Clackamas Community College Fall 2022 Online & Face-to-Face Tutoring Options
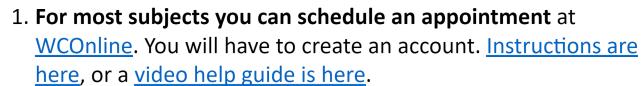

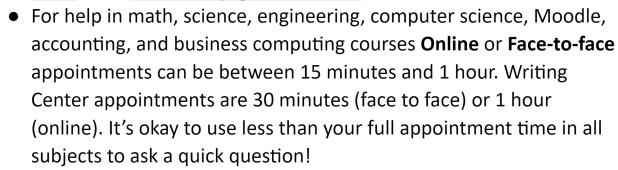

The Learning Center is providing the following options for tutoring:

1. **For most subjects you can schedule an appointment** at WCOnline. You will have to create an account. Instructions are here, or a video help guide is here.

- For help in math, science, engineering, computer science, Moodle, accounting, and business computing courses **Online** or **Face-to-face** appointments can be between 15 minutes and 1 hour. Writing Center appointments are 30 minutes (face to face) or 1 hour (online). It's okay to use less than your full appointment time in all subjects to ask a quick question!

- In some subjects you also have the option to upload a paper or documents for a tutor to return feedback at a scheduled time through **eTutoring.** Check WCOnline for more information.

2. **For other subjects not listed or for extended hours of online tutoring, students have up to 7 hours free with Smarthinking** To begin, click on Smarthinking Access through Moodle. A new window will open (be sure pop up blockers are disabled). More info

3. **Online Math Study Groups:** Peer Mentors will host Study Groups for select math courses. For more information visit our schedule.

Computer Labs available for current students:
Dye Learning Center Computer Lab
(Fall Term 9/26-12/8 Hours Vary)
