history of legal and illegal drug use; drug classification; the physiological and psychological impact of drugs on the body; and treatment modalities for drug abuse/addiction. This class will also review the stimulant group of drugs.
HE-277 The Health Coach  
3 credits, Not Offered Every Year  
A focus on the psychological aspects of weight management, as well as more in-depth coverage of the physiology of obesity and the techniques of lifestyle coaching. Students will be prepared to take the ACE certified Health Coach exam with successful completion of the course.

HE-280 Health/CWE  
2-6 credits, Fall/Winter/Spring  
Cooperative work experience. This course is intended to provide the student with learning experience related to his/her career goal(s) in the health-related career fields. Supervision and evaluation of the student’s job performance will be provided by a qualified staff member at Clackamas and the supervisor of the employing institution. Students are required to take an online CWE seminar at the beginning of the term. Corequisites: CWE-281

HOR Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Horticulture/Arboriculture/Landscape/Organic Farming  
Many horticulture classes will transfer as Lower Division Collegiate (LDC) credits to Oregon State University. For additional information contact April Chastain, Horticulture Department Advisor, 503-594-3055.

HOR-111 Horticulture Practicum/Fall  
2 credits, Fall  
Practical experience with seasonal horticulture activities in the areas of container and field nurseries, greenhouses, landscape management and organic food production. Class includes a lab component.

HOR-112 Horticulture Career Exploration  
2 credits, Spring  
This course is a survey of the various career options available to students in the horticulture industry, with emphasis on nursery and greenhouse production, retail nursery, organic fruit and vegetable production, and landscape maintenance/installation. Includes field trips to local businesses. Oregon State University transfer course.

HOR-113 Organic Farming Practicum/Fall  
3 credits, Fall  
Essential organic farming practices, including seasonal activities such as crop rotation, cover cropping, four-season production strategies, edible crop planting, pest management, and tool and equipment operations. Field trips to area farms included. Class lecture, field trips, and lab are essential components of this course. This format has been selected to create a hands-on experience for each student in seasonal crop production. Class includes a lab component.

HOR-115 Horticulture Safety  
1 credit, Fall  
Overview of safe practices in the horticulture workplace which will reduce the chance for accidents and injuries.

HOR-120 Pesticide Laws & Safety  
1 credit, Spring  
Plant protection methods for weed, insect or disease control. Laws and regulations related to safety, handling and storage of pesticides. Techniques for product selection, including chemical and non-chemical options, applicator safety and environmental protection included. Prepare and test for the Oregon Pesticide Laws & Safety exam.

HOR-122 Greenhouse Crops-Potted Plants  
3 credits, Fall  
Environmental influences on plant growth, crop scheduling, greenhouse structures and equipment. Emphasis on foliage and flowering potted plant production. Class includes a lab component.

HOR-123 Landscape Maintenance  
3 credits, Fall  
Principles and practices of sustainable landscape maintenance, plant growth and development, soil-water-fertilizer management, pruning, turf, pest control, diagnosis of problems in trees and shrubs, and maintenance scheduling. Class includes a lab component.

HOR-124 Food Harvest  
3 credits, Fall  
This course provides a basic knowledge of aspects of harvesting, handling, storing and marketing of produce from small-scale, organic operations. Topics include food safety laws and practices, harvest and storage requirements for a variety of crops, factors that impact quality and storage ability, and post-harvest biology. Class includes a lab component.

HOR-125 Food Production in the Willamette Valley  
3 credits, Fall  
Exploration of historical, ethical, practical and scientific aspects of food production systems with a focus on the economic, social and environmental impacts of food and farming. Strengths and weaknesses of the agricultural system over time will be examined.

HOR-126 Landscape Water Features  
1 credit, Not Offered Every Year  
Methods used in building water features with emphasis placed on design, material selection, construction and maintenance considerations. Class includes a lab component.

HOR-127 Landscape Lighting  
1 credit, Not Offered Every Year  
Methods used with lighting in the residential landscape, with emphasis placed on design, material selection, installation and maintenance considerations. Class includes a lab component.

HOR-128 Landscape Stones & Pavers  
1 credit, Not Offered Every Year  
Methods used in building walls, patios and walkways out of stones and pavers, with an emphasis placed on design, material selection, installation and maintenance considerations. Class includes a lab component.

HOR-129 Landscape Decks & Fences  
1 credit, Not Offered Every Year  
Methods used in building wood fences and decking with emphasis placed on design, material selection, construction and maintenance considerations. Class includes a lab component.

HOR-130 Plant Propagation Theory  
3 credits, Winter  
Covers plant anatomy and reproduction techniques of plants from seed, cuttings, grafting, division, and micropropagation. Offers an in-depth overview of propagation systems that may be selected.
HOR-131 Tree & Shrub Pruning  
3 credits, Winter  
Emphasis on dormant pruning of fruiting and ornamental plants. Pruning and training techniques for grapes, fruit trees, and both evergreen and deciduous ornamental trees and shrubs. Basic woody plant anatomy, growth and development. Class includes a lab component.

HOR-133 Horticulture Practicum/Winter  
2 credits, Winter  
Practical experience with seasonal horticultural activities in the areas of container and field nurseries, greenhouses, and landscape management. Class includes a lab component.

HOR-134 Herb Growing & Gardening  
1 credit, Winter  
Study of herb plant propagation and garden use. Garden culture, planning, site requirements and care of plants are covered.

HOR-135 Propagation of Edible Plants  
3 credits, Winter  
Reproduce food plants using a variety of methods, including seed, cutting and grafting techniques. Instruction will focus on methods suitable for sustainable farm operations. Class includes a lab component.

HOR-136 Organic Farming Practicum/Winter  
3 credits, Winter  
Essential organic farming practices, including seasonal activities such as ground preparation, planning for crop production, and irrigation system design and management. Also covers farm business structures, financial management, recordkeeping, and marketing techniques. Field trips to area farms included. Class lecture, field trips, and lab are essential components of this course. This format has been selected to create a hands-on experience for each student in seasonal crop production. Class includes a lab component.

HOR-137 Turf Installation & Maintenance  
2 credits, Spring  
Installation and maintenance practices for turfgrasses commonly used in landscapes. Emphasizes sustainable maintenance practices, installation, irrigation, pest identification and pest control. Class includes a lab component.

HOR-138 Fruit & Berry Growing  
3 credits, Summer  
Regionally appropriate fruit and berry production practices that are suitable for urban areas and small farms. Class will utilize the Home Orchard Society’s demonstration orchard located on campus. Class includes a lab component.

HOR-139 Organic Farming Practicum/Spring  
4 credits, Spring  
Essential organic farming practices, including seasonal activities such as production of transplants, direct seeding, weed control strategies, building raised beds in the field, equipment operations, and soil, water and fertilizer management. Also covers preparation of the finished crop for market, transportation, display and marketing. Field trips to area farms included. Class lecture, field trips, and lab are essential components of this course. This format has been selected to create a hands-on experience for each student in seasonal crop production. Class includes a lab component.

HOR-140 Soils  
3 credits, Spring  
Soil characteristics and management, including nutritional elements and the relationship between the soil and plant growth.

HOR-141 Organic Farming Practicum/Spring  
4 credits, Spring  
Essential organic farming practices, including seasonal activities such as production of transplants, direct seeding, weed control strategies, building raised beds in the field, equipment operations, and soil, water and fertilizer management. Also covers preparation of the finished crop for market, transportation, display and marketing. Field trips to area farms included. Class lecture, field trips, and lab are essential components of this course. This format has been selected to create a hands-on experience for each student in seasonal crop production. Class includes a lab component.

HOR-142 Greenhouse Crops/Bedding Plants  
3 credits, Spring  
Detailed study of environmental influences on individual crops, their requirements, scheduling, including annual, biennial, and perennial plant production. Class includes a lab component.

HOR-143 Horticulture Practicum/Spring  
2 credits, Spring  
Practical experience with seasonal horticultural activities in the areas of container and field nurseries, greenhouses and landscape management. Class includes a lab component.

HOR-144 Aquaponics  
1 credit, Spring  
Aquaponics is a food production system that combines aquaculture with hydroponics. A variety of systems will be evaluated, so students can decide which is most appropriate for their scale, interests, and intentions. Topics include greenhouse environment, system components, fish species selection and health, water quality management, vegetable crops selection, and how to meet the nutritional needs of plants with fish waste. This class includes a lab component.

HOR-145 Turf Installation & Maintenance  
2 credits, Spring  
Installation and maintenance practices for turfgrasses commonly used in landscapes. Emphasizes sustainable maintenance practices, installation, irrigation, pest identification and pest control. Class includes a lab component.

HOR-146 Fruit & Berry Growing  
3 credits, Summer  
Regionally appropriate fruit and berry production practices that are suitable for urban areas and small farms. Class will utilize the Home Orchard Society’s demonstration orchard located on campus. Class includes a lab component.

HOR-147 Farm Equipment  
3 credits, Spring  
Identification and utilization of small-farm food crop production tools. Emphasis is on tools and techniques which result in high quality crops, efficient use of labor and capital resources, and protection of the natural environment. Class includes a lab component.

HOR-148 Integrated Pest Management  
3 credits, Winter  
Learn the components of, and develop an Integrated Pest Management (IPM) plan for landscape, nursery, greenhouse or agricultural industries. The plan will incorporate pest detection, control practices and an evaluation of effectiveness.

HOR-149 Aquaponics  
1 credit, Spring  
Aquaponics is a food production system that combines aquaculture with hydroponics. A variety of systems will be evaluated, so students can decide which is most appropriate for their scale, interests, and intentions. Topics include greenhouse environment, system components, fish species selection and health, water quality management, vegetable crops selection, and how to meet the nutritional needs of plants with fish waste. This class includes a lab component.

HOR-211 Native Plant Identification  
1 credit, Summer  
Identification and use of plants native to the Pacific Northwest and the use of plant keys.

HOR-212 Flower Arranger’s Garden/Fall  
2 credits, Fall  
Learn to identify and use organic methods to grow fall season plants which are suitable for use as cut flowers and foliage. Includes basic floral design and visits to local cutting gardens. Ideal for garden designers, home gardeners, and growers of commercial cutting gardens. Class includes a lab component.

HOR-213 Computer-Aided Landscape Design  
3 credits, Not Offered Every Year  
Develop skills with Computer-aided design (CAD) software for creating landscape designs. Practice techniques utilized in common CAD programs used in the landscape industry. Prerequisites: HOR-229. Recommended: CS-091 or placement in CS-120

HOR-214 Herbaceous Perennials  
3 credits, Spring  
The identification, propagation, selection and garden culture as well as individual attributes of herbaceous perennial plants, including the evolution of perennial garden design and current gardening styles. Class includes a lab component.

HOR-215 Integrative Pest Management  
3 credits, Winter  
Learn the components of, and develop an Integrated Pest Management (IPM) plan for landscape, nursery, greenhouse or agricultural industries. The plan will incorporate pest detection, control practices and an evaluation of effectiveness.
**HOR-220 Plant Propagation/Fall**  
3 credits, Fall  
Proper techniques for reproducing plants from seeds, cuttings, and grafting. Emphasis on seasonal plant production. Class includes a lab component.

**HOR-222 Horticultural Computer Applications**  
2 credits, Winter  
Utilizes database, spreadsheet, word processing, PowerPoint, social media and other computer programs for record keeping and management and marketing for horticulture businesses. Prerequisites: CS-091 or placement in CS-120

**HOR-223 Applied Plant Science**  
4 credits, Fall  
An overview of the practical aspects of plant growth and development, classification systems, plant breeding and environmental factors that impact plant growth.

**HOR-224 Landscape Installation**  
3 credits, Fall  
Materials and practices in landscape installation, including plan reading, materials take-off, estimating, bidding, scheduling, grading, construction materials, and plant installation. Class includes a lab component.

**HOR-225 Arboriculture I**  
3 credits, Winter  
Management of trees in residential, commercial, and urban landscapes. Follows course materials prepared by the International Society of Arboriculture (ISA). Topics covered include tree anatomy, selection, installation, response to damage, soil characteristics, pruning techniques and diagnosis of pest problems. Prepares student for Arboriculture II.

**HOR-226 Plant Identification/Fall**  
4 credits, Fall  
Identification of deciduous trees, shrubs, and groundcovers, including their cultural requirements in the landscape, for fall plants. Oregon State University transfer course.

**HOR-227 Plant Identification/Winter**  
4 credits, Winter  
Identification of conifers and broadleaf evergreens, shrubs, and groundcovers, including their cultural requirements in the landscape, for winter plants.

**HOR-228 Plant Identification/Spring**  
4 credits, Spring  
Identification of flowering trees, shrubs, and groundcovers, including their cultural requirements in the landscape, for spring plants. Oregon State University transfer course.

**HOR-229 Introduction to Landscape Design**  
3 credits, Not Offered Every Year  
Introduction to landscape planning, including basic drafting skills, grading, drainage, and site planning. Class includes a lab component.

**HOR-230 Equipment Operation & Maintenance**  
2 credits, Winter  
Selection, operation, and maintenance of power driven machines, such as mowers, rototillers, chain saws, edgers, sprayers, tractors, and related equipment for nursery and landscape applications. Class includes a lab component.

**HOR-231 Irrigation Design**  
3 credits, Winter  
Principles of irrigation system design for various situations, including underground, above-ground, residential, commercial, and urban farm systems.

**HOR-232 Commercial Floral Design**  
3 credits, Not Offered Every Year  
This course covers design techniques used by florists to create arrangements, corsages, and bouquets using fresh flowers. Cut flower conditioning and handling, pricing and sales strategies will also be covered. Class includes a lab component.

**HOR-234 Intermediate Landscape Design**  
3 credits, Not Offered Every Year  
Further skill development in drawing, site analysis, and design, including two, three, and four dimensional design concepts. Graphic exercises and model making skills will be included as well as the study of creative and practical solutions for various site and program requirements of commercial and residential landscape sites. Class includes a lab component.

**HOR-235 Weed Identification**  
2 credits, Fall  
Identification and life cycles of weeds commonly found in landscapes and nurseries.

**HOR-236 Insect Identification**  
2 credits, Fall  
Develop skills to identify common insects which are important in greenhouse/nursery production, landscapes and food production.

**HOR-237 Disease Identification**  
2 credits, Winter  
Identification of ornamental plant diseases which occur in greenhouses, landscapes, nurseries and farms.

**HOR-239 Tree Climber Training**  
1 credit, Winter  
The safe use of rope and saddle tree climbing procedures will be covered through lecture, discussion, and field practice. For beginner to moderately experienced climbers.

**HOR-240 Irrigation Practices**  
3 credits, Spring  
Materials, equipment, and methods used to install irrigation systems in landscape areas. Emphasis is on home lawns, gardens, and larger areas.

**HOR-241 Nursery Management**  
3 credits, Not Offered Every Year  
Essentials of nursery practices, including containers and field growing practices, crop scheduling, management, and marketing.

**HOR-242 Plant Propagation/Spring**  
2 credits, Not Offered Every Year  
Proper techniques for reproducing plants from cuttings, division, micropropagation and budding. Emphasis on seasonal plant production. Class includes a lab component.

**HOR-244 Environmental Landscape Design**  
3 credits, Winter  
Overview of landscape design features that will benefit the natural environment, provide habitat for wildlife and require minimal inputs of energy, water and other materials. Includes basic design concepts, terminology and techniques, as well as ideas for marketing of sustainable designs. Class includes a lab component.

**HOR-246 Organic Farming and Gardening**  
2 credits, Spring  
Overview of the fundamental principles and practices of organic fruit and vegetable production in the Pacific Northwest. Class includes a lab component. Oregon State University Transfer course.
HOR-248 Flower Arranger’s Garden/Spring
2 credits, Not Offered Every Year
Learn to identify and use organic methods to grow spring season plants which are suitable for use as cut flowers and foliage. Includes basic floral design and visits to local cutting gardens. Ideal for garden designers, home gardeners, and florists. Class includes a lab component.

HOR-250 Western Herbs
2 credits, Fall
This course introduces students to herbs, some of which may be grown locally. Instruction will focus on the components of herbs and uses of each specific herb.

HOR-251 Herbal Products
1 credit, Winter
Instruction in making herbal teas, skin lotion, tincture, infused oil, vinegar, spritzers and herbal mixes. Further instruction in what specific ingredients to use, how to use them properly, and why each is important. This class includes a lab component.

HOR-252 Kitchen Herbs
1 credit, Spring
Instruction will focus on how to use common herbs, and spices in a variety of edible forms. Class includes a lab component.

HOR-260 Arboriculture II
3 credits, Fall
Evaluation, assessment and management of trees in the urban environment. Covers monetary and ecosystem values for trees, property development considerations, tree appraisals, tree inventories, risk assessments, and crew management. Together with Arboriculture I, this class will prepare students for passing the ISA Certified Arborist exam. Prerequisites: HOR-225

HOR-261 Tree Diagnostics
2 credits, Spring

HOR-262 Treework Practicum I
2 credits, Fall
Experience with the implementation of basic requirements, equipment and techniques employed by arborists who work aloft. Covers personal protective equipment, safe operation, and common cutting techniques in accordance with current industry standards. Students operate chainsaws in a variety of field exercises, and will gain exposure to other pieces of industry equipment, such as chipper, truck and trailer, and aerial lift. Students will participate as members of a crew, gaining introductory experience in tree pruning, rigging, hardware installation, electrical hazard awareness, aerial rescue, ground work, and work site management. Prerequisites: HOR-115, HOR-131, and HOR-239

HOR-263 Plant Health Care Practicum
2 credits, Spring
Experience with the implementation of basic requirements and techniques employed by Plant Health Care Technicians who work on tree crews. Covers personal protective equipment, safe operation, routine maintenance and common techniques in accordance with current industry standards. Students will perform ground related activities, gaining experience in spray techniques, chipper operation, driving truck with chipper, interpretation of water audits, hazard tree identification, evaluation of key plants in the landscape, fertilization, customer education/communication and work site management. Class is a lab. Prerequisites: HOR-115, HOR-131, HOR-216, HOR-236, and HOR-237. Corequisites: HOR-120

HOR-264 Treework Practicum II (Aerial)
2 credits, Fall
Experience with the implementation of intermediate requirements, using equipment and techniques employed by arborists who work aloft. Reinforces personal protective equipment, safe operation, and common cutting techniques in accordance with current industry standards. Students operate chainsaws in a variety of field exercises, and will gain exposure to other pieces of industry equipment, such as chipper, truck and trailer, and aerial lift. Students will participate as members of a crew, gaining additional experience in tree pruning, rigging, hardware installation, electrical hazard awareness, aerial rescue, ground work, and work site management. Prerequisites: HOR-262

HOR-280 Horticulture/CWE
3 credits, Fall/Winter/Spring/Summer
On-the-job experience in the various segments of horticulture. Students are allowed to enroll in CWE after completing nine credits of horticulture courses. May be repeated for up to 6 credits. Required: Students are expected to work a minimum of 108 job site hours. Corequisites: CWE-281

HOR-281 Horticulture/CWE
6 credits, Fall/Winter/Spring/Summer
On-the-job experience in the student’s major course of study. Students are allowed to enroll after completing nine credits of horticulture courses. May be repeated for up to 6 credits. Required: Students are expected to work a minimum of 216 job site hours. Corequisites: CWE-281

HOR-282 Horticulture/CWE
3 credits, Fall/Winter/Spring/Summer
On-the-job experience in the student’s major course of study. Students are allowed to enroll after completing nine credits of horticulture courses. May be repeated for up to 6 credits. Required: Students are expected to work a minimum of 108 job site hours. Corequisites: CWE-281

HOR-284 Organic Farming - Campus Farm/CWE
3 credits, Summer
Experiential learning of organic farming techniques, while working on the Campus Farm. Students learn ecological and sustainable practices, principles and management strategies, and will participate in marketing the produce. Students may enroll in course after completing nine credits of Organic Farming courses. Class includes a lab component. Required: Students are expected to work a minimum of 108 job site hours. Corequisite: CWE-281

HOR-285 Organic Farming/CWE
6 credits, Not Offered Every Year
On-the-job experience in the student’s major course of study. Students are expected to work a minimum of 108 job site hours. May be repeated for up to 6 credits. Required: Students are expected to work a minimum of 108 job site hours. Corequisites: CWE-281
HOR-290 Special Topics in Horticulture
1-3 credits, Winter
This course gives students an opportunity to gain knowledge in a specific area relevant to the field of horticulture, landscaping, arboriculture or organic farming. This topic will be pulled from a comprehensive list of areas identified by horticulture professionals as having importance for students pursuing work in the field. Credits may vary from 1-3. May be repeated for up to 6 credits.

HPD
Courses with this prefix do not transfer to a four-year institution. Courses are intended to maintain or upgrade current certification/licensure or to acquire, or renew professional certifications.

Health Professional Development
HPD-101 Phlebotomy for Healthcare Professionals
1 credit, Not Offered Every Term
Course is designed to instill a basic understanding of blood collection and specimen handling techniques used in ambulatory and medical center laboratories. Patient and personal safety techniques using Universal and Standard precautions will be observed and required for success in the course. Emphasis will also be placed on professionalism in the workplace. The students will collect blood samples on their lab partners through-out the term.

HPD-200 Critical Care Training Program
8 credits, Spring
This course presents the student with an introductory overview related to the care of the critically ill or injured patient. During this course the student will have the opportunity to learn the nursing care, as well as medical management, of the critically ill or injured patient with advanced cardiac, respiratory, neurological, renal, gastrointestinal and/or endocrine conditions. Application of this knowledge in the clinical lab, simulation lab as well as the clinical setting will also be part of this course. Required: Must be a licensed Registered Nurse (RN)

HPE
Health/Physical Education
HPE-295 Health & Fitness for Life
3 credits, Fall/Winter/Spring
This course explores interaction of physical fitness and health. Meets three hours a week for personal fitness assessment and three hours of classroom sessions. Related topics include: nutrition, stress reduction, relaxation techniques, goal setting, and weight control. Recommended: A completed physical by a doctor

HS
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Human Services
HS-100 Introduction to Human Services
3 credits, Fall
This course will focus on the interpersonal skills, personal values, attitudes and knowledge necessary to become an effective human services worker. Also covers the history of human service work in the US, and the current status of social service provision.

HS-103 Ethics for Human Service Workers
2 credits, Winter
Explores the professional issues students will face when in a helping relationship. Introduces the professional code of ethics associated with the helping professions. Addresses solving ethical dilemmas using professional guidelines. Topics include client rights, confidentiality, professional boundaries, legal issues in helping, competence, and cultural diversity.

HS-104 Using Diagnostic Criteria in Addiction Treatment
1 credit, Not Offered Every Term
This course will present an overview of The ASAM (American Society of Addiction Medicine) Criteria and the DSM (Diagnostic and Statistical Manual) criteria related to addiction and substance abuse. Students will gain familiarity with the use of the ASAM Criteria to enhance the use of multidimensional assessments to develop patient-centered service plans. Students will also gain knowledge about the use of the DSM Manual to guide diagnosis and treatment of addiction.

HS-130 Introduction to Hospice Care
3 credits, Not Offered Every Term
For individuals, families, and professionals interested in learning about hospice care for the terminally ill. Issues include death, dying, and bereavement, with attention to psycho-social need, pain and symptom control, delivery of medical care, family dynamics, and philosophical and ethical questions. Required: Must be at least 18 years of age to attend. Recommended: For gerontology students or allied health students

HS-154 Community Resources
3 credits, Winter
Explores local community social service resources. Identifies services, eligibility criteria, mission, policies, political agencies, identification of client needs, various referral processes, and historical, political and social trends.

HS-156 Conducting Human Service Interviews
3 credits, Winter/Spring
Provides the specific techniques required for entry-level interviewing in human service settings. Addresses issues raised in working with clients from diverse backgrounds.

HS-170 Preparation for Field Experience in Human Services
3 credits, Spring
Exploration of Human Services in the workplace and organizations, including work stress, supervision, ethics, cultural diversity, and social responsibility. Prerequisites: HS-100 or HS-154 and Student Petition
HS-211 Infectious Diseases and Harm Reduction
1 credit, Winter
This course will explore the relationship between substance abuse and infectious diseases, and discuss methods for reducing transmission of these diseases. Diseases will include HIV/AIDS, tuberculosis, hepatitis, and sexually transmitted infections. This course will provide students with techniques for assisting clients with assessing risk, practicing harm reduction, and evaluating treatment options.

HS-216 Group Counseling Skills
3 credits, Spring
This course provides students with strategies and skills for group work with a variety of clients. Explores leadership styles and skills, group formation and stages, and the ethics of working with groups. Will address knowledge needed to develop, run, and evaluate groups for a variety of human service topics, including substance abuse. Theories of therapeutic group work will also be discussed.

HS-232 Case Management
3 credits, Spring
Introduces case management techniques used by corrections and human services professionals in one-on-one and group contacts with clients. Explores a variety of case management materials, with an emphasis placed upon objective case planning and monitoring. Prerequisites: CJA-130 or HS-100 with a C or better

HS-256 Advanced Interviewing Skills With Theory
3 credits, Fall
This course is designed to help human service students further develop and deepen their skills and understanding of interviewing in the human services field. Course will build on skills learned in HS-156, incorporating the use of behavior change theories to guide the helping process. Prerequisites: HS-156 with a C or better

HS-260 Victim Advocacy & Assistance
4 credits, Fall/Spring
Provides basic skills for working with a diverse group of crime victims, including, but not limited to, victims of homicide, sexual assault, child abuse and domestic violence. Topics covered include: theories of victimology, victim's rights evolution, crisis intervention, stress reactions and post-traumatic stress syndrome.

HS-280 Human Services Generalist I: CWE/Practicum
2-6 credits, Fall/Winter/Spring/Summer
Cooperative Work Experience. Supervised experience in human services including but not limited to: social service; early childhood care; criminal/ juvenile justice; gerontology; and other occupations. Prerequisites: HS-170. Corequisites: CWE-281

HS-281 Human Services Generalist II: CWE/Practicum
2-6 credits, Fall/Winter/Spring/Summer
Cooperative Work Experience level II. Supervised experience in human services including but not limited to: social service; early childhood care; criminal/ juvenile justice; gerontology; and other related occupations. Prerequisites: HS-170. Corequisites: CWE-281

HS-282 Human Services Generalist III: CWE/Practicum
2-6 credits, Fall/Winter/Spring/Summer
Cooperative Work Experience level III. Supervised experience in human services including but not limited to: social service; early childhood care; criminal/ juvenile justice; gerontology, and other related occupations. Prerequisites: HS-170. Corequisites: CWE-281

HST

History

HST-101 History of Western Civilization
4 credits, Fall/Winter
Origins and development of Western Civilization with a primary focus on Europe from ancient times to ca. 1300. Recommended: WRD-090 or placement in WRD-098

HST-102 History of Western Civilization
4 credits, Winter/Spring
Origins and development of Western Civilization with an emphasis on Europe from ca. 1300 to 1800. Recommended: WRD-090 or placement in WRD-098

HST-103 History of Western Civilization
4 credits, Fall/Spring
Development of Western civilization with an emphasis on Europe from the 19th century to the present. Recommended: WRD-090 or placement in WRD-098

HST-130 Oddballs and Outcasts in Western Civilization
4 credits, Winter
Explores the topic of how oddballs and outcasts from ancient Greece to the present shaped Western civilization and places them in the political, social, economic, intellectual and cultural frameworks of their time. Recommended: WRD-090 or placement in WRD-098

HST-131 History of Crime & Punishment in Western Civilization
4 credits, Winter
Explores the topics of crime and punishment in Western civilization from ancient Greece to the present and places them in the political, social, economic, intellectual and cultural trends of each time period. Recommended: WRD-090 or placement in WRD-098

HST-132 History of Language and the Written Word in Western Civilization
4 credits, Spring
Explores the topic of language and the written word in Western civilization from ancient Greece to the present and places them in the political, social, economic, intellectual, and cultural trends of each time period. Recommended: WRD-090 or placement in WRD-098

HST-136 History of Popular Culture, Entertainment & Sports in Western Civilization
4 credits, Not Offered Every Year
Explores the topics of popular culture, entertainment and sports in Western civilization from ancient Greece to the present and relates them to the political, social, economic, intellectual, and cultural trends of each time period. Recommended: WRD-090 or placement in WRD-098

HST-137 History of Science, Medicine & Technology in Western Civilization
4 credits, Not Offered Every Year
Explores the topics of popular culture, entertainment and sports in Western civilization from ancient Greece to the present and relates them to the political, social, economic, intellectual, and cultural trends of each time period. Includes an examination of the biographies of prominent scientists, doctors and engineers. Recommended: WRD-090 or placement in WRD-098

www.clackamas.edu
HST-138 History of Love, Marriage and the Family In Western Civilization
4 credits, Not Offered Every Year
Examines the concept of love and the institutions of marriage and the family in western civilization from ancient Greece to the present. Includes a consideration of the ideas of prominent thinkers, artists and political leaders. Recommended: WRD-090 or placement in WRD-098

HST-201 History of the United States
4 credits, Fall
Covers the period in American history from first European contact to the Age of Jackson. Prerequisite or Corequisite: WRD-098 or placement in WR-121. Recommended: Sequence of HST-201, HST-202, and HST-203 is taken in order

HST-202 History of the United States
4 credits, Winter
Covers the period of United States history from the Age of Jackson to World War I. Prerequisite or Corequisite: WRD-098 or placement in WR-121. Recommended: Sequence of HST-201, HST-202, and HST-203 is taken in order

HST-203 History of the United States
4 credits, Spring
Covers the period of United States history since World War I. Prerequisite or Corequisite: WRD-098 or placement in WR-121. Recommended: Sequence of HST-201, HST-202 and HST-203 is taken in order

HST-220 Introduction to Oral History
4 credits, Not Offered Every Year
Course covers the origins and development of oral history as an academic discipline, with explorations of key oral history documents and projects over the last century. Also covers methods, techniques, ethics, and best practices in the production of an oral history project. Each class completes oral history interviews with local residents in regards to a specific time period in the 20th century American history. Prerequisite or Corequisite: WRD-098 or placement in WR-121

HST-280 History/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides students with on-the-job work experience in the field of history. Corequisites: CWE-281

HUM

Humanities

HUM-160 Faith & Reason
5 credits, Fall/Winter/Spring
Introduction to classical philosophy, sacred texts, modern fiction, poetry, theology, evolutionary biology, and cosmology. Consideration of how personal concepts of faith and reason and institutions of science and religion, shape personal intellectual landscapes. Recommended: WRD-090 or placement in WRD0-098

HUM-170 Metamorphoses
5 credits, Not Offered Every Year
Investigates the process of change within human cultures and individuals. By exploring myth, science, art, religion, and literature, we approach a better understanding of the ability of humans to change. Recommended: WRD-098 or placement in WR-121

HUM-171 Metamorphoses
5 credits, Not Offered Every Year
Investigates the process of change within human cultures and individuals. By exploring myth, science, art, religion, and literature, we approach a better understanding of the ability of humans to change.

HUM-180 Pathway to Sustainability
5 credits, Fall
Can we create a more sustainable and just world? We will question our assumptions regarding economic models, democracy, our relationships with the environment, as well as our social structures by examining the roots of the current ecological crisis.

HUM-181 Pathway to Sustainability
5 credits, Winter
Can we create a more sustainable and just world? How do socially meaningful changes come about? What are the ecological and social repercussions of the choices we make? Are ecological and social justice concerns linked? This class will explore these questions and others pertaining to current issues in sustainability research and writing.

HUM-182 Pathway to Sustainability
5 credits, Spring
Can we create a more sustainable and just world? What can our personal roles in change be? How can we stimulate local sustainable economies? What analysis is useful in assessing ecological impacts? This third class in the Pathways to Sustainability sequence will explore how personal choices after larger global issues.

HUM-231 Engendered Identities
4 credits, Not Offered Every Term
Examines the various perspectives on the development of gender identities and looks specifically at the ways in which concepts of femininity and masculinity have shaped cultural images, identities and experiences cross-culturally, globally and historically. Recommended: WRD-098 or placement in WR-121

HUM-233 Electronic Culture
4 credits, Spring
An introduction to the interdisciplinary field of electronic culture, focusing on the use of electronic computer technology by individuals and groups. Examines transformation of self, identity, communication, and development of electronic communities and subcultures. Recommended: WRD-098 or placement in WR-121

HUM-235 Perspectives on Terrorism
4 credits, Not Offered Every Term
Examines the ways in which different academic disciplines in the social sciences and humanities construct historical, psychological, cultural, theological, sociological, and philosophical arguments and themes around the topic of terrorism and terrorist-related issues. Identifies underlying assumptions upon which these arguments and themes are based and considers the cultural expressions they both engender and reflect.
HUM-237 Perspectives on Democracy
4 credits, Not Offered Every Term
This course gives students the opportunity to practice the fundamental keystone of democracy: dialogue. The course will explore the variety of American political thought and philosophies through conversations with others in the community, crossing the political spectrum as well as broaching the lines of urban/rural context, socio-economic class, racial and ethnic identity, gender-sex identification, sexuality, age, religious affiliation and non-affiliation, and spiritual practices. Prerequisites: WRD-098 or placement in WR-121

HUM-240 American Military Conflict: Wars of National Identity
4 credits, Fall
Examines America's wars of national identity, principally the American Revolution and the Civil War. Explores characteristics of such wars, variations over time and space, and shaping influences and impacts on American society and culture, both military and civilian. Recommended: WRD-098 or placement in WR-121

HUM-241 American Military Conflict: Global War
4 credits, Winter
Examines America as a global power in 20th Century conflicts--World Wars I and II, the Cold War and possible future global conflicts. Explores characteristics of global war, variations over time and space, and shaping influences and impacts on American society and culture, both military and civilian. Recommended: WRD-098 or placement in WR-121

HUM-242 American Military Conflict: Asymmetric Warfare
4 credits, Spring
Examines America's military experience in asymmetric conflicts from colonial times to the present. Explores characteristics of asymmetric war, variations over time and space, and impacts on American society and culture, both military and civilian. Recommended: WRD-098 or placement in WR-121

IMT

Industrial Maintenance Technology

IMT-104 Reading Schematics and Symbols
2 credits, Not Offered Every Term
A basic course of study that will develop the student's understanding of reading schematics and symbols through lectures and hands-on examples.

IMT-108 Rigging and Lifting
2 credits, Fall
This course provides instruction in rigging and lifting techniques including usage and inspection of rigging equipment, developing lift plans, anchoring to concrete, and heavy machinery installation. Students will be expected to perform lifts independently and in groups. Prerequisite: MTH-050

IMT-110 Preventative Maintenance
2 credits, Spring
This course will introduce students to the basics of preventative maintenance programs in an industrial environment. Students will learn about how maintenance departments are organized, how projects and tasks are defined and delegated. Topics will include maintenance organization, work order systems, maintenance planning, Scheduling, Quality control, Controlling parts and materials costs. Prerequisite: MTH-050

IMT-120 Industrial Machinery I
3 credits, Winter
This course will introduce students to industrial machinery and power equipment with respect to industrial maintenance. Students will learn the fundamentals of electro-mechanical machinery repair, assembly and disassembly and how to work safely around mechanical equipment and power tools. Topics discussed will include hand and power tools, preventative maintenance, power transmission systems, fasteners and torque. Prerequisite: MTH-050

IMT-139 Principles of Troubleshooting I
2 credits, Winter
Emphasizes theories and practices useful in troubleshooting failures in electrical applications. Focuses on the overall philosophy and strategy of troubleshooting, drawing applications from residential and varied industrial situations. Includes laboratory projects. Recommended: EET-112 or EET-137 or MFG-130

IMT-215 Electromechanical Systems I
2 credits, Fall
This course emphasizes applied electromechanical principles. The theory and application of force, work, torque, energy power and force transformers are explored. Covers motion control systems, basic relay circuits and sensors, stepper and servo motors and power transmission systems. Introductory mechanics areas also covered, including simple machines and an introduction to static and dynamic forces. Prerequisite: EET-137 or MFG-130

IMT-220 Industrial Machinery II
3 credits, Fall
This second course in industrial machinery will focus on advanced concepts in machinery trouble shooting, repair and maintenance. Students will learn about the integration of mechanical, fluid power and electrical systems, their characteristics and repair. Additionally, mechanical concepts of laser shaft alignment, vibration analysis and thermal diagnosis will be covered. Other topics will include electromechanical systems, lock-out tag-out, advanced mechanical diagnosis, motors and motor controls. Prerequisite: IMT-120 and MFG-130

IMT-223 Instrumentation & Controls
3 credits, Winter
Course instruction covers areas of process measurement, control and data acquisition. Common sensors and actuators and their applications are also presented. Recommended: MFG-130 or EET-137

IMT-225 Electromechanical Systems II
3 credits, Fall
This second course in renewable systems will provide in-depth understanding of the technology, economics and policies relevant to each type of energy source. Analysis techniques to evaluate renewable energy applications from a systems design and selection perspective will be presented. Topics include physical operating principles, theoretical vs. actual system output, energy storage, efficiency and cost analysis. Includes hands-on lab exercises. Prerequisite: IMT-215
IMT-233 Programmable Logic Controllers I
3 credits, Spring
Study of basic skills necessary to program, install and maintain industrial control systems utilizing programmable logic controllers. Course content lays a foundation of hardwired relay control systems and components, and then builds on this for an understanding of programmable logic controller (PLC) systems. Recommended: MFG-130

IMT-234 Programmable Logic Controllers II
3 credits, Fall
An advanced course of study that will develop the student’s understanding of Programmable Logic Controllers (PLC) in more detailed Industrial applications through lectures, labs and hands-on examples. This course will emphasize advanced PLC functions and data sets, networking schemes and human machine interfaces. Prerequisite: IMT-233

IMT-239 Principles of Troubleshooting II
2 credits, Fall
Covers advanced applications of diagnosis, maintenance and repair of systems. Also includes preventative maintenance, applied statistical process control and RF power generation. Recommended: EET-139

J

Journalism

J-134 Photojournalism
4 credits, Fall
Introduces the student to photojournalism, emphasizing composition, lighting and creative ways to illustrate a news story through weekly shooting assignments. Recommended: Basic photography skills

J-215 College Newspaper: Writing & Photography
3 credits, Fall/Winter/Spring
Students work as writers, photographers and editors on The Clackamas Print, the college’s student-run newspaper and its website. Students study and produce news stories and news photos. In doing so, they learn different writing styles, photography rules, ethical standards of news gathering and the rights of a free press in a democracy. May be repeated up to six credits. Recommended: Placement in WR-121

J-216 Writing for Media
4 credits, Fall
Introduces students to the fundamentals of writing for various media including journalism, public relations and other communications-related fields. Topics include news gathering, interviewing and media law, with an emphasis on writing for print, broadcast, the web and social media. Recommended: WRD-098 or placement in WR-121

J-220 Introduction to Broadcast Journalism
4 credits, Winter
Offers students interested in Broadcast Journalism the basic skills of writing, reporting, and camera operation for broadcast. Lab component included. Recommended: WRD-098 or placement in WR-121

J-221 Broadcast Journalism
4 credits, Winter
Offers students interested in Broadcast Journalism intermediate skills of broadcast reporting, videography, editing, compression, and uploading for broadcast. Lab component included. Prerequisites: J-220 with a C or better. Recommended: WRD-098 or placement in WR-121

J-222 Advanced Broadcast Journalism
4 credits, Winter
Offers students interested in Broadcast Journalism advanced skills of managing reporters, videographers, and a web presence in a broadcast newsroom. Lab component included. Prerequisites: J-221 with a C or better. Recommended: WRD-098 or placement in WR-121

J-225 Intermediate College Newspaper: Writing & Photography
3 credits, Fall/Winter/Spring
Intermediate news writing and photojournalism for publication in the student-run Clackamas Print and its online media. Generate original story ideas, publish photo essays and complete more complicated interviews on multiple projects in news, arts, sports and opinion writing. Apply media ethics to social, online and print media. Course may be repeated for up to 6 credits. Prerequisites: J-215. Recommended: Placement in WR-121

J-226 Introduction to College Newspaper: Design & Production
4 credits, Fall/Winter/Spring
Offers students interested in newspaper design and production basic skills in writing headlines, designing pages and using Adobe InDesign software to produce the weekly student newspaper, The Clackamas Print. May be repeated for up to 8 credits. Recommended: Placement in WR-121

J-227 Intermediate College Newspaper: Design & Production
4 credits, Fall/Winter/Spring
Offers students interested in newspaper and web design intermediate skills in writing, lay out, photo editing and Adobe InDesign to produce and publish the weekly student newspaper, The Clackamas Print and its website. May be repeated for up to 8 credits. Prerequisites: J-226. Recommended: Placement in WR-121

J-228 Advanced College Newspaper: Design & Production
4 credits, Fall/Winter/Spring
Offers students interested in newspaper design and production advanced skills in news content design, alternative story formats, content flow and management for print and online. Students will produce and publish the weekly student newspaper, The Clackamas Print, and its website. May be repeated for up to 8 credits. Prerequisites: J-227. Recommended: Placement in WR-121

J-211 Mass Media & Society
4 credits, Fall/Winter/Spring
This course takes students through a critical study of the production and consumption of mass media, including television, radio, books, film, newspapers, advertising and the Internet. Students also examine the economic and social organization of mass media, the growth of new media technologies, and the relationship between media and the public. Recommended: WRD-098 or placement in WR-121
J-235 Advanced College Newspaper: Writing & Photography
3 credits, Fall/Winter/Spring
Advanced news writing and photography for publication online, in social media and in the student-run newspaper, The Clackamas Print. Students apply Associated Press style, use journalism ethics and cover a variety of topics and events in words and photos to build their journalism portfolios. Course may be repeated for up to 6 credits. Prerequisites: J-225. Recommended: Placement in WR-121

J-280 Journalism/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides the student with on-the-job experience and training related to public relations. Corequisites: CWE-281

J-280A Public Relations/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides the student with on-the-job experience and training related to public relations. Corequisites: CWE-281

LIB

Library

LIB-101 Introduction to Library Research
1 credit, Fall/Winter/Spring
Trains students in the use of a variety of print and electronic information resources, search tools, and information evaluation. Excellent preparation for term papers and other research assignments. Recommended: CS-090 or equivalent experience

MA

Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Medical Terminology
MA-110 Medical Terminology
3 credits, Fall/Winter/Spring/Summer
This course provides the foundational principles required for understanding medical terms used to communicate effectively within the healthcare field. This includes word meaning and discerning the difference between look-alike and sound-alike words through correct spelling and pronunciation. This course also includes the reading and comprehending of content of medical records and reports. Students will develop the ability to read and comprehend the content of medical records and reports. Through the review of body systems this course includes introductions to disease processes, basic anatomy and physiology and associated terminology. This course is required prerequisite for Medical Assistant and Clinical Laboratory Assistant students.

MA-112 Medical Office Practices
4 credits, Fall
This course focuses on administrative skills performed by the Medical Assistant in the ambulatory care setting. This course will provide a background in medical law and ethics. Students will learn concepts of professionalism, patient confidentiality, telephone etiquette, effective communication, care navigation, medical records maintenance and medical legal requirements pertaining to medical office procedures. Students will become familiar with the legal relationship between healthcare providers and patients. Students will create a professional healthcare resume. Prerequisites: MA-110 and WR-121. Corequisites: BI-120 and MA-145

MA-115 Phlebotomy for Medical Assistants
1 credit, Spring
The focus of this course is to understand appropriate blood specimen procurement techniques using vacutainer, syringe, 'winged infusion/butterfly with syringe and capillary puncture methods and associated safety techniques. Other specifics of the blood specimen testing requirements, such as collection into the correct evacuated tube (additive), specimen handling procedures, collections of newborn screen and collection documentation are also covered; while assuring a safe, confidential and professional environment for the patient, and as the phlebotomy technician. Required: Student must be enrolled in current Medical Assistant cohort. Prerequisites: MA-116, MA-117, MA-117L, MA-118, MA-118L, and MTH-054. Corequisites: MA-115L, MA-119, MA-121, and MA-121L

MA-115L Phlebotomy for Medical Assistants Lab
1 credit, Spring
The focus of this course is to understand appropriate blood specimen procurement techniques using vacutainer, syringe, 'winged infusion/butterfly with syringe and capillary puncture methods and associated safety techniques. Other specifics of the blood specimen testing requirements, such as collection into the correct evacuated tube (additive), specimen handling procedures, collections of newborn screen and collection documentation are also covered; while assuring a safe, confidential and professional environment for the patient, and as the phlebotomy technician. Required: Student must be enrolled in current Medical Assistant cohort. Prerequisites: MA-116, MA-117, MA-117L, MA-118, MA-118L, and MTH-054. Corequisites: MA-115, MA-119, MA-121, and MA-121L

MA-116 Introduction to Medications
4 credits, Winter
Introduces the medical assistant student to the foundational concepts and principles of pharmacology; including the classifications of common medications including: indications for use, desired effect, side effect, adverse effects, and patient education. Related pathophysiology will be discussed. Required: Must be in current MA cohort. Prerequisites: BI-120, MA-110, MA-112, and MA-145. Corequisites: MTH-054, MA-117, MA-117L, MA-118, and MA-118L
MA-117 Clinical Laboratory Procedures I
1 credit, Winter
This theory course is designed to instill a basic understanding of common laboratory terminology and procedures used in a general medical office laboratory to aid the physician in the diagnosis and treatment of disease. Laboratory safety, the prevention of bloodborne disease transmission and scope of practice will be emphasized. First course in the Clinical Laboratory Procedures series. Required: Student must be enrolled in a current Medical Assistant cohort. Prerequisites: BI-120, MA-112, and MA-145. Corequisites: MA-116, MA-117L, MA-118, MA-118L, and MTH-054

MA-117L Clinical Laboratory Procedure I Lab
1 credit, Winter
This laboratory course is designed to instill a basic understanding of common laboratory terminology and procedures used in a general medical office laboratory to aid the physician in the diagnosis and treatment of disease. Laboratory safety, the prevention of bloodborne disease transmission and scope of practice will be emphasized. This is the first course in the Clinical Lab Procedures series. Required: Student must be enrolled in current Medical Assistant cohort. Prerequisites: BI-120, MA-112, and MA-145. Corequisites: MA-116, MA-117, MA-118, MA-118L, and MTH-054

MA-118 Examination Room Techniques
3 credits, Winter
Fundamental theory focusing on the clinical competencies involved in ambulatory care, exam room procedures and related techniques. Special emphasis will be placed on essential principles of diagnostic testing, patient care, documentation and general (trans disciplinary) competencies including the rationale for the equipment used in medication administration and the techniques for oral and parenteral medication administration (excluding IV). Required: Student must be enrolled in current Medical Assistant cohort. Prerequisites: BI-120, MA-112 and MA-145. Corequisites: MA-116, MA-117, MA-117L, MA-118L, and MTH-054

MA-118L Examine Room Techniques Lab
1 credit, Winter
This lab course is designed to instill a basic understanding of common laboratory terminology and procedures used in a general medical office laboratory to aid the physician in the diagnosis and treatment of disease. Laboratory safety, the prevention of blood borne disease transmission and scope of practice will be emphasized. Required: Student Petition. Required: Student must be enrolled in current Medical Assistant cohort. Prerequisites: BI-120, MA-112 and MA-145. Corequisites: MA-116, MA-117, MA-117L, MA-118, and MTH-054

MA-119 Medical Assistant Practicum
9 credits, Winter
Under supervision within the ambulatory care setting, the student will apply both administrative and clinical knowledge and practices as attained within the Medical Assisting course curriculum. Prerequisites: MA-116, MA-117, MA-117L, MA-118, and MA-118L. Corequisites: MA-115, MA-115L, MA-121, and MA-121L

MA-121 Clinical Lab Procedures II
1 credit, Spring
Designed to instill a basic understanding of simple, common laboratory terminology and procedures used in a general medical office laboratory to aid the physician in the diagnosis and treatment of disease. Laboratory safety, the prevention of blood borne disease transmission and scope of practice will be emphasized. Continuation of the Clinical Laboratory Procedures series. Required: Student must be enrolled in current Medical Assistant cohort. Prerequisites: MA-116, MA-117, MA-117L, MA-118, MA-118L, and MTH-054. Corequisites: MA-115, MA-115L, MA-119, and MA-121L

MA-121L Clinical Laboratory Procedures II Lab
1 credit, Spring
This lab course is designed to instill a basic understanding of common laboratory terminology and procedures used in a general medical office laboratory to aid the physician in the diagnosis and treatment of the disease. Laboratory safety, the prevention of bloodborne disease transmission and scope of practice will be emphasized. Continuation of the Clinical Laboratory Procedures series. Required: Student must be enrolled in current Medical Assistant cohort. Prerequisites: MA-116, MA-117, MA-117L, MA-118, MA-118L, and MTH-054. Corequisites: MA-115, MA-115L, MA-119, and MA-121L

MA-121 Management
4 credits, Fall
This course introduces medical assisting students to practical applications for billing medical insurance both manually and electronically. The course is designed to instruct the student in all phases of billing and insurance procedures and entry level Electronic Health Record software for the management of medical records. It also teaches Front Office finance skills including bookkeeping, banking and collections. The students are also introduced to basic ICD-10 Diagnosis and Procedural coding skills. This course is required for medical assistant students. This course does not meet the requirements for Insurance Coder certification. Required: Medical Assistant students only. Prerequisites: MA-110 and WR-121 or WR-121. Corequisites: MA-112 and BI-120
COURSES WITH THIS PREFIX MAY NOT TRANSFER TO A FOUR-YEAR INSTITUTION UNLESS APPLIED AS PART OF THE 12 ALLOWABLE CAREER TECHNICAL CREDITS FOR THE AAOT OR ASOT-BUSINESS

MANUFACTURING

MANUFACTURING TECHNOLOGY
For additional information contact the Manufacturing Department at 503-594-3318.

MET-112 INTRODUCTION TO ENGINEERING AND TECHNOLOGY CAREERS
2 credits, Fall/Winter/Spring
This course is designed to provide an overview of five major engineering disciplines, their subsets and their respective career pathways. This course will also introduce students to the economic, environmental, social, political, ethical, as well as the health and safety realities of the engineering work environment. This course is intended to guide students in making appropriate career choices by exploring the following topics: engineering job demands, earning potential, marketability, licensure, and continuing education requirements.

MET-150 PRINCIPLES OF ENGINEERING - PROJECT LEAD THE WAY
6 credits, Not Offered Every Term
Introduces students to the fields of engineering and manufacturing. Explores various engineering systems and processes and how math, science and technology are used in the engineering problem solving process. Includes concerns about social and political consequences of technological change. This course is part of the national Project Lead the Way curriculum.

MET-151 INTRODUCTION TO ENGINEERING DESIGN - PROJECT LEAD THE WAY
6 credits, Not Offered Every Term
This course emphasizes problem-solving skills by using a design development process. Models of product solutions are created, analyzed and communicated using parametric computer-aided design software. This course is part of the national Project Lead the Way curriculum.

MET-153 COMPUTER-INTEGRATED MANUFACTURING - PROJECT LEAD THE WAY
6 credits, Not Offered Every Term
The course applies the principles of robotics and automation to engineering and manufacturing. Students use Computer Numerical Control (CNC) equipment to produce physical models from three-dimensional Computer Aided Drafting (CAD) files. This course is part of the national Project Lead the Way curriculum.

MET-170 INTRODUCTION TO MANUFACTURING PROCESSES
3 credits, Spring
This is a survey course to introduce students to the fundamental processes that are used to manufacture everyday products. Includes machining, casting, forming, welding, molding, composites and microelectronics fabrication.

MFG Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

MANUFACTURING

The Manufacturing Department has a variety of programs and classes. For additional information contact the Manufacturing Department at 503-594-3318.

MFG-081 CERTIFIED PRODUCTION TECHNICIAN (CPT) - MAINTENANCE AWARENESS
2 credits, Not Offered Every Term
This course provides students exposure to maintenance practices and processes common across multiple manufacturing sectors with a focus on standards for entry-level operator, processor and assembler jobs in the manufacturing and logistics industries. It will prepare students for the Manufacturing Skills Standards Council (MSSC) Certified Production Technician (CPT) Maintenance Awareness exam.

MFG-103 MACHINING FOR THE FABRICATION & MAINTENANCE TRADES
3 credits, Fall/Winter/Spring
This course is an introduction to metal working for welders, fabricators, maintenance personnel and others who need to understand simple machining principles. Students will be introduced to precision measurement with calipers and in preparation for machining. The elementary use of the drill press, band saw, milling machine and lathe, as well as measurement, tapping, chasing and repair. Recommended: MTH-050

MFG-104 PRINT READING
2 credits, Fall/Winter/Spring
Introduction to basic print reading. Students will use the principles of orthographic projection and current industry standards as they apply this knowledge to interpreting manufacturing prints.

MFG-104A PRINT READING FOR INDUSTRY
3 credits, Not Offered Every Term
This course is an introduction to basic print reading. Students will use the principles of orthographic projection and current American Society of Mechanical Engineers (ASME) standards as they apply this knowledge to interpreting manufacturing prints.
MFG-105 Dimensional Inspection  
2 credits, Summer/Winter  
Covers precision measuring tools such as micrometers, dial indicators, gauge blocks, sine bars and other instruments used in quality control of manufactured products. Prerequisites: MFG-104

MFG-106 Advanced Applied Geometric Dimensioning and Tolerancing for Manufacturing  
1-3 credits, Fall/Spring  
Introduces participants to the application of gauging and inspection using Geometric Dimensioning and Tolerancing (GDT). Students will identify inspection equipment and inspect GDT characteristics while experiencing their manufacturing implications. Prerequisites: MFG-104

MFG-107 Industrial Safety & First Aid  
3 credits, Fall/Winter/Spring/Summer  
The Industrial Safety course is designed to provide the student with a basic understanding of safety hazards and first aid in the workplace. Includes eye safety, grinding wheel hazards, electrical/chemical hazards, slips, falls and back injuries. Instruction in Red Cross first aid, Automated External Defibrillator (AED) and CPR.

MFG-109 Computer Literacy for Technicians  
3 credits, Fall/Winter/Spring/Summer  
Introduces participants to the uses of computers in business and industry. Subjects covered include computer platforms, basic hardware, data communication and operating systems. Reviews & uses word processing, spreadsheet and database software for the PC.

MFG-110 Manufacturing Special Projects  
1-9 credits, Fall/Winter/Spring/Summer  
Allows students a great deal of latitude in project selection, design, and production utilizing manual machine tools, CNC machine tools, CAD/CAM and EDMs. A solid understanding of all basic machine tools is expected.

MFG-111 Machine Tool Fundamentals I  
3-9 credits, Fall/Winter/Spring/Summer  
This course is an introduction to machine tool operation, precision measurement and engineering drawings; covers machine tool operations including drill presses, lathes, and milling machines. Includes internal and external threading. May be repeated for up to 9 credit hours. Recommended: MFG-107. Corequisites: MTH-050 and MFG-104

MFG-112 Machine Tool Fundamentals II  
3-9 credits, Fall/Winter/Spring/Summer  
This course is a continuation of machine tool operations. Covers setup and operation of the vertical milling machine and boring techniques on the lathe. Includes surface grinding and selection of abrasive grinding wheels. May be repeated for up to 9 credit hours. Prerequisites: 6 credits of MFG-111. Recommended: MFG-111

MFG-113 Machine Tool Fundamentals III  
3-9 credits, Fall/Winter/Spring/Summer  
Topics include offset boring heads, rotary tables, indexing devices, and taper attachments. Also covers applied technical math, inspection techniques, optical comparators, coordinate measuring machines, and cylindrical grinding. May be repeated for up to 9 credit hours. Prerequisites: 6 credits of MFG-112. Recommended: MFG-111 and MFG-112

MFG-130 Basic Electricity I  
3 credits, Fall  
Explores fundamentals of AC and DC electricity. Includes: atomic structure, direct current, alternating current, Ohm's law, series, parallel, and combination circuits, DC circuit theorems, production of DC voltages, magnetic principles, transformers, motors and generators.

MFG-131 Basic Electricity II  
3 credits, Winter  
Covers application of several theories learned in previous term. Additional topics will include: motors, controls, alignment, pulleys and gears, troubleshooting theory, power distribution and lighting, electrical wiring and schematics. Recommended: MFG-130 and MTH-050

MFG-132 Basic Electricity III  
3 credits, Spring  
This course offers continued study in the control of industrial electric motors. Concepts in the application of relays, motor starters, switches and overload protection are explored from both a practical and theoretical viewpoint. Wiring techniques and electrical devices for residential, commercial and industrial facilities are presented along with hands-on activities. Additional topics include: electrical conductors, installation materials, and the scope of work performed by licensed electricians. Recommended: MFG-130 and MFG-131

MFG-140 Principles of Fluid Power  
3 credits, Winter  
Course provides student with instruction in the use of hydraulics and pneumatics in industry covering the fundamentals of hydraulics, basic components (valves, cylinders, pumps, motors, piping, fluid, fluid conditions, and accessories). Recommended: MTH-050

MFG-200 Introduction to CNC  
1 credit, Not Offered Every Term  
Short course to prepare students to be entry-level CNC machine operators. Covers fundamentals of operation, setup principles and G & M code programming. Students will use hands-on activities on industrial milling and turning centers. Recommended: MFG-200

MFG-201 CNC I: Set-Up and Operation  
4 credits, Fall  
A hands-on class that will teach students how to set-up and operate CNC milling centers. Includes an introduction to basic G&M-code programming. Designed for persons with little or no previous experience. Prerequisites: 3 credits of MFG-112. Prerequisites: MTH-080 and MFG-109. Recommended: MFG-109, MFG-112 and MTH-050

MFG-202 CNC II: Programming & Operation  
4 credits, Summer/Winter  
This course emphasizes the writing of G&M machine codes. Students will learn advanced programming and operations of CNC milling centers and basic programming, set-up, and operation of CNC turning centers. Prerequisites: MFG-201
MFG-203 CNC III: Applied Programming & Operation
3 credits, Fall/Spring
Students work individually or in small groups to design, program, manufacture and test advanced projects using: CNC mills, CNC lathes, Electrical Discharge Machines (EDM) and various software applications. Prerequisites: MFG-202, Recommended: MFG-201 or MFG-204

MFG-204 Computer-Aided Manufacturing I
4 credits, Fall/Spring
This course is an introduction to computer-aided part programming. Students will use CAD/CAM software to generate NC code to produce machined products. Model creation, process verification, code generation, and CAD/CAM integration will be covered. Prerequisites: 3 credits of MFG-112. Prerequisites: MTH-080 and MFG-109. Prerequisite or Corequisite: MFG-201

MFG-205 Computer-Aided Manufacturing II
4 credits, Summer/Winter
This course is the second in the series of three CAD/CAM courses: MFG-204, MFG-205, and MFG-206. The focus is hands-on CNC and manufacturing activities, including Mastercam solids, lathe, and multi-axis. Additional topics will include reverse engineering and post-processing. Class time will be devoted to demonstrations, and in-class projects. Prerequisites: MFG-204

MFG-206 Computer-Aided Manufacturing III
3 credits, Fall/Spring
This course exposes students to advanced CAD/CAM processes, including mill/touch, four and five axis machining, tombstone and work holding concepts. Prerequisites: MFG-205

MFG-209 Programming and Automation for Manufacturing
3 credits, Winter
A high-level computer literacy course for technologists. The focus of this course is on structured computer programming in the Visual Basic language and the application of programming industrial automation. Basic knowledge of the PC required. Recommended: MFG-109

MFG-210 CAM Special Projects
1-4 credits, Not Offered Every Term
Allows students to integrate and improve CNC and CAD/CAM manufacturing skills. Students are assigned a variety of hands-on projects based on their skill level and interest. Recommended: MFG-201 and MFG-204. (May be taken concurrently with MFG-204)

MFG-211 Machine Tool Fundamentals IV
3-6 credits, Fall/Winter/Spring/Summer
Concentrates on CNC setup and operation and on surface grinding. Students will develop and apply their machining skills while creating products in a team environment. Additional topics may include fixture design and cutting mechanics. Prerequisites: 6 credits of MFG-113. Recommended: MFG-104, MFG-105 and MFG-113

MFG-219 Robotics
3 credits, Spring
An introduction to robotics and industrial motion control. Students will be exposed to the operation, programming and applications of a typical FANUC, six-axis industrial robot. Hands-on activities will include manual tech programming, testing with simulation software and programming of advanced movements. Prerequisites: MTH-050 and MFG-209

MFG-221 Materials Science
3 credits, Fall/Winter/Spring
Introduces metallurgy and materials science. Extractive and physical metallurgy will be covered. Specific topics include heat treatment, materials analysis, the iron carbon phase diagram, composites, ceramics and industrial plastics. Recommended: MTH-050

MFG-272 Mastercam Mill II
4 credits, Winter
Students construct three-dimensional geometric models using solids and surface modeling techniques. Students program models using advanced multi-axis programming techniques utilizing all aspects of roughing and finishing. Projects verified with solids toolpath verification. Recommended: MFG-271 or prior experience

MFG-273 Mastercam, Lathe, Mill, Multi-Axis
4 credits, Spring
The fundamentals of Mastercam Lathe and mill/touch toolpaths and provides demonstrations and exercises on new and current programming techniques for advanced mill/touch machining centers. Additionally, the strategic use of multi-axis documentation and set-up sheets will be provided. Some student projects will be machined on state-of-the-art equipment in the advanced manufacturing lab. Recommended: MFG-272

MTH-010 Fundamentals of Arithmetic I
4 credits, Fall/Winter/Spring/Summer
Reviews operations on whole numbers, elementary fraction concepts, operations on decimals, and measurement.

MTH-020 Fundamentals of Arithmetic II
4 credits, Fall/Winter/Spring/Summer
Topics include factors and multiples, operations on fractions, percents, ratios and proportions, powers and square roots, introduction to graphs, signed numbers, and effective study skills. Prerequisites: MTH-010 with a C or better, or placement in MTH-020

www.clackamas.edu
MTH-050 Technical Mathematics I  
4 credits, Fall/Winter/Spring/Summer  
Designed for career-technical students. Topics focus on critical thinking, problem solving, and mathematical communication using applications arithmetic, measurement, geometry, and statistics and probability. Prerequisites: MTH-020 with a C or better, or placement in MTH-050 or higher

MTH-054 Medication Calculations for Medical Assistants  
4 credits, Winter  
Topics include problem solving, ratios and proportions, percents, accuracy and precision of metric, apothecary and household systems of measurement and calculating medication doses. Prerequisites: MTH-020 with a C or better, or placement in MTH-050 or MTH-060

MTH-060 Algebra I  
4 credits, Fall/Winter/Spring/Summer  
Designed for review or for the beginner, this course is an introduction to topics in Algebra. Expressions, equations, inequalities, graphing, and functions are explored. Prerequisites: MTH-020 with a C or better, or placement in MTH-060

MTH-065 Algebra II  
4 credits, Fall/Winter/Spring/Summer  
A second term of topics in Algebra. This course continues the exploration of expressions, equations, and inequalities numerically, symbolically, graphically, and verbally. Prerequisites: MTH-060 with a C or better, or placement in MTH-065

MTH-080 Technical Mathematics II  
3 credits, Fall/Winter/Spring  
This course is the second in a sequence designed for career-technical students. The topics focus on critical thinking, problem solving, and mathematical communication using applications in arithmetic, algebra, geometry, and trigonometry. Prerequisites: MTH-050 with a C or better

MTH-082A Wastewater Math I  
1 credit, Fall  
Quantitative component to understanding wastewater operations. Simple unit conversions, fraction to decimal conversions and more complicated problem solving as applied to wastewater preliminary & primary treatment. Corequisites: WET-110

MTH-082B Waterworks Math I  
1 credit, Fall  
Problem solving for waterworks applications. Introduction to basic algebra and mathematical concepts, conversions and calculations encountered in the waterworks industry. Corequisites: WET-111

MTH-082C Wastewater Math II  
1 credit, Winter  
Quantitative component to understanding analysis and operations of secondary wastewater systems. Flow rate, chemical dosage, treatment plant loading, treatment process efficiency, unit conversion and process control. Prerequisites: MTH-082A and MTH-082B. Corequisites: WET-120

MTH-082D Waterworks Math II  
1 credit, Winter  
Problem solving for waterworks applications. Introduction to contact-time (CT) calculations, how to determine chemical concentrations, the pounds formula, and basic hydraulics. Prerequisites: MTH-082A and MTH-082B. Corequisites: WET-121

MTH-082E Wastewater Math III  
1 credit, Not Offered Every Year  
Basic math for high purity water calculations, how to determine chemical concentrations, the pounds formula, and basic hydraulics. Prerequisites: MTH-082A and MTH-082B. Corequisites: WET-121

MTH-085 College Math Foundations  
4 credits, Fall/Winter/Spring/Summer  
A transfer-level math course for non-science majors, focused on critical thinking, problem solving, and mathematical communication, and accomplished through the topics of Logical Reasoning and Problem Solving, Probability and Statistics, and Financial Math. Prerequisites: MTH-095 or MTH-098 with a C or better, or placement in MTH-111. Recommended: WRD-098 or placement in WR-121

MTH-105 Math in Society  
4 credits, Fall/Winter/Spring/Summer  
A transfer-level math course for non-science majors, focused on critical thinking, problem solving, and mathematical communication, and accomplished through the topics of Logical Reasoning and Problem Solving, Probability and Statistics, and Financial Math. Prerequisites: MTH-095 or MTH-098 with a C or better, or placement in MTH-111. Recommended: WRD-098 or placement in WR-121

MTH-111 College Algebra  
5 credits, Fall/Winter/Spring/Summer  
A transfer course designed for students preparing for trigonometry, statistics, or calculus. The focus is on the analysis of piecewise, polynomial, rational, exponential, logarithmic, power functions and their properties. These functions will be explored symbolically, numerically and graphically in real life applications and mathematical results will be analyzed and interpreted in the given context. The course will also include transformations, symmetry, composition, inverse functions, regression, the binomial theorem and an introduction to sequences and series. Prerequisites: MTH-095 with a C or better, or placement in MTH-111. Recommended: WRD-098 or placement in WR-121

MTH-115 College Algebra  
5 credits, Fall/Winter/Spring/Summer  
A transfer course designed for students preparing for trigonometry, statistics, or calculus. The focus is on the analysis of piecewise, polynomial, rational, exponential, logarithmic, power functions and their properties. These functions will be explored symbolically, numerically and graphically in real life applications and mathematical results will be analyzed and interpreted in the given context. The course will also include transformations, symmetry, composition, inverse functions, regression, the binomial theorem and an introduction to sequences and series. Prerequisites: MTH-095 with a C or better, or placement in MTH-111. Recommended: WRD-098 or placement in WR-121
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Session</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH-112</td>
<td>Trigonometry and Pre-Calculus</td>
<td>5</td>
<td>Fall/Winter/Spring/Summer</td>
<td>A transfer course designed to prepare students for calculus using an AMATYC standards-based approach utilizing the rule of four to analyze elementary functions and applications. Topics include right-triangle trigonometry, trigonometric functions developed from the unit circle, inverse trigonometric functions, using trigonometry to model and solve applications, trigonometric identities, polar functions, parametric functions, and vectors. Prerequisites: MTH-111 with a C or better, or placement in MTH-112. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-205</td>
<td>A Bridge to University Mathematics</td>
<td>3</td>
<td>Winter</td>
<td>MTH-205 is a “bridge course” designed to help students transition from computation-based mathematics to the more proof-based curriculum typical of junior-senior collegiate mathematics-level courses. Topics include: group theory, elementary set theory, proof, and argumentation. Prerequisites: MTH-112 with a C or better or placement into MTH-251</td>
</tr>
<tr>
<td>MTH-211</td>
<td>Fundamentals of Elementary Math I</td>
<td>4</td>
<td>Fall</td>
<td>This course is the first in a sequence of three courses designed to teach students to understand the basic concepts of mathematics and provide ideas for teaching these concepts to elementary school children. Prerequisites: MTH-095 with a C or better or placement in MTH-111. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-212</td>
<td>Fundamentals of Elementary Math II</td>
<td>4</td>
<td>Winter</td>
<td>This course is the second in a sequence of three courses designed to teach students to understand the basic concepts of mathematics and provide ideas for teaching these concepts to elementary school children. Prerequisites: MTH-211 with a C or better. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-213</td>
<td>Fundamentals of Elementary Math III</td>
<td>4</td>
<td>Spring</td>
<td>This course is the third in a sequence of three courses designed to teach students to understand the basic concepts of mathematics and provide ideas for teaching these concepts to elementary school children. Prerequisites: MTH-212 with a C or better. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-214</td>
<td>Fundamentals of Elementary Math IV</td>
<td>4</td>
<td>Fall</td>
<td>This course is the fourth in a sequence of four courses designed to teach students to understand the basic concepts of mathematics and provide ideas for teaching these concepts to elementary school children. Prerequisites: MTH-213 with a C or better. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-231</td>
<td>Elements of Discrete Mathematics</td>
<td>4</td>
<td>Winter</td>
<td>This course is the first in a sequence of courses designed to teach students to understand the basic concepts of discrete mathematics and provide ideas for teaching these concepts to elementary school children. Prerequisites: MTH-112 with a C or better or placement into MTH-251</td>
</tr>
<tr>
<td>MTH-243</td>
<td>Statistics I</td>
<td>4</td>
<td>Fall/Winter/Spring/Summer</td>
<td>This course introduces students to descriptive statistics, observational studies, experiments, elementary probability, random variables, and sampling distributions. Prerequisites: MTH-105, MTH-111, MTH-112, or MTH-251 with a C or better, or placement in MTH-112 or MTH-251 . Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-244</td>
<td>Statistics II</td>
<td>4</td>
<td>Fall/Winter/Spring</td>
<td>The tools learned in Statistics II are used for hypothesis tests and confidence intervals for one and two populations, linear regression, inference about regression, and chi-square tests. Prerequisites: MTH-243 with a C or better. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-251</td>
<td>Calculus I</td>
<td>5</td>
<td>Fall/Winter/Spring/Summer</td>
<td>This course is the first in a four-term sequence designed for students in science, engineering, or mathematics. It will focus on differential calculus. Prerequisites: MTH-112 with a C or better or placement in MTH-251. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-252</td>
<td>Calculus II</td>
<td>5</td>
<td>Fall/Winter/Spring/Summer</td>
<td>This course is the second in a four-term calculus sequence designed for students in science, engineering, or mathematics. It will focus on integral calculus. Prerequisites: MTH-251 with a C or better. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-253</td>
<td>Calculus III</td>
<td>5</td>
<td>Winter</td>
<td>Additional topics in calculus including sequences and series. Prerequisites: MTH-252 with a C or better. Recommended: WRD-098 or placement in WR-121</td>
</tr>
<tr>
<td>MTH-254</td>
<td>Vector Calculus</td>
<td>5</td>
<td>Fall</td>
<td>This course is an introduction to the study of vectors and analytic geometry in three-space, the calculus of vector-valued functions, and the calculus of several variables. Prerequisites: MTH-252 with a C or better</td>
</tr>
<tr>
<td>MTH-256</td>
<td>Differential Equations</td>
<td>4</td>
<td>Summer/Winter</td>
<td>This course is an introduction to the study of first-order differential equations, first-order systems of differential equations, linear systems of differential equations, and applications of these topics. Prerequisites: MTH-252 with a C or better</td>
</tr>
<tr>
<td>MTH-261</td>
<td>Linear Algebra</td>
<td>4</td>
<td>Spring/Summer</td>
<td>An introduction to linear equations in n-space: systems of linear equations, vectors, matrices, matrix operations, linear transformations, linear independence, span, bases, subspaces of n-space, determinants, eigenvalues, eigenvectors, inner products, diagonalization, and applications of these topics. Prerequisites: MTH-252 with a C or better. Recommended: WRD-098 or placement in WR-121</td>
</tr>
</tbody>
</table>
MUP
Music Performance
MUP-100 Individual Lessons: Non-Music Majors
1 credit, Fall/Winter/Spring/Summer
Private lessons for beginners, non-music majors, and students who receive a low rating in MUP 171-191 auditions. Brass, woodwind, percussion, string and keyboard instruments, and voice. May be repeated for up to 6 credits.

MUP-102 Wind Ensemble
2 credits, Fall/Winter/Spring
For non-majors and music majors. Introduction and study of traditional and contemporary band literature. This is the first year of a two-year course of study that includes performance, study of common styles and practices of historically and culturally significant composers/arrangers, and study of historical issues related to the development and performance of band literature. Provides a thorough groundwork in the fundamental ideas, techniques, and practices of band music and ensemble performance. No audition required. Required: Completion of high school or high school performance level. No audition required. Ability to read music and play a band instrument.

MUP-104 Pep Band/Combo-Improv
1 credit, Fall/Winter/Spring
Instrumental performing group concentrating on rock, pop, and contemporary styles in the small to medium-sized group setting. No audition required. May be repeated for up to 8 credits.

MUP-105 Jazz Ensemble
2 credits, Fall/Winter/Spring
For non-majors and music majors. Introduction and study of common “big-band” and small-group jazz styles. This is the first year of a two-year course of study that includes performance, improvisation, musical arranging and writing, study of common styles and practices of historically and culturally significant jazz artists, and study of historical issues related to the development and performance of jazz music.

MUP-121 Choral Ensemble: the Roots Project
1 credit, Fall/Winter/Spring
The Roots Project, formerly known as The Clackamas Chorale, will explore the roots of American music through the rehearsal and performance of spirituals, gospel, work songs, field hollers, Caribbean songs, slave songs and traditional European choral music.

MUP-122 Chamber Choir
2 credits, Fall/Winter/Spring
Select vocal ensemble which rehearses and performs choral music from the Renaissance to the 21st century. Provides preparation for entering professional fields of music and performance. Emphasis on a cappella singing applied to appropriate chamber music. Required: Enrollment by audition. Students wishing to register for chamber choir should have experience reading music OR have prior experience singing in choir. If not, the student will agree to take either MUS-117, Sightreading, MUS-101, 102 or 103, Music Fundamentals or MUS-127, 128 or 129 Keyboard Skills I while registering for Chamber choir. Recommended: A desire to sing in a large and fun ensemble. An interest in exploring the roots of American music.

MUP-125 Vocal Jazz Ensemble: Mainstream
2 credits, Fall/Winter/Spring
Performing ensemble that cultivates musical, professional, and personal growth through rehearsal and performance with rhythm section of jazz, rock, pop, funk, and fusion. Includes study of jazz as it applies to vocal ensemble combined with rhythm section. Emphasis on style, improvisation, and techniques. Enrollment by audition. Required: Students wishing to register for Mainstream should have experience reading music OR have prior experience singing in choir. If not, the student will agree to take concurrently either MUS-117, Sightreading, MUS-101, 102 or 103, Music Fundamentals or MUS-127, 128 or 129 Keyboard Skills I.

MUP-141 College Orchestra
2 credits, Fall/Winter/Spring
Performance and study of orchestral literature. College students may earn credit for playing in one of several approved orchestral groups. Minimum of one performance per term. May be repeated for up to 8 credits.

MUP-150 Contemporary Music Ensemble
1 credit, Fall/Winter/Spring
Studies the development and performance of original compositions through intensive musical collaboration and creation. Required: Must pass proficiency audition.

MUP-158 Chamber Ensemble
1 credit, Fall/Winter/Spring
Rehearsal and performance of traditional and contemporary chamber music (one musician per part). Includes concerts and coaching by area professionals. Highly recommended for music majors. May be repeated for up to 8 credits. First of a two-part series.

MUP-171 Individual Lessons: Piano
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-171J Individual Lessons: Jazz Piano
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability.

MUP-171R Individual Lessons: Rock, Blues, Pop Piano
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability.

MUP-174 Individual Lessons: Voice
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability.
MUP-174J Individual Lessons: Jazz Voice
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability

MUP-175 Individual Lessons: Violin
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-176 Individual Lessons: Viola
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-177 Individual Lessons: Cello
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-178 Individual Lessons: Bass
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-178J Individual Lessons: Jazz Bass
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability

MUP-179 Individual Lessons: Harp
2 credits, Fall/Winter/Spring/Summer
College-level private lessons for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-180 Individual Lessons: Guitar
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-180J Individual Lessons: Jazz Guitar
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability

MUP-180R Individual Lessons: Rock, Blues, Pop Guitar
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability

MUP-181 Individual Lessons: Flute
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-181J Individual Lessons: Jazz Flute
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability

MUP-182 Individual Lessons: Oboe
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-183 Individual Lessons: Clarinet
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-183J Individual Lessons: Jazz Clarinet
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability

MUP-184 Individual Lessons: Saxophone
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-184J Individual Lessons: Jazz Saxophone
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability

MUP-185 Individual Lessons: Bassoon
2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

www.clackamas.edu
MUS-189 Level Performance Ability 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. Required: College-level performance ability. May be repeated for up to 10 credits. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-188J Individual Lessons: Jazz Trombone 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-190 Individual Lessons: Trumpet 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-186 Individual Lessons: Jazz Trumpet 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-186J Individual Lessons: Jazz Trumpet 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-191 Individual Lessons: Percussion 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-188 Individual Lessons: Trombone 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-187 Individual Lessons: French Horn 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-191J Individual Lessons: Jazz Percussion 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-190 Individual Lessons: Tuba 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-189 Individual Lessons: Baritone 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-184J Individual Lessons: Jazz Tuba 2 credits, Fall/Winter/Spring/Summer
College-level private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: College-level performance ability. Corequisites: MUS-189

MUP-204 Pep Band/Combo-Improv 1 credit, Fall/Winter/Spring
Instrumental performing group concentrating on rock, pop, and contemporary styles in the small to medium-sized group setting. No audition required. May be repeated for up to 8 credits.

MUP-205 Jazz Ensemble 2 credits, Fall/Winter/Spring
For non-majors and music majors. Introduction and study of common “big-band” and small-group jazz styles. This is the second year of a two-year course of study that includes performance, improvisation, musical arranging and writing, study of common styles and practices of historically and culturally significant jazz artists, and study of historical issues related to the development and performance of jazz music. Recommended: MUP-202 and MUP-104

MUP-222 Chamber Choir 2 credits, Fall/Winter/Spring
Advanced vocal ensemble which rehearses and performs choral music from the Renaissance to the 21st century. Provides preparation for entering professional fields of music and performance. Emphasis on a cappella singing applied to appropriate chamber music. Required: For vocal music majors. Recommended: Enrollment by audition. Students wishing to register for Chamber Choir should have experience reading music OR have prior experience singing in choir. If not, the student will agree to take either MUS-117 sight reading, MUS-101, 102 or 103 Music Fundamentals or MUS-127, 128, or 129 Keyboard Skills I

MUP-225 Vocal Jazz Ensemble: Mainstream 2 credits, Fall/Winter/Spring
Advanced performing ensemble that cultivates musical, professional, and personal growth through rehearsal and performance with rhythm section of jazz, rock, pop, funk, and fusion. Includes study of jazz as it applies to vocal ensemble combined with rhythm section. Emphasis on style, improvisation, and techniques. Enrollment by audition. Required: Students wishing to register for Mainstream should have experience reading music OR have prior experience singing in choir. If not, the student will agree to concurrently take either MUS-117, Sightreading, MUS-101, 102 or 103, Music Fundamentals or MUS-127, 128 or 129, or MUS-129 Keyboard Skills I

MUP-241 College Orchestra 1-2 credits, Fall/Winter/Spring
Performance and study of orchestral literature. College students may earn credit for playing in one of several approved orchestral groups. Minimum of one performance per term. May be repeated for up to 8 credits.
MUP-258 Chamber Ensemble
1 credit, Fall/Winter/Spring
Rehearsal and performance of traditional vocal and instrumental chamber music (one musician per part). Includes concerts and coaching by area professionals. Highly recommended for music majors. May be repeated for up to 8 credits. Second of a two-part series.

MUP-271 Individual Lessons: Piano
2 credits, Fall/Winter/Spring/Summer

MUP-271J Individual Lessons: Jazz Piano
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-171J (6 credits)

MUP-274 Individual Lessons: Voice
2 credits, Fall/Winter/Spring/Summer

MUP-274J Individual Lessons: Jazz Voice
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-174J (6 credits)

MUP-275 Individual Lessons: Violin
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-175 (6 credits). Corequisites: MUS-189

MUP-276 Individual Lessons: Viola
2 credits, Fall/Winter/Spring/Summer

MUP-277 Individual Lessons: Cello
2 credits, Fall/Winter/Spring/Summer

MUP-278 Individual Lessons: Bass
2 credits, Fall/Winter/Spring/Summer

MUP-278J Individual Lessons: Jazz Bass
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-178J (6 credits)

MUP-279 Individual Lessons: Harp
2 credits, Fall/Winter/Spring/Summer

MUP-279J Individual Lessons: Jazz Flute
2 credits, Fall/Winter/Spring/Summer

MUP-280 Individual Lessons: Guitar
2 credits, Fall/Winter/Spring/Summer

MUP-280J Individual Lessons: Jazz Guitar
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-180J (6 credits)

MUP-280R Individual Lessons: Rock, Blues, Pop Guitar
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-180R (6 credits)

MUP-281 Individual Lessons: Flute
2 credits, Fall/Winter/Spring/Summer

MUP-281J Individual Lessons: Jazz Flute
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-181J (6 credits)
MUP-282 Individual Lessons: Oboe
2 credits, Fall/Winter/Spring/Summer

MUP-283 Individual Lessons: Clarinet
2 credits, Fall/Winter/Spring/Summer

MUP-283J Individual Lessons: Jazz Clarinet
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-183J (6 credits)

MUP-284 Individual Lessons: Saxophone
2 credits, Fall/Winter/Spring/Summer

MUP-284J Individual Lessons: Jazz Saxophone
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-184J (6 credits)

MUP-285 Individual Lessons: Bassoon
2 credits, Fall/Winter/Spring/Summer

MUP-286 Individual Lessons: Trumpet
2 credits, Fall/Winter/Spring/Summer

MUP-286J Individual Lessons: Jazz Trumpet
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-186J (6 credits)

MUP-287 Individual Lessons: French Horn
2 credits, Fall/Winter/Spring/Summer

MUP-288 Individual Lessons: Trombone
2 credits, Fall/Winter/Spring/Summer

MUP-288J Individual Lessons: Jazz Trombone
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-188J (6 credits)

MUP-289 Individual Lessons: Baritone
2 credits, Fall/Winter/Spring/Summer

MUP-290 Individual Lessons: Tuba
2 credits, Fall/Winter/Spring/Summer

MUP-291 Individual Lessons: Percussion
2 credits, Fall/Winter/Spring/Summer

MUP-291J Individual Lessons: Jazz Percussion
2 credits, Fall/Winter/Spring/Summer
Second-year private lessons required for music majors and available to qualified non-majors. End-of-term juried performance mandatory. May be repeated for up to 10 credits. Required: Sophomore-level performance ability. Prerequisites: MUP-191J (6 credits)

MUS

Music

MUS-090 Preparation for Music Theory
2 credits, Summer
This course familiarizes students with terminology and building blocks used in Music Theory. Students who have played in ensembles or sang in choirs, but have not had a formal music theory program before, will find that this course prepares them to succeed in the Music Theory sequence (MUS-111-113).
MUS-101 Music Fundamentals
3 credits, Fall/Winter/Spring
Introduction to fundamentals of reading and writing music. Designed for non-majors or majors needing substantial preparation for Music Theory I. Prerequisites: MUS-101

MUS-102 Music Fundamentals
3 credits, Winter/Spring
Continues an introduction to fundamentals of reading and writing music. Designed for non-majors or majors needing substantial preparation for Music Theory I. Prerequisites: MUS-101

MUS-103 Music Fundamentals
3 credits, Spring
Continuation of an introduction to fundamentals of reading and writing music. Designed for non-majors or majors needing substantial preparation for Music Theory I. Prerequisites: MUS-102

MUS-104 Music Appreciation
3 credits, Fall/Winter/Spring
For non-majors and music majors. Emphasis on engaging in the study of instrumental and vocal musical genres from the ancient period through the contemporary music of our time. Includes critical analysis, study of elements, forms, styles, composers, performers, cultural, and historical issues and events. Recommended: WRD-098 or placement in WR-121

MUS-105 Music Theory I
3 credits, Spring
For non-majors and music majors. Presents the diatonic material and structure of tonal music in theory and practice through written exercises, compositions, listening, and analysis. This is the first term of a three-term sequence that includes concepts of pitch and rhythm, intervals, two voice composition, triads, notation, scoring, and Renaissance practices. Provides a thorough groundwork in the melodic, harmonic, and rhythmic elements of music. Includes study of the practices and styles of Bach, Haydn, Mozart, Beethoven, and other 17th and 18th century composers. Recommended: WRD-098 or placement in WR-121. Recommended: MTH-095 or placement in MTH-111. Corequisite: First year music majors must take MUS-101 concurrently with MUS-111L, MUS-114, and MUS-127. This requirement does not affect non-music majors

MUS-106 Audio Recording At Home
1 credit, Fall/Winter/Spring
An overview of the basic tools and techniques used in audio recording at home. Depending on participant needs, topics may include signal path, microphone applications, software, hardware, outboard gear, soldering techniques, tracking, mixing, and editing.

MUS-107 Introduction to Audio Recording I
3 credits, Fall/Winter/Spring/Summer
Introduction to the basic techniques and tools used in audio recording. Areas of study include signal path, microphone applications, software, hardware, outboard gear, tracking, mixing, and editing.

MUS-108 Introduction to Audio Recording II
3 credits, Fall/Winter/Spring
Exploration of techniques and tools used in audio recording. Analog, digital, and hard drive recording will be explored. Areas of study include multi-tracking, signal path, microphone applications, software, hardware, outboard gear, soldering techniques, tracking, mixing, and editing. Software/hardware includes ProTools, ADAT, Mackie, etc. Prerequisites: MUS-107

MUS-109 Introduction to Audio Recording III
3 credits, Fall/Winter/Spring
Exploration of digital recording/editing software and production of CD project. Advanced exploration of techniques and tools used in audio recording. Areas of study include signal path, microphone applications, software, hardware, outboard gear, tracking, mixing, and editing. Analog, digital, and hard drive recording will be explored. Software/hardware includes ProTools, ADAT, Mackie, etc. Prerequisites: MUS-108

MUS-111L Music Notation Software I
1 credit, Spring
Continues an introduction to Finale (music notation software) on Macintosh computers.

MUS-112 Music Theory II
3 credits, Winter
For non-majors and music majors. Presents the diatonic material and structure of tonal music in theory and practice through written exercises, compositions, listening, and analysis. This is the second term of a three-term sequence that includes tonic/dominant voice leading phrase models, embellishing tones, chorale harmonization, figured bass and Renaissance and Baroque Practices. Provides a thorough groundwork in the melodic, harmonic, and rhythmic elements of music. Includes study of the practices and styles of Bach, Haydn, Mozart, Beethoven, and other 17th and 18th century composers. Required: First year music majors must take MUS-112 concurrently with MUS-113L, MUS-115, and MUS-118. This requirement does not affect non-music majors

MUS-112L Music Theory Software II
1 credit, Winter
Continues an introduction to Finale (music notation software) on Macintosh computers.

MUS-113 Music Theory II
3 credits, Spring
For non-majors and music majors. Presents the diatonic material and structure of tonal music in theory and practice through written exercises, compositions, listening, and analysis. This is the third term of a three-term sequence that includes leading tone and six-four chords, interaction of melody and harmony, diatonic sequences, secondary dominants and leading tone chords, phrase rhythm and motivic analysis, and Renaissance and Baroque Practices. Provides a thorough groundwork in the melodic, harmonic, and rhythmic elements of music. Includes study of the practices and styles of Bach, Haydn, Mozart, Beethoven, and other 17th and 18th century composers. Required: First year music majors must take MUS-113 concurrently with MUS-113L, MUS-116, and MUS-129. This requirement does not affect non-music majors. Prerequisites: MUS-112

MUS-113L Music Theory Software III
1 credit, Spring
Continues an introduction to Finale (music notation software) on Macintosh computers.
MUS-114 Aural Skills I
2 credits, Fall
First course in a year-long sequence. Diatonic sight singing in major keys using sol feg syllables and moveable “do.” Melodic dictation and aural recognition of intervals and triads. Corequisites: MUS-111

MUS-115 Aural Skills II
2 credits, Winter
Second of three courses in a year-long sequence. Diatonic sight singing in major keys using sol feg syllables and moveable “do.” Melodic dictation and aural recognition of intervals, triads, and 7th chords. Prerequisites: MUS-114. Corequisites: MUS-112

MUS-116 Aural Skills III
2 credits, Spring
Third of three courses in a year-long sequence. Diatonic sight singing in major keys using sol feg syllables and moveable “do.” Melodic dictation and aural recognition of intervals, triads, and 7th chords. Prerequisites: MUS-115. Corequisites: MUS-113

MUS-117 Sightreading
1 credit, Fall/Winter/Spring
Learning to read and sing music by sight. Students will spend time practicing sight-singing, starting with easy exercises and moving to more difficult exercises as the term progresses.

MUS-127 Keyboard Skills I
2 credits, Fall
Develops basic keyboard skills. Studies keyboard applications of the materials of tonal music. Corequisites: MUS-111

MUS-128 Keyboard Skills II
2 credits, Winter
Develops basic keyboard skills. Studies keyboard applications of the materials of tonal music. Prerequisites: MUS-127. Corequisites: MUS-112

MUS-129 Keyboard Skills III
2 credits, Spring
Develops basic keyboard skills. Studies keyboard applications of the materials of tonal music. Prerequisites: MUS-128. Corequisites: MUS-113

MUS-130 Music and Media: Sex, Drugs, Rock & Roll
1 credit, Not Offered Every Term
Explores the relationship of music to economic, political, cultural and artistic subjects. Examines how music serves and is served by pop culture and media, and how media impacts attitudes and behaviors.

MUS-131 Group Piano: Piano for Pleasure
1 credit, Fall
First of three courses in a year-long sequence. Beginning classroom piano instruction for non-music majors. Includes reading, theory, technique, exercises, and the opportunity to share your music with others. All levels welcome, beginners through advanced.

MUS-132 Group Piano: Piano for Pleasure
1 credit, Winter
Second of three courses in a year-long sequence. Beginning classroom piano instruction for non-music majors. Includes reading, theory, technique, exercises, and the opportunity to share your music with others. All levels welcome, beginners through advanced.

MUS-133 Group Piano: Piano for Pleasure
1 credit, Spring
Beginning classroom piano instruction for non-music majors. Includes reading, theory, technique, exercises, and the opportunity to share your music with others. All levels welcome, beginners through advanced.

MUS-134 Group Voice: Anyone Can Sing
1 credit, Fall
Basic vocal techniques for the solo and ensemble singer. For music and non-music majors, voice and music education majors, and/or students who received a low rating on MUP-174 audition.

MUS-135 Group Voice: Anyone Can Sing
1 credit, Winter
Vocal techniques for the solo and ensemble singer. For music and non-music majors, voice and music education majors, and/or students who received a low rating on MUP-174 audition.

MUS-136 Group Voice: Anyone Can Sing
1 credit, Spring
Vocal techniques for the solo and ensemble singer. For music and non-music majors, voice and music education majors, and/or students who received a low rating on MUP-174 audition.

MUS-137 Group Guitar I: Guitar for Dummies
1 credit, Fall/Winter/Spring
For beginning to intermediate players. Covers finger picking, lead guitar, rock and popular styles, music reading, and music theory. Students provide own instrument.

MUS-138 Group Guitar II
1 credit, Winter/Spring
For intermediate to advanced players. Covers finger picking, lead guitar, rock and popular styles, music reading, and music theory. Students provide their own instrument. Prerequisites: MUS-137

MUS-140 Careers in Music
3 credits, Winter
An overview of the music industry career opportunities. Studies include recording studio management/engineering, music merchandising, promotion, music contracting, agent/personal manager, live performing, teaching, technical support, record business, video and film production/editing, retailing, and instrument repair.

MUS-141 Introduction to the Music Business
3 credits, Fall
Explores business basics, songwriting, demos, agents, managers, copyrights, gig and concert promotion, publishing, licensing, and music business structures.

MUS-142 Introduction to Electronic Music I: MIDI
3 credits, Fall/Winter/Spring
Introduction to synthesis, MIDI sequencing, basic musical elements, and the basics of production. Learn how to make beats, songs, etc. Uses common production software/hardware.

MUS-143 Introduction to Electronic Music II: Sequencing, Audio Looping, Sound EFX
3 credits, Fall/Winter/Spring
An introduction to digital audio in the MIDI environment. This course continues MIDI sequencing, and integrates audio into the MIDI environment with audio looping, and spotting sound effects. Uses common production software/hardware. Prerequisites: MUS-142
MUS-144 Introduction to Electronic Music III: Digital Audio
3 credits, Fall/Winter/Spring
Exploration of digital music recording and editing, synthesis, sampling, and sequencing. Presents CD/audio file production techniques integrating digital audio with the MIDI sequence. Uses Pro Tools, and other common production software/hardware. Prerequisites: MUS-143

MUS-145 Introduction to Digital Sound, Video & Animation
1-3 credits, Winter/Spring
An introduction to new media. Includes sound, video, animation, mp3, DVD, and compression technology.

MUS-147 Music, Sound & Moviemaking
1 credit, Fall/Winter/Spring
Presents the basic components of designing, shooting, recording audio, and post production of movies as well as the history and theory that has led to contemporary film production.

MUS-148 Live Sound Engineering
3 credits, Fall/Spring
Introduction to the basic techniques and tools used in live sound engineering and mixing. Areas of study include set up, signal path, microphone applications, hardware, and outboard gear.

MUS-149 Advanced Pro Tools Editing Techniques
1 credit, Not Offered Every Term
Additional advanced training in Pro Tools audio software techniques. The student will learn techniques in audio editing using warp audio, Beat Detective, and other plug-ins not covered in the MUS-107 through MUS-109 series. Prerequisites: MUS-107 or MUS-143 or equivalent

MUS-160 Songwriting I
2 credits, Winter/Spring
Studies the techniques of a working songwriter, including use of form, lyrics, harmonic progressions and symbolism in the creative aspect of songwriting. Solo writing as well as the concept of collaboration are introduced. Participants will work individually and in small groups.

MUS-161 Songwriting II
2 credits, Spring
Songwriting II is a continuation of MUS-160, Songwriting I. Further explores the elements of songwriting, focuses on creating a digital composition portfolio and public performance.

MUS-170 Introduction to Scoring Music for Media
2 credits, Spring
Introduction to the analysis and writing of basic film/video/game music score and spotting music cues. Prerequisites: MUS-102 or MUS-129

MUS-171 Sound Design
2 credits, Winter
This course introduces students to the fundamentals of sound design through a series of practical, hands-on activities. Students will gain an understanding of the skills, tools, and concepts used in the creation and synchronization of sound effects in modern visual media. Through a thorough introduction to sound recording, editing and mixing, audio manipulation, and electronic synthesis, this course will provide students with the knowledge and skills to create unique sound effects using industry standard software like Pro Tools, Propellerhead’s Reason, Ableton Live, Native Instrument’s Reaktor, and other sound design-specific software. Prerequisites: MUS-142

MUS-179 Performance & Repertoire
1 credit, Fall/Winter/Spring
A performance forum required for all students studying privately non-jazz sections at the MUP 171-191 and MUP 271-291 levels. Each student must perform as a soloist on his/her major instrument at least once a term and must be present for performances of classmates. Performers will be critiqued by the instructor. Students will be required to attend approved concerts.

MUS-205 Music Literature: History of Jazz
4 credits, Not Offered Every Term
For non-majors and music majors. Emphasis on engaging in the study of Jazz music and surrounding cultural/historical issues. Includes critical analysis, study of elements, forms, styles, composers, performers, cultural, and historical issues and events. Recommended: WRD-098 or placement in WR-121

MUS-206 Music Literature: History of Rock
4 credits, Fall/Winter/Spring
For non-majors and music majors. Emphasis on engaging in the study of Rock music and surrounding cultural/historical issues. Includes critical analysis, study of elements, forms, styles, composers, performers, cultural, and historical issues and events. An examination of Rock music as a contemporary social medium. Recommended: WRD-098 or placement in WR-121

MUS-211 Music Theory II
3 credits, Fall
For non-majors and music majors. Continuation of the study of harmony and of the material and structure of tonal music in theory and practice through written exercises, compositions, listening, and analysis. This is the first term of a three-term sequence that includes the study of species counterpoint, melodic and rhythmic embellishment, notation and scoring, phrase model review, chord voicing in multiple parts, embellishing tones, and chorale harmonization. Also includes study of harmonic counterpoint and composition in small forms in various 18th, 19th, and 20th century idioms. Prerequisites: MUS-113. Corequisites: MUS-211L, MUS-214, and MUS-224

MUS-211L Music Notation Software II
1 credit, Fall
Advanced use of Finale (music notation software). Prerequisites: MUS-113L. Corequisites: MUS-211

MUS-212 Music Theory II
3 credits, Winter
For non-majors and music majors. Continuation of the study of harmony and of the material and structure of tonal music in theory and practice through written exercises, compositions, listening, and analysis. This is the second term of a three-term sequence that includes the study of cadences, diatonic sequence, secondary dominants, tonicizing, modulation, and binary and ternary forms. Also includes study of harmonic counterpoint and composition in small forms in various 18th, 19th, and 20th century idioms. Prerequisites: MUS-211. Corequisites: MUS-212L, MUS-215, and MUS-225

www.clackamas.edu
MUS-212L Music Notation Software II
1 credit, Winter
Advanced use of Finale (music notation software). Prerequisites: MUS-211L. Corequisites: MUS-212

MUS-213 Music Theory II
3 credits, Spring
For non-majors and music majors. Continuation of the study of harmony and of the material and structure of tonal music in theory and practice through written exercises, compositions, listening, and analysis. This is the third term of a three-term sequence that includes study of modal mixture-color and drama in composition, neapolitan and augmented sixths, popular song and art song, rondo and variation, sonata form and chromaticism. Also includes study of harmonic counterpoint and composition in small forms in various 18th, 19th, and 20th century idioms. Prerequisites: MUS-212. Corequisites: MUS-213L, MUS-216, and MUS-226

MUS-213L Music Notation Software II
1 credit, Spring
Advanced use of Finale (music notation software) and basic use of InDesign (desktop publishing software) on Macintosh computers. Prerequisites: MUS-212L. Corequisites: MUS-213

MUS-214 Keyboard Skills II
2 credits, Fall
Advanced keyboard applications of the materials of diatonic and chromatic music. Prerequisites: MUS-129. Corequisites: MUS-211

MUS-215 Keyboard Skills II
2 credits, Winter
Second course in the sequential second year of advanced keyboard applications covering the materials of diatonic and chromatic music. Prerequisites: MUS-214. Corequisites: MUS-212

MUS-216 Keyboard Skills II
2 credits, Spring
Advanced keyboard applications of the materials of diatonic and chromatic music. Prerequisites: MUS-215. Corequisites: MUS-211

MUS-218 MPT Seminar I
1 credit, Fall
First of a three-part series. For second year MPT students only. Seminar will cover writing, arranging, production, performance and music theory through experiential learning. Students will produce, write and arrange for each CWE/Songwriters concert and will produce the Annual MPT festival each spring. Required: Must be a 2nd year MPT student in good standing. Prerequisites: MUS-103, MUS-109, MUS-113L, and MUP-150

MUS-219 MPT Seminar II
1 credit, Winter
Second in a three-part series. For second year MPT students only. Seminar will cover writing, arranging, production, performance and music theory through experiential learning. Students will produce, write and arrange for each CWE/Songwriters concert and will produce the Annual MPT festival each spring. Prerequisites: MUS-218

MUS-220 MPT Seminar III
1 credit, Spring
Third in a three-part series. For second year MPT students only. Seminar will cover writing, arranging, production, performance and music theory through experiential learning. Students will produce, write and arrange for each CWE/Songwriters concert and will produce the Annual MPT festival each spring. Prerequisites: MUS-219

MUS-224 Aural Skills II
2 credits, Fall
First of three courses in a year-long sequence. Diatonic and chromatic sight singing with sol fei syllables and moveable “do.” Four-part dictation including all chromatic devices studied in Theory II. Prerequisites: MUS-225. Corequisites: MUS-213

MUS-226 Aural Skills II
2 credits, Spring
Third of three courses in a year-long sequence. Diatonic and chromatic sight singing with sol fei syllables and moveable “do.” Four-part dictation including all chromatic devices studied in Theory II. Prerequisites: MUS-225. Corequisites: MUS-213

MUS-230 Music and Media: Sex, Drugs, Rock & Roll
4 credits, Not Offered Every Term
Explores history and development of the pop music, pop culture and media industries in America.

MUS-247 Sound for Media
3 credits, Fall
Introduction to sound as related to film making, animation, and video games. Students will have the opportunity to create and assemble sound for media into a finished product. Explores the basic components of commercial film/video production as they relate to sound.

MUS-280 Music/CWE
2-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Provides students with on-the-job work experience in the field of music. Prerequisites: MUS-107, MUS-140, and MUS-142. Corequisites: CWE-281
NRS
Nursing

NRS-110 Foundations of Nursing-Health Promotion
5 credits, Fall
This course introduces the learner to the framework of the Oregon Consortium of Nursing Education (OCNE) curriculum. The emphasis is on health promotion across the life span including learning about self-health and client health practices. To support self and client health practices, students learn to access research evidence about health lifestyle patterns and risk factors for disease/illness, apply growth and development theory, interview clients in a culturally sensitive manner, work as members of a multidisciplinary team giving and receiving feedback about performance, and use reflective thinking about their practice as nursing students. Populations studied in the course include children, adults, older adults and the family experiencing a normal pregnancy. Includes classroom and clinical learning experiences. Required: Admission into the CCC Nursing Program. Corequisites: NRS-110C

NRS-110C Foundations of Nursing - Health Promotion Clinic
4 credits, Fall
This course introduces the learner to the framework of the OCNE curriculum. The emphasis on health promotion across the life span includes learning about self-health as well as client health practices. To support self and client health practices, students learn to access research evidence about healthy lifestyle patterns and risk factors for disease/illness, apply growth and development theory, interview clients in a culturally sensitive manner, work as members of a multidisciplinary team giving and receiving feedback about performance, and use reflective thinking about their practice as nursing students. Populations studied in the course include children, adults, older adults and the family experiencing a normal pregnancy. Include classroom and clinical learning experiences. Corequisites: NRS-110

NRS-111 Foundations of Nursing-Chronic Illness I
3 credits, Winter
This course introduces assessment and common interventions (including technical procedures) for clients with chronic illnesses common across the life span in major ethnic groups within Oregon. The client’s and family’s “lived experience” of the condition is explored. Clinical practice guidelines and research evidence are used to guide clinical judgments in care of individuals with chronic conditions. Multidisciplinary team roles and responsibilities are considered in the context of delivering safe, high quality health care to individuals with chronic conditions (includes practical and legal aspects of delegation). Cultural, ethical, legal and health care delivery issues are explored through case scenarios and clinical practice. Case exemplars include children with asthma, adolescents with a mood disorder, adults with type 2 diabetes, and older adults with dementia. The course includes classroom and clinical learning experiences. Prerequisites: NRS-110. Corequisites: NRS-230, NRS-232, and NRS-111C

NRS-111C Foundations of Nursing in Chronic Illness I Clinical
3 credits, Winter
This course introduces assessment and common interventions (including technical procedures) for clients with chronic illnesses common across the life span in major ethnic groups within Oregon. The client’s and family’s “lived experience” of the condition is explored. Clinical practice guidelines and research evidence are used to guide clinical judgments in care of individuals with chronic conditions. Multidisciplinary team roles and responsibilities are considered in the context of delivering safe, high quality health care to individuals with chronic conditions (includes practical and legal aspects of delegation). Cultural, ethical, legal and health care delivery issues are explored through case scenarios and clinical practice. Case exemplars include children with asthma, adolescents with a mood disorder, adults with type 2 diabetes, and older adults with dementia. The course includes classroom and clinical learning experiences with simulation experience as part of total clinical hours. Prerequisites: NRS-110. Corequisites: NRS-230, NRS-232, and NRS-111

NRS-112 Foundations of Nursing in Acute Care I
2 credits, Spring
This course introduces the learner to assessment and common interventions (including relevant technical procedures) for care of patients across the lifespan that requires acute care, including natural childbirth. Disease/illness trajectories and their translation into clinical practice guidelines and/or standard procedures are considered in relation to their impact on providing culturally sensitive, client-centered care. Includes classroom and clinical learning experiences. Prerequisites: NRS-111 and NRS-111C. Corequisites: NRS-112C, NRS-231, and NRS-233

NRS-112C Foundations of Nursing in Acute Care I Clinical
4 credits, Spring
This course introduces the learner to assessment and common interventions (including relevant technical procedures) for care of patients across the lifespan who require acute care, including natural childbirth. Disease/illness trajectories and their translation into clinical practice guidelines and/or standard procedures are considered in relation to their impact on providing culturally sensitive, client-centered care. Includes classroom and clinical learning experiences. Required: Admitted CCC Nursing students only. Prerequisites: NRS-111 and NRS-111C. Corequisites: NRS-112, NRS-231, and NRS-233

www.clackamas.edu
NRS-221 Chronic Illness II and End of Life
3 credits, Winter
This course builds on NRS-111 and expands the student's knowledge related to family care giving, symptom management and end-of-life concepts. These concepts are a major focus and basis for nursing interventions with patients and families. Ethical issues related to advocacy, self-determination, and autonomy are explored. Complex skills associated with the assessment and management of concurrent illnesses and conditions are developed within the context of client and family preferences and needs. Skills related to enhancing communication and collaboration as a member of an inter-disciplinary team are further explored. Exemplars include patients with chronic mental illness and addictions as well as other chronic conditions and disabilities affecting functional status and family relationships. The course includes classroom and clinical learning experiences. Prerequisites: NRS-221, NRS-222C, NRS-232, and NRS-233. Corequisites: NRS-221C

NRS-221C Chronic Illness II and End of Life Clinical
6 credits, Winter
This course builds on NRS-111 and expands the student's knowledge related to family care giving, symptom management and end of life concepts. These concepts are a major focus and basis for nursing interventions with patients and families. Ethical issues related to advocacy, self-determination, and autonomy are explored. Complex skills associated with the assessment and management of concurrent illnesses and conditions are developed within the context of patient and family preferences and needs. Skills related to enhancing communication and collaboration as a member of an inter-disciplinary team are further explored. Exemplars include patients with chronic mental illness and addictions as well as other chronic conditions and disabilities affecting functional status and family relationships. The course includes classroom and clinical learning experiences. Prerequisites: NRS-222, NRS-231, NRS-233. Corequisites: NRS-221

NRS-222 Nursing in Acute Care II & End of Life
3 credits, Fall
This course builds on NRS-112 and focuses on more complex and/or unstable patient care conditions, some of which may result in death. These patient care conditions require strong noticing and rapid decision-making skills. Evidence-based practice is used to support appropriate focused assessments, and effective, efficient nursing interventions. Life span and developmental factors, cultural variables, and legal aspects of care frame the ethical decision-making employed in patient choices for treatment or palliative care within the acute care setting. Case scenarios incorporate prioritizing care needs, delegation and supervision, and family and patient teaching for either discharge planning or end-of-life care. Exemplars include acute conditions affecting multiple body systems. Includes classroom and clinical learning experiences. Prerequisites: NRS-112, NRS-231, and NRS-233. Corequisites: NRS-222C

NRS-222C Nursing in Acute Care II and End of Life Clinical
6 credits, Fall
This course builds on NRS-112, and focuses on more complex and/or unstable patient care conditions, some of which may result in death. These patient care conditions require strong noticing and rapid decision making skills. Evidence-based practice is used to support appropriate focused assessments, and effective, efficient nursing interventions. Life span and developmental factors, cultural variable, and legal aspects of care frame the ethical decision-making employed in patient choices for treatment or palliative care within the acute care setting. Case scenarios incorporate prioritizing care needs, delegation and supervision, and family and patient teaching for either discharge planning or end-of-life care. Exemplars include acute conditions affecting multiple body systems. Includes classroom and clinical learning experiences. Prerequisites: NRS-112, NRS-231, and NRS-233. Corequisites: NRS-222

NRS-224 Integrative Practicum
2 credits, Spring
This course is designed to formalize the clinical judgments, knowledge and skills necessary in safe, registered nurse practice. Faculty/Clinical Teaching Associate/Student Triad Model provides a context that allows the student to experience the nursing work world in a selected setting, balancing demands of the job and lifelong learner. Analysis and reflection throughout the clinical experience provide the student with evaluative criteria against which they can judge their own performance and develop a practice framework. Includes seminar, self-directed study and clinical experience. Prerequisites: NRS-221. Corequisites: NRS-224C

NRS-224C Integrative Practicum Clinical
7 credits, Spring
This course is designed to formalize the clinical judgments, knowledge and skills necessary in safe, registered nurse practice. Faculty/Clinical Teaching Associate/Student Triad Model provides a context that allows the student to experience the nursing work world in a selected setting, balancing demands of job and lifelong learner. Analysis and reflection throughout the clinical experience provide the student with evaluative criteria against which they can judge their own performance and develop a practice framework. Includes seminar, self-directed study and clinical experience. Prerequisites: NRS-221. Corequisites: NRS-224
NRS-230 Clinical Pharmacology I
3 credits, Winter
This course introduces the theoretical background that enables students to provide safe and effective care related to drugs and natural products to persons throughout the lifespan. It includes the foundational concepts of principles of pharmacology, nonopioid analgesics, and antibiotics, as well as additional classes of drugs. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of information, understanding pharmacokinetics and pharmacodynamics, developmental physiological considerations, monitoring and evaluating the effectiveness of drug therapy, teaching persons from diverse populations regarding safe and effective use of drugs and natural products, intervening to increase therapeutic benefits and reduce potential negative side effects, and communicating appropriately with other health professionals regarding drug therapy. Drugs are studied by therapeutic or pharmacological class using an organized framework. Prerequisites: BI-231, BI-232, BI-233, BI-234, NRS-110, and NRS-110C. Corequisites: NRS-111, NRS-111C, and NRS-232

NRS-231 Clinical Pharmacology II
3 credits, Spring
This sequel to NRS-230, Clinical Pharmacology I, continues to provide the theoretical background that enables students to provide safe and effective care related to drugs and natural products to persons throughout the lifespan. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of information, monitoring and evaluating the effectiveness of drug therapy, teaching persons from diverse populations regarding safe and effective use of drug and natural products, intervening to increase therapeutic benefits and reduce potential negative effects, and communicating appropriately with other health professionals regarding drug therapy. The course addresses additional classes of drugs and related natural products not contained NRS-230, Clinical Pharmacology I. Prerequisites: NRS-111, NRS-111C, NRS-230, BI-231, BI-232, BI-233, and BI-234. Corequisites: NRS-112, NRS-112C, and NRS-232

NRS-232 Pathophysiological Processes I
3 credits, Winter
This course introduces pathophysiological processes that contribute to many different disease states across the lifespan and human responses to those processes. It includes the foundational concepts of cellular adaption, injury, and death; inflammation and tissue healing; fluid and electrolyte imbalances; and physiological response to stressors, as well as additional pathophysiological processes. Students will learn to make selective clinical decisions in the context of nursing regarding using current, reliable sources of pathophysiology information, selecting and interpreting focused nursing assessments based on knowledge of pathophysiological processes, teaching persons from diverse populations regarding pathophysiological processes, and communicating with other health professionals regarding pathophysiological processes. Prerequisites: NRS-110, NRS-110C, BI-231, BI-232, BI-233, and BI-234. Corequisites: NRS-111 and NRS-111C

NRS-233 Pathophysiological Processes II
3 credits, Spring
This sequel to NRS-232, Pathophysiological Processes I, continues to explore additional pathophysiological processes that contribute to disease states across the lifespan and human responses to those processes. Students will learn to make selected clinical decisions in the context of nursing regarding using current, reliable sources of pathophysiological information, selecting and interpreting focused nursing assessments based on knowledge of pathophysiological processes, teaching persons from diverse populations regarding pathophysiological processes, and communicating with other health professionals regarding pathophysiological processes. This course addresses additional pathophysiological processes not contained in NRS-232, Pathophysiological Processes I. Prerequisites: NRS-232. Corequisites: NRS-112, NRS-112C, and NRS-231

NUR
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

Nursing

NUR-100 Nursing Assistant I
7 credits, Fall/Winter/Spring/Summer
Prepares the student to perform routine nursing assistant tasks to clients in sub-acute care settings as well as in the community. Includes 80 hours of didactic and skills lab instruction. May not be challenged. Corequisites: NUR-100C

NUR-100C Nursing Assistant I Clinical
0 credits, Fall/Winter/Spring/Summer
Prepares the student to perform routine nursing assistant tasks to clients in hospitals, long-term and skilled care facilities, as well as the community. Includes 75 hours of clinical practicum. May not be challenged. Corequisites: NUR-100

NUR-101 Certified Nursing Assistant II
4 credits, Not Offered Every Term
This course prepares the student to perform routine nursing assistant level II tasks that are needed in the acute or skilled care setting. This course includes concepts of safety and complication prevention. Students will also learn how to communicate a person's response(s) to the nurse, and document and record outcomes of a person's care. Required: Attend CNA II mandatory orientation and complete all required data for CastleBranch. Student must have a current Certified Nursing Assistant I License in the state of Oregon with a copy of a current and active OSBN verification of license letter. Recommended: WRD-098 or placement in WR-121. Student should be 18 years of age or older. Corequisites: NUR-101C

NUR-101C Certified Nursing Assistant 2
Acute Care Clinical
0 credits, Fall/Winter/Spring/Summer
This course prepares the student to perform routine nursing assistant tasks to clients in the acute care setting. Includes 30 hours of clinical practicum. May not be challenged. Corequisites: NUR-101
NUR-160 Fluid and Electrolytes
2 credits, Winter
Focus of this course is to assist students in the understanding of fluid, electrolytes, acid-base balances and the interpretation of various diagnostic tests related to the client's clinical condition. Limited to healthcare professionals/healthcare students. Prerequisites: BI-233

NUR-217 Basic EKG Interpretation I
1 credit, Spring
Presents the student with an introductory overview related to the anatomy and physiology of the heart. It also explores normal electrical conduction as well as common variations as evidenced by changes in the waveform on the cardiac monitoring device. The course will also focus on the student's ability to perform cardiac monitoring via 3, 5 and 12 lead monitoring devices.

NUR-218 Basic EKG Interpretation II
1 credit, Spring
This course builds upon the knowledge gained in NUR-217. The course will focus on the student's ability to understand and recognize variations in the electrical conduction of the heart as evidenced by changes on the 12-lead EKG. The course will encompass the recognition and treatment modalities of sinus, atrial, junctional and ventricular rhythms as well as heart block. Recognition and treatment of electrical conduction problems related to ischemia, injury and drug/electrolyte imbalances will also be discussed.

PE

Physical Education

PE-240 Strength & Conditioning Theory & Techniques
3 credits, Fall/Winter/Spring
An overview of introductory exercise physiology, biomechanics, program design, and exercise techniques that prepares students to design and implement physical training programs and exercise for clients and athletes.

PE-260 Care and Prevention of Athletic Injuries
2 credits, Winter/Spring
This course introduces the concepts of sports medicine. The course will benefit those students interested in improving their own knowledge as a recreational athlete, or in career areas such as physical and health education, coaching, sports medicine, nursing, physical and occupational therapy. Taping techniques and rehabilitation methods of injury will be discussed and practiced.

PE-270 Sport and Exercise Psychology
3 credits, Not Offered Every Term
The course is designed to provide students the basic understanding and knowledge of psychological skills used to improve physical performance in themselves and/or their peers/teammates. The course would be well suited for athletes, coaches or exercise leaders.

PE-280 Physical Education/CWE
2-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Provides students with on-the-job experience and training related to the Physical Education field. Covers job problems and procedures, evaluation of students’ job performance by qualified college staff and site supervision. Corequisites: CWE-281

PE-294A Philosophy of Coaching
2 credits, Fall/Winter/Spring
This course is designed to enhance the leadership, teaching and management skills of coaches as they relate to interacting with athletes at all levels. Group discussions and seminar sessions relating to coaching philosophies, ethics, practice planning, motivation, and dealing with parents, peers and assistants.

PH

Physics

PH-121 General Astronomy
4 credits, Fall/Winter/Spring
A lab course including the history of astronomy, the Earth and moon, all planets in our solar system, along with asteroids, meteors and comets. Prerequisite: MTH-095 with a C or better, or MTH-111. Recommended: WRD-090 or placement in WRD-098

PH-122 General Astronomy
4 credits, Fall/Winter/Spring
A lab course including the properties of our sun, other stars and stellar evolution. Prerequisites: PH-121 or GS-107

PH-123 General Astronomy
4 credits, Spring
A lab course including star clusters, the properties of our own galaxy, the other galaxies and cosmology. Prerequisites: PH-122

PH-150 Preparatory Physics
2 credits, Spring
This course is intended for students who have not completed high-school physics, but are intending to take either PH-201 or PH-211. Students will develop reasoning skills, and learn problem-solving strategies, measurement units, graph interpretation, and basic physics definitions needed for their General Physics courses. Prerequisite Or Corequisite: MTH-112 or placement in MTH-251. MTH-112 may be taken concurrently

PH-201 General Physics
5 credits, Fall
A lab course covering vectors, motion, kinematics, forces and Newton's laws, gravity, the conservation laws for momentum and energy, rotational motion, and oscillations. Prerequisites: WRD-090 with a C or better or placement in WRD-098. Prerequisites: MTH-112 or placement in MTH-251

PH-202 General Physics
5 credits, Winter
A lab course covering electricity, magnetism, DC and AC circuits, and electromagnetic radiation. Prerequisites: PH-201

OST Courses with this prefix may not transfer to a four-year institution.

Occupational Skills Training

OST-180 Occupational Skills Training/CWE
1-12 credits, Fall/Winter/Spring/Summer
Provides students hands-on training in a specific occupational area. The class and program are designed for students who need work-based training and classroom instruction to be competitively employable.
PHL-010 Philosophical Problems
4 credits, Fall/Winter/Spring/Summer
Presents a variety of topics that may include: the nature of reality, knowledge and doubt; the human condition; truth; and the search for meaning. Recommended: WRD-090 or placement in WRD-098

PHL-012 Ethics
4 credits, Fall/Winter/Spring
Introduces the study of morality: e.g., right and wrong, free will and determinism, morals and society. Recommended: WRD-090 or placement in WRD-098

PHL-013 Critical Reasoning
4 credits, Fall/Winter/Spring
Focuses on improving reasoning and critical assessment ability. Emphasizes practical methods, involves study of editorials, essays, propaganda and advertisements. Recommended: WRD-090 or placement in WRD-098

PHL-016 Beginning Grammar
0 credits, Fall/Winter/Spring/Summer
English language learners study and practice present perfect verb forms with time expressions and adverbs of frequency, modals of ability, permission, and advice, and comparative and superlative adjectives in written and spoken English.

PHL-017 Beginning Reading & Writing
0 credits, Fall/Winter/Spring/Summer
English language learners read short texts to improve reading skills, write simple, compound, and complex sentences, and write related sentences in paragraph form for the contexts of school, work, family and community.

PHL-018 Intermediate Grammar A
0 credits, Fall/Spring
One of a two-part series. English language learners extend their understanding of basic verb forms (simple present, simple past, and present progressive), study and practice past progressive, used to, future time formations, and wh-questions in written and spoken English.

PHL-019 Intermediate Grammar B
0 credits, Winter
One of a two-part series. English language learners study and practice present perfect verb forms with time expressions and adverbs of frequency, modals of ability, permission, and advice, and comparative and superlative adjectives in written and spoken English.

PHL-020 Upper Beginning Grammar
0 credits, Fall/Winter/Spring/Summer
Introduces the language necessary to function in day-to-day American society at the beginning levels; language functions are taught in the contexts of work, family and community. The primary focus of this course is speaking and listening with some exposure to reading and writing.

PHL-024 Upper Beginning Reading & Writing
0 credits, Fall/Winter/Spring/Summer
English language learners read short texts to improve reading skills, write simple, compound, and complex sentences, and write related sentences in paragraph form for the contexts of school, work, family and community.

PIE Course Descriptions

PIE-014 Beginning Reading & Writing
0 credits, Not Offered Every Term
English language learners read and write in the alphabet, sight words, and simple sentences.

PIE-016 Integrated Beginning ESL
0 credits, Fall/Winter/Spring/Summer
English language learners are introduced to the basic language necessary to function in day-to-day American society; language functions are taught in the contexts of work, family and community.

PIE-020 Upper Beginning Grammar
0 credits, Fall/Winter/Spring/Summer
Introduces the language necessary to function in day-to-day American society at the beginning levels; language functions are taught in the contexts of work, family and community. The primary focus of this course is speaking and listening with some exposure to reading and writing.

PIE-022 Developmental Education
0 credits, Fall/Winter/Spring/Summer
Introduces the language necessary to function in day-to-day American society; language functions are taught in the contexts of work, family and community.

PIE-030 Intermediate Grammar A
0 credits, Fall/Spring
One of a two-part series. English language learners extend their understanding of basic verb forms (simple present, simple past, and present progressive), study and practice past progressive, used to, future time formations, and wh-questions in written and spoken English.

PIE-031 Intermediate Grammar B
0 credits, Summer/Winter
One of a two-part series. English language learners study and practice present perfect verb forms with time expressions and adverbs of frequency, modals of ability, permission, and advice, and comparative and superlative adjectives in written and spoken English.

PIE-032 Intermediate Conversation
0 credits, Fall/Winter/Spring/Summer
English language learners study and practice speaking and listening skills and strategies in structured tasks to improve fluency in the contexts of school, work, family and community.

PIE-035 Business English
0 credits, Fall/Winter/Spring/Summer
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-036 Business Comprehension
0 credits, Fall/Winter/Spring/Summer
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-037 Business Writing
0 credits, Fall/Winter/Spring/Summer
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-038 Business Grammar
0 credits, Fall/Winter/Spring/Summer
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-040 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-043 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-045 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-046 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-047 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-048 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-049 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-050 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-051 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-052 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-053 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.

PIE-054 Advanced ESL
0 credits, Not Offered Every Term
Introduces business language; basic skills in listening, reading and writing. Emphasizes family and community.
PIE-033 Intermediate Conversation
3 credits, Fall/Winter/Spring/Summer
Intermediate-level students study and practice speaking and listening to improve their fluency in English for living and working situations.

PIE-034 Intermediate Reading & Writing
0 credits, Fall/Winter/Spring/Summer
English language learners read a variety of texts to improve reading skills, and write paragraphs focused on a single topic developed with logically organized facts and details for the contexts of school, work, family and community.

PIE-040 Upper Intermediate Grammar A
0 credits, Fall/Spring
One of a two-part series. English language learners study and practice verb forms that frequently occur together, gerunds, infinitives, and causative verbs in written and spoken English.

PIE-041 Upper Beginning Grammar
0 credits, Fall/Winter/Spring/Summer
Class will present and practice verb tenses (simple present, simple past, and present progressive), adverbs of frequency, articles, and nouns in written and spoken English.

PIE-042 Upper Intermediate Conversation
0 credits, Fall/Winter/Spring/Summer
English language learners study and practice speaking and listening skills and strategies for independent communication to improve fluency in the contexts of school, work, family and community.

PIE-043 Intermediate Grammar B
3 credits, Summer/Winter
Part B of a two-part series. Present and practice present perfect with time expressions and adverbs of frequency, modals of ability, permission and advice; and comparative and superlative adjectives in written and spoken English.

PIE-044 Upper Intermediate Reading & Writing
0 credits, Fall/Winter/Spring/Summer
English language learners read a variety of texts to improve reading skills, and produce basic multi-paragraph texts for the contexts of school, work, family and community.

PIE-045 Upper Intermediate Grammar B
3 credits, Summer/Winter
Part B of a two-part series. Present and practice adjective clauses, phrasal verbs, and passive voice in written and spoken English.

PIE-046 Editing for Better Writing
0 credits, Fall/Winter/Spring/Summer
English language learners improve their writing through editing. They will also engage in extended reading to provide a context for writing.

PIE-049 Beginning Reading & Writing
0 credits, Fall/Winter/Spring/Summer
Students who have limited knowledge of written English will practice alphabet recognition, read and write short sentences, study new vocabulary, read short paragraphs, and gain reading and scanning skills to use in everyday life and in the workplace.

PIE-050 Advanced Grammar A
0 credits, Not Offered Every Term
One of a three-part series. English language learners study and practice modals, adverb clauses, and discourse connectors in written and spoken English.

PIE-051 Advanced Grammar B
0 credits, Not Offered Every Term
One of a three-part series. English language learners study and practice count/non-count nouns, definite/indefinite articles, and noun clauses in written and spoken English.

PIE-052 Advanced Communication Skills 1
0 credits, Fall/Spring
English language learners practice speaking and listening strategies for effective communication in discussions, presentations, lectures, note-taking, and group projects. The course builds vocabulary, critical thinking skills, and an awareness of non-verbal communication. The focus of this course is to prepare students for college success.

PIE-053 Advanced Communication Skills 2
0 credits, Summer/Winter
English language learners practice speaking and listening strategies for effective communication for discussions, interviews, presentations, and note-taking to improve fluency in speaking and listening. Students will study the important effect intonation and body language have on meaning, build vocabulary and critical thinking skills, and develop confidence in speaking with purpose. The focus of this course is to prepare students for success in the workplace and community.

PIE-054 Advanced Reading & Writing
0 credits, Fall/Winter/Spring/Summer
English language learners develop writing skills including summarizing, response writing, and paraphrasing, and improve writing fluency. Develop reading skills and fluency through reading a range of texts on a variety of topics.

PIE-055 Advanced Grammar C
0 credits, Not Offered Every Term
One of a three-part series. English language learners study and practice gerunds, infinitives, passive voice, and adjective clauses in written and spoken English.

PIE-060 Vocabulary Building 1
0 credits, Not Offered Every Term
One of a two-part series. English language learners develop their passive and active vocabularies through numerous exposures to selected words from the General Service List and the Academic Word List, and develop their vocabulary acquisition skills.

PIE-061 Vocabulary Building 2
0 credits, Not Offered Every Term
One of a two-part series. English language learners develop their passive and active vocabularies through numerous exposures to selected words from the General Service List and the Academic Word List, and develop their vocabulary acquisition skills.

PIE-062 ESL Reading 1
0 credits, Not Offered Every Term
Students who have limited knowledge of written English will practice alphabet recognition, read and write short sentences, study new vocabulary, read short paragraphs, and gain reading and scanning skills to use in everyday life. Students who have completed ESL Reading 1 develop their reading skills at a higher level in ESL Reading 2.

PIE-063 ESL Reading 2
0 credits, Not Offered Every Term
English language learners at all levels improve their reading fluency and expand and solidify their English vocabulary as needed for more advanced ESL and everyday life.

PIE-064 ESL Writing 1
PIE-065 Film, Internet, and Culture
0 credits, Not Offered Every Term
English language learners develop their English speaking and listening skills in the context of contemporary media and U.S. culture. Students use speaking and listening skills to recognize and explain different cultural situations.

PIE-066 Bridge to College and Career
0 credits, Fall/Winter/Spring/Summer
English Language Learners apply their developing English language skills to read, write, speak and listen in real world contexts provided by college and career-related materials, intensifying their language acquisition process while preparing to move beyond the ESL program.

PIE-067 Spelling
0 credits, Not Offered Every Term
English language learners learn about and practice English spelling patterns and rules and will individualize instruction to address spelling challenges.

PIE-068 Bridge to Computers
0 credits, Not Offered Every Term
English language learners beyond the beginning level are introduced to computer technology. The course includes an overview of computer components and terminology and an introduction to applications such as word processing, internet, e-mail, presentation, and other software. English reading, writing, speaking, and listening skills are developed through a variety of computer projects and interactive classroom work.

PIE-069 Pronunciation
0 credits, Not Offered Every Term
English language learners develop pronunciation skills and knowledge to improve speech clarity, listening effectiveness, and pronunciation of written words.

PIE-070 Computer Lab
0 credits, Fall/Winter/Spring/Summer
Provides opportunities to improve English language skills by using language learning software and Internet websites.

PIE-073 ESL Reading A
3 credits, Not Offered Every Term
This course is designed for ESL students of all levels. The major purpose of the course is to improve the student’s reading fluency and expand and solidify their English vocabulary as needed for more advanced ESL and everyday life.

PIE-074 ESL Reading B
3 credits, Not Offered Every Term
This course is designed for ESL students of all levels. The purpose of the course is to improve the students’ reading fluency and expand and solidify their English vocabulary as needed for more advanced ESL and college classes, and for everyday life. The course can be repeated, as learners read texts of progressively greater challenge, up to the college reading level. Students who have completed ESL Reading A will develop their reading skills at a higher level in ESL Reading B.

PIE-080 TOEFL/TOEIC Preparation
0 credits, Fall/Winter/Spring/Summer
Prepares students for the Test of English as a Foreign Language (TOEFL) and the Test of English for International Communication (TOEIC) by improving listening, grammar, reading and writing skills. It includes familiarization with test components, test-taking techniques, strategies and computer skills.

PIE-081 Bridge to Computers
3 credits, Not Offered Every Term
This course introduces computer skills for intermediate and higher non-native speakers of English. Course includes an overview of computer components and terminology and an introduction to applications such as word processing, Internet, e-mail, presentation, and other software. English reading, writing, speaking, and listening skills are developed through a variety of computer projects and interactive classroom work.

PIE-082 Spelling
3 credits, Not Offered Every Term
This course prepares students for the International English Language Testing System (IELTS) by improving reading and speaking skills. It includes familiarization with the test components, test-taking techniques, and strategies. Required: Student Petition.

PIE-083 Vocabulary Building A
3 credits, Fall
Part A of a two-part series of classes in which upper-intermediate and advanced level students will develop their passive and active vocabularies through numerous exposures to selected words from the General Service List and from the Academic Word List, and will develop their vocabulary acquisition skills.

PIE-084 Vocabulary Building B
3 credits, Not Offered Every Term
Part B of a two-part series of classes in which upper-intermediate and advanced level students will develop their passive and active vocabularies through numerous exposures to selected words from the General Service List and from the Academic Word List, and will develop their vocabulary acquisition skills.

PIE-085 Editing A
3 credits, Not Offered Every Term
In this course, upper-intermediate and higher-level students will improve their writing through editing.

PIE-087 Computer Lab
0 credits, Fall/Winter/Spring/Summer
English language learners improve their language skills by using language learning software.

PIE-088 Beginning ESL Computer Skills Lab
0 credits, Fall/Winter/Spring/Summer
English language learners acquire basic computer skills.

PIE-089 International English Language Testing System (IELTS) Preparation Reading and Speaking
5 credits, Not Offered Every Year
This course prepares students for the International English Language Testing System (IELTS) by improving reading and speaking skills. It includes familiarization with the test components, test-taking techniques, and strategies.

PIE-090 International Student Success
0 credits, Fall/Winter/Spring/Summer
International students entering Clackamas Community College for the first time learn about college policies and procedures, students’ rights and responsibilities, matriculation procedures, linguistic and cultural adjustment, and laws affecting students.

PIE-092 International English Language Testing System (IELTS) Preparation Reading & Speaking
0 credits, Not Offered Every Year
This course prepares students for the International English Language Testing System (IELTS) by improving reading and speaking skills. It includes familiarization with the test components, test-taking techniques, and strategies.
**PSY**

**Psychology**

**PSY-101 Human Relations**
3 credits, Fall/Winter/Spring/Summer
Introduction to interpersonal relationships and human relations in a social context. Includes lecture and discussions/activities with an emphasis on student participation. Recommended: WRD-090 or placement in WRD-098

**PSY-110 Psychology: An Overview**
4 credits, Fall/Winter/Spring
A general introduction to the field of psychology. Explores a wide variety of topics. Recommended: WRD-090 or placement in WRD-098

**PSY-200 Psychology As A Natural Science**
4 credits, Fall/Winter/Spring/Summer
Introduction to physiological psychology, the study of how the nervous system produces behavior and cognition. Further topics will include consciousness, sleep, memory, and language. Recommended: WRD-090 or placement in WRD-098

**PSY-205 Psychology As A Social Science**
4 credits, Fall/Winter/Spring/Summer
Principles of learning and social psychology, the study of how groups affect the individual. Further topics may include motivation, personality, human development, and stress. Recommended: WRD-090 or placement in WRD-098

**PSY-214 Introduction to Personality**
4 credits, Not Offered Every Year
Explores the major theoretical approaches toward personality as conceptualized throughout time, from ancient Greece to contemporary research, with the greatest emphasis on theories originating in the 20th century. Prerequisite or Corequisite: WRD-098 or placement in WRD-098

**PSY-215 Introduction to Developmental Psychology**
4 credits, Fall/Winter/Spring/Summer
Research and theories regarding the development of the individual from conception to death, including physical, social and cognitive changes. Prerequisite Or Corequisite: WRD-098 or placement in WRD-098

---

**PIE-094 TOEFL/TOEIC Preparation**
0 credits, Fall/Winter/Spring/Summer
Prepares students for the Test of English as a Foreign Language (TOEFL) and the Test of English for International Communication (TOEIC) by improving listening, grammar, reading and writing skills. It includes familiarization with the test components, test-taking techniques, strategies and computer skills.

**PIE-095 PIE Tutoring**
0 credits, Fall/Winter/Spring/Summer
English language learners in the Program for Intensive English receive one-on-one instruction in conversation, pronunciation, reading, grammar, writing, or GED preparation. The student meets with a tutor or instructor and work on the above skill areas.

---

**PS**

**Political Science**

**PS-200 Introduction to Political Science**
4 credits, Fall/Winter/Spring
A general introduction to the field of political science. Introduces and expands on basic political concepts and themes, explores political theory and ideology, and considers the dynamics of political institutions and government and how both are integrated into political life. Recommended: WRD-098 or placement in WRD-098

**PS-201 American Government and Politics**
4 credits, Not Offered Every Term
Examines the founding principles of the American government: the Constitution, the separation of powers, and the three branches of government. Explores political parties and elections, the growing power of the executive branch, the expansion and reach of the federal bureaucracy, governmental policies, the civil liberties and civil rights of American citizens, and the role of the media in American politics. Recommended: WRD-098 or placement in WRD-098

**PS-203 US Government: State & Local Institutions**
4 credits, Not Offered Every Term
Introduces students to American state and local government, with an emphasis on Oregon politics at the state and local level. Recommended: WRD-098 or placement in WRD-098

**PS-204 Introduction to Comparative Politics**
4 credits, Not Offered Every Term
Explores the various ideologies, institutions, and processes that constitute the nation-states that make up the world political system. Introduces students to the comparative method of political science. Introduces a wide-ranging assessment of the fundamental differences between presidential and parliamentary systems, and an exploration of various political systems and governments around the world within the context of current world politics. Recommended: WRD-098 or placement in WRD-098

**PS-205 International Relations**
4 credits, Not Offered Every Term
Introduces the study of international relations by examining the institutions that constitute the international system. Special attention will be paid to the conflicts in the Iraq, Afghanistan, and other theatres of combat, as well as diplomacy and terrorism as instruments of foreign policy. Recommended: WRD-098 or placement in WRD-098

**PS-225 Introduction to Political Ideologies**
4 credits, Not Offered Every Term
Focuses primarily on the various political ideologies that make up the ideological universe and critically examines such distinct ideologies as liberalism, conservatism, socialism, libertarianism and fascism. Recommended: WRD-098 or placement in WRD-098

**PS-280 Political Science/CWE**
2-6 credits, Not Offered Every Term
Cooperative work experience. Provides students with on-the-job work experience in the field of political science. Corequisites: CWE-281

**PS-297 Introduction to Environmental Politics**
4 credits, Not Offered Every Term
Explores the politics informing environmental policy; the tension between politics and scientific expertise; the role of the legislative, executive, and judicial branches of government in crafting and implementing environmental policy; and the critical impact non-governmental institutions and pressure groups have on environmental policy development and outcomes. Recommended: WRD-098 or placement in WRD-098

---

**PSY-110 Psychology: An Overview**
4 credits, Fall/Winter/Spring
A general introduction to the field of psychology. Explores a wide variety of topics. Recommended: WRD-090 or placement in WRD-098

**PSY-200 Psychology As A Natural Science**
4 credits, Fall/Winter/Spring/Summer
Introduction to physiological psychology, the study of how the nervous system produces behavior and cognition. Further topics will include consciousness, sleep, memory, and language. Recommended: WRD-090 or placement in WRD-098

**PSY-205 Psychology As A Social Science**
4 credits, Fall/Winter/Spring/Summer
Principles of learning and social psychology, the study of how groups affect the individual. Further topics may include motivation, personality, human development, and stress. Recommended: WRD-090 or placement in WRD-098

**PSY-214 Introduction to Personality**
4 credits, Not Offered Every Year
Explores the major theoretical approaches toward personality as conceptualized throughout time, from ancient Greece to contemporary research, with the greatest emphasis on theories originating in the 20th century. Prerequisite or Corequisite: WRD-098 or placement in WRD-098

**PSY-215 Introduction to Developmental Psychology**
4 credits, Fall/Winter/Spring/Summer
Research and theories regarding the development of the individual from conception to death, including physical, social and cognitive changes. Prerequisite Or Corequisite: WRD-098 or placement in WRD-098
PSY-219 Introduction to Abnormal Psychology
4 credits, Fall/Winter/Spring
Introduction to abnormal psychology including disorders and approaches to treatment. Prerequisite or Corequisite: WRD-098 or placement in WR-121

PSY-221 Introduction to Counseling
4 credits, Not Offered Every Term
Provides an overview of the theoretical background for different approaches to counseling. Practical skills development emphasized. Role playing, instructor demonstrations, and experiential exercises will be explored. Recommended: WRD-090 or placement in WR-121

PSY-231 Introduction to Human Sexuality
4 credits, Fall/Winter/Spring
Introduction to research and theories of human sexual behavior, including: sexual relationships, communication and intimacy, sex roles, the development of gender, social trends regarding sexuality, human sexual response, biology of sexuality, and conception. Prerequisite Or Corequisite: WRD-098 or placement in WR-121

PSY-240 Interpersonal Awareness & Growth
4 credits, Fall/Winter/Spring
Examines the dynamics of personality and explores techniques for overcoming self-defeating behaviors. Develops methods for making personal changes. Recommended: WRD-090 or placement in WRD-098

PSY-280 Psychology/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides students with on-the-job work experience in the field of psychology. Corequisites: CWE-281

QS

Quality Science

QS-122 LEAN Concepts and Tools
3 credits, Not Offered Every Term
Provides an introduction to LEAN manufacturing and an overview of the LEAN manufacturing journey in the cultural transformation of an organization. It gives participants an overview of the Toyota Production System and the manufacturing conditions responsible for transferring the system worldwide. The course discusses the fundamental tools and methods of LEAN manufacturing, including Kaizen (continuous improvement culture), 5S System, Visual Management, Flow (Pull System versus Push), Standardized Work, Value Stream Mapping and Performance Measurements. Case examples and LEAN manufacturing simulations, as well as people issues are an intricate component of the course.

QS-123 Six Sigma Concepts & Tools (yellow Belt)
4 credits, Not Offered Every Term
Provides an introduction of the Six-Sigma manufacturing journey in the cultural transformation of an organization. It provides participants an overview of the Six-Sigma process as used by Industry. The course discusses the fundamentals, concepts, and tools of Six-Sigma including: Process mapping, Pareto and scatter diagrams, root cause analysis, 5S, PDCA, COPQ, DPMO and SIPOC. Recommended: MTH-50 or higher

R

Religion

R-101 Comparative Religions
4 credits, Not Offered Every Term
The nature of myth and story, ancient religions, ideas of God, Judaism and introduction to religious topics. Recommended: WRD-090 or placement in WRD-098

R-102 Comparative Religions
4 credits, Not Offered Every Term
Covers written and oral sources, Christianity, Islam, and includes the history and philosophy of other Western religious developments. Recommended: WRD-090 or placement in WRD-098

R-103 Comparative Religions
4 credits, Not Offered Every Term
The history, ideas, and philosophy of the Eastern religions including Buddhism, Hinduism and Taoism. Recommended: WRD-090 or placement in WRD-098

R-204 History of Christianity
4 credits, Not Offered Every Term
Covers early Christianity, the Apostles, and the development of the New Testament. Examines post-apostolic Christianity, developments through the Middle Ages, Renaissance, Reformation and the Modern Age. Contemporary topics include Christianity in conflict, ethical and social religious issues and the face of contemporary Christianity. Recommended: WRD-090 or placement in WRD-098

R-210 World Religions
4 credits, Not Offered Every Term
An overview course that examines Eastern/Western religions and philosophies through film, text, and/or online presentations. Introduces Hinduism, Buddhism, Chinese religions, Christianity, Judaism and Islam. Recommended: WRD-090 or placement in WRD-098

R-211 History of the Old Testament
4 credits, Not Offered Every Term
Covers early influences on the Hebrew community, Patriarchs, Abraham, Moses and Sinai. Examines monarchy, prophets, and wisdom literature. Examines modern theories of biblical exegesis. Recommended: WRD-090 or placement in WRD-098

R-212 History of the New Testament
4 credits, Not Offered Every Term
Covers the first century influences on the New Testament texts, the life of Jesus, and the Pauline letters. Other early writings will be discussed. Recommended: WRD-090 or placement in WRD-098

R-280 Religion/CWE
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides students with on-the-job work experience in the field of religion. Corequisites: CWE-281
**RD**

**Reading**
See also Study Skills (EL).

**RD-115 College Reading**
3 credits, Fall/Winter/Spring
This transfer elective course presents reading strategies for success in college-level classes. It emphasizes comprehension, critical reading and thinking, and application of reading strategies appropriate to a variety of materials. Vocabu-lary development is also addressed. Prerequisite: WRD-090 or placement in WRD-098

**RET**
Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

**Renewable Energy Technology**
For additional information contact the Manufacturing Department at 503-594-3318.

**RET-200 Renewable Energy Systems**
4 credits, Fall
This course provides a survey of various renewable energy systems. Participants will learn about the benefits and limitations of each type of energy source as well as their functional principles. Students will participate in several field learning exercises related to energy systems. The intended audiences are technical students wishing to explore the Renewable Energy field and students from the humanities and social sciences wanting a better understanding of this socially important technology.

**RET-209 Renewable Energy I: Energy Efficiency**
3 credits, Winter
This course concentrates on the conservation of scarce energy resources in residential, commercial and industrial applications. The course will examine the common sources of energy loss in building systems and homes, industrial processes and transportation. Students will be introduced to residential energy audits and mitigation. Topics will also include regenerative transportation systems, LEED certification, test instruments, insulation values, heat exchangers and financial payback period. Includes hands-on lab exercises. Recommended: RET-200

**RET-211 Renewable Energy II: System Fundamentals**
3 credits, Spring
This course in renewable systems will provide in-depth understanding of the technology, economics and policies relevant to each type of energy source. Analysis techniques to evaluate renewable energy applications from a systems design and selection perspective will be presented. Topics include physical operating principles, theoretical vs. actual system output, energy storage, efficiency and cost analysis. Includes hands-on lab exercises. Recommended: RET-200

**RET-213 Renewable Energy III: Installation and Maintenance**
3 credits, Fall
Third in a series of technical courses, Renewable Energy III: Installation and Maintenance will provide an introduction to installation and maintenance of renewable energy systems for commercial and residential installations. Students will apply their knowledge of electromechanical systems to the application of these systems. Topics will include site survey, site preparation, building codes, measurement tools, preventative maintenance and worksite safety. Includes hands-on lab exercises. Recommended: RET-211

**RET-215 Renewable Energy IV: Systems Design**
3 credits, Winter
This fourth course in the series will concentrate on systems design for renewable energy applications. Students will work together and apply concepts to evaluate, design and select one or more renewable energy systems for solar, wind or micro-hydro installations. Topics will include site surveys, structural elements, electrical generators, energy storage and electrical inversion. Recommended: RET-213

**RET-217 Renewable Energy Capstone Project**
3 credits, Spring
This final class in the Renewable Energy series will concentrate on a capstone project. Students will evaluate a proposal for an alternative energy solution and then design an installation to meet the needs of the proposal. Students will be expected to perform a site survey, quantify energy requirements, select appropriate technologies, calculate the payback period and finally fabricate an actual or conceptual energy solution where appropriate. Recommended: RET-215

**RET-240 Alternative Fuels**
4 credits, Fall
Offers students familiarity and entry levels to work with alternative fuel systems. Explores (technically, economically and ecologically) the following alternative fuels: bio-diesel, vegetable oils, electricity, ethanol, hydrogen, propane, methanol, natural gas, heat engines, fuel cell and hybrid vehicles.

**RET-280 Renewable Energy/CWE**
1-12 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Major emphasis on work-based learning experience in the renewable energy field. Coordination of instruction and evaluation of student job performance will be provided by college faculty in conjunction with employer/supervisor. Corequisites: CWE-281
**Small Business Management**

For additional information contact the Small Business Development Center at 503-594-0738.

**SBM-010 Real Estate Broker License**
0 credits, Fall/Winter/Spring
Prepares students to qualify for the Oregon Real Estate Broker's License exam by studying statutes, rules and anti-discrimination laws pertaining to the licensing and professional real estate activity required by all licensees of the State of Oregon.

**SBM-011 Property Management Pre-License**
0 credits, Fall/Spring
Prepares students to qualify for the Oregon Real Estate Property Management License exam by studying laws and statutes pertaining to the licensing and professional property management activity required by all licensees of the State of Oregon.

**SBM-019 Innovation Bridge**
0 credits, Fall/Winter/Spring
Provides a methodology to help current and hopeful entrepreneurs find the business value of new ideas, products, or concepts. The course takes students through a process that prompts new ways of thinking about the commercial potential of their ideas, and helps them shape their innovative idea into a complete product.

**SBM-020 Small Business Greenhouse**
0 credits, Fall/Spring
Two-term intensive training program designed to assist entrepreneurs in planning their business startups, and to develop existing businesses to make them more profitable and to create jobs. Students do extensive individual work on developing business plans with counseling from instructor.

**SM-021 Small Business Management I**
0 credits, Fall/Winter/Spring
Part 1 of a multi-year program to help owners and managers of established businesses manage more effectively and achieve success. Course consists of class meetings, individual business counseling, peer networking, and work in/on the business. Class topics emphasize financial analysis, goals and communication.

**SM-024 Small Business Management I**
0 credits, Fall
Explores all stages of the business cycle to start, grow, buy, or sell a farm or ranch or sustain an existing farm or ranch. A variety of experienced speakers and exercises will provide helpful information in understanding the disciplines of purchasing, owning or selling an agricultural business.

**Microelectronics Systems Technology**

Courses listed with the SM prefix and courses listed in the Electronics Systems Technology section with the EET prefix are the main core classes for the Microelectronics Systems Technology program. For additional information contact the Manufacturing Department at 503-594-3318.

**SM-136 Photolithography**
2 credits, Winter
Provides knowledge on the relationship between theoretical and practical aspects of current methods and equipment used in photolithography, as well as troubleshooting common process and equipment-related problems. Recommended: SM-150

**SM-150 Semiconductor Processing I**
2 credits, Fall
Provides general background knowledge on the processes required to manufacture integrated circuit devices, beginning with silicon material preparation and ending with testing of a completed device. Micro-contamination also covered.

**SM-160 Semiconductor Processing II**
2 credits, Winter
Provides an overview of basic processes involved in the fabrication of finished silicon wafers, oxidation and deposition processes. Troubleshooting of common equipment is emphasized. Recommended: SM-150

**SM-170 Semiconductor Processing III**
2 credits, Spring
Covers the essential process and equipment related to etching, diffusion and ion implantation. Troubleshooting of common equipment and process related problems are emphasized. Recommended: SM-150

**SM-229 Vacuum Technology**
2 credits, Spring
Focuses on elementary theory and practice of vacuum equipment for microelectronics processing. Students study vacuum fundamentals, pumps and equipment used in vacuum systems. Recommended: SM-150

**SM-280 Electronics & Microelectronics/CWE**
1-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Practical experience in the high-tech industry. Coordination of instruction will occur with industry and the manufacturing and cooperative work departments. Corequisites: CWE-281

**SOC**

**SOC-204 Introduction to Sociology**
4 credits, Fall/Winter/Spring/Summer
Explores the social perspectives on the principles and processes of human social behavior. Examines concepts such as culture, socialization, social structure, roles, groups, organizations, and social stratification and introduces various sociological theories and research methodologies. Recommended: WRD-098 or placement in WR-121

www.clackamas.edu
COURSE DESCRIPTIONS

**SOC-205 Social Stratification & Social Systems**
4 credits, Fall/Winter/Spring/Summer
Examines issues of social structure and social stratification. Explores the various social institutions (family, economy, education, health, religion and politics) and inequalities of race, class, gender, age, sexual orientation and disability, as well as various theoretical perspectives. Recommended: WRD-098 or placement in WR-121

**SOC-206 Institutions & Social Change**
4 credits, Fall/Winter/Spring/Summer
Explores various social institutions (family, economy, education, health, religion, and politics), stratification systems, social movements and other various elements of culture from a social change perspective. Various theories of social organization and sources social change will be examined. Recommended: WRD-098 or placement in WR-121

**SOC-210 Marriage, Family, & Intimate Relations**
4 credits, Fall/Winter/Spring
This course will introduce students to the study of marriage, intimate relations, and family systems from the sociological viewpoint. Students will examine the ways in which race, class, gender, sexuality, community, and society influence patterns of courtship, intimate relations, marriage, and family, and explore the various challenges facing families today. Recommended: WRD-098 or placement in WR-121

**SOC-225 Social Problems**
4 credits, Fall/Winter/Spring
Applies the sociological framework to the study of social problems, their identification, analysis of causes and possible solutions. Problems explored may include mental disorders, drug and alcohol addiction, crime and delinquency, group discrimination, inequality, poverty, alienation, domestic and international violence, environment, and energy. Recommended: WRD-098 or placement in WR-121

**SOC-280 Sociology/CWE**
2-6 credits, Fall/Winter/Spring
Cooperative work experience. Provides students with on-the-job work experience in the field of sociology. Corequisites: CWE-281

**SPN**

**Spanish**

**SPN-101 First-Year Spanish I**
4 credits, Fall/Winter/Spring/Summer
First of a three-term foundational, multimedia course for beginners. Initial emphasis is on speaking and listening comprehension, with secondary emphasis on reading and writing. Various cultural themes are presented. Recommended: WRD-098 or placement in WR-121

**SPN-102 First-Year Spanish II**
4 credits, Fall/Winter/Spring/Summer
Second of a three-term foundational, multimedia course for beginners. Initial emphasis is on speaking and listening comprehension, with secondary emphasis on reading and writing. Various cultural themes are presented. Recommended: WRD-098 or placement in WR-121

**SPN-103 First-Year Spanish III**
4 credits, Spring/Summer
Third of a three-term foundational, multimedia course for beginners. Initial emphasis is on speaking and listening comprehension, with secondary emphasis on reading and writing. Various cultural themes are presented. Recommended: WRD-098 or placement in WR-121

**SPN-201 Second-Year Spanish I**
4 credits, Fall/Winter/Spring/Summer
Second of a three-term intermediate, multimedia course. Focus is on speaking, listening comprehension, reading and writing. Explores cultural differences among Spanish-speaking countries and between the latter and European-American culture. Prerequisites: SPN-103

**SPN-202 Second-Year Spanish II**
4 credits, Winter
Second of a three-term intermediate, multimedia course. Focus is on speaking, listening comprehension, reading and writing. Explores cultural differences among Spanish-speaking countries and between the latter and European-American culture. Prerequisites: SPN-201

**SPN-203 Second-Year Spanish III**
4 credits, Spring
Third of a three-term intermediate, multimedia course. Focus is on speaking, listening comprehension, reading and writing. Explores cultural differences among Spanish-speaking countries and between the latter and European-American culture. Prerequisites: SPN-202

**SPN-211 Intermediate Spanish Conversation**
3 credits, Not Offered Every Year
Promotes intermediate-level Spanish conversation among students through shared reading of and commentary on Spanish-language novels of equivalent difficulty. Situational role plays are used to practice conversational strategies for use in real-life situations similar to those in the novels. Emphasis in SPN-211 is on crime and fantasy novels. Prerequisites: SPN-203

**SPN-212 Intermediate Spanish Conversation**
3 credits, Not Offered Every Year
Promotes intermediate-level Spanish conversation among students through shared reading of and commentary on Spanish-language novels of equivalent difficulty. Situational role plays are used to practice conversational strategies for use in real-life situations similar to those in the novels. Emphasis in SPN-212 is on mystery and romance novels.

**SPN-213 Intermediate Spanish Conversation**
3 credits, Not Offered Every Year
Promotes intermediate-level Spanish conversation among students through shared reading of and commentary on Spanish-language novels of equivalent difficulty. Situational role plays are used to practice conversational strategies for use in real-life situations similar to those in the novels. Emphasis in SPN-213 is on historical and adventure novels. Prerequisites: SPN-203

**SPN-280 Spanish/CWE**
2-6 credits, Fall/Winter/Spring/Summer
Cooperative work experience. Offers variable credit to students using Spanish on-the-job. Corequisites: CWE-281
SCC
Social Science
SSC-160 Faith and Reason
5 credits, Not Offered Every Term
Introduction to classical philosophy, sacred texts, modern fiction, poetry, theology, evolutionary biology, and cosmology. Consideration of how personal concepts of faith and reason and institutions of science and religion, shape personal intellectual landscapes. Recommended: WRD-098 or placement in WRD-098

SSC-180 Pathway to Sustainability
5 credits, Fall
Can we create a more sustainable and just world? We will question our assumptions regarding economic models, democracy, our relationships with the environment, as well as our social structures by examining the roots of the current ecological crisis. Recommended: WRD-098 or placement in WRD-098

SSC-181 Pathway to Sustainability
5 credits, Winter
Can we create a more sustainable and just world? How do socially meaningful changes come about? What are the ecological and social repercussions of the choices we make? Are ecological and social justice concerns linked? This class will explore these questions and other pertaining to current issues in sustainability research and writing. Recommended: WRD-098 or placement in WRD-098

SSC-182 Pathway to Sustainability
5 credits, Spring
Can we create a more sustainable and just world? What can our personal roles in change be? How can we stimulate local sustainable economies? What analysis is useful in assessing ecological impacts? This third class in the Pathways to Sustainability sequence will explore how personal choices affect larger global issues. Recommended: WRD-098 or placement in WRD-098

SSC-231 Engendered Identities
4 credits, Spring
Examines the various perspectives on the development of gender identities and looks specifically at the ways in which concepts of femininity and masculinity have shaped cultural images, identities and experiences cross-culturally, globally and historically. Recommended: WRD-098 or placement in WR-121

SSC-233 Electronic Culture
4 credits, Not Offered Every Term
An introduction to the interdisciplinary field of electronic culture, focusing on the use of electronic computer technology by individuals and groups. Examines transformation of self, identity, communication, and development of electronic communities and subcultures. Recommended: WRD-098 or placement in WR-121

SSC-235 Perspectives on Terrorism
4 credits, Not Offered Every Term
Examines the ways in which different academic disciplines in the social sciences and humanities construct historical, psychological, cultural, theological, sociological, and philosophical arguments and themes around the topic of terrorism and terrorist-related issues. Identifies underlying assumptions upon which these arguments and themes are based and considers the cultural expressions they both engender and reflect.

SSC-237 Perspectives on Democracy
4 credits, Not Offered Every Term
This course gives students the opportunity to practice the fundamental keystone of democracy: dialogue. The course will explore the variety of American political thought and philosophies through conversations with others in the community, crossing the political spectrum as well as broaching the lines of urban/rural context, socio-economic class, racial and ethnic identity, gender–sex identification, sexuality, age, religious affiliation and non-affiliation, and spiritual practices. Prerequisites: WRD-09 or placement in WR-121

SSC-240 American Military Conflict: Wars of National Identity
4 credits, Fall
Examines America’s wars of national identity, principally the American Revolution and the Civil War. Explores characteristics of such wars, variations over time and space, and shaping influences and impacts on American society and culture, both military and civilian. Recommended: WRD-098 or placement in WR-121

SSC-241 American Military Conflict: Global War
4 credits, Winter
Examines America as a global power in 20th Century conflicts—World Wars I and II, the Cold War and possible future global conflicts. Explores characteristics of global war, variations over time and space, and shaping influences and impacts on American society and culture, both military and civilian. Recommended: WRD-098 or placement in WR-121

SSC-242 American Military Conflict: Asymmetric Warfare
4 credits, Spring
Examines America’s military experience in asymmetric conflicts from colonial times to the present. Explores characteristics of asymmetric war, variations over time and space, and impacts on American society and culture, both military and civilian. Recommended: WRD-098 or placement in WR-121

TA
Theatre Arts
TA-101 Appreciation of Theatre
4 credits, Not Offered Every Year
Students will be introduced to the many aspects of theatre arts by attending multiple area productions. Plays will be reviewed and evaluated through writing assignments and discussions. Recommended: WRD-098 or placement in WR-121

TA-102 Appreciation of Theatre Arts
4 credits, Not Offered Every Year
Students will be introduced to the many aspects of theatre arts at an intermediate level by attending multiple area productions. Plays will be reviewed and evaluated through writing assignments and discussions. Recommended: TA-101 and WRD-098 or placement in WR-121

www.clackamas.edu
TA-103 Appreciation of Theatre Arts
4 credits, Not Offered Every Year
Students will analyze the many aspects of theatre arts at an advanced level by attending multiple area productions. Plays will be reviewed and evaluated through writing assignments and discussions.

TA-111 Fundamentals of Technical Theatre
4 credits, Summer/Fall
Basic study and practice in techniques of mounting various types of productions for presentation. Includes basic principles and techniques in stage design, construction, and lighting. Flexible laboratory sessions available. Students must attend a performance as well as participate in the focus and strike (10 total hours) of a production. Students are required to maintain an independent journal/study (12 total hours) of outside class activity and/or observations of Technical Theatre applications.

TA-112 Fundamentals of Technical Theatre
4 credits, Winter
Intermediate study and practice in techniques of mounting various types of productions for presentation. Includes basic principles and techniques in stage design, construction, and lighting. Flexible laboratory sessions available. Students must attend a performance as well as participate in the focus and strike (10 total hours) of a production. Students are required to maintain an independent journal/study (12 total hours) of outside class activity and observations of Technical Theatre applications.

TA-113 Fundamentals of Technical Theatre
4 credits, Spring
Advanced study and practice in techniques of mounting various types of productions for presentation. Includes basic principles and techniques in stage design, construction, and lighting. Flexible laboratory sessions available. Students must attend a performance as well as participate in the focus and strike (10 total hours) of a production. Students are required to maintain a journal/study (12 total hours) of outside class activity and observations of Technical Theatre applications.

TA-141 Acting I
4 credits, Fall
Studies the methods, techniques and theories of acting as an art form. Performance of lab exercises and monologues/scenes from published dramatic literature with written assignments to include response and analysis papers. Introduction to vocal, physical, and script analysis skills. Recommended: WRD-098 or placement in WR-121

TA-142 Acting II
4 credits, Winter
Further studies the methods, techniques and theories of acting as an art form. Performance of lab exercises and monologues/scenes from published dramatic literature with written assignments to include response and analysis papers are the basic teaching approaches. Special focus on script analysis and language skills. Recommended: TA-141 and WRD-098 or placement in WR-121

TA-143 Acting III
4 credits, Spring
An in-depth study of the methods, techniques, and theories of acting as an art form. Performance of lab exercises and monologues/scenes from published dramatic literature with written assignments to include response and analysis papers are the basic teaching approaches. Focus on movement and character creation. Recommended: WRD-098 and TA-141 or TA-142

TA-153 Theatre Rehearsal & Performance
1-3 credits, Fall/Winter/Spring
Training in theatre production through intensive study and rehearsal of scenes and plays for public performance. Required: Successful audition

TA-195 Student Performance Showcase
1-3 credits, Fall/Winter/Spring
Training in special forms of theatrical presentation through in-class intensive preparation, study, and program development for public presentation including comedy improvisation, stand-up comedy, and student directed one-act plays.

TA-211 Technical Theatre Study
4 credits, Fall
Comprehensive study and practice in presentational graphics, scene design, lighting design, and chromatics. The full creative process of staging a production will be explored through aesthetic research and design projects. Includes hands-on participation in CCC’s main stage productions. Prerequisites: TA-111, TA-112, and TA-113. Recommended: WRD-098 or placement in WR-121

TA-212 Technical Theatre Study
4 credits, Winter
Comprehensive study and practice in presentational graphics, scene design, lighting design and chromatics. The full creative process of staging a production will be explored through aesthetic research and design projects. Includes hands-on participation in CCC’s main stage productions. Prerequisites: TA-111, TA-112, and TA-113. Recommended: WRD-098 or placement in WR-121

TA-213 Technical Theatre Study
4 credits, Spring
Comprehensive study and practice in presentational graphics, scene design, with specific focus in lighting designs and chromatics. The full creative process of staging a production will be explored through aesthetic research and design projects. Includes hands-on participation in CCC’s main stage productions. Prerequisites: TA-111, TA-112, and TA-113. Recommended: WRD-098 or placement in WR-121

TA-253 Theatre Rehearsal & Performance
1-3 credits, Fall/Winter/Spring
Intermediate training in theatre production through intensive study and rehearsal of scenes and plays for public performance. Required: Successful audition

TA-280 Theatre/CWE
2-6 credits, Fall/Winter/Spring
Provides students with a learning experience related to course of study and career goal. Major emphasis will be given to on-the-job experience and training. Corequisites: CWE-281

TA-295 Student Performance Showcase
1-3 credits, Fall/Winter/Spring
Training in special forms of theatrical presentation through in-class intensive preparation, study, and program development for public presentation including comedy improvisation, stand-up comedy, and student directed one-act plays.
COURSES WITH THIS PREFIX MAY NOT TRANSFER TO A FOUR-YEAR INSTITUTION UNLESS APPLIED AS PART OF THE 12 ALLOWABLE CAREER TECHNICAL CREDITS FOR THE AAOT OR ASOT-BUSINESS.

TRANSPORTATION & LOGISTICS

TTL-101 Introduction to Professional Truck Driving & Logistics
1-8 credits, Fall/Winter/Spring/Summer
Introduction to logistics and commercial vehicle operation, covering control systems, coupling procedures, cargo handling and pre-trip inspections. Covers regulations and requirements for CDL, speed management, road conditions, and accident scene management.

TTL-121 Practical Applications in Professional Truck Driving & Logistics
1-8 credits, Fall/Winter/Spring/Summer
Demonstration of skill development related to safe commercial vehicle operation. In-depth coverage of logistics, business processes and communication skills development. Covers delivery basics, including backing, visual search, shifting, turning, space and speed management.

TTL-141 Transportation Customer Service Skills
1-3 credits, Spring
Focuses on building necessary skills for outstanding customer service, including effective listening, conflict resolution, and communication. Identify internal and external customers, learn how to handle potentially unproductive interactions, and create positive experiences for all customers.

TTL-180 Transportation & Logistics/CWE
1-6 credits, Fall/Winter/Spring/Summer
Work-based learning experience in the Transportation & Logistics field. Supervision and evaluation of the student's job performance will be provided by qualified staff of the college and employer. Corequisites: CWE-281

USP

Unmanned Systems Program

USP-201 Unmanned Aircraft Systems (UAS) Pilot
3 credits, Not Offered Every Term
This course covers fundamentals of flight, federal aviation UAS regulations, navigation, flight planning, communication procedures and weather. Presents sufficient knowledge to prepare for the FAA Part 107 knowledge test. 20 hours of flight time included during class time.

USP-205 Unmanned Aircraft Systems (UAS) Applied Projects
2 credits, Not Offered Every Term
This course provides opportunities to apply Unmanned Aircraft Systems (UAS) operations to realistic projects to include; geographic data collection, photography and filming, real-time aerial observations, and other UAS applications.

USP-210 Unmanned Aircraft Systems (UAS) Builder Lab
1 credit, Not Offered Every Term
This course provides students the opportunity to design, build, program and maintain an Unmanned Aircraft System (UAS). After successful completion, students will leave the course with their own operable UAS. Prerequisites: USP-201 and USP-205

WET

Courses with this prefix may not transfer to a four-year institution unless applied as part of the 12 allowable career technical credits for the AAOT or ASOT-Business.

WATER-ENVIRONMENTAL TECHNOLOGY

WET-0000 Water Quality CTE Transfer
0-10 credits, Fall/Winter/Spring/Summer
Non-course for transfer-in Water Quality credits

WET-010 Wastewater Operations I
3 credits, Fall
For professional upgrade only. Does not meet the requirements for the certificate or degree. Introduction to the fundamentals of wastewater treatment plant operation. Includes collections systems, preliminary and primary treatment, waste characteristics including organic removals, and solids profiles.

WET-011 Waterworks Operations I
3 credits, Fall
For professional upgrade only. Does not meet the requirements for the certificate or degree. Introduction to municipal drinking water treatment and distribution systems. Basic waterworks hydraulics, drinking water regulations, waterworks math, waterworks bacteriology, and introduction to water disinfection.

WET-020 Wastewater Operations II
3 credits, Winter
For professional upgrade only. Does not meet the requirements for the certificate or degree. Secondary wastewater treatment alternatives with municipal application. Fixed and suspended film systems and clarification process. Includes biological sludge treatment.

WET-021 Waterworks Operations II
3 credits, Winter
For professional upgrade only. Does not meet the requirements for the certificate or degree. Basic hydrology, ground water and surface water sources, well construction and operation, introduction to water chemistry, waterworks hydraulics, and fundamentals of pumps and pumping.

WET-030 Wastewater Operations III
3 credits, Spring
For professional upgrade only. Does not meet the requirements for the certificate or degree. Design, operation, process control, and maintenance of treatment facilities. Current treatment processes discussed in detail with particular attention given to biological sludge handling process. No lab requirement for this course.
WET-031 Water Treatment
3 credits, Spring
For professional upgrade only. Does not meet the requirements for the certificate or degree. Design, operation, and process control of water treatment plants. Includes water chemistry, related math, coagulation, sedimentation, filtration, and disinfection. Review for Oregon Operator certification exams. No lab requirement for this course.

WET-108 Cross-Connection Control Program Specialist
3 credits, Fall/Winter/Spring/Summer
Specialized training for those who want to be involved in administering cross-connection control programs. Elements of a cross-connection control program, basic hydraulics, state specific regulations, identifying possible cross-connections and site surveys in order to determine proper type of backflow protection, if needed.

WET-109 Backflow Assembly Operation and Testing
4 credits, Fall/Winter/Spring/Summer
Lecture course with lab component that focuses on backflow assembly hydraulics, operations, installation, and testing.

WET-110 Wastewater Operations I
3 credits, Fall
Introduction to the fundamentals of wastewater operations. Includes collection systems, preliminary and primary treatment, waste characteristics including organic removals, and solids profiles. Corequisites: MTH-082A

WET-111 Waterworks Operations I
3 credits, Fall
Provides an introduction to drinking water treatment and distribution systems. Students will obtain knowledge on basic waterworks hydraulics, drinking water regulations, waterworks microbiology, and introduction to how we can turn non-potable water into clean, safe potable water. Corequisites: MTH-082B

WET-112 Computer Applications for Water and Wastewater Operations
4 credits, Fall
Focuses on direct application of Microsoft Word, PowerPoint, and Excel for producing compliance reports, professional presentations, and data analysis. Emphasis will be put on the use of Excel for statistical analysis of water and wastewater plant data for state and federal compliance. Supervisory control and Data Acquisition (SCADA) will also be covered. Wastewater simulators will be explored and used to design and manipulate unit processes. Corequisites: WET-110 and WET-111

WET-120 Wastewater Operations II
3 credits, Winter
Secondary wastewater treatment alternatives with municipal application. Fixed and suspended film systems and clarification process. Prerequisites: WET-110. Corequisites: MTH-082C

WET-121 Waterworks Operations II
3 credits, Winter
Basic hydrology, ground water and surface water sources, well construction, introduction to water chemistry, waterworks hydraulics, and fundamentals of pumps and pumping. Prerequisites: WET-111. Corequisites: MTH-082D

WET-122 Water Distribution/Wastewater Collection
3 credits, Winter
Elementary engineering aspects of water distribution and wastewater collection systems. System components, construction materials, pump station design, and related topics. Prerequisites: WET-110. Corequisites: WET-120

WET-123 Environmental Chemistry I
3 credits, Winter
Theory and applied laboratory techniques for testing water and wastewater. Students will test wastewater for NPDES required tests.

WET-124 High Purity Water Production I
3 credits, Winter
Focuses on direct application of Microsoft Word, PowerPoint, and Excel for producing compliance reports, professional presentations, and data analysis. Emphasis will be put on the use of Excel for statistical analysis of water and wastewater plant data for state and federal compliance. Supervisory control and Data Acquisition (SCADA) will also be covered. Wastewater simulators will be explored and used to design and manipulate unit processes. Corequisites: WET-110 and WET-111

WET-125 High Purity Water Production II
4 credits, Spring
Design, operation, process control, and maintenance of treatment facilities. Current treatment processes discussed in detail with particular attention to biological sludge handling and processing. Lab includes field trips to local wastewater facilities. Prerequisites: WET-120. Corequisites: WET-130L

WET-131 Water Treatment
4 credits, Spring
Design, operation, and process control of water treatment plants. Includes water chemistry, related math, coagulation, sedimentation, filtration, and disinfection procedures. Review for Oregon Operator certification exams. No lab requirement for this course. Lab includes field trips to local water treatment facilities. Prerequisites: WET-121. Corequisites: WET-131L

WET-132 Collection & Distribution Lab
1 credit, Spring
Field exposure to water distribution systems and wastewater collection systems. Weekly field visits include inspection of cross-connection inspections, distribution valving, reservoirs, water metering/repair, pumping station operations, smoke testing, and CCTV.

WET-134 Environmental Chemistry II
3 credits, Spring
A lab course providing experience in test procedures required for wastewater treatment NPDES discharge permits and the drinking water industry. Prerequisites: WET-123

WET-135 High Purity Water Production III
4 credits, Winter
A lab course focusing on the operation of equipment and unit processes in the production of high purity water. Emphasis on process equipment sizing and design, process control and troubleshooting. Prerequisites: WET-125 and MTH-082E

WET-136 Water & Environmental Projects I
1-5 credits, Spring
Practical work experience in a municipal, industrial treatment, distribution, or collection system. Placement in consulting firms, federal and state regulatory agencies, BLM, BPA, and other regulated governmental organizations. Corequisites: CWE-281
CWE-281  charting, and relevant sanitary process loading criteria, data acquisition & trend specific activated sludge design. Process private wastewater treatment facility of tical experience in a municipal, public or related governmental organizations. Prac- consulting /f_irms, federal and state regula- tion, or collection system. Placement in ipal industrial treatment, distribu- Practical work experience in a munic- 5 credits, Fall

WET-280 Water & Environmental Projects II 5 credits, Fall

Welding Technology

WLD-100 Welder's Print Reading I 3 credits, Fall/Winter/Spring Provides instruction in reading and interpretation of prints and symbols common in the welding industry. Participants will learn the interpretation and application of basic lines, dimensions, structural shapes, and specifications. Welding symbols and their application to different types of joint configurations will be covered, as well as how to develop basic shop drawings and prints.

WLD-102 Introduction to Welding 2 credits, Fall/Winter/Spring Designed for the beginner and experimental welder. Includes: oxy-acetylene, stick, wire feed and TIG welding, oxy-acetylene and plasma arc cutting.

WLD-103 Blacksmithing & Traditional Iron Working 2 credits, Fall/Winter/Spring Introduces the student to basic blacksmithing techniques and processes, as well as terminology, steel types, heat treating and tool making. Multiple projects allow the student to practice the varied methods of manual metal forming. No welding experience required.

WLD-104 Introduction to CNC Plasma Cutting 2 credits, Not Offered Every Term Introduces the student to the basics of CNC plasma cutting. Participants will learn operation and set-up procedures for CNC plasma as well as geometry creation and programming. This course is recommended for anyone interested in CNC plasma cutting for industry applications or artwork.
COURSE DESCRIPTIONS

WLD-113B Gas Metal Arc Welding/Flux Core Arc Welding (Wirefeed)
4 credits, Summer/Fall/Winter
Part two of WLD-113 which provides additional knowledge and skills to perform fillet and groove welds in vertical and overhead positions with the GMAW and FCAW processes. Prerequisites: WLD-113A

WLD-115 Gas Tungsten Arc Welding (GTAW)
1-8 credits, Winter/Spring
Acquire knowledge and skills to perform fillet and groove welds in various positions on steel, stainless steel and aluminum with the GTAW process. Plasma cutting also covered.

WLD-115A Gas Tungsten Arc Welding (GTAW)
4 credits, Winter/Spring
Part one of WLD-115 which provides opportunity to acquire knowledge and skills to perform fillet and groove welds in flat and horizontal positions on steel, stainless steel and aluminum with the GTAW process. prerequisite: WLD-115A

WLD-115B Gas Tungsten Arc Welding (GTAW)
4 credits, Winter/Spring
Part two of WLD-115 which provides additional opportunity to perform various welds in vertical and overhead positions on steel, stainless steel and aluminum with the GTAW process. Prerequisites: WLD-115A

WLD-150 Welding Processes
4 credits, Fall/Winter/Spring/Summer
Covers oxy-acetylene welding, brazing, cutting, stick welding, wire feed, oxy-fuel and plasma cutting. Includes: safety, electrical fundamentals, routine maintenance, minor repairs, and terms and definitions.

WLD-200 Welder’s Print Reading II
3 credits, Winter/Summer
Provides instruction in reading and interpretation of sketches and prints common in the welding industry. Interpretation of basic shop drawing views and projections. Includes basic layout and math review. ISO and AWS symbols and weld joints are covered. Prerequisites: WLD-100

WLD-203 Blacksmithing & Traditional Iron Working II
2 credits, Fall/Winter/Spring
Course builds on the WLD-103 course and expands on the process of forged metal work. Instruction includes power hammer use, tooling design, traditional joinery and intermediate projects. Welding experience helpful, but not required.

WLD-210 Pipe Welding
4 credits, Fall/Winter/Spring
Provides beginning theory and practical instruction in the Shielded Metal Arc Welding (SMAW) process on steel plate and pipe. The specific projects include: stringer beads, fillet and groove welds on plate with root and cover proficiency, pipe cutting using the oxy-fuel process, and groove welds on pipes in all positions. Prerequisites: WLD-111; or WLD-111A and WLD-111B. Prerequisites: WLD-150 or prior experience in SMAW

WLD-211 Advanced Shielded Metal Arc Welding
4 credits, Fall/Spring
Acquire knowledge and skills to perform groove welds in all positions using the SMAW process. Cutting and gouging processes, advanced welding theory, and AWS welding procedures are included. Prerequisites: WLD-111; or WLD-111A and WLD-111B

WLD-212 Shielded Metal Arc Welding Pipe Welding
2-4 credits, Fall/Winter/Spring
Provides theory and practical instruction in open root V groove pipe welding using E6010 and E7018 electrodes. Oxy-fuel pipe cutting will be included. Prerequisites: WLD-211

WLD-213 Advanced Gas Metal Arc Welding/Flux-Cored Arc Welding
4 credits, Fall/Winter
Acquire knowledge and skills to perform groove welds in all positions using the GMAW and FCAW processes. Industrial-cutting processes, advanced welding theory and AWS welding procedures are included. Prerequisites: WLD-113; or WLD-113A and WLD-113B

WLD-215 Advanced Gas Tungsten Arc Welding
4 credits, Winter/Spring
Acquire knowledge and skills to perform welds in all positions on plain carbon steel, stainless steel and aluminum using the GTAW process. Industrial cutting processes, advanced welding theory and AWS welding procedures are included. Prerequisites: WLD-115; or WLD-115A and WLD-115B

WLD-230 CNC Press Brake
3 credits, Not Offered Every Term
This is a hands-on class where students will learn how to safely set-up and operate a Computerized Numerically Controlled (CNC) Press Brake. Subjects include: basic calculations related to metal forming, tooling fundamentals, flat pattern development concepts, and CNC forming techniques. Prerequisites: WLD-100 and MTH-050

WLD-250 Welding Fabrication I Beginning Project
4 credits, Fall/Winter/Spring
Instruction in fabrication techniques including blueprint reading, layout, sketching, bills of material, job cost calculations, measuring, fitting, cutting and welding. Beginning projects will be assigned. Prerequisites: MFG-103 or MFG-111; and WLD-111, WLD-113, or WLD-115

WLD-251 Welding Fabrication II Intermediate Project
4 credits, Fall/Winter/Spring
Students will be assigned intermediate fabrication projects based on skills learned in WLD-250 Welding Fabrication I Beginning Project. Prerequisites: WLD-250

WLD-252 Welding Fabrication III Advanced Project
4 credits, Fall/Winter/Spring
Students will use techniques from WLD-250 Welding Fabrication I Beginning Project and WLD-251 Welding Fabrication II Intermediate Project to build advanced projects. Students will be responsible for managing their projects to completion. Prerequisites: WLD-251

WLD-261 Welding Special Projects
1-2 credits, Fall/Winter/Spring/Summer
Allows students to improve their welding skills while working on instructor-approved projects. May be repeated for up to 12 credits.
WR-127 Scholarship Essay Writing
1 credit, Fall/Winter
Introduces scholarship resources and the application process. Examines and applies the concept of ‘telling the story of me,’ and drafting, revising, and editing a complete scholarship application essay.

WR-140 Introduction to Writing Creatively
4 credits, Not Offered Every Term
Guides students through the discussion and practice of writing creatively in many genres, primarily poetry, fiction, drama, and creative nonfiction in a workshop format. May also include screenwriting, film, and performance genres. Recommended: WRD-098 or placement in WR-121

WR-148 Self-Publishing: Design and Layout
1 credit, Not Offered Every Term
This course will offer a hands-on approach to using book design software. The goal of this class is to introduce students to design, layout, and marketing techniques that will enable them to publish their own material.

WR-222 English Composition
4 credits, Not Offered Every Year
A course in writing university-level research papers and pursuing lifelong learning through advanced research. Students learn to conduct thorough and creative research using a variety of tools and emphasizing scholarly sources. Prerequisites: WR-122

WR-241 Introduction to Creative Writing: Fiction
4 credits, Spring
Introduction to the theory, art and creative practice of fiction writing. Speciﬁc emphasis on short prose forms. Prerequisites: WR-098 or placement in WR-121

WR-242 Creative Writing: Poetry
4 credits, Winter
Provides the basic skills for writing and revising poems following contemporary trends in form and content and the critical abilities to read and discuss poems conﬁdently. Prerequisites: WRD-098 or placement in WR-121

WR-244 Advanced Fiction Writing
4 credits, Spring
For students with previous writing experience who wish to learn advanced techniques in the theory, art and creative practice of fiction writing. Speciﬁc emphasis on the creation and revision of short prose forms, with focused attention on their publication and distribution. Prerequisite: WR-241
WR-245 Advanced Poetry Writing 4 credits, Spring
For students with writing experience who wish to learn advanced techniques of writing poetry, including developing voice and style and exploring publishing. Prerequisites: WR-242

WR-246 Editing and Publishing 4 credits, Winter/Spring
For students with an interest in creative writing and/or literary journal design, layout, and publication who wish to develop editing and publishing skills. Includes the production of a literary journal. Recommended: WRD-098 or placement in WR-121

WR-247 Advanced Playwriting 4 credits, Not Offered Every Year
This course will continue to cover the narrative and dramatic techniques begun in Introduction to Playwriting. Students will create and workshop a one-act play, and explore avenues for future production

WR-248 Bookmaking: Design and Layout 4 credits, Fall/Winter
This course covers the design and layout process to produce and publish manuscripts in book form. It includes basic design theory and the step-by-step process for laying out a manuscript using professional design software. Students will also learn how to submit publishable files for print-on-demand. Prerequisites: WR-121

WR-250 Book Promotion 4 credits, Spring
The purpose of this course is to understand the role of marketing in book publishing, and to develop the necessary skills to create promotional materials including marketing plans, tip sheets, press releases, and collateral. Recommended: Previous completion of or current enrollment in WR-121

WR-262 Introduction to Screenwriting 4 credits, Fall
Explores the fundamentals of screenplay composition through the use of various writing exercises and workshop techniques. Discussion of dramatic structure and the elements of good storytelling. Prerequisites: WRD-098 or placement in WR-121

WR-263 Advanced Screenwriting 4 credits, Not Offered Every Year
An expansion of fundamental skills initiated in the introductory course. Students will construct a feature-length screenplay, further develop their critical response skills through peer editing and review, and seek out options for production of their work. Can be repeated for up to 4 credits. Prerequisites: WR-262. Recommended: WRD-090 or placement in WR-121

WR-265 Digital Storytelling 4 credits, Winter
Digital Storytelling is a contemporary expression of the ancient art of storytelling. In this class students will write and create unique digital first person narratives using cloud-based editing tools, photographic and film images, music, and voice. Students will further become active participants in both local and global communities of storytellers. Prerequisites: WR-121

WR-266 Nature Writing 4 credits, Spring
Explores topics having to do with nature and the environment. Using a workshop format, students will develop the technique of nature writing, focusing on literary journalism, memoir, personal essay, and poetry. Prerequisites: WRD-098 or placement in WR-121

WR-270 Food Writing 4 credits, Fall
Learn to write uniquely and powerfully about food, from reviews to memoir and personal narrative. Bring the pen to the plate and vice versa, enriching your appreciation for sustenance and sentences at the same time. Recommended: WRD-098 or placement in WR-121

WRD

Writing-Reading Skills
WRD-080 Reading/Writing Prep 2 4 credits, Fall/Winter/Spring
This is the second foundational course for developing reading and writing skills. Students will develop secondary reading and writing skills by increasing habits of mind and building additional strategies to improve skills. Students will read from a broad range of texts, including introductory academic and popular literary texts, and write in an organized, structured manner that demonstrates attention to purpose, context and thought.

WRD-098 Introductory Reading & Writing 2: College Preparation 4 credits, Fall/Winter/Spring/Summer
This course builds on the basic reading and writing skills covered in WRD-090 and prepares students to be successful in WRD-121, college-transfer-level composition. Students will read shorter college-level texts and create short essays responding to them. Topics include how to follow a writing process, perform basic research, work in a writing group, and reflect on one’s own learning. Prerequisites: WRD-090 or WRD-090, or placement in WRD-098

WS

Provides individualized assistance to students in WRD098. Students meet one-on-one with Writing Center tutors, who tailor tutoring and lab work to the students’ individual needs and focus on fundamentals not directly taught in WRD098. A WRD instructor oversees the tutoring and/or lab work to coordinate (and avoid duplication) with in-class instruction.

Women’s Studies

WS-101 Introduction to Women’s Studies 4 credits, Not Offered Every Term
Course will examine and analyze the position of women in society and critically explore social issues relevant to women’s lives and feminism historically and in the present/future. Topics: family, education, work, healthcare, sexuality, and political/economic status. Recommended: WRD-090 or placement in WRD-098
XCIV

Workshop: Citizen Preparation

XCIV-0001 Citizenship Preparation
0 credits, Fall/Winter/Spring/Summer
Prepares students to pass the oral exam for U.S. citizenship. Students study U.S. history, government, citizens’ rights and responsibilities, and U.S. symbols independently through a self-paced, online distance learning course, and periodic meetings with the Volunteer Tutor Coordinator, taking quizzes after completing separate modules.

XHPD

Workshop: Health Professional Development

XHPD-C001 CPR-Initial
0.6 CEUs, Fall/Winter/Spring/Summer
This workshop meet the learning outcomes to earn an American Heart Association (AHA) BLS for the Healthcare Provider CPR card. This meets both initial certification or renewal of AHA Healthcare Provider CPR card requirements. Open registration.

XWLD

Workshop: Welding

XWLD-0001 American Welding Society (WLD) Certification 1 Plate Test
0 credits, Fall/Winter/Spring/Summer
Welder certification in accordance with AWS D1.1 for one position for students enrolled in any CCC welding course.

XWLD-0002 American Welding Society Certification 2 Plate Or 1 Pipe Test
0 credits, Fall/Winter/Spring/Summer
Welder certification in any two positions, in accordance with AWS D1.1 for students enrolled in any CCC welding course.

XWLD-0003 American Welding Society Certification Retake Test
0 credits, Fall/Winter/Spring/Summer
Welder certification on retest in any position, in accordance with AWS D1.1 for students enrolled in any CCC welding course.

XWLD-0004 Welding Process Documentation and Training
0 credits, Fall/Winter/Spring/Summer
(1) Instructor will observe the current processes used by welders and write process documents, using recommendations from the American Welding Society (AWS.) Instructor will then work with welders to ensure compliance with processes. (2) Instructor will develop curriculum for and deliver custom Certified Welding Inspector training for Engineering staff.

Z

Zoology

Z-201 General Zoology
4 credits, Fall
A lab course offering cellular and molecular basis of animal life including genetics, evolution, systematics, and protozoan diversity. Prerequisite: MTH-095 or placement in MTH-111. Recommended: WRD-098 or placement in WR-121

Z-202 General Zoology
4 credits, Winter
A lab course covering the maintenance of the cellular environment, evolution of animal systems, and diversity of the less complex invertebrate animal phyla. Prerequisite: MTH-095 with a C or better or placement in MTH-111. Recommended: WRD-098 or placement in WR-121

Z-203 General Zoology
4 credits, Spring
A lab course covering diversity of the more complex invertebrate and vertebrate animal phyla. Includes animal behavior, distribution, ecology, and conservation. Prerequisite: MTH-095 with a C or better or placement in MTH-111. Recommended: WRD-098 or placement in WR-121

Z-280 Zoology/CWE
2-6 credits, Not Offered Every Term
Cooperative work experience. Provides students with on-the-job work experience in the field of Zoology. Corequisites: CWE-281

BA Appalachian State University
BA University of Tennessee
MA University of South Carolina
PhD University of South Carolina

Forney, Beverly J (2013)
Business/Computer Science
MEd Concordia University
MAT Concordia University

Fouhy, Abe (2014)
Manufacturing

Chemistry
AA Cottey College
AS Cottey College
BS Linfield College
MS University of Oregon

Freeman, Jil (2014)
Instructional Designer
BS Portland State University
MS Portland State University

Furno, Sharron (2015)
Criminal Justice
MS Capella University
BS Siena Heights University

Gates, David A (2015)
Director, IT Operations
MS University of Phoenix

Geiger, Darlene J (2012)
Associate Dean, Academic Foundations & Connections
BS University of Wisconsin - LaCrosse
MS Portland State University

Goff, Matt (2017)
Business & Industry Training Manager
BA Northwest Christian University
MET Boise State University

Goff, Susan (2014)
Dean, Arts & Sciences
BS Oregon State University
MBA Portland State University
PhD Oregon State University

Hall, Adam L (1998)
Mathematics
BS Portland State University
MS Portland State University

Hall, Lori (2015)
Public Information Officer
BA University of Minnesota

Hamel, Nicolas N (1999)
Science
BS Oregon State University
PhD Portland State University

Hardy, Jack (2016)
Executive Director, Marketing and Strategic Communications
MS George Fox University
BS Brigham Young University

Hatfield, R Dale (1994)
Business
BS Oregon State University
MBA University of Portland

Hedges, Vicki M (2008)
Director, Human Resources Operations
BS Portland State University

Helm, Lloyd (2013)
Director, Campus Services
Hendricks, Dawn M (2012)
Early Childhood Education & Family Studies
BA Portland State University
MA Portland State University
EdD Pepperdine University

Hollingsworth, Kathleen L (2013)
Music
BM Northern Arizona University
MM San Francisco State University
DMA University of Miami

Geology
BS North Carolina State University
MS University of Oregon

House, Mark A (2012)
Automotive Technology
AAS Clackamas Community College

Hughes, Kerrie (2007)
Communication Studies
AA Clackamas Community College
BS Portland State University
MA University of Portland

Hull, Mark R (2010)
Mathematics
BS Portland State University
MS Oregon State University

John, Jeff (1991)
Custodial Supervisor

Jones, Melissa L (2007)
Student Publications/Journalism
BA University of California, Los Angeles
MA University of Michigan
MA Portland State University

Joyce, Laura (2015)
English as a Second Language
MA Concordia University
BS University of Notre Dame

Kandratieff, Pete (2001)
Campus Safety Manager
BS Portland State University

Keeler, Robert W (1997)
Anthropology
BA University of North Carolina
MA Idaho State University
PhD University of Oregon

Kilders, Frank (2016)
Horticulture
BA Technical College of Wiesbaden

Konieczka, Chris M (2013)
Horticulture
BS University of Wisconsin Madison
MS University of Wisconsin Madison

Kop, Barry K (2005)
Science
BS University of Oregon
BA University of Washington
MAT Portland State University
Doctor of Chiropractic, University of Western States

Kyser, Carrie L (2001)
Mathematics
BS Eastern Michigan University
MS Cleveland State University

Water Environmental Technology/Engineering Sciences
BS Cortland College
MS University of Idaho
PhD University of Idaho

Landeen, Thomas (2011)
Automotive
ASE Certified Master Automobile Technician
L1 Advanced Engine Performance Specialist

Larson, Donna (2016)
Associate Dean, Technology, Health Occupations, and Workforce
PhD Texas Tech University

Lee, Eric F (2012)
Engineering Science
BA Rice University
BS Rice University
PhD Cornell University

Lettenmaier, Charles (2015)
Manufacturing
BS DeVry University

Automotive Technology
AS Southwestern Oregon Community College
BS Oregon Institute of Technology

Lewandowski, Kurt L (1990)
Mathematics
BS Southern Utah University
MS Oregon State University

Lewis, Eric W (1993)
Psychology
BA California State University, Fullerton
PhD University of Nevada

Littlefield, Jane (2015)
Library
MA Saint Mary's University
MLIS Dominican University

Locke, Wesley M (1998)
Manufacturing Technology
AS Clackamas Community College

Lockwood, Rick D (2005)
Automotive Technology
AA College of Sequoias
ASE Master Tech, L1

Long, Kathryn (2015)
English as a Second Language
MA Portland State University
BA Portland State University

Mach, Susan M (1997)
English
BA Pacific University
MA Boston University

Mahar, Alissa (2016)
Vice President, College Services
MS Portland State University

Marks, Brenda A (1995)
Skills Development
BS Oregon State University
MS University of North Texas
EdD Oregon State University

Martineau, James B (2009)
Director, Health, Physical Education & Athletics
BS Southern Oregon University
MS Western Oregon University

Martinez, Guadalupe L (2000)
Counseling
BA Oregon State University
MAIS Oregon State University

Mattson, Michael W (1996)
Manufacturing Technology
BS Purdue University
MA Oregon State University

Mayer, Lillian M (1992)
Science
BA California State University
MA California State University
